PROGRAM BACKGROUND

This is a non-personal services contract to provide a venue to accommodate SMC Graduation. NCOLCoE requires a location for the SMC Graduation Ceremony with a minimum of 8,000 – 10,000 seats. The NCOLCoE requires a location that can seat 720 graduates in an isolated section of seating (i.e., main floor), 300 VIPs, and at least 9,000 family members and guests in general seating. Items provided shall be the air-conditioned building, a stage, stage lighting, projection capability and screens with ability to be viewed throughout venue seating, public-address audio-visual equipment with sound projection capable of being heard from any seat within the venue (3-wireless microphones, 3- podiums, & 2-video cameras). The Contractor shall perform to the standards in this contract.

The Contractor shall provide a complete security and safety program for the SMC Graduation rehearsal and ceremony, covering building access control, incident handling, and fire evacuation planning. The Contractor shall ensure personnel are trained to recognize and report hazards, correct unsafe conditions, and comply with all applicable environmental and occupational safety laws. Any conflicts with regulatory requirements or discovery of serious hazards must be reported immediately to the Contracting Officer, and the Contractor is liable for all resulting fines or penalties. The Contractor shall appoint a Project Manager responsible for overseeing all work, ensuring technical compliance, coordinating with the Government, conducting inspections, and reporting performance issues.

REQUIRED CAPABILITIES

The Contractor will also provide and shall be responsible for the following items and/or services: The Contractor shall provide all personnel, equipment, supplies, facilities, tools, materials, supervision, and other items and non-personal services necessary to perform SMC Graduation as defined in this PWS. The Contractor shall comply with all applicable laws and regulations, including but not limited to Federal Law, Texas State Law, and Occupational Safety and Health Administration (OSHA) regulations. The Contractor is responsible for the delivery of quality services to the Government (see FAR 52.246-1, Contractor Inspection Requirements). The Quality Control Plan (QCP) shall implement standardized procedure/methodology for monitoring contract performance to ensure all contract requirements are met. The Contractors' QCP must contain a systematic approach to monitor operations to ensure acceptable services are provided to the Government.

If your organization has the potential capacity to perform these contract services, please provide the following information: 1) Organization name, address, email address, Web site address, telephone number, and size and type of ownership for the organization; and 2) Tailored capability statements addressing the particulars of this effort, with

appropriate documentation supporting claims of organizational and staff capability. If significant subcontracting or teaming is anticipated in order to deliver technical capability, organizations should address the administrative and management structure of such arrangements.

The Government will evaluate market information to ascertain potential market capacity to: 1) provide services consistent, in scope and scale, with those described in this notice and otherwise anticipated; 2) secure and apply the full range of corporate financial, human capital, and technical resources required to successfully perform similar requirements; 3) implement a successful project management plan that includes: compliance with tight program schedules; cost containment; meeting and tracking performance; hiring and retention of key personnel and risk mitigation; and 4) provide services under a performance based service acquisition contract.
