			Total:	\$55,682.15

There are no set-aside restrictions for this requirement. The intended procurement will be classified under North America Industry Classification System (NAICS) 811210. This notice of intent is not a request for competitive proposals and no solicitation document exists for this requirement. However, parties interested in responding to this notice will need to submit technical data sufficient to determine capability in providing the same product. All capability statements received by the closing date of this synopsis will be considered by the Government. A determination by the Government not to compete based on responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct competitive procurement.

If a contractor challenges the basis of this requirement, please email product capability statements (formats for submission: PDF, MS Word, or MS Excel) to Uyen Tran at uyen.t.tran6.civ@health.mil. Closing date for challenges is no later than 0700 PST on 17 March 2026. No phone calls will be accepted.
