Section J – 0200000
Management and Administration

Norfolk

Attachment J-0200000-01 Definitions and Acronyms	
Definition	Description
Assessment	A general term referring to either a survey or inspection of a facility to determine condition.
Asset	A general term used to refer to an item, such as a component, system, building or facility, which is managed by an automated data management program.
Competent Person	A person who has the professional experience and training necessary to identify existing and predictable hazards at a work or service environment, and who has the authority to take prompt and corrective action to eliminate or remove dangers from the environment. One who can identify existing and predictable hazards in the working environment or working conditions that are dangerous to personnel and who has authorization to take prompt corrective measures to eliminate them.
Component Inventory Management Unit (CIMU)	An organization of like-kind real property into manageable maintenance units. CIMU is a building component, group of components or component assemblies, serving a specific purpose in a facility that can be expected to follow a common and predictable lifecycle behavior. This class of non-equipment will include items such as exterior walls, exterior windows, interior finish, and roofs. This class of equipment will include items such as fan coil units, air handling units, lighting, and water closets. CIMUs can include one or more items of installed equipment typically subject to routine scheduled maintenance.
Confined Workspace	A space that is large enough and so configured that a person may bodily enter a space (such as in tanks, vessels, silos, storage bins, hoppers, vaults, pits, and like spaces where there is limited means of entry) and is hindered or restricted from escaping during an emergency.
Construction Equipment	Construction equipment refers to specialized heavy machinery that covers one industry and is specifically designed for executing construction work. Construction equipment requirements shall include a list of equipment establishing the size, quality, number of units, and unit prices. Construction equipment prices provided by the Contractor shall be the lowest price available considering the availability of equipment and the time constraints of the job. The direct equipment price shall be adjusted by all discounts and rebates that accrue to the Contractor. All indirect cost associated with construction equipment, such as: the Contractor's hourly composite trade wage, adjusted to allow for workforce productivity; sub-contractor cost, costs for pre-expended bin materials, shipping and handling, union agreements, crew sizes, hand tools, universal equipment (excluding construction equipment), mobilization, demobilization, payroll burdens and fringes, overtime, job (field) overhead, clerical support, supervision, inspection, fees, taxes, licenses, permits, and insurance, general and administrative (home office) overhead, profit, and all other associated markups shall not be included in the construction equipment price since the cost for these items were included in the labor hour unit price bid. Additionally, time for job preparation, safety standby personnel, and similar indirect labor elements shall not be included.
Contracting Officer (KO)	That individual with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.
Contracting Officer's Representative (COR)	The individual appointed by the KO responsible for monitoring the Contractor's technical compliance and progress, relative to assigned contract(s)/orders(s), based on the contract requirements specified in the PWS and in accordance with the PAP. The COR performs a variety of contract administration duties that includes oversight of PA, documenting and rating Contractor performance, reviewing invoices, and acceptance of

Section J – 0200000
Management and Administration

Norfolk

Attachment J-0200000-01 Definitions and Acronyms	
Definition	Description
	work. Assignment as a COR is a collateral duty typically performed by the FSCM or SPAR.
Contractor	That entity or its representative responsible for the delivery of the services or materials specified in this contract, as designated by contract award. The term Contractor as used herein refers to both the prime Contractor and any subcontractors. The prime Contractor shall insure that subcontractors comply with the provision of this contract.
Contractor Representative	That individual appointed by the Contractor, either orally or in writing, who has been assigned responsibility for executing the requirements of this contract.
Crane, Category 1	Portal cranes, Hammerhead cranes, Locomotive cranes, Derricks, Floating cranes (YD), Tower cranes, Container cranes, Mobile cranes (except those indicated as category 4), including truck, cruiser, crawler, warehouse/industrial cranes, and cranes used for dragline, pile driving, clamshell, magnet, bucket work, and Aircraft crash cranes.
Crane, Category 2 & 3	Cranes with rated capacities of 20,000 pounds or greater are category 2. Examples are Overhead traveling cranes, Gantry cranes (rail mounted), Wall cranes, Jib cranes, Pillar cranes, Pillar jib cranes, Monorails and associated hoists, Fixed hoists including chain falls. Pedestal mounted commercial boom assemblies (fixed length, telescoping, and articulating types) attached to stake trucks, trailers, flatbeds, or railcars, or stationary mounted to piers, etc., with OEM rated capacities less than 2,000 pounds.
Crane, Category 4	Commercial truck mounted cranes, Truck mounted articulating boom cranes, Pedestal mounted commercial boom assemblies (fixed length, telescoping, and articulating types) attached to stake trucks, trailers, flatbeds, or railcars, or stationary mounted to piers, etc., with OEM rated capacities of 2,000 pounds and greater. Commercial truck mounted cranes and truck mounted articulating boom cranes with OEM capacities of 2,000 pounds and greater require a licensed operator even if the cranes are down rated below 2,000 pounds capacity for administrative purposes.
Direct Material Costs	The actual vendor invoice charges for materials used for performance of work under this contract. Direct material costs shall include sales tax and transportation charges when such charges are included on the invoice by the vendor, as well as any discounts allowed for prompt payment and discounts or rebates for core value or salvage value that accrue to the Contractor. When questions arise concerning the cost of direct materials, direct material costs will be based on the lowest of quotes provided by the Contractor from at least three different commercial vendors for the direct material cost. The Government retains the right to obtain additional quotes in questionable situations. The lowest price will be used. All other cost such as sub-contractor cost, costs for pre-expended bin materials, shipping and handling, union agreements, crew sizes, hand tools, universal equipment, mobilization, demobilization, time for job preparation, safety standby personnel, payroll burdens and fringes, overtime, job (field) overhead, clerical support, supervision, inspection, fees, taxes, licenses, permits, and insurance, general and administrative (home office) overhead, profit, and all other associated markups shall not be included in the direct material price since the cost for these items are included in the UPL Hour unit price bid.
Electronic Operation and Maintenance And Support Information (eOMSI)	A set of consultant-prepared data and document files that contain detailed, as-built technical information that describes the efficient, economical and safe operation, maintenance and repair of a facility, plant, equipment or system throughout its life cycle. Generally, it is prepared during construction and submitted upon completion of a new facility or major facility upgrade. eOMSI's typically include asset information, staffing and budgeting information, supply support including critical spare parts, operating procedures, troubleshooting and diagnostic guides, extended warranty data, maintenance

Section J – 0200000
Management and Administration

Norfolk

Attachment J-0200000-01 Definitions and Acronyms	
Definition	Description
	task frequencies and documentation, technical data, repair procedures and manufacturer's product data. eOMSI data and document files are provided in electronic formats.
Equipment	Tangible asset that is functionally complete for its intended purpose, durable, and non-expendable.
Facility	A building or structure designed and created to serve a particular function.
Frequency Of Service	Annual (A). Services performed once during each 12-month period of the contract at intervals of 335 to 395 days. Biennial (B). Services performed once during each 24-month period of the contract at intervals of 670 to 790 days. Daily (D5). Services performed once each calendar day, Monday through Friday, including holidays unless otherwise noted. Daily (D7). Services performed once each calendar day, seven days per week, including weekends and holidays. Monthly (M). Services performed 12 times during each 12-month period of the contract at intervals of 28 to 31 calendar days. Quarterly (Q). Services performed four times during each 12-month period of the contract at intervals of 80 to 100 calendar days. Semiannual (SA). Services performed twice during each 12-month period of the contract at intervals of 160 to 200 calendar days. Semimonthly (SM). Services performed 24 times during each 12-month period of the contract at intervals of 14 to 16 calendar days. Three times weekly (3W). Services performed three times a week, such as Monday, Wednesday, and Friday. Twice weekly (2W). Services performed twice a week, such as Monday and Thursday or Tuesday and Friday. Weekly (W). Services performed 52 times during each 12-month period of the contract at intervals of six to eight calendar days.
Government Furnished Property (GFP)	Property in the possession of, or directly acquired by, the Government and subsequently furnished to the contractor for performance of a contract. Government furnished property includes, but is not limited to, spares and property furnished for repairs, maintenance, overhaul, or modification. Government furnished property also includes contractor acquired property if the contractor acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract.
Hazardous Material (HM)	A material that because of its quality, concentration, physical, chemical or infectious nature may pose a threat to human health or the environment if released or spilled into the environment or any material designated by the Department of Transportation (DOT) or any materials that require a SDS form as posing a potential threat while being transported. Hazardous materials are listed in 49 CFR Part 172.
Hazardous Waste (HW)	Any discarded solid waste (liquid, semi-solid, solid, or gaseous) that meets the definition of a hazardous waste by USEPA, state authorities, or the Navy. In accordance with RCRA, a solid waste is a listed hazardous waste if it is specifically listed, or it is a characteristic hazardous waste if it exhibits the characteristics of ignitability, corrosivity, reactivity, or toxicity.
Hazardous Waste Management Plan	In accordance with OPNAVINST 5090.1C, every Navy shore activity that generates HW shall develop and use a Hazardous Waste Management Plan or a Hazardous Waste management component in its P2 Plan and EMS. A Hazardous Waste Management Plan shall: Identify applicable federal, state, and local regulations pertaining to the generation and management of hazardous waste.

Attachment J-0200000-01
Definitions and Acronyms

Definition	Description
	- Identify training requirements and describe procedures for obtaining training and maintaining training records. - Assign responsibilities for the generation, designation, handling, storage, treatment, disposal, and all documentation. - Describe all hazardous waste generation and management procedures. - Include or reference the hazardous waste minimization plan and goals. - Include or reference contingency plans and emergency response procedures. The plan shall be kept up to date to include changes in hazardous waste generation and management procedures, as well as changes in applicable federal, state, and local hazardous waste regulations. The plan shall include or reference minimization procedures sufficient to achieve DOD minimization goals. Tenant activities are covered by the host CO's Hazardous Waste Management Plan.
Hazardous Waste Manifest	A hazardous waste manifest as defined in 40 CFR 260 is required for the transport of hazardous waste. The installation commanding officer (ICO) or the ICO's designated representative shall retain signature authority for hazardous waste manifests.
Infrastructure Condition Assessment Program (ICAP)	A Navy automated data management program that utilizes historical asset lifecycle data and a structured assessment process to evaluate the condition facilities and their components.
Inspection	A rigorous, detailed assessment of the condition of a facility performed to generate a fundable scope and cost estimate for prioritization and funding of maintenance and repair.
Integrated Maintenance Program (IMP)	IMP is a recurring state-of-the-art, reliability-centered inspection, testing, maintenance and repair program that determines best practices for managing the functions and consequences of failures of facilities equipment and system components. IMP encompasses accepted commercial practices, including reactive, preventive, predictive and proactive maintenance, into one optimal program. The IMP approach gives the Contractor full responsibility to maintain systems and equipment and perform repairs whenever necessary to ensure equipment and systems are operational and remain in a constant state of readiness. Service orders will not be issued for accomplishment of repairs on systems and equipment maintained under IMP.
Job or Work Order	An authorization for work that requires planning and estimating and has an individual line of accounting for financial and performance evaluation.
Life-Cycle Costs	A form of economic analysis that considers the total cost of owning, operating, and maintaining a building or system over its useful life.
Less-than-90-day Accumulation Areas or Storage Facilities	Temporary HW storage areas where HW may be stored for up to 90 days without a RCRA permit.
Maintenance and Repair	The preservation or restoration of a piece of equipment, system, or facility to such condition that it may be effectively used for its designated purposes. Maintenance/repair may be adjustment, overhaul, reprocessing, or replacement of constituent parts or materials that are missing or have deteriorated by action of the elements or usage, or replacement of the entire unit or system if beyond economical repair.
Monthly On-Site Labor Report	A compilation of all Contractor and subcontractor employee-hours involved in delivering contract services on a government property.
NAVFAC MAXIMO	A specially configured software version of MAXIMO®, a commercially available computerized maintenance management system (CMMS), adopted by NAVFAC for enterprise facility asset data management. The terms "MAXIMO", "NAVFAC MAXIMO" or "Government's MAXIMO" shall be used interchangeably in the document.

Section J – 0200000
Management and Administration

Norfolk

Attachment J-0200000-01 Definitions and Acronyms	
Definition	Description
Non-RCRA Regulated Waste	Waste that is not regulated as a hazardous waste under RCRA; however, is waste may be regulated by other federal, state or local regulations including but not limited to TSCA, Clean Air Act, Clean Water Act or other regulations and statutes. Examples include Used Oil, Universal Waste, Oily Water, antifreeze, etc. Non-RCRA regulated waste (while not meeting the definition of a Hazardous Waste) must be managed according to its applicable regulations and may not be discarded into the general trash.
Non-Regulated Solid Waste (Debris and Rubbish)	Waste not associated with an industrial process such as refuse and scraps resulting from preparation, cooking, dispensing, and consumption of food. Non-hazardous construction and demolition waste such as dimension and non-dimension lumber, plywood, chipboard, and hardboard are included.
Partnering	The terms “partnering” and “partnership” used herein shall mean a relationship of open communication and close cooperation that involves both Government and Contractor personnel working together for the purpose of establishing a mutually beneficial, proactive, cooperative environment within which to achieve contract objectives and resolve issues and implementing actions as required.
Performance Assessment	A method used by the Government to provide some measure of control over the quality of purchased goods and services received.
Performance Assessment Representative (PAR)	The individual(s) assigned as a Technical Point of Contact (TPOC) / Subject Matter Expert (SME) to the COR to perform duties as the on-site representative who assesses Contractor performance. The PAR periodically observes Contractor performance, reviews delivered services, reviews quality management corrective actions, periodically assesses and documents Contractor performance on PAWs and the MPAS, and communicates findings as necessary with the Contractor, SPAR, and COR.
Pre-Expended Bin Materials and Supplies	The minor materials and supplies that are incidental to the job, for which the total direct cost of any one material line item shown on the material estimate is \$10.00 or less. Examples of pre-expended bin materials and supplies include, but are not limited to, solder, lead, flux, electrical connectors, electrical tape, fuses, nails, screws, bolts, nuts, washers, spacers, masking tape, sand paper, solvent, cleaners, lubricants, grease, oil, rags, mops, glue, epoxy, spackling compound, joint tape, plumbers tape and compound, clips, welding rods, and touch up paint.
Property Administrator	An authorized representative of the Contracting Officer who is responsible for administering contract property requirements, terms and conditions of the contract
Property Management Program	A Government program established for the purpose of reviewing and approving the Contractor’s Property Management Plan and System through performance of a system analysis whenever government property is in the possession of the Contractor.
Quality Assurance (QA)	The planned and systematic activities implemented in a quality system so that quality requirements for a product or service will be fulfilled.
Quality Control (QC)	The observation techniques and activities used to fulfill requirements for quality.
R. S. Means	A data collection and organization system developed by R. S. Means Company which can be used to prepare accurate, dependable construction estimates and budgets in a variety of ways. The Contractor shall use the latest edition. Material prices are based on a national average and computed labor costs are based on a 30-city national average. An estimate prepared using this data is called a "Means estimate"; data may simply be referred to as "Means".
Real Property	Land and improvements to land (i.e., facilities). It includes equipment affixed and built into the facility as an integral part of the facility (such as heating systems), but not movable equipment (e.g., plant equipment, industrial equipment, buoys).

Section J – 0200000
Management and Administration

Norfolk

Attachment J-0200000-01 Definitions and Acronyms	
Definition	Description
Real Property Inventory Equipment (RPIE)	A Government owned or leased individual pieces of equipment, apparatus, or fixture that are essential to the function of the real property (i.e. plumbing, electrical, heating, cooling and elevators). It is physically attached to, integrated into, and built in or on the property. Individual RPIE's can be combined to make a CIMU to facilitate facilities management. An individual RPIE can also be a CIMU if the equipment is complex enough to require its own management planning.
Regulated Waste	Any hazardous, non-hazardous, industrial process waste (aka special waste), e-waste, and/or off-specification HM, which because of its physical characteristics, chemical make-up or biological nature requires either special handling procedures and permitting, or poses an unusual threat to human health, equipment, property, or the environment. Examples include (but are not limited to) liquid sludge, pastes, and/or filter cakes, chemical compounds and/or petroleum products, fine powders or highly dusty materials, spent blast media and/or grit, demolition wastes from industrial facilities, debris and/or residues from spill cleanup work, underground storage tank remediation materials, pollution control wastes, ash from fires, furnaces, boilers or incinerators, off-specification products, other materials that have the potential to be a hazardous waste. All RW may be used or unused excess hazardous materials. Laboratory analysis may be required to verify the waste is not a RCRA-regulated hazardous waste.
Response Time	The time allowed the Contractor after initial notification of a work requirement to be physically on the premises at the work site with appropriate personnel, tools, equipment, and materials, ready to perform the work required.
Restoration	Restoration of real property to such a condition that it can be used for its intended purpose. Includes repair or replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident or other causes.
Sampling Plan	Plan and procedures to conduct sampling, field testing and laboratory analysis for a defined testing objective.
Satellite Accumulation Areas	Designated approved areas, at or near the point of generation and under the control of the operator generating the waste, where no more than 55 gallons (cumulative total) of all types of HW or 1 quart of acutely HW may be accumulated. The 55-gallon limit does not include non-RCRA regulated waste, universal waste and used oil etc.
Spill Prevention Control and Countermeasure (SPCC) Plan	The SPCC Plan establishes engineering controls including procedures, methods, equipment and other requirements to prevent the discharge of oil into or upon navigable waters. The Plan includes procedures for oil spill prevention, measures to contain spills and an established spill drill exercises to ensure effective countermeasures in the event of oil spill.
Sustainment	Maintenance and repair activities necessary to keep a typical inventory of facilities in "normal working condition". Sustainment includes regularly scheduled maintenance as well as cyclical major repairs or replacement of components that occur periodically over the expected service life of the facilities.
System	An assemblage of mechanically and/or electrically interlocked parts, equipment and/or components forming a unitary whole.
Unit Priced Labor (UPL) Hour	The fully burdened unit price bid by the Contractor to perform one hour of work-in-place. With the exception of direct material and construction equipment costs, the unit priced labor hour price shall include all indirect and direct costs associated with performing work, such as: the Contractor's hourly composite trade wage, adjusted to allow for workforce productivity; sub-contractor cost, costs for pre-expended bin materials, shipping and handling, wage determinations, union agreements, crew sizes, hand tools, equipment, universal equipment (excluding construction equipment), mobilization, demobilization, payroll burdens and fringes, overtime, job (field)

Definition	Description
	overhead, clerical support, supervision, inspection, fees, taxes, licenses, permits, and insurance, general and administrative (home office) overhead, profit, and all other associated markups. Any indirect cost or additional markups not allowed in the definition of direct materials shall be included in the UPL price. Additionally, time for job preparation, safety standby personnel, and similar indirect labor elements are included.
Unifomat Classification	A standard classification of building components established by the National Institute of Standards and Technology.
Universal Equipment	Universal equipment refers to equipment that can cover two or more industries and is commercially employed in execution of operation, maintenance, and repair work, such as: Aerial Work Platforms, Backhoes, Cranes, Dump Trucks, Excavators, Generators, Graders, Lifts, Loaders, Man Lifts, Monitoring and Test Equipment, Pumps, Tractors, Trailers, etc.
Universal Waste (UW)	Universal Waste (UW) (defined in 40 CFR Part 273) means batteries, fluorescent lamps, some pesticides, and mercury-containing equipment formally classified as a HW, but that are now subject to less stringent regulations, when recycled if recycling is available.
Utility Infrastructure Condition Assessment Program (UICAP)	A comprehensive assessment processes for planning, managing, and executing Navy utility infrastructure inspections.

Attachment J-0200000-05-03

Directions for Process Material Log Sheets

Chemical Description:

- Material Name - List the brand or generic name of the chemical material.
- Manufacturer - List the name of the manufacturer of the product.
- Constituents of Concern - List the constituents (ingredients) as listed on the Material Safety Data Sheet (MSDS).
- CAS # - List the Chemical Abstract Service (CAS) Number for each Constituent of Concern listed. This information is found on the MSDS. If no CAS number is listed, state "N/L".
- % - List the concentration of each Constituent of Concern listed. This information is found on the MSDS. If the concentration is not listed, state "N/L".
- Product Weight - List the weight of material contained in one container of the product. This information is normally listed on the MSDS or can be determined from the density or specific gravity of the product listed on the MSDS.
- In addition, check all the boxes that apply to this chemical:
 - Pure or Mix - choose only one.
 - Solid, Liquid or Gas - choose only one.
 - Extremely Hazardous Substance (EHS), Ozone Depleting Substance (ODS), SARA TITLE III Chemical (SARA III), Air Toxic Chemical (AIR TOX) or Carcinogen
- (CARC) - based on the information provided by the material's MSDS. Choose all that apply.
 - HM exempt - per EPCRA section 312 and based upon user knowledge, choose this box if the material would normally be exempt from reporting for hazardous material storage.
 - Tri exempt - per EPCRA section 313 and based upon user knowledge, choose this box if the material would normally be exempt from reporting for the Toxic Release Inventory (TRI).

Physical and Chemical Hazards:

- For each material listed, check all the physical and health hazard boxes that apply. These hazard categories are defined in 40 CFR 370.2.
- Fire Hazard - flammable, combustible liquid, pyrophoric, oxidizer.
- Sudden Release of Pressure - explosive, compressed gas.
- Reactive - unstable reactive, organic peroxide, water reactive.
- Immediate (acute) Health Hazard - highly toxic, toxic, irritant, sensitizer, corrosive.
- Delayed (chronic) Health Hazard - carcinogens, mutagens, other long-term health hazards.

Storage Description: Storage Code:

- List the appropriate storage type, pressure and temperature condition codes for the material based upon the codes listed below. List the storage type in the first box, the applicable pressure code in the second box and the applicable temperature code in the third box. More than one storage code may apply if material is stored in different types of containers.

Storage Type:

- A - Above Ground Storage Tank F Can L Cylinder
- B - Below Ground Storage Tank G Carboy M Glass Bottle or Drum
- C - Tank Inside Building I Fiber Drum N Plastic Bottle or Drum
- D - Steel Drum J Bag R Other
- E - Plastic/Non-metallic Drum K Box

Pressure and Temperature Conditions:

- 1 - Ambient Pressure 4 Ambient Temperature
- 2 - Greater than Ambient Pressure 5 Greater than Ambient Temperature
- 3 - Less than Ambient Pressure 6 Less than Ambient Temperature but not Cryogenic

7 - Cryogenic Conditions

Inventory in Pounds:

- Maximum Amount - List the maximum amount of a material that was on-hand (stored) at any one time. Amount must be recorded in pounds.
- Average Amount - List the average amount of a material that was on-hand during the reporting period. Amount must be recorded in pounds.
- Days on Site - List the number of days during the reporting period each material was on-site. If the material was present for the whole year, record as 365.

Amount Used in Pounds:

- List the amount of each material used during the reporting period. Amount must be recorded in pounds. Amount used is the best estimate based on the contractor material tracking system.

J-0200000-11 PIEE Vendor Access Instructions

Procurement Integrated Enterprise Environment Vendor Registration Guide

A vendor portal for solicitations was introduced as an enterprise-level service for the Department of Defense (DoD) within the Procurement Integrated Enterprise Environment (PIEE) platform. This capability allows DoD to have a more automated and secure process for capturing solicitations and their attachments and responses from industry.

There are two vendor roles (Proposal Manager, Proposal View Only) for the PEE Solicitation Module. The Proposal Manager role is required to submit an offer to a solicitation posted in the PEE Solicitation Module.

In this guide, you will find step by step by step instructions for new users to self-register for a PEE user account and existing users to add additional roles. Refer to the Roles and Actions/Functions Matrix, in the help section, to assist with determining which PEE Solicitation Module role you will need to add.

Procurement Integrated Enterprise Environment

Vendor Registration Guide

Step by Step Instructions

New User

Follow the steps to self-register for a PIEE user account if your company already has an Account Administrator.

1. Click on Register (Top Right) from the PIEE Landing Page
<https://wawf.eb.mil/>

2. Select Vendor

What type of user are you?

- ☐ Government - DoD
- ☐ Government - Non-DoD
- ☐ Government Support Contractor - Supporting DoD Organization
- ☐ Government Support Contractor - Supporting Non-DoD Organization
- ☒ Vendor

Note: A security clearance is NOT required to access any of the applications in the Procurement Integrated Enterprise Environment.

[Previous](#) [Help](#)

3. Enter a User ID, Password, and CAPTCHA text. Then, select Next.

- You cannot change your User ID once you register.

Authentication

- Error: Password must contain minimum of 13 characters
- Error: Password must contain at least 1 capital letter
- Error: Password must contain at least 1 lower case letter
- Error: Password must contain at least 1 special character

How will you be accessing the Procurement Integrated Enterprise Environment applications? *

User ID Rules

- Minimum 8 Characters
- May Contain ONLY the following special characters = ! @ \$ % ^ & * _ { }
- May NOT contain spaces
- Must not already be registered in the Procurement Integrated Enterprise Environment

Password Rules

- Minimum 13 characters
- Must contain at least 1 capital letter
- Must contain at least 1 lower case letter
- Must contain at least 1 number
- Must contain at least 1 special character
- Entered passwords must be different from last 10 passwords used
- Cannot be changed within 24 hours
- Entered passwords cannot be the same as User ID

4. Create your security questions. Then, select Next.

- Security Answers must be unique.

Security Questions

WARNING: We suggest picking unique security questions/answers which cannot be looked up via the following means: Answers might be obtained via googling, blogs, personal websites, pen-testing (hacks, online social networks Facebook, Myspace, etc), high school websites, art/fair sites (Flickr, photobucket, shutterfly), online phone books, reverse phone look-ups, and other online resources.

Question 1 *	Answer 1 *	Answer Confirmation 1 *
What is your high school mascot?		
Question 2 *	Answer 2 *	Answer Confirmation 2 *
What are the last four digits of your driver's license number?		
Question 3 *	Answer 3 *	Answer Confirmation 3 *
What is your favorite song?

10. Review the Statement of Accountability Agreement. Then, select Signature.

- The 'Password Confirmation' modal window will appear.
- Enter password created in [Step 3](#).
- Click Submit Registration.

The screenshot shows a web browser window titled "Agreement". The main heading is "Statement of Accountability Agreement". Below this, there is a scrollable text area containing the following text:

I understand my obligation to protect my password certificate. I assume the responsibility for the data and system I am granted access to. I will not exceed my authorized access.

Standard Mandatory Notice & Consent Provision for All DoD Information System User Agreements 9 May 2008

Security and Privacy Rules of Behavior (ROB) / Acceptable Use Policy (AUP) 31 Jan 2016

The U.S. Government routinely intercepts and monitors communications on this information system for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counter intelligence (CI) investigations. At any time, the U.S. Government may inspect and seize data stored on this information system.

Communications using, or data stored on, this information system are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any U.S. Government authorized purpose. This information system includes security measures (e.g., authentication and access controls) to protect U.S. Government interests—not for your personal benefit or privacy.

Notwithstanding the above, using an information system does not constitute consent to personnel misconduct, law enforcement or counterintelligence investigations searching or monitoring the content of privileged communications or data (including work product) that are related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Under these circumstances, such communications and work products are private and confidential as further explained below.

Nothing in this User Agreement shall be interpreted to limit the user's consent to, or in any other way restrict or affect, any U.S. Government actions for purposes of network administration, operation, protection, or defense, or for communication security. This includes all communications and data on an information system, regardless of any applicable privilege or confidentiality.

The user consents to interception/capture and seizure of ALL communications and data for any authorized purpose (including personnel misconduct, law enforcement, or counterintelligence investigation). However, consent to interception/capture or seizure of communications and data is not

By signing below, I accept the System User Agreement and Rules of Behavior / Acceptable Use Policy.

11. You will see a success message that your registration was successful. You will receive a confirmation email shortly. Once your account has been activated by an Account Administrator, you can login into PIEE.

The screenshot shows a message box titled "Successful Registration". The text inside reads:

You have successfully registered for the following applications. You will receive an e-mail containing your User ID.

- SOL - Solicitation

Once you have been activated by an administrator, you will receive another email notifying you of the roles for which you have been activated. You may log into Procurement Integrated Enterprise Environment to check the status of your request or make changes to your profile and role information. If you have any questions, please contact the Customer Support.

Existing User

Follow the steps to add additional roles (Proposal Manager, Proposal View Only) to your PIEE user account.

12. After logging into PIEE, click **My Account** (Top Left)

 **My Account** **Help**

13. Select **Add Additional Roles**.

The screenshot shows the 'My Account' page with three main sections: Profile, Roles, and Security. The 'Roles' section is highlighted with a red box, and the 'Add Additional Roles' link is visible within it. The 'Profile' section includes links for User, Supervisor, and Company. The 'Security' section includes links for Change Authentication Type, Change Password, and Change Security Questions.

14. Verify all profile information within your account is up-to-date. Then, select **Next**.

The screenshot shows the 'User Profile' form with various input fields for personal and contact information. The 'Next' button is highlighted at the bottom.

15. Follow [Steps 7 - 10](#) above.

16. You will receive a confirmation email that the new role(s) were activated by your Account Administrator.

The screenshot shows a 'Success' message with a green checkmark icon. It states that roles were successfully added and that a confirmation email will be received from the Account Administrator.

Help

Getting Started

If your company is new to PIEE and has no Account Administrator, the link below provides the general steps in getting started as a vendor to use the PIEE Solicitation Module and other PIEE applications:

<https://wawf.eb.mil/xhtml/unauth/web/homepage/vendorGettingStartedHelp.xhtml>

Account Support

Your company's Account Administrator can help you view or edit profile information, reset a password or certificate. You can enter your five-character CAGE Code to find your company's Account Administrator at the link below:

<https://wawf.eb.mil/xhtml/unauth/lookup/gamLookup.xhtml>

Technical Support

If you are experiencing technical problems with PIEE and your company's Account Administrator cannot resolve, please contact the DISA DECC Ogden Electronic Business Service Desk or visit the link below and click "Ogden Help Desk" to submit a ticket.

<https://wawf.eb.mil/xhtml/unauth/web/homepage/vendorCustomerSupport.xhtml>

Email: disa.global.servicedesk.mbx.eb-ticket-requests@mail.mil

J-0200000-13 Past Performance Questionnaire
--

ATTACHMENT J-0200000-13 Past Performance Questionnaire

1. Solicitation Submittal Requirements: For projects submitted for Factor 2, Corporate Experience:
 - a. IF CPARS EVALUATIONS ARE AVAILABLE, THEY SHALL BE SUBMITTED WITH THE PROPOSAL. The Offeror shall submit all CPARS evaluations available for that project, not just the most recent.
 - b. IF A CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal.
1. The NAVFAC Form PPQ shall be utilized for all evaluations that require a Past Performance Questionnaire (PPQ). If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Attachment J-0200000-13), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Sarah Bradshaw, via email at sarah.m.bradshaw2.civ@us.navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation

THE OFFEROR WILL SUBMIT THE COMPLETED QUESTIONNAIRE TO NAVFAC WITH THEIR PROPOSAL, AND MAY DUPLICATE THIS QUESTIONNAIRE FOR FUTURE SUBMISSION ON NAVFAC SOLICITATIONS. CLIENTS ARE HIGHLY ENCOURAGED TO SUBMIT QUESTIONNAIRES DIRECTLY TO THE OFFEROR. HOWEVER, QUESTIONNAIRES MAY BE SUBMITTED DIRECTLY TO NAVFAC. PLEASE CONTACT THE OFFEROR FOR NAVFAC POC INFORMATION. THE GOVERNMENT RESERVES THE RIGHT TO VERIFY ANY AND ALL INFORMATION ON THIS FORM.

ADJECTIVE RATINGS AND DEFINITIONS TO BE USED TO BEST REFLECT YOUR
EVALUATION OF THE CONTRACTOR'S PERFORMANCE

RATING	DEFINITION	NOTE
(E) Exceptional	Performance meets contractual requirements and exceeds many to the Government/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.	An Exceptional rating is appropriate when the Contractor successfully performed multiple significant events that were of benefit to the Government/Owner. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.
(VG) Very Good	Performance meets contractual requirements and exceeds some to the Government's/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.	A Very Good rating is appropriate when the Contractor successfully performed a significant event that was a benefit to the Government/Owner. There should have been no significant weaknesses identified.
(S) Satisfactory	Performance meets minimum contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.	A Satisfactory rating is appropriate when there were only minor problems, or major problems that the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. Per DOD policy, a fundamental principle of assigning ratings is that contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract.
(M) Marginal	Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.	A Marginal is appropriate when a significant event occurred that the contractor had trouble overcoming which impacted the Government/Owner.
(U) Unsatisfactory	Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.	An Unsatisfactory rating is appropriate when multiple significant events occurred that the contractor had trouble overcoming and which impacted the Government/Owner. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating.
(N) Not Applicable	No information or did not apply to your contract	Rating will be neither positive nor negative.

Contractor Information (Firm Name): _____

Client Information (Name): _____

TO BE COMPLETED BY CLIENT

**PLEASE CIRCLE THE ADJECTIVE RATING WHICH BEST REFLECTS YOUR
EVALUATION OF THE CONTRACTOR'S PERFORMANCE.**

1. QUALITY:	
a) Quality of technical data/report preparation efforts	E VG S M U N
b) Ability to meet quality standards specified for technical performance	E VG S M U N
c) Timeliness/effectiveness of contract problem resolution without extensive customer guidance	E VG S M U N
d) Adequacy/effectiveness of quality control program and adherence to contract quality assurance requirements (without adverse effect on performance)	E VG S M U N
2. SCHEDULE/TIMELINESS OF PERFORMANCE:	
a) Compliance with contract delivery/completion schedules including any significant intermediate milestones. (If liquidated damages were assessed or the schedule was not met, please address below)	E VG S M U N
b) Rate the contractor's use of available resources to accomplish tasks identified in the contract	E VG S M U N
3. CUSTOMER SATISFACTION:	
a) To what extent were the end users satisfied with the project?	E VG S M U N
b) Contractor was reasonable and cooperative in dealing with your staff (including the ability to successfully resolve disagreements/disputes; responsiveness to administrative reports, businesslike and communication)	E VG S M U N
c) To what extent was the contractor cooperative, businesslike, and concerned with the interests of the customer?	E VG S M U N
d) Overall customer satisfaction	E VG S M U N
4. MANAGEMENT/ PERSONNEL/LABOR	
a) Effectiveness of on-site management, including management of subcontractors, suppliers, materials, and/or labor force?	E VG S M U N
b) Ability to hire, apply, and retain a qualified workforce to this effort	E VG S M U N
c) Government Property Control	E VG S M U N
d) Knowledge/expertise demonstrated by contractor personnel	E VG S M U N
e) Utilization of Small Business concerns	E VG S M U N
f) Ability to simultaneously manage multiple projects with multiple disciplines	E VG S M U N
g) Ability to assimilate and incorporate changes in requirements and/or priority, including planning, execution and response to Government changes	E VG S M U N
h) Effectiveness of overall management (including ability to effectively lead, manage and control the program)	E VG S M U N
5. COST/FINANCIAL MANAGEMENT	

a) Ability to meet the terms and conditions within the contractually agreed price(s)?	E	VG	S	M	U	N
b) Contractor proposed innovative alternative methods/processes that reduced cost, improved maintainability or other factors that benefited the client	E	VG	S	M	U	N
c) If this is/was a Government cost type contract, please rate the Contractor's timeliness and accuracy in submitting monthly invoices with appropriate back-up documentation, monthly status reports/budget variance reports, compliance with established budgets and avoidance of significant and/or unexplained variances (under runs or overruns)	E	VG	S	M	U	N
d) Is the Contractor's accounting system adequate for management and tracking of costs? If no, please explain in Remarks section.	Yes		No			
e) If this is/was a Government contract, has/was this contract been partially or completely terminated for default or convenience or are there any pending terminations? Indicate if show cause or cure notices were issued, or any default action in comment section below.	Yes		No			
f) Have there been any indications that the contractor has had any financial problems? If yes, please explain below.	Yes		No			
6. SAFETY/SECURITY						
a) To what extent was the contractor able to maintain an environment of safety, adhere to its approved safety plan, and respond to safety issues? (Includes: following the users rules, regulations, and requirements regarding housekeeping, safety, correction of noted deficiencies, etc.)	E	VG	S	M	U	N
b) Contractor complied with all security requirements for the project and personnel security requirements.	E	VG	S	M	U	N
7. GENERAL						
a) Ability to successfully respond to emergency and/or surge situations (including notifying COR, PM or Contracting Officer in a timely manner regarding urgent contractual issues).	E	VG	S	M	U	N
b) Compliance with contractual terms/provisions (explain if specific issues)	E	VG	S	M	U	N
c) Would you hire or work with this firm again? (If no, please explain below)	Yes		No			
d) In summary, provide an overall rating for the work performed by this contractor.	E	VG	S	M	U	N

Please provide responses to the questions above (if applicable) and/or additional remarks. Furthermore, please provide a brief narrative addressing specific strengths, weaknesses, deficiencies, or other comments which may assist our office in evaluating performance risk (please attach additional pages if necessary):
