WHAT'S HERE AND WHAT'S COMING

Changes to the Way We Conduct Business

Revolutionary FAR Overhaul (RFO)

- Design-Build-to-Budget
 - USACE "Design-Build to Budget" is an acquisition strategy that discloses the maximum construction budget in the RFP to align project scope with available funding. Following [FAR Part 36 two-phase procedures](#), this method uses a qualifications-based selection (Phase 1) and collaborative, proprietary meetings (Phase 2) to prevent overdesign, minimize budget overruns, and maximize value within a firm-fixed price contract
- Advanced Pre-Qualification Sources List (A-PQSL)
 - SPL acquisition strategy that maximizes input from PQSL contractors during design development through construction solicitation advertisement aimed at shortening acquisition lead time by reducing RFI's during construction solicitation and reducing engineering changes through post-award construction execution
- Other Transaction Authorities (OTAs)
- Cyber Security Maturity Model Certification (CMMC)

CYBER SECURITY MATURITY MODEL CERTIFICATION (CMMC)

Please visit the U.S. Department of War Chief Information Office website.
