

STOCKING SURVEY COVER SHEET

Stand: _____ Exam By: _____ Date: _____

Planted/NRG	Year Planted:	Acres:	Plot Size:	Number of Plots:
-------------	---------------	--------	------------	------------------

Aspect:	Elevation Range:	Slope Range %	Avg. Slope %
---------	------------------	---------------	--------------

Animal Damage/Activity

Insects/Disease Species Affected:

Big Game

Livestock

Gopher

Other _____

Stand Summary:

Total number of plots _____ - (minus) number of non-stockable plots _____ = stockable plots _____ Plots partially stocked _____

Stocked plots _____

÷

Stockable plots

Stocked area = %

Understocked plots _____

÷

Stockable plots

Understocked area = %

Non-stockable plots _____

÷

Total plots

Non-stockable Plots = %

Regeneration Species Composition: Total Acceptable TPA

Acceptable TPA by Species: PP WL DF LP ES AF Aspen

PP % WL % DF % LP % ES % AF % Aspen %

Overstory Species Composition: _____

Silvicultural Stocking Standard: TPA	% Stocked	Height	Desired Species Mix
--------------------------------------	-----------	--------	---------------------

Silvicultural Stocking Standard Status: Fully met _____ Progressing _____ Failed _____

Comments:[illegible]
