PM SPE ENGINEERING CHANGE REQUEST (ECR)		PM SPE CONTROL NUMBER ECP 22-0124105453
TITLE OF ECR Adoption of ANSI Z87.1 - 2020 to MIL-PRF-32432A		
20. PM SPE JUSTIFICATION The American National Standard Occupational and Educational Personal Eye and Face Protection Devices (ANSI Z87.1) has been updated to the 2020 revision. The MCEP program via MIL-PRF-32432A references ANSI Z87.1 to check for compliance with Markings (3.12.1), High Impact Protection and others including Penetration, Prismatic Power, Haze, and Transmittance (3.13) Refractive Power and Astigmatism (3.13.1), Resolving Power (3.13.2) and Ignition (3.14.1). PM SPE has conducted a side-by-side comparison of the currently used 2015 standard and the 2020 standard. This comparison has determined that ANSI Z87.1 revisions do not critically affect the requirements of the MCEP program. Use of the 2020 revision will not change any critical safety features. PM SPE recommends adopting the ANSI Z87.1 - 2020 for use in MIL-PRF-32432A. Any specific reference to ANSI Z87.1 - 2015 will be updated to ANSI Z87.1 - 2020. MIL-PRF-32432 will have these references updated in Revision B.
