

PM SPE ENGINEERING CHANGE REQUEST (ECR) (Vendors – Complete Blocks 2 – 19 and Submit to PM SPE)		1. PM SPE CONTROL NUMBER RFD 24-05200940A1	
2. ORIGINATOR		3. ECR TYPE ☐ ECP ☒ RFD ☐ RFW	
a. TYPED NAME (First, Middle Initial, Last) Timothy M. Horne	b. ADDRESS (Street, City, State, Zip Code) 10125 Kingman Road, Bldg 317 Fort Belvoir, VA 22025	4. CLASSIFICATION ☒ Critical ☐ Minor ☐ Major	
5. TITLE OF ECR MIL-PRF-32423A Packaging Requirement			
6. ITEM DESIGNATION		7. PROCUREMENT ACTIVITY	8. BASELINE AFFECTED
a. MCN / NSN All	b. MODEL / DESIGN CODE All APEL/MCEP items	N/A	☒ Functional ☐ Product ☐ Allocated
9. END ITEM NOMENCLATURE All APEL Approved Products		10. CONTRACT NUMBER AND LINE ITEM MCEP APEL® requisitions	
11. LOTS / MATERIAL AFFECTED All lots and end items		12. REOCCURRING DEVIATION (if Yes, Provide CAR# in Block 12 & Status in Block 18) N/A	
13. EFFECT ON COST / PRICE Yes. Adding alternative options for packaging removes rising costs from current methods.		14. EFFECT ON DELIVERY SCHEDULE Yes. Adding alternative options for packaging removes lead times from current methods.	
15. OTHER SYSTEMS / CONFIGURATION ITEMS / INTERFACES AFFECTED None.			
16. DESCRIPTION OF ECR Document change in Paragraph 5.1 Packaging of MIL-PRF-32432A requirement to have the APEL label displayed on 3 sides of a box or printed/adheared to a blister pack to allow more open language for what type of packaging can be used and how the APEL label can be displayed.			
17. NEED FOR ECR Vendors have requested alternate methods for displaying the APEL logo rather than print it on a bag or adhere a sticker to it. They're requesting it to be a placard within a bag that displays the information and logo. Additionally, upon examining the requirement, packaging is either a box or a blister pack. However a blister pack is a term for pharmaceuticals adhered a cardboard or foil backing.			
18. CORRECTIVE ACTION TAKEN Paragraph 5.1 of MIL-PRF-32432 will be updated to allow for alternative methods for packaging so long as the APEL logo is clearly displayed within or on the packaging.			
19. SUBMITTING ACTIVITY			
a. TYPED NAME (FIRST, MIDDLE INITIAL, LAST) Timothy M. Horne		c. SIGNATURE HORNE.TIMOTHY.MAR TIN.1528909465	
b. TITLE / ORGANIZATION MCEP Product Engineer / PdM SPE		d. DATE (YYYYMMDD) 20240515	

Digitally signed by

PM SPE ENGINEERING CHANGE REQUEST (ECR)		PM SPE CONTROL NUMBER RFD 24-05200940A1
TITLE OF ECR MIL-PRF-32423A Packaging Requirement		
20. PM SPE JUSTIFICATION In accordance with paragraph 5.1 Packaging of MIL-PRF-32432A, each manufacturer shall include on the APEL eyewear package a standard APEL certification... The label shall be displayed on at least two sides and one end of a boxed product totaling three labels or the front surface of a blister packed product. The label may be in the form of an applied sticker or be permanently printed on the container and should be green in color. Due to supply chain lead times, and rising costs, vendors have requested alternative methods of packaging their products. Packaging is not a measured and verified requirement and is checked periodically by the PdM SPE eyewear team. The current method of utilizing a blister packed product is not used. The most common definition of a blister packed product is a formable web, usually thermoformed plastic with a backing of paperboard or lid of aluminum foil, or plastic. This is most commonly found for packaging of over the counter pharmaceutical pills or individual tools. Currently most eyewear vendors utilize the box approach, or use either a zipper lock bag or a heat seal plastic packaging which under the current requirements is not allowed. In an effort to correct, modernize, and ease the burden on vendors, PdM SPE has changed Paragraph to read as: "Each manufacturer shall include on the APEL eyewear package a standard APEL certification label as shown below. The label shall be displayed on at least two sides and one end of a boxed product totaling three labels or... be visible on the front surface of a zipper lock, adhesive, or heat sealed bag, or packaged in a blister packed product. The label may be in the form of an applied sticker, be permanently printed on the container, or be part of an insert of the packaging. The label should be green in color. " PdM SPE approves this change to MIL-PRF-32432 Rev A until the requirement can be updated in MIL-PRF-32432 Rev B to be released.		
21. ATTACHMENTS MIL-PRF-32432A; Military Combat Eye Protection (MCEP) System		
22. COR (APPROVAL AUTHORITY FOR MINOR ECRs) / PM SPE TECHNICAL STAFF APPROVAL / DISAPPROVAL FOR MAJOR OR CRITICAL ECRs)		
a. APPROVAL ☐ Approved ☐ Disapproved	b. SIGNATURE LICHWELL.REID.ERIC. 1503343840 Digitally signed by LICHWELL.REID.ERIC.1503343840 Date: 2024.06.04 11:19:31 -04'00'	c. DATE SIGNED (YYYYMMDD) 20240604
23. APM APPROVAL / DISAPPROVAL (APPROVAL AUTHORITY FOR MAJOR ECRs)
