

Sources Sought: Compliance Automation

Question	Answer
Are you able to let us know whether FedRAMP Moderate is sufficient, or if FedRAMP high will be required?	Both may be used, depending on the build.
Is this a new requirement or if there is an incumbent currently supporting this mission.	New requirement
Considering this supports DOW I also wanted to know if the systems are running on Platform one and or Cloud one as part of the DODNet Migration.	This is a brand-new endeavor. There is no current system running on any platform. Options are open.
Curious to know if EMS is the current system or if there are other systems on top of it.	This is a brand-new endeavor. There is no current system and no overlying systems. Certain systematic interfaces may be beneficial as part of the solution.
