CPE CBRND SPONSORED CONSORTIA

- A consortium is simply an organization united through a formal agreement
 - Currently 700 contractors, academic institutions, and not-for-profit organizations
 - www.cwmdconsortium.org or www.medcbrn.org
- All share common vision, mission, and values
 - Innovation through collaboration
 - Rapidly develop and deliver prototype technologies
- Led by an Executive Committee and managed by Advanced Technology International (ATI)
 - Established tool set for organizing and running consortia
 - Experienced at finding and on-boarding new technology providers
 - Advanced bid management software including evaluation tools (BIDS)

MCDC
Medical CBRN
Defense Consortium
Prevent | Diagnose | Treat

CWMD
Countering Weapons of Mass Destruction
CONSORTIUM

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

COUNTERING WEAPONS OF MASS DESTRUCTION (CWMD) OTHER TRANSACTION AGREEMENT (OTA) SCOPE

- Provides rapid prototyping for technologies that enable or enhance the understanding of the Chemical, Biological Radiological, and Nuclear (CBRN) operational environment, threats, and vulnerabilities; control, defeat, disable, and/or dispose of Weapons of Mass Destruction (WMD) threats; safeguard the force while responding to natural and manmade disasters; and promote the cooperation, coordination, interoperability, and decision making between agencies, all levels of government, and with partner nations.
- Technical Objective Areas
 - CBRN counter-proliferation, nonproliferation, and defense equipment;
 - Installation and force protection;
 - Command, control, communications, computers, intelligence, surveillance, and reconnaissance (C4ISR) systems for WMD detection, localization, identification, and tracking and CBRN response operations;
 - Technologies that support the find, fix, finish, exploit, analyze, and disseminate (F3EAD) process;
 - Preparing for and combatting improvised threats and the improvised explosive device network;
 - WMD precursor, agent, and device defeat or neutralization;
 - Ensuring nuclear deterrence;
 - Manned and unmanned platforms capable of supporting CWMD operations;
 - Technologies that enhance the effectiveness of forces that are tasked to conduct CWMD operations;
 - Other operations related to the CWMD mission.

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

MEDICAL CBRN DEFENSE OTA SCOPE

Enabling a Whole of Government Response to WMDs

- The principal purpose of the OTA is to facilitate collaboration between Government and Industry Partners to conduct research and development (R&D) into medical, pharmaceutical, and diagnostic technologies, to develop medical countermeasures and enhance mission effectiveness of military personnel in CBRN contested environments.
- Objective Areas
 - Detection: Systems and devices to identify CBRN agents and assist diagnostic decisions
 - Prevention: Prophylaxis, pretreatment, and post-exposure prophylaxis
 - Treatment: Therapeutics (post-exposure, post-symptomatic)

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

KEY OTA FEATURES

OTAs have the following key features that enhance both the contractor and Government experience:

- Open Communications: Government requiring office and Consortium Members are free to discuss any project attributes including cost, schedule and performance, new ideas/approaches, forecasts, etc.
 - No need to formalize discussions
 - Formal discussions pursuant to the Federal Acquisition Regulation (FAR) and its supplements are not required
 - Exceptions:
 - Cannot discuss proprietary information of another contractor
 - Discussions are closed during evaluation periods (Procurement Integrity Act does apply)
- “Commercial Like” financing and payment terms
- Follow-on Production (successful completion or unanticipated favorable results)
- Negotiable IP and data rights (Bayh-Dole Act does not apply)
- Flexible - (Terms & Conditions, agreement types, evaluation process, success metrics, deliverables)
- Streamlined – (Enhanced White Paper w/ROM vice formal proposal).
- FAR DOES **NOT** APPLY

“The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services.”

TYPICAL SCHEDULE FOR ENHANCED WHITE PAPER

Milestone	* Estimated Completion Timeline (Business Days) CWMD / MCDC	
Issue Request For Prototype Proposal: Internal Reviews, Release Draft RPP, Release Final RPP	11	11
Proposal Submission: Write Enhanced White Papers/Submission, Compliance Reviews	31	31
Source Selection: Technical Evaluations, Generate Competitive Evaluation Report	31	31
Negotiations/Award Documentation Package: Finalize SOW, Complete Award Documentation, Issue Proposal Update Letter	22	22
Project Award: Updated Proposal Submission, Cost Analysis, Technical Direction Letter, Determination and Findings, Price Reasonableness Determination, Execute Project Agreement	54	54

* Estimated Completion Timelines are not to be construed as policy. Each OT requirement and situation will be determined on a case-by-case basis.

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

KEY PROGRAM ROLES & RESPONSIBILITIES

Program Management Office (JPEO-CBRND)

- Execute program strategy and marketing
- Manage operations
 - Monitor Cost, Schedule, and Technical Performance
- Provide acquisition support and expertise
 - Contractual (1101/2 series)
 - Technical (0800 and 1300 series)
- Maximize customer service and support
 - Training by Subject Matter Experts to customers

Agreements Officer (ACC-NJ)

- Review and approve requirements
- Review and approve evaluations of white papers/proposals
- Conduct Cost/Price Analysis
- Prepare Determination and Findings -- approving that proposal requirements are met
- Facilitation of legal and SCO reviews
- Perform post-award administration

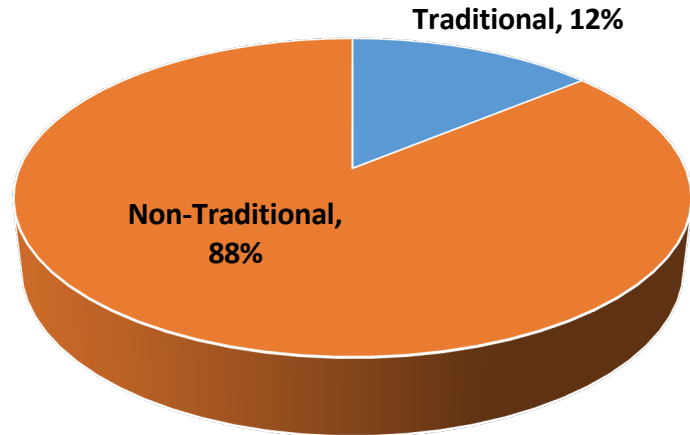

Consortium Management Firm (ATI)

- Manage consortium
 - Maintain on-line process for bid management
 - Complete compliance checks
 - Award sub-agreements
 - Member Training & Mentoring
- Monitor post-award performance against technical milestones
- Manage payment process
- Manage reporting and deliverables

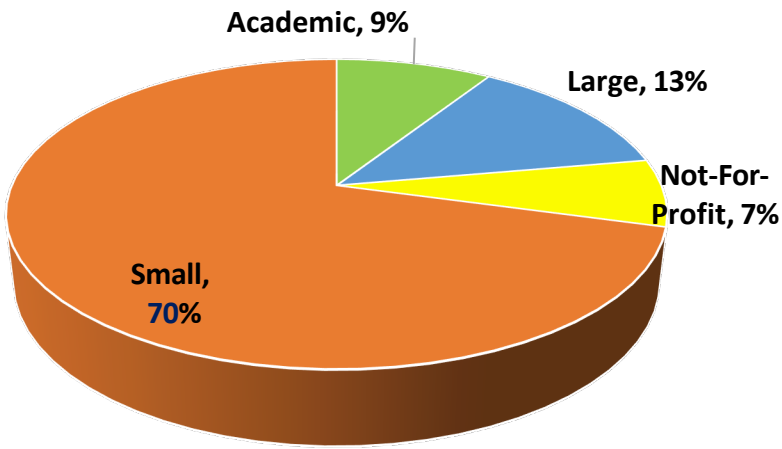

Agreements Officer's Representative

- Write requirements with program team
- Conduct evaluations
- Draft selection memoranda
- Monitor cost, schedule, and technical performance
- Approve deliverables
- Approve payments, etc.
- Communicate any changes to PMO/AO

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

Non-Traditional/Traditional Distribution

BROAD OTHER TRANSACTION AUTHORITY ANNOUNCEMENTS (BOTAA)

Combating Weapons of Mass Destruction (CWMD)

- CWMD BOTAA-24-01; W911SR-24-R-CWMD Published 2/7/2024 ([SAM.gov](https://sam.gov))

Mission Areas:

- CBRNE counter-proliferation, nonproliferation, and defense equipment.
- Installation and force protection.
- Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) systems for WMD detection, localization, identification, and tracking and CBRNE response operations.
- Technologies that support the Find, Fix, Finish, Exploit, Analyze, and Disseminate (F3EAD) process.
- Preparing for and combatting improvised threats and the improvised explosive device network.
- WMD precursor, agent, and device defeat or neutralization.
- Ensuring nuclear deterrence.
- Manned and unmanned platforms capable of supporting CWMD operations.
- Technologies that enhance the effectiveness of forces that are tasked to conduct CWMD operations.
- Software and Artificial Intelligence (AI) platform technology to achieve CBRN Defense integration, interoperability, and interdependence across all warfighting domains and functions.
- Other operations related to the CWMD mission

Modernization Focus Areas:

- Flexible, Scalable, and Interoperable Threat Agnostic Detection
- Threat Characterization and Hazard Modeling
- Artificial Intelligence and Machine Learning
- Wearable Sensors
- CBRN Information Nested with Joint All-Domain Command and Control
- Unobtrusive Individual Protection
- Biothreat Containment and Aeromedical Evacuation to Assure Continuity of Operations
- Quick and Effective Decontamination to Contain and Neutralize Spread

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

FY26 APBI

UPDATE SINCE FY25 APBI

- **TOTAL ACTIONS BRIEFED: 2**
 - **Wearable All-Hazard Remote Monitoring (WARP) Production**
 - **All-Purpose Personal Protective Ensemble Modernization (AP-PPE MOD) Theater**
- **RFPs RELEASED: 2**
- **ACTIONS AWARDED: 2**

WEARABLE ALL HAZARD REMOTE MONITORING PROGRAM – INCREMENT 2 (WARP 2)

DESCRIPTION: WARP Increment 2 (WARP 2) is a systems of wearable sensors or monitors that will be worn on the body and algorithms to actively monitor an individual warfighter's physiological status on the objective in near real time to identify potential early exposure to Chemical Warfare Agents (CWAs) to include non-traditional agents (NTAs) and Pharmaceutical Based Agents (PBAs).

CONTRACT TYPE and CONTRACT VEHICLE: TBD, Other Transaction via BOTAA-24-01

ESTIMATED VALUE: \$30M-\$35M

CONTRACTING CONTACT: TBD; Technical POC: Traci Sheely, (443) 910-5289, traci.l.sheely.civ@army.mil

DRAFT SOLICITATION RELEASE: N/A

SOLICITATION #: Via BOTAA-24-01

ESTIMATED SOLICITATION RELEASE DATE: 2QFY27

PRIOR/CURRENT CONTRACT INFORMATION:

Contract Number: N/A

Incumbent Contractor: N/A

FAR FORWARD BIOLOGICAL SEQUENCING (FFBS) – INCREMENT 3

DESCRIPTION: The FFBS system will provide rapid handheld biological sequencing to identify an unlimited number of bio-warfare agents (BWA) to include emerging or engineered biological weapon threats.

CONTRACT TYPE and CONTRACT VEHICLE: TBD, Other Transaction via BOTAA-24-01

ESTIMATED VALUE: \$12M-\$17M

CONTRACTING CONTACT: TBD; Technical POC: Traci Sheely, (443) 910-5289, traci.l.sheely.civ@army.mil

DRAFT SOLICITATION RELEASE: N/A

SOLICITATION #: Via BOTAA-24-01

ESTIMATED SOLICITATION RELEASE DATE: 2QFY27

PRIOR/CURRENT CONTRACT INFORMATION:

Contract Number: N/A

Incumbent Contractor: N/A

FORWARD AREA MOBILITY SPRAY-SYSTEM (FAMS-S) AIRCRAFT INTERIOR DECONTAMINATION (AID)

DESCRIPTION: FAMS-S is a “system of systems” that allows the Special Operations Forces to decontaminate surfaces from chemical and biological exposure. Current systems only decontaminate the exterior of vehicles, vessels and aircraft; however, the FAMS-S AID will be required to decontaminate the interior components including sensitive instrumentation.

CONTRACT TYPE and CONTRACT VEHICLE: TBD, Other Transaction via BOTAA-24-01

ESTIMATED VALUE: \$4M-\$8M

CONTRACTING CONTACT: TBD; Technical POC: Traci Sheely, (443) 910-5289, traci.l.sheely.civ@army.mil

DRAFT SOLICITATION RELEASE: N/A

SOLICITATION #: Via BOTAA-24-01

ESTIMATED SOLICITATION RELEASE DATE: 2QFY27

PRIOR/CURRENT CONTRACT INFORMATION:

Contract Number: N/A

Incumbent Contractor: N/A

RAPID ACCESS TO PRODUCTS IN DEVELOPMENT (RAPID)

DESCRIPTION: RAPID Storage & Stability is for the retrieval/transition, storage, stability, distribution, receipt, and disposal of government owned biological and pharmaceutical-related chem-bio defense material, such as vaccines and biologics that are subject to US Food and Drug Administration (FDA) regulations, and other related federal agencies.

CONTRACT TYPE and CONTRACT VEHICLE: OTA

ESTIMATED VALUE: \$40M

CONTRACTING CONTACT: ACC APG

DRAFT SOLICITATION RELEASE: RFI 1Q FY26

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: RFP 2Q FY26

PRIOR/CURRENT CONTRACT INFORMATION:

Contract Number: NA

Incumbent Contractor: NA

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

CBRN ADVANCE DEFENSE ENABLING NETWORK AND CLINICAL CAPABILITY (CADENCC)

DESCRIPTION: The CBRN Advance Defense Enabling Network and Clinical Capability (CADENCC) delivers a clinical trial network leveraging existing pre-positioned clinical sites and assets, regulatory-approved disease-agnostic master protocols, varied site types and wider geographic coverage, and decentralized data collection using digital health technologies that accelerates clinical evaluation of medical countermeasures (MCM).

CONTRACT TYPE and CONTRACT VEHICLE: OTA

ESTIMATED VALUE: \$60M

NEW MODALITIES FOR PROPHYLACTIC MEDICAL COUNTERMEASURES

DESCRIPTION: Contracting action to investigate and develop new methods for delivering prophylactic countermeasures. Effort will focus on pre-exposure, with emphasis on broad spectrum coverage. Multiple contracts may be considered.

CONTRACT TYPE and CONTRACT VEHICLE: TBD, likely OTA (MCDC)

ESTIMATED VALUE: \$30-50, multi-year effort

CONTRACTING CONTACT: ACC-NJ, TBD

DRAFT SOLICITATION RELEASE: 1QFY29

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: TBD

PRIOR/CURRENT CONTRACT INFORMATION: N/A

Contract Number:

Incumbent Contractor:

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

MEDICAL COUNTERMEASURE MANUFACTURING OPTIMIZATION

DESCRIPTION: Contracting action to secure priority access for emergency response and optimize manufacturing processes for prophylactic, or therapeutic products in development. Multiple awards possible. Effort will prioritize chemical prophylaxis viable manufacturing processes.

CONTRACT TYPE and CONTRACT VEHICLE: TBD, likely OTA (MCDC)

ESTIMATED VALUE: \$10-20M, multi-year effort

CONTRACTING CONTACT: ACC-NJ, TBD

DRAFT SOLICITATION RELEASE: 1QFY27

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: TBD

PRIOR/CURRENT CONTRACT INFORMATION: N/A

Contract Number:

Incumbent Contractor:

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

NON-HUMAN PRIMATE (NHP) PRIORITY ACCESS

DESCRIPTION: Contracting action to secure priority access to NHP supply for time of need, to support CBRN enterprise medical countermeasure research and medical rapid response needs

CONTRACT TYPE and CONTRACT VEHICLE: TBD, likely IDIQ

ESTIMATED VALUE: \$10-20M, multi-year effort

CONTRACTING CONTACT: ACC-APG, TBD

DRAFT SOLICITATION RELEASE: 3-4QFY26

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: TBD

PRIOR/CURRENT CONTRACT INFORMATION: N/A

Contract Number:

Incumbent Contractor:

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

NEW ALTERNATIVE METHODS FOR THE EVALUATION OF MEDICAL COUNTERMEASURES

DESCRIPTION: New Alternative Methods (NAMs) and approaches to evaluate medical countermeasures. Looking for opportunity to accelerate, and de-risk medical countermeasure development through implementation of alternative approaches (organoids, AI/ML, etc). Opportunity could include multiple awards.

CONTRACT TYPE and CONTRACT VEHICLE: TBD, likely OTA (MCDC)

ESTIMATED VALUE: \$20-30M, multi-year effort

CONTRACTING CONTACT: ACC-NJ, TBD

DRAFT SOLICITATION RELEASE: 3-4QFY26

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: TBD

PRIOR/CURRENT CONTRACT INFORMATION: N/A

Contract Number:

Incumbent Contractor:

"The forecast data is for planning purposes, does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by the government to purchase the desired products and services."

OVERVIEW OF PARTNERING VEHICLES

Awards outside of MA IDIQs and OTAs

- FAR-based awards of legacy components
- Small Business Innovative Research (SBIRs)

Professional Support Services through OASIS+

- Professional Support across 6 business areas
- Task Order PoPs vary (base + options)

MCDC & CWMD OTAs:

- Inspires technical innovation and expedited awards
- Expands industrial base to "Non-Traditional" Defense contractors
- MCDC PoP through 2036
 - \$16.7B ceiling
- CWMD through Nov 2027
 - \$10B ceiling

Logistics and sustainment MA IDIQ

- Contractor Logistics Support (CLS) & performance-based logistics, training, sustainment, acquisition logistics
- PoP through Dec 2030; \$907M ceiling

Research, Development, & Production MA IDIQ

- Research, development, production, procurement, fielding, and initial sustainment
- PoP through Nov 2027; \$8.27B ceiling

Commercial Item IDIQ

- CBRN defense commercial items, equipment, and ancillary training
- PoP through 2030, \$500M ceiling

Medical Countermeasures BAA

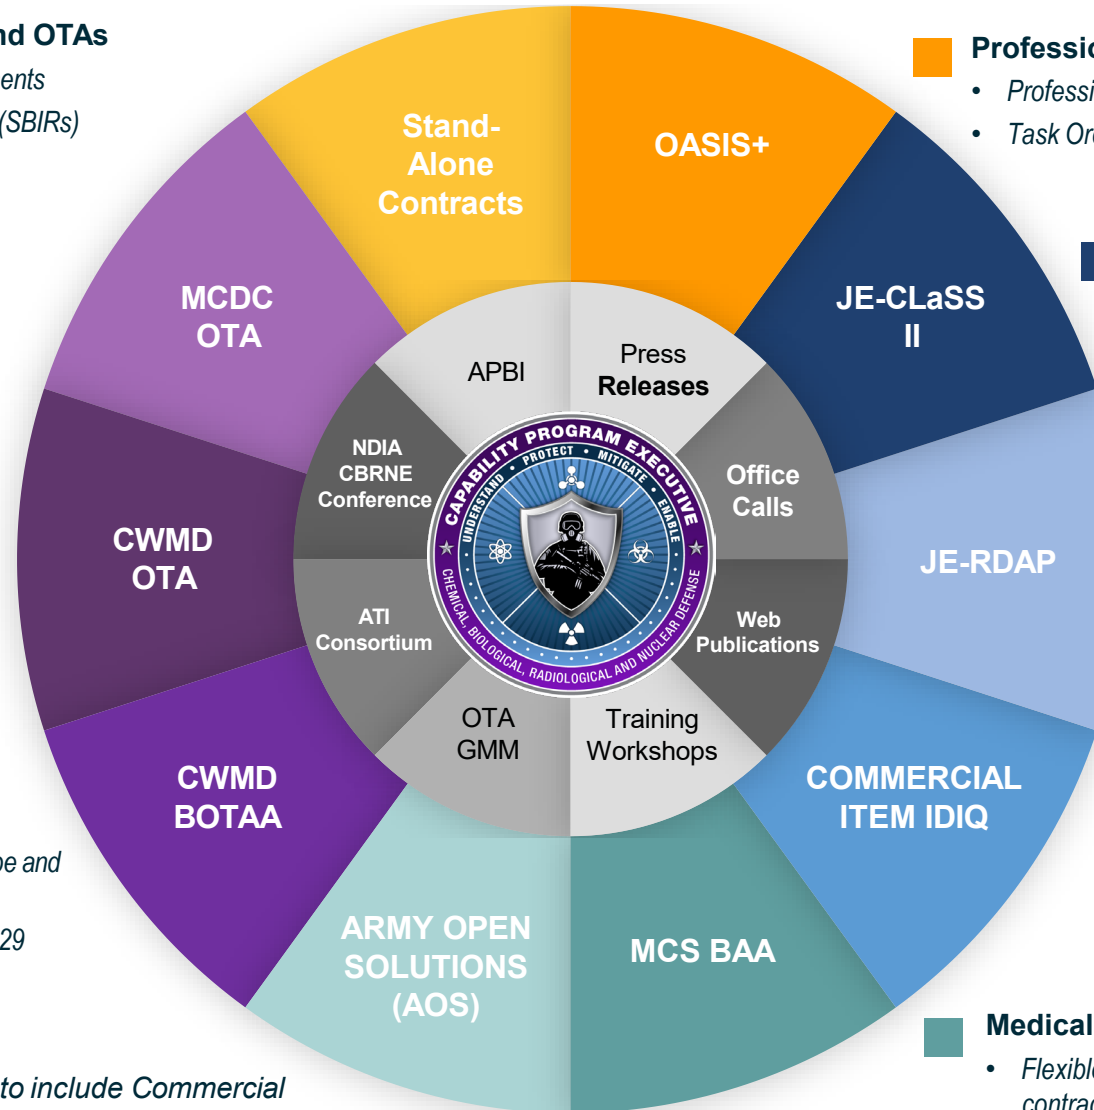

- Flexible Broad Agency Announcement (BAA) leading to contracts, grants, cooperative agreements, OTAs, and TIAs
- Announcement open through Jun 2027

CWMD BOTAA

- Broad Other Transaction Authority Announcement (BOTAA) for prototype and follow-on production projects
- Announcement open through Feb 2029

Army Open Solutions (AOS)

- Multiple solicitation authorities to include Commercial Solutions Openings (CSOs), Broad Agency Announcement

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

PROFESSIONAL SUPPORT SERVICES (OASIS+)

- Non-personal, professional support services on behalf of requirements owners (Joint Project Manager (JPMs); Joint Project Lead (JPLs); HQ; Joint Agency Partners)
 - Business areas: Acquisition, Logistics, Business, Scientific, Engineering & Technical, and Research and Development
 - Organizations supported: JPEO-CBRND HQ, JPM/Ls, USAF CBRN Branch, National Guard Bureau, Naval Surface Warfare Center, USMC
- Primary Contract Vehicle (OASIS+):
 - Successor contract vehicle to JE-OPETS (exp. Aug 2025)
 - ACC-executed/administered Task Orders (TOs) against GSA's One Acquisition Solution for Integrated Services Plus (OASIS+) IDIQ
 - Task Order Period of Performance: 2025 - 2030
 - 1-year Base and four 1-year Options
- Other Alternatives
 - Army CHESS for IT-related services
 - Other vehicles may be considered for cloud services, software development, and continuous software evolution service-type contracts
 - Requirements owners may use other approaches (standalone; support agreements)

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

JE-CLASS II

- Joint Enterprise – Contracted Logistics and Services Support (JE-CLaSS) II available to CBRND Enterprise
- MA IDIQ
 - Successor contract vehicle to JE-CLaSS
 - 4-year Base (through Jan 2027) with one 4-year Options (through Jan 2031)
 - \$907M ceiling
 - Orders may have up to a 5-year Period of Performance (PoP)
- Domain 1: 23 contract holders
 - System Maintenance and Reset, Field Maintenance Support, Supply Chain Management (Stocking and Reporting, Logistics and Warehousing, Calibration), Training, Transport of Equipment and Materials, Provisioning, and Product Support Analysis
 - Orders competed as fair opportunity; Small Business Set-Aside (SBSA) determined by “Rule-of-2”
- Domain 2: 18 contract holders
 - Acquisition logistics services and Product supportability/sustainability support, Training planning and support, Program Management, Property Accountability, and Quality Assurance
 - 100% SBSA
- List of contract holders are posted at <https://www.jpeocbrnd.osd.mil/Work-With-Us/>

“The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services.”

JE-RDAP

- Joint Enterprise – Research, Development, Acquisition and Production/Procurement (JE-RDAP)
- Multiple Award Indefinite Delivery Indefinite Quantity (MA IDIQ)
 - 10-year ordering period (through Nov 2027)
 - \$8.27B ceiling
 - Orders may extend up to 5 years beyond expiration of ordering period
- Scope: Research, development, acquisition, production, procurement, fielding and initial sustainment of CBRND systems, equipment, medical devices, information systems, and materiel
 - Orders competed as fair opportunity amongst 171 contract holders
 - Small business considerations available
 - List of contract holders are posted at <https://www.jpeocbrnd.osd.mil/Work-With-Us/>
 - Contract holders may team with other contract holders or bring on external partners/subcontractors to provide future/new technologies and capabilities
- Available to the CBRND Enterprise

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

CBRN COMMERCIAL ITEM IDIQ

- MA IDIQ administered by the GSA Assisted Acquisition Services, Army (AAS, Army)
 - 100% Small Business Set-Aside (SBSA)
 - \$500M ceiling
 - 5-year PoP (2025 – 2030)
 - 1-year Base and four 1-year Options
- Scope: procurement commercial items, equipment, and Ancillary Training in support of the Joint Forces and CBRND Enterprise
- Concept: Speed and flexibility for the procurement of commercial items and equipment, through a streamlined process
 - Supplements JE-RDAP and JE-CLaSS II
 - Available to CBRND Enterprise
- Target speed: Under 30 days from GSA acceptance of requirements package to award

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

ARMY OPEN SOLICITATION (AOS)

- Purpose: Enable Army to rapidly acquire and deliver innovative solutions to the Warfighter using commercial technology advancements and research and development solutions
- Multiple solicitation authorities to include Commercial Solutions Openings (CSOs) and Broad Agency Announcements (BAAs)
 - FAR and non-FAR based awards
 - Open Indefinitely (sam.gov)
 - Government can submit Active Capability Gaps (ACGs) and Calls for Solutions and Industry can submit (unsolicited) solution briefs
- Use when:
 - Government is seeking unique, creative, or innovative industry solutions
 - Not appropriate when requirement is mature, and an innovative solution is not required
- Example areas:
 - Intelligence, Electronic Warfare and Sensors
 - Army Enterprise Business Solutions
 - Tactical Communications
 - Soldier Equipment
 - Simulation Training and Instrumentation
 - Ground Combat Systems
 - Missiles and Space
 - Aviation
 - Supply Chain and Logistics
 - Installation Support and Innovation
 - Advanced Manufacturing

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

MEDICAL COUNTERMEASURES BAA

- Medical Countermeasures Broad Agency Announcement (BAA)
- Can issue FAR-based contracts, grants, cooperative agreements, OTAs, and Technology Investment Agreements (TIAs) in support of novel solutions and improved methods to develop medical countermeasures
 - Announcement open through Jun 2027
 - Government may issue Calls for Proposals or Offerors may submit unsolicited proposals against Mission areas.
- Announcement located on sam.gov (<https://sam.gov/opp/f2d01f5a6c444e32af543e9519a0805f/view>) and Grants.gov
- Mission areas:
 - Medical Biological Prophylaxis
 - Medical Chemical and Biological Countermeasures
 - Medical Radiological Countermeasures
 - Medical Diagnostic and Surveillance Systems
 - Enabling Biotechnologies and Response Systems

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

CWMD BOTAA

- Chemical Weapons of Mass Destruction Broad Other Transaction Authority Announcement (CWMD BOTAA)
- Prototype and follow-on production efforts directed toward development of enabling technologies that speed up the advanced development process
 - Announcement open through Feb 2029
 - Government may issue Requests for Project Proposals (RPPs) or Offerors may submit unsolicited proposals against Mission areas.
- Announcement located on sam.gov (<https://sam.gov/opp/2d04622b25364669857a6a61c576ade9/view>)
- Mission areas:
 - CBRNE counter-proliferation, nonproliferation, and defense equipment.
 - Installation and force protection.
 - Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) systems for WMD detection, localization, identification, and tracking and CBRNE response operations.
 - Technologies that support the Find, Fix, Finish, Exploit, Analyze, and Disseminate (F3EAD) process.
 - Preparing for and combatting improvised threats and the improvised explosive device network.
 - WMD precursor, agent, and device defeat or neutralization.
 - Ensuring nuclear deterrence.
 - Manned and unmanned platforms capable of supporting CWMD operations.
 - Technologies that enhance the effectiveness of forces that are tasked to conduct CWMD operations.
 - Software and Artificial Intelligence (AI) platform technology to achieve CBRN Defense integration, interoperability, and interdependence across all warfighting domains and functions.
 - Other operations related to the CWMD mission.

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

DOING FAR-BASED BUSINESS WITH THE GOVERNMENT

- [Joint Enterprise Technology Tool \(JETT\)](#)
- [SAM.gov](#)
 - Industry Days
 - Request for Information (RFIs)
 - Contracting Opportunities
- For Small Businesses:
 - Cognizant SBA representative
 - Army Office of Small Business Programs
 - <https://www.army.mil/osbp>
- [CPE CBRND Work With Us](#)

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

FY26 APBI

UPDATE SINCE FY25 APBI

- **TOTAL ACTIONS BRIEFED: XX**
- **RFPs RELEASED: XX**
- **ACTIONS AWARDED:**
 - W911SR-25-9-0001 - Other Transaction Authority For Prototype Agreement
 - Initial Award – March 2025
 - Modification Award – September 2025
 - W911QY21R0004 – FAR IDIQ production contract for MPDS
 - Initial Award – Jan 2021
 - Modification Award extending contract duration to Nov 2030 – Jan 2026

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

BEACON

- **DESCRIPTION:** The Beacon program is aimed at rapidly identifying and screening multiple chemical medical countermeasure candidates; Beacon is seeking a program integrator to manage the acquisition and testing of Government-identified candidates
- **CONTRACT TYPE and CONTRACT VEHICLE:** TBD
- **ESTIMATED VALUE:** \$60-\$75M over 5 years
- **CONTRACTING CONTACT:**
Contracting POC - ACC-APG, TBD
Technical POC - JPM CBRN Medical, Amy Sands, 520-706-0082, amy.l.sands4.civ@army.mil
- **ESTIMATED SOLICITATION RELEASE DATE:** 2QFY26
- **SOLICITATION #:** TBD
- **PRIOR/CURRENT CONTRACT INFORMATION:** N/A

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

PROTECS

- **DESCRIPTION:** Prophylactic Technology Systems (ProTecS) will deliver an United States Food and Drug Administration (FDA)-approved prophylactic against a broad spectrum of nerve agents, leveraging candidate(s) identified by the Beacon program
- **CONTRACT TYPE and CONTRACT VEHICLE:** Other Transaction Agreement (OTA)
- **ESTIMATED VALUE:** TBD
- **CONTRACTING CONTACT:**
Contracting POC - ACC-APG, TBD
Technical POC - JPM CBRN Medical, Amy Sands, 520-706-0082, amy.l.sands4.civ@army.mil
- **ESTIMATED SOLICITATION RELEASE:** 4QFY26
- **SOLICITATION #:** TBD
- **PRIOR/CURRENT CONTRACT INFORMATION:** N/A

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

HOST DIRECTED THERAPEUTICS (HD TX)

DESCRIPTION: The Host Directed Therapeutics (HD TX) program will be a capability-based portfolio representing a next-generation CBRN resilience initiative aimed at delivering threat agnostic host-directed medical countermeasures that enhance the body's ability to withstand, mitigate, and recover from the complex and overlapping physiological impacts of CBRN threats. A Participant Based Agreement (PBA) is planned for a HD TX consortium with Other Transaction Agreements (OTAs), Request for Proposal (RFP), and Request For Information (RFI) releases.

CONTRACT TYPE and CONTRACT VEHICLE: Participant Basic Agreement (PBA) with OTA, RFP, and RFI releases

ESTIMATED VALUE: \$30M per year, 3-4 actions per year

CONTRACTING CONTACT:

Contracting POC - ACC-APG, Brian Mazen, 520-671-3728, brian.e.mazen.civ@army.mil

Technical POC - JPM CBRN Medical, Lauren Trippe, 520-672-7588, lauren.m.trippe.civ@army.mil

DRAFT SOLICITATION RELEASE: PBA RFI in 3QFY26 with PBA formation by 4QFY26; Draft RFI 4QFY26

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: 1QFY27

PRIOR/CURRENT CONTRACT INFORMATION: N/A

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

PROPHYLAXIS IN ADVANCED DEVELOPMENT (PAD)

DESCRIPTION: Prophylaxis in Advanced Development (PAD) is a portfolio program to provide a prophylaxis capability that can be positioned far-forward to unburden the Force and maintain combat lethality. PAD will continue the advanced development for one prophylaxis medical countermeasure through Good Manufacturing Practices (GMP) manufacturing, phase 3 clinical trials and FDA licensure.

CONTRACT TYPE and CONTRACT VEHICLE: OTA

ESTIMATED VALUE: TBD

CONTRACTING CONTACT:

Contracting POC - ACC-APG, TBD

Technical POC - JPM CBRN Medical, Nicole Lackemeyer, 520-708-0167, Nicole.I.Lackemeyer.civ@army.mil

DRAFT SOLICITATION RELEASE: 1QFY28

SOLICITATION #: TBD

ESTIMATED SOLICITATION RELEASE DATE: 2QFY28

PRIOR/CURRENT CONTRACT INFORMATION: N/A

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

VACCINE ACCELERATION BY MODULAR PROGRESSION (VAMP)

- **DESCRIPTION:** Expediting VAMP-ENBD program's development of vaccine platform prototype candidates through Phase I or Phase II clinical trials during an approximately staggered three-year cycle
- **CONTRACT TYPE and CONTRACT VEHICLE:** TBD, likely FFP or CPFF OTA Agreement through CBRND BAA
- **ESTIMATED VALUE:** Multiple new efforts (Phase I and II clinical trials) between FY28-32 for total of \$100M+
- **CONTRACTING CONTACT:**
Contracting POC – Anticipate ACC-APG, Brian Mazen, 443-356-3662, brian.e.mazen.civ@army.mil
Technical POC – JPM CBRN Medical, Emily Cisney, 240-457-2725, emily.d.cisney.civ@army.mil
- **DRAFT SOLICITATION RELEASE:** TBD
- **SOLICITATION #:** TBD
- **ESTIMATED SOLICITATION RELEASE DATE:** Request for Project Proposals (RPP) anticipated 1QFY27
- **PRIOR/CURRENT CONTRACT INFORMATION:** N/A

"The content of this briefing is for informational purposes only and is subject to change. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase products or services."

CBRN INTEGRATED EARLY WARNING- AGILE SOFTWARE DEVELOPMENT TEAMS

DESCRIPTION: Agile software development teams with the expertise to prototype, develop, and deliver mission-critical software. With the capability and capacity to produce functional, secure, scalable, and interoperable solutions. Leveraging USG software development infrastructure, approved tools, and code repositories, enabling rapid development and in-process risk management. Allowing for the rapid adjustment of development objectives and priorities to address immediate and future operational needs.
