

STATEMENT OF WORK

Purchase of One (1) Whole Genome Sequencing Instrument for IRVLMP

Background

The Food and Drug Administration (FDA), Irvine Medical Products Laboratory (IRVLMP), performs microbiological testing on medical products to ensure compliance with USP and other regulatory requirements. A Whole Genome Sequencing instrument is required to support sequencing of microorganisms obtained from regulatory pharmaceutical samples.

Scope

The Contractor shall provide one (1) Whole Genome Sequencing instrument for IRVLMP, Irvine, CA, that meets or exceeds the requirements below.

Requirements

- The Contractor shall provide an Illumina MiSeq i100 System or an equivalent Whole Genome Sequencing instrument capable of supporting existing validated laboratory workflows.
- Uses sequencing-by-synthesis next-generation sequencing technology
- Supports single-read and paired-end libraries
- Output range up to 25 Gigabases
- Up to 200 million paired-end reads per run
- Maximum read length of at least 2 × 500 base pairs
- ≥85% of bases achieving Q30 at 2 × 300bp
- RFID or equivalent consumable tracking
- Reagents stored at room temperature
- Includes onboard data collection and sequence alignment software
- Includes monitor and control computer
- Benchtop system not exceeding 16" × 18" × 26" (W×D×H)

Warranty Requirement

The Contractor shall provide a minimum one (1) year manufacturer's warranty covering all parts, labor, and operational support. Warranty shall begin upon final Government acceptance.

Records and Reports

For any warranty-related service performed, the Contractor shall provide a service report including equipment identification, description of issue and corrective action, parts replaced, and technician information.

Deliverables / Delivery Schedule

Deliverable	Quantity	Due Date
Whole Genome Sequencing System	1	Within 60 days after award
Manufacturer Warranty	1	Begins upon acceptance

Delivery Location

FDA / IRVLMP
19701 Fairchild
Irvine, CA 92612

Period of Performance

Delivery shall occur within 60 days of award. Warranty begins upon acceptance.
