

Construction Authorization and Inspection Record

Date: 5/5/2026

ES&H BIO Authorization - PRS # 26-058

Building Number: 950 / 950a

Room #

Sector #

Location:

Project Title & Description of Work:

1. PCW Skid Demo and Relocation

2. PCW System Upgrade

PCW Skid Demo and Relocation

The purpose of the PCW Skid Demo and Relocation scope is to safely decommission, disconnect, and relocate the existing PCW skid and associated utilities to enable facility reconfiguration work under the Far Experimental Hall (FEH) Reconfiguration Project. Subcontractor shall provide all labor, materials, supervision, and equipment necessary to perform the removal, capping, labeling, and protection of affected systems in accordance with SLAC Design Standards, ESH requirements, and DOE safety policies.

PCW System Upgrade

The purpose of the PCW System Upgrade scope is to install a new PCW skid and upgrade the associated distribution systems in the basement and sub-basement of B950 to meet the increased cooling demand for the LCLS-II-HE program. The work includes the installation of the new PCW skid, upsizing of PCW supply and return lines, and implementation of temporary scaffolding and access modifications (including removal and reinstallation of limited ductwork and lighting) to perform the upgrades safely.

PM: Collin Chew X2807

CM: TBD

Contractor: TBD

This inspection record shall be kept at the Job site at all times and made available to CM or Building Inspector upon request

INSPECTION REQUESTS: Inspection requests must be made on-line at "bio-inspection@slac.stanford.edu"

Note: 24 hour notice is normally required for scheduling an inspection.
