

Single Source Justification (Simplified Acquisition ≤ SAT)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? NO

Contracting Activity: 81 CONS / PKB

Project/Program Name: NIPR - VMWARE Software Support & License Renewal

Purchase Request/ Local ID Number: [REDACTED]

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

81 CS is requesting the renewal of VMware License and Technical Support for Network Operations Systems.

Section C: Justification for Soliciting from a Single Source or Brand Name

The current licenses that support the NIPR system are VMware and require the renewal licenses to be the exact brand to prevent software failure. Installing a different brand other than VMWare will greatly increase costs and potentially cause a break in mission critical services. Additionally, in accordance with the Department of the Air Force (DAF) Mandatory Use of DISA VMware by Broadcom Blanket Purchase Agreement (BPA) memorandum, all DAF organizations shall utilize the newly established DISA Enterprise Agreement for VMware by Broadcom for the procurement of all new and renewal Broadcom VMware software licenses and maintenance IAW DAFMAN 17-1203, Section 3.2.

According to this guidance, “the DISA VMware by Broadcom BPA is the sole and mandatory source for all DAF requirements for Broadcom provided services and VMware software and must be fulfilled through this agreement, including but not limited to new procurement and renewal of software licenses and subscriptions; software maintenance and support renewals; product upgrades and technical services; cloud and hybrid platform solutions (e.g., VMware Cloud Foundation). The initiation of any new, independent procurement actions for Broadcom VMware products or services through other contract vehicles or open market sources is prohibited”.

Section D: Efforts to Obtain Competition

Market Research was conducted via Ability One and FPI UNICOR websites and both yielded zero results. Additionally, a Sources Sought was posted to GSA Advantage, but 0 responses were received. Due to mandated DISA VMware by Broadcom BPA, Carahsoft is the sole and mandatory source for this requirement.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

In order to preclude future brand name and sole source requirements, 81 CS would have to replace the NIPR system. 81 CS will monitor its system to determine when it would need replacement and if there is the potential to use other brands. Also, 81 CS and 81 CONS will continue to monitor the market in the event that the BPA is no longer mandatory, and other vendors are able to meet the Government's requirement.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 12.102\(a\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
