1. Synopsis

This synopsis is in accordance with FAR Part 5, Notice of Intent to award a sole source requirement. This Notice of Intent is not a request for competitive proposals. This is not a solicitation or request for offers. No solicitation package is available, and email requests will not be honored. Only one (1) responsible source and no other supplies or services will satisfy agency requirements.

The Defense Health Agency (DHA) intends to award a sole source contract to National Quality Forum (NQF) to provide membership which will allow DHA to rely on NQF defined measures or healthcare practices as the best, evidence-based approaches to improve care. The federal government, states, and private-sector organizations use NQF’s endorsed measures, which must meet rigorous criteria, to evaluate performance and share information with patients and their families.

2. Background

NQF is the only nationally recognized consensus-based healthcare organization as defined by the Office of Management and Budget (OMB). This unique status allows the federal government to rely on NQF-defined measures or healthcare practices as the best, evidence-based approaches to improving care. The federal government, states, and private-sector organizations use NQF's endorsed measures, which must meet rigorous criteria, to evaluate performance and share information with patients and their families. If the Government does not continue to participate in this opportunity provided by NQF and as one of its founding members, the Military Health System (MHS) will not have the ability to participate in and leverage NQF's voluntary national consensus process and activities to implement standards for healthcare quality measurement and improvement.

3. Description:

DHA seeks to award a sole source contract with NQF to provide access to membership which provides for endorsement of standards for performance measurement and providing a framework for evaluating healthcare practices as part of a consensus-based entity that convenes diverse stakeholders to develop and endorse measures widely accepted across the healthcare industry and aligned with national priorities that enhance the health and readiness of service members and their families while ensuring the readiness of military forces.

4. NAICS Code:

The North American Industry Classification System Code (NAICS) for this requirement is 541690 with a size standard of \$19 million. The Federal Supply Code (FSC)/Product Service Code (PSC) for this procurement is R499.

5. Submission Instructions

Interested parties may identify their interest and capability to respond to this requirement within 15 calendar days of the publication of this notice. Any response to this notice must show clear and convincing evidence that competition would be advantageous to the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement. A determination by the Government not to compete this proposed contract based upon response to this notice is solely within the

discretion of the Government. No reimbursement for any cost connected with providing capability information will be provided.
