(End of Summary Changes)

PPI No.	Date Submitted	REFERENCE			QUESTION	GOVERNMENT RESPONSE	GOV'T RESPONDER NAME, E-MAIL	Amend No.
		Page	Section	Para.				
1	4/24/2026	7	4.1	1	Section 4 states monitoring of 54 locations in one mobilization, however Section 9.2 specifies the biennial event of 86 locations. Which event is required in 2026.	I didn't see 86 locations in section 9.2.		
2	4/24/2026	3	Objectives	3	Task order is for 1 base year, with four one-year options. Please clarify the LTM scope and schedule.	Confirmed task order is for one year at descretion of RPM, addition optional years will be funded in the future. LTM is annual.		
3	4/24/2026	8	4.2	1	Is 1,4 Dioxane required for analysis in accordance with the current SAP in addition to US EPA SW-746 Method 8260C for groundwater samples.	No		
1	4/23/2026	11	Item 7.5	N/A	Item 7.5, Page 11 - When do the various (NPDES, MCES, and DNR Water appropriations) permits expire? Can the most recent permits be provided? The NPDES permit in the available OM&M Manual expired in December 2021.	We are currently operating under an expired NPDES permit. KGS submitted the NPDES renewal application to MPCA on 13 December 2024. MPCA is working on the permit. The MCES permit was recently renewed.Yes, the most recent permits can be provided.		
2	4/23/2026	19	Item 7.3	N/A	Item 7.3, Page 19 - Can information be provided regarding the quantity and characterization of waste generated including hazardous waste in previous years?	Waste generated in the past has been non-hazardous. Waste volumes vary from year to year. In 2025, approximately 42,000 gallons of waste water was discharged to the sanitary sewer under the MCES permit for a fee of \$53.00.		
3	4/23/2026	4	Item 2.1	N/A	Item 2.1, Page 4 - Can the most recent most recent Annual Monitoring Report Naval Industrial Reserve Ordnance Plant Fridley, Minnesota February 2026 be provided? It is not publicly available on the administrative record.	Reference the most recent one is. The current report is in review with regulatory agencies. Please reference most recent publicly avavilable document.		
4	4/23/2026	6	Item 3.1	N/A	Item 3.1, Page 6 - Can you confirm approximate historical polymer dosing rates? The 2025 OM&M Manual indicates estimates of 44 lbs of per day of ChemTreat CL4635. Is that in line with historical values?	The chemical tank is replenished with approximately 350 gallons of chemical once per quarter.		
5	4/23/2026	7	Item 3.1	N/A	Item 3.1, Page 7 - Historically, what acids have been used to clean the air stripper? Is pressure washing and citric acid generally sufficient?	Pressure washing is typically sufficient.		
6	4/23/2026	11	Iem 3.1	N/A	Item 8, Page 11 - Are there annual fees associated with the internet system, SCADA system and/or alarm system? Can historical receipts be provided?	We do not have receipts for these items, but we do pay internet which is cellular AT&T which is around \$150 per month based on usage, and we renew the Win911 alarm software license annually. The most recent renewal was approximately \$1,500.00		
8	4/24/2026	10	7.5	1	What permits are required for groundwater monitoring of the site, and are there fees associated with these permits.	No permit for the groundwater sampling; however, the 1991 Federal Facility Agreement between the USEPA and Navy requires that an Annual Monitoring Report be submitted each year summarizing groundwater data collection and remedial action.		
9	4/24/2026	10	7.5	1	The DNR Appropriations specifically states there is no fee associated with the permit, but there are no qualifications for fees for NPDES or MCES. Are there fees associated with these permits to be paid by the contractor?	NPDES typically has a permit fee for renewal but no recurring fees. We have not seen an invoice for the permit application that was submitted last year. Probably because it hasn't been approved yet. KGS was not involved in the previous NPDES permit prior to 2025. MCES typically has fees after the annual report is submitted. The fees are load charge based depending on sample results and volumes. The MCES discharge fee and volume discharged are shown on the attached invoice. MPCA charges an annual water permit fee. See attached invoice.
