SPACE LAUNCH DELTA 30

MEMORANDUM FOR RECORD

FROM: 30 CONS/PKB

SUBJECT: Sole Source Justification for PANDA BCU Evaluation

1. Nature and/or Description of the Action Being Processed:

The requiring activity, SLD30/2ROPS, requests the sole source procurement for service request for a evaluation for repair of 3ea Photo Sonic Nanosextant BCU computers..

2. Efforts to Obtain Competition: Attempted to source replacements of internal comments that have failed for in-house repair. Exact replacements are no longer manufactured or available. Photo Sonics is known to have exact replacement components as they were ordered in bulk for system buildup and sparing.

3. Identification of the Justification/Rationale for Sole Source and Demonstration of the Contractor's Unique Qualifications: The BCU is loaded with non standard proprietary software. Only Photo Sconics can truly know if a replacement component is a suitable sub and truly FFF. The BCU is the heart of the PANDA the system and involved in various feedback loops. Another vendor can not predict or effectively test the impact on those feed back loops and over all performance of the system.

4. Contracting Officer Certification: I hereby determine that the anticipated cost to the Government will be fair and reasonable and that this sole source justification is accurate and complete to the best of my knowledge and belief.

Christopher Hummel GS-12, USAF
Contracting Officer PKB
