

STATEMENT OF NEED

GENERAL: The Coatesville VAMC Audiology and Speech Pathology department is requesting a new Interacoustics Titan Distortion Product Otoacoustic Emissions Testing (DPOAE, tympanometer) with Video Otoscope and other accessories due to the breakdown of the old equipment. The current equipment has reached shelf life and is not working correctly, and repairs cannot be done. The need for Audiology Services has increased in Veteran population.

SCOPE: Interacoustics Titan V2 (DPOAE, tympanometer) or Equivalent with Video Otoscope is a multi-use piece of equipment providing an objective test allowing the clinician to measure the inner hair functionality of a person's inner ear which does not require any subjective response from the Veteran and gives valuable information about the Veteran's hearing sensitivity objectively. All equipment is specified brand name or equal, and is required to interoperate successfully with existing equipment and staff manuals, training, and procedures.

The following equipment is required:

PART #		Qty
8531062	INTERACOUSTICS TITAN V2 DIAGNOSTIC MIDDLE EAR ANALYZER	5 EA
1000685	MIS COMPUTER MONITOR	5 EA
8530437	GSI USB VIDEO OTOSCOPE	5 EA
SERVICES	MED-MR-026 MEDRX ULTRA VAC+	5 EA
1002321	WEL 238-2 MACROVIEW BASIC OTOSCOPE	7 EA
1003141	WEL-250-2 WELSH ALLYN 250-DIAGNOSTIC LED OTOSCOPE HEAD	7 EA
1001203	3.5 RECHARGEABLE BATTERY WEL-72200-0	14 EA
SERVICES	MEDICAL CART	5 EA
