

**Single Source Justification (Simplified Acquisition)****Section A: General Contract Information**

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 35 CONS/PKB

Project/Program Name: FlightCom Headsets

Purchase Request / Local ID Number: FA520526QB067

Estimated Contract Cost (including Options):

Section B: Description of the Supplies/Services Required

This single source justification is a new contract using firm-fixed pricing for the purchase of quantity three (3) FlightCom Wireless 5-User Headset Systems needed to establish secure communication between an Integrated Combat Turn crew consisting of 2 Crew chief personnel, a 3 person weapon crew, and a pilot to improve capabilities of maintenance crews performing complete operational checkouts for crucial flight systems. These wireless headsets meet mission requirements by providing clear, continuous communication for the entire load crew, improving situational awareness and reducing risks like tripping over cables. The wireless design also eliminates the threat of electromagnetic interference with munitions. This freedom from cords allows the crew to move without restriction, monitor the loading process in real-time, and make immediate adjustments. As a result, workflows are optimized, bottlenecks are cleared, and load times are significantly faster.

Quantity 3 (three): Flightcom 5-User Comhub FCC ID V9N950325700V1

FLCPWS-5 / 5-User Wireless Headset System - includes:

5-FL657CF Wireless Headsets

1-FL505TCF ComHub + 1-420-0302-00, 7-ft tether cable

1-FLCC5 / Charging System Case

1-CCLP5 / Charger

1-114-0212-00 / Accessory Kit

Section C: Justification for Soliciting from a Single Source or Brand Name

Fightcom Corp, a division of Sonetics Corporation, manufactures headsets approved for use around conventional ordnance and and HERO SAFE nuclear weapons containing electrically initiated devices per attached memo from The Air Force Safety Center Weapons Safety Division (AFSEC/SEW) dated 20 January 2016. This memo states that the requested headsets are safe for use around HERO (Hazards of Electromagnetic Radiation to Ordnance) and SAFE nuclear weapons. If unauthorized headsets are utilized in the presence of HERO SAFE weapons, they may be accidentally triggered by electromagnetic fields which will be extremely detrimental to military personnel and civilians in the surrounding areas.

Section D: Efforts to Obtain Competition

Single Source Justification (Simplified Acquisition)

Due to the determination by the Air Force Center Weapons Safety Division (AFSEC/SEW) the requirement for the use of FlightCom wireless headsets precludes the inclusion of any other products from other companies. Therefore additional market research would not yield additional sources of supply.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Aviation communication systems are being handled on a case-by-case basis according to customer requirements. Market research will be conducted prior to future purchases to determine whether other commercially available sources are able to meet the need.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
