	Amendment 0001 is issued to provide the Government's responses to questions received for this Solicitation. The Government's responses are as follows: 1). It appears that this has been updated to reflect unrestricted as opposed to small business set aside. Is this correct? Answer: No, this opportunity is a 100% Small Business set-aside. It has not been updated to Unrestricted. 2) Is NOAA actually requesting machinery and operator to unload and store product in their outdoor yard? And if so, what logistics are needed to provide work and services in a government storage facility? Answer: NOAA wants the spools stored at their own facility in Pascagoula. It's an undeveloped storage yard at the end of Krebs Ave in Pascagoula. There's no equipment available here that could handle those spools. We don't have specific requirements for unloading and transport. The successful Offeror shall provide equipment and operators to offload spools and move them into storage position at the storage facility. 3) Because this is likely to be an import product and shipping times are estimates, will there be contact with storage facility staff to establish a window of time to facilitate the offload and storage as requested? Answer: The successful Offeror will provide a schedule of deliverables to the Contracting Officer's Representative (COR). All deliveries shall be discussed in advance with the COR and NOAA facility manager. NOAA can accommodate a delivery at any time, normal business hours are preferred. 4) Does the NOAA storage yard have access to heavy machinery for manipulation on this product? Each spool will weigh approximately Continued...

	30,000lbs, that will need to be moved at some time. Answer: The successful Offeror shall provide equipment and operators to offload spools and move them into storage position at the storage facility. 5) If the storage yard has heavy machinery available with certified staff, perhaps the RFQ should reflect this. (example would be personally I could be on site to label and help with dunnage, though I am not comfortable operating the heavy machinery in an offsite location like this.) Answer: NOAA does not have any cranes or lifts heavy enough to unload the spools. The successful Offeror shall provide equipment and operators to offload spools and move them into storage position at the storage facility. All other terms and conditions of Solicitation 1305M226Q0097 remain unchanged. Quotes are due by 1100 ET on May 11, 2026.
