OPEN AT SKELETON BAY 6

Architectural elevation drawing of the bridge structure, labeled "ELEVATION 1005". The drawing shows various bays: Erection Bay, Bay 1, Bay 2, Bay 3, Bay 4, Assembly Bay, and Skeleton Bay 6. Key features include existing pavement over fill, a new bridge deck, a new three-phase transformer, a rotor pedestal, and a gallery walk at the through rail. The drawing is a technical line drawing with some areas highlighted in green.

Architectural elevation drawing of the building facade, labeled "ELEVATION 988". The drawing shows a series of bays: ERECTION BAY, BAY 1, BAY 2, BAY 3, BAY 4, ASSEMBLY BAY, and SKELETON BAY 6. BAY 4 is highlighted in green and contains a large circular structure labeled "ROTOR PEDESTAL". Other features include "EXISTING ACCESS TUNNEL", "EXISTING FILL", "EXISTING RETAINING WALL", "OPEN TO BELOW", and "NEW BRIDGE SUPPORT".

Architectural elevation drawing of ELEVATION 973, showing a cross-section of a building. The drawing includes the following labels and features:

- EXISTING FILL**: Three areas at the top of the drawing, indicated by cross-hatching.
- EXISTING RETAINING WALL**: A wall structure located between the existing fill areas.
- OPEN TO BELOW**: Three locations where the structure is open to the level below, indicated by green dashed lines.
- NEW BRIDGE SUPPORT**: A structural element on the right side of the drawing.
- UNOCCUPIED ROTOR PEDESTAL**: A large, green-shaded octagonal area in the center-right, labeled "UNOCCUPIED" and "ROTOR PEDESTAL".
- OPEN TO BELOW**: A label pointing to the area above the rotor pedestal.
- ERECTOR BAY**: The leftmost bay at the bottom of the drawing.
- BAY 1**, **BAY 2**, **BAY 3**, **BAY 4**: A series of bays along the bottom of the drawing.
- ASSEMBLY BAY**: A bay located to the right of BAY 4.
- SKELETON BAY 6**: The rightmost bay at the bottom of the drawing.
