PART 1

1.0 GENERAL INFORMATION

1.1 This is a non-personal services contract to provide financial and program management support to the J8 DHA Direct Care Financial Management (J8/DCFM) Division in areas of Programming, Budget Development/Execution, Accounting, Audit Readiness, Reporting, and Training Support.

1.2 Description of services/introduction: The contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform J8 Direct Care Financial Management Division (DCFM) Financial and Program Management Support as defined in this Performance Work Statement (PWS) except for those items specified as government furnished property and services. The contractor shall perform to the standards in this PWS.

1.3 Background:

The Defense Health Agency (DHA) Direct Care Financial Management Division (DCFM) plays a critical role in managing the financial operations that underpin the delivery of high-quality healthcare across the Department of Defense's (DoD) global network of Military Treatment Facilities (MTFs) and Defense Health Networks (DHNs). With direct oversight of an annual budget exceeding \$12 billion, DCFM is responsible for ensuring fiscal discipline, compliance, and the strategic allocation of healthcare resources to support the readiness and well-being of service members, their families, and other beneficiaries.

As part of the ongoing enterprise transformation, DHA has assumed full financial responsibility for MTFs previously managed by the Military Departments. This transition marks a significant milestone in the consolidation of healthcare operations under DHA, requiring the standardization of financial processes, systems, and policies across the Military Health System (MHS). Effective FY24, DCFM expanded its mission to include direct financial support for 72 additional Air Force MTFs, doubling the number of facilities under its purview. This expansion coincided with the deployment of the General Fund Enterprise Business System (GFEBS) to Air Force MTFs, further increasing the complexity of financial operations.

In addition to managing this expanded scope, DCFM is tasked with ensuring audit readiness and compliance with federal financial management standards, including OMB Circular A-123 and the GAO Green Book. The division must address Notices of Findings and Recommendations (NFRs) from external audits, implement corrective action plans (CAPs), and maintain robust internal controls to sustain a clean audit opinion. These efforts are essential to demonstrating fiscal accountability and supporting the DoD's broader financial improvement and audit readiness (FIAR) goals.

DCFM also serves as the nexus between financial and procurement entities, facilitating contract management and reconciliation to ensure accurate alignment between procurement systems and financial records. This includes identifying and recapturing unused funds through de-obligation actions, which are critical to optimizing resource utilization and supporting mission priorities.

The operational environment within DCFM is dynamic and fast-paced, characterized by frequent changes in funding requirements, evolving policies, and the need for real-time decision-making. To address these challenges, DCFM relies on advanced data analytics, reporting tools, and dashboards to provide actionable insights into financial performance and compliance metrics. These tools enable leadership to make informed decisions and maintain enterprise-wide

visibility into fiscal health.

To further enhance its capabilities, DCFM requires the development and implementation of , data visualization platforms, custom applications, and robotic process automation (RPA) solutions to streamline financial data analysis and simplify complex workflows. These technologies will enable DCFM to automate repetitive tasks, improve data accuracy, and reduce processing times, thereby increasing operational efficiency. Additionally, the contractor will be responsible for creating and maintaining databases **and analytical tools** that facilitate the extraction, transformation, and analysis of financial data. These tools will also support audit readiness by enabling the efficient pulling of audit samples and ensuring compliance with federal standards.

Given the complexity and scale of its mission, DCFM requires specialized contractor support to perform non-government inherent functions, primarily obligation monitoring, contract management, audit readiness, reporting, training, and technology development. This support is essential to ensuring the division's ability to meet its operational objectives, sustain financial accountability, and deliver transparent, mission-aligned financial management across the MHS.

1.4 Objectives: To provide support across two Divisions within J8. Focused on core mission areas:

- Financial Improvement and Audit Readiness (FIAR) Program Support
- Contract Management Cell (CMC) Operations
- Reporting and Data Visualization
- Programming and Year-End Reporting
- Accounts Payable and Accounts Receivable Support
- Governance, Risk, and Compliance (GRC) Support
- Travel Support
- Civilian Payroll Assistance
- Budget Development and Execution
- Financial Management Education and Training

1.5 Scope: The scope of work will be organized across the following mission areas:

- FIAR Program Support – Ensure audit readiness and sustained compliance with OMB Circular A-123 and GAO Green Book (GAO-14-704G) requirements through proactive audit engagement, remediation, and internal control implementation.
- Contract Management Cell (CMC) Operations – Perform full-spectrum contract reconciliation, coordinate de-obligation actions, and facilitate communication between financial and procurement entities across the enterprise.
- Reporting and Data Visualization – Build and maintain financial dashboards, integrate data platforms, and provide analytical tools that support leadership decision-making, compliance monitoring, and enterprise visibility.
- Programming and Year-End Reporting – Support budget exhibits, year-end reporting, and civilian pay execution.
- Accounts Payable and Accounts Receivable Support – Monitor and resolve open deposits, corrections, and receivables; process invoices and purchase requisitions in accordance with

applicable DoD policies.

- Governance, Risk, and Compliance (GRC) Support – Assist with GRC requests, clean-up projects, and annual revalidation activities.
- Travel Support – Provide customer support for standard and patient travel, monitor travel reports, and assist with policy compliance.
- Civilian Payroll Assistance – Support civilian payroll operations, error resolution, and reporting.
- Financial Management Education and Training – Develop training materials and conduct training sessions for MTF and Market resource managers.

This support shall be implemented in a consistent and coordinated manner, leveraging both Government and contractor capabilities to deliver consistent execution, maintain audit standards, and sustain financial accountability across the Military Health System.

1.6 Period of Performance (PoP): The period of performance shall be for one (1) 12-month base period and four (4) 12-month option periods with the potential to extend the contract by an additional six (6) months under FAR 52.217-8 Option to Extend Services of Contract.

1.6.1 Transition: Transition-in/transition-out period.

1.6.1.1 Transition-in period: Full performance start date is, [Insert date]. Transition-in performance shall be accomplished through the contractor's submission of a transition-in plan (CDRL A000X). This transition plan shall include, but is not limited to:

- Review, evaluation, and transition of current support services.
- Transition of historical data to the new Contractor's systems.
- Government-approved training and certification processes.
- Transfer of all necessary business and/or technical documentation.
- An orientation phase and program to introduce Government personnel, programs, and users to the Contractor's team, tools, methodologies, and business processes.
- Distribution of Contractor-purchased, Government-owned assets, including facilities, equipment, furniture, phone lines, and computer equipment.
- Applicable DHA briefing and personnel in-processing procedures.
- Coordination with the Government to account for Government keys, ID/access cards, and security codes.

During the transition-in period, the contractor shall prepare to meet all contract requirements and ensure incoming personnel are functionally trained and qualified on the full performance start date except cybersecurity requirements, which must be fully adhered during transition and full performance periods. The remaining incoming personnel shall be trained and qualified within 30 days after contract award.

1.6.1.1.1 The contractor shall comply with transition-in requirements of the DHA, as listed in paragraph 1.11.1, for contractors needing to be issued Common Access Card (CAC) identification, including Department of Defense (DoD) and DHA-directed training and forms submission, prior to network access.

1.6.1.2 Transition-out period: The contractor shall submit a transition-out plan (CDRL A0002) no later than 60 days prior to the end of the contract or unexercised option period to facilitate the accomplishment of a seamless transition from the incumbent to an incoming contractor/Government personnel at the expiration of the contract. The transition out plan shall include:

- Coordination with Government representatives.
- Review, evaluation, and transition of current support services.
- Transition of historical data to the new Contractor's systems.
- Government-approved training and certification processes.
- Transfer of all necessary business and/or technical documentation.
- An orientation phase and program to introduce Government personnel, programs, and users to the Contractor's team, tools, methodologies, and business processes.
- Applicable DHA debriefing and personnel out-processing procedures.
- Turn-in of all Government keys, ID/access cards, and security codes.

1.6.1.2.1 The contractor shall comply with transition-out requirements of the DHA for contractors who have been issued a CAC or who generate “records”, as defined by DoD (records manual), including DoD-directed disposition of records, and others displayed on the In/Out (I/O) Processing Portal.

1.7 Administrative specifications

1.7.1 Place of performance: The work shall be performed at locations in Joint Base San Antonio, TX and the Defense Health Agency Headquarters (DHHQ), Falls Church, VA. Scheduled remote / offsite telework may be authorized on a situational basis. Additionally, remote / offsite telework may be directed when government facilities are not available due to temporary construction and/or repairs.

1.7.2 Recognized Federal holidays: Contractor is not required to perform services on holidays and will not be paid for these agency closings.

New Year’s Day	Labor Day
Martin Luther King Jr.’s Birthday	Columbus Day
President’s Day	Veterans Day
Memorial Day	Thanksgiving Day
Juneteenth National Independence Day	Christmas Day
Independence Day	

1.7.3 Hours of operation: The contractor is responsible for conducting business Monday thru Friday except Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. The contractor must always maintain an adequate workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons.

1.7.4 Emergency Services: Not Applicable

1.8 Contractor Travel: (See CDRL A005). The Contractor shall be required to travel both within the Continental United States (CONUS) and Outside of CONUS (OCONUS) to perform services in their accomplishment of the tasks. Contractor shall be authorized travel expenses consistent with the cost principles and procedures in Federal Acquisition Regulation (FAR) Part 31.2, Travel Costs and the limitations of funds specified in this contract. All travel requires Government approval/authorization and notification

to the Contracting Officer Representative (COR). Travel within 50 miles, one-way, of the employee's daily work location shall not be authorized reimbursement for any travel expenses.

Arrangements for and costs of all travel, transportation, meals, lodging, and incidentals are the responsibility of the Contractor. Travel costs shall be incurred and billed in accordance with FAR Part 31 and Department of Defense Instruction (DoDI) 5154.31, Commercial Travel Management. Costs for these expenses will be reviewed, certified, and approved by the COR. All travel and transportation shall utilize commercial sources and carriers. The Government will not pay for business class or first-class travel. Lodging and meals shall be reimbursed in accordance with regulations defined in FAR PART 31 and DoDI 5154.31, Commercial Travel Management.

The Government is providing a fixed price **not to exceed** travel line item in the amount of \$250,000.00 for each period of performance. However, actual travel must have been preapproved by the COR and contractor travel must have occurred in order to be billed. All travel will be billed in increments set forth by the quantities outlined in the award. All excess funding not used will be de-obligated from the travel line item.

In accordance with Task(s) 5.X, the contractor estimated travel is provided in the table below:

Trip Purpose	Destination	# of Trips	# of People	Estimated Cost
DCFM Contract Sync	San Antonio, TX	4		
DCFM Reporting/Data Visualization Sync	San Antonio, TX	12		
DCFM FIAR Sync				
DCFM Audit Site Visits				
Training Support Visits				

DCFM Quarterly Contract Sync: San Antonio, TX

Monthly DCFM Reporting / Data Visualization Sync: San Antonio, TX

Monthly DCFM FIAR Synchron

DCFM Audit Site Visits – locations vary

Training Support – Locations to be identified/approved annually

1.9 Other Direct Costs (ODC): Not Applicable

1.10 Quality

1.10.1 Quality Control (QC): The contractor shall develop and maintain an effective QC program to ensure services are performed in accordance with this PWS. The contractor shall develop and implement procedures to identify, prevent, and ensure nonrecurrence of defective services. The contractor's QC program is how the work complies with stated requirements. The Quality Control Program is to be submitted to the CO and COR within 30 days after contract award. Any revisions to the QCP shall be submitted to the CO and COR with 5 working days when changes are made thereafter. After acceptance of the Quality Control Plan (QCP) the contractor shall receive the CO's acceptance in writing of any proposed change to his QC system. See Part 7, Technical Exhibit 1 - CDRL A001.

1.10.2 Quality assurance (QA): The government will evaluate the contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan (QASP). This

plan provides a systematic method for the Government to evaluate performance and to ensure that the contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable defect rate(s).

1.11 Contractor personnel

1.11.1 CAC requirements: For all contractors who will work in Government facilities, the Facilities Security Officer (FSO)/Company's Security point of contact (POC) will provide the Government all the required information per the DHA CAC request process current version 2.1, January 2018, or more recent when updated. See process attached at Part 7 Section 7.1.1 of the PWS. A CAC is the standard identification for eligible DoD contractor personnel.

1.11.1.1 The contractor shall return all CACs to the COR upon the departure of the contractor(s).

1.11.2 Contractor onboarding and training. The contractor shall complete all requirements, training, and forms as prescribed in the following requirements:

1.11.2.1 The DHA's "Onboarding Checklist for Contractor Employees" is located at the DHA Onboarding and Offboarding Portal at <https://info.health.mil/cos/admin/hr/IO/SitePages/Home.aspx>

1.11.2.2 The DHA's contractor training instructions embedded at Part 7 Section 7.1.2. (*Government (DHA) requirements development staff must cut/paste onboarding checklist at ed most up-to-date form in Part 7, Section 7.1.2.*) The contractor shall comply with onboarding requirements of the DHA for contractors needing to be issued CAC identification, including DoD- and DHA-directed training and forms submission, prior to network access, as displayed in the In/Out-Processing Portal at: <https://info.health.mil/cos/admin/hr/IO/SitePages/home.aspx> (note: Public Key Infrastructure (PKI)-restricted, printed versions available).

1.11.2.3 The DHA's new employee handbook at Part 7 Section 7.1.4.

1.11.3 Physical Security: The contractor shall be responsible for safeguarding all government equipment, information and property provided for contractor use. At the close of each work period, government facilities, equipment, and materials shall be secured.

1.11.4 Key control: The contractor shall establish and implement methods of making sure all keys/key cards issued to the contractor by the Government are not lost or misplaced and are not used by unauthorized persons. NOTE: All references to keys include key cards. No keys issued to the contractor by the Government shall be duplicated. The contractor shall develop procedures covering key control that shall be included in the QCP. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the CO.

1.11.4.1 In the event keys, other than master keys, are lost or duplicated, the contractor shall, upon direction of the CO, re-key or replace the affected lock or locks; however, the

Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due the contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payment due the contractor.

1.11.4.2 The contractor shall prohibit the use of Government issued keys/key cards by any persons other than the contractor's employees. The contractor shall prohibit the opening of locked areas by contractor employees to permit entrance of persons other than contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the CO.

1.11.5 Lock combinations: Reserved

1.12 Key personnel (Contractor): The contractor shall provide a contract manager who shall be responsible for the performance of the work. The name of this person and an alternate who shall act for the contractor when the manager is absent shall be designated in writing to the CO. The contract manager or alternate shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract. The contract manager or alternate shall be available between [Insert the hours, i.e., 8:00 a.m. to 4:30 p.m.], Monday thru Friday except Federal holidays or when the government facility is closed for administrative reasons. Qualifications for all key personnel are listed below:

[Insert the qualifications for all key personnel, i.e., 1.12.1 Contract Manager and Alternate.

1.13 Data rights: Reserved

1.14 Reporting

1.14.1 Contractor Manpower Reporting (CMR): Reserved

1.14.2 Non-Disclosure Agreement (NDA): All contractor personnel who will obtain access to proprietary, classified, or confidential information or any information release of which is protected or governed by law or regulation associated with DHA acquisitions shall be required to complete and sign a DHA contractor NDA (DHA Form 49) prior to beginning work on the subject contract. The contractor shall execute an NDA on behalf of the company and shall ensure that all staff assigned to, including all subcontractors and consultants, or other personnel performing on contract/Task order execute an NDA protecting the procurement sensitive information of the Government and the proprietary information of other contractors. The NDA shall be executed not later than first day of employment and to be renewed upon exercising a contract option period. Assignment of staff who has not executed this statement or failure to adhere to this statement shall constitute default on the part of the contractor. The contractor shall maintain originally signed NDAs of individual employees and provide copy to the COR. (See CDRL A003)

1.14.3 Government's COR: The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: assure that the contractor performs the technical requirements of the contract; perform inspections necessary in connection with contract performance; maintain written and oral

communications with the contractor concerning technical aspects of the contract; issue written interpretations of technical requirements, including Government drawings, designs, specifications; monitor contractor's performance and notifies both the CO and contractor of any deficiencies; coordinate availability of government furnished property; and provide site entry of contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the contractor, states the responsibilities and limitations of the COR, especially about changes in cost or price, estimates or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting contract.

1.14.4 Post award conference/periodic progress meetings : The contractor agrees to attend any virtual post award conference convened by the contracting activity or contract administration office in accordance with FAR Subpart 42.5. Transition-out conference meeting will be held 60 days prior to the end of the contract or unexercised option period. The CO, COR, and other Government personnel, as appropriate, may meet periodically with the contractor to review the contractor's performance. At these meetings the CO will apprise the contractor of how the government views the contractor's performance and the contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the government. Contractor will submit a Monthly Status Report describing completed deliverables (CDRL A004).

1.15 Contractor Identification

1.15.1 Contractor personnel performing services in a contractor capacity in a government facility are required to possess and wear an identification badge that displays his or her name and the name of their company. All contractor personnel shall identify themselves as contractor support personnel in all forms of communication with all entities with whom DHA/Deputy

Assistant Director for Acquisition (DAD-A)/Head of the Contracting Activity (HCA) has business dealings. The contractor shall: Answer all telephone calls and have a personalized voice message with an introductory statement that includes the fact that the person is contractor support personnel. Ensure all those with whom the person interacts in any face-to-face dealings while supporting the DAD-A understands that the person is contractor support personnel. Include a title block in all emails that states the fact that the person is contractor support personnel. Ensure all those with whom the person interacts in any face-to-face dealings while supporting DHA/DAD-A/HCA understands that the person is contractor support personnel.

1.15.2 Contractor personnel will be required to attend meetings or otherwise communicate with Government and/or other contract representatives to meet the requirements of this order. Contractor personnel shall make their contractor status known during introductions.

1.15.3 Contractor personnel, while performing in a contractor capacity, are prohibited from using their retired or reserve component military rank or title in any written or verbal communications associated with the contracts in which they provide services.

1.16 Contractor Access to Health Affairs (HA)/DHA Network(s)

1.16.1 FSO/Company's Security POC shall notify the DHA Personnel Security Office after being awarded a contract that requires access to a DoD system (If applicable, if not delete 1.16.1 and 1.16.2 and replace to 1.16 Reserved). Contractor personnel requiring access to the HA/DHA networks for performance of their tasks require a background investigation and the security awareness training. The contractor shall be prepared for this process as it could take two (2) or more weeks. The FSO/Security POC shall submit a Standard Form (SF) 85/86 to DHA's Personnel Security Office for a background investigation.

1.16.2 Company's FSO/Security POC must notify the Personnel Security Office when the contractor has submitted the SF-85/86. The FSO/Security POC, or the COR must notify the DHA Personnel Security Office in writing of a contractor's termination from the contract, including the termination date.

1.17 Personnel Security

1.17.1 The contractor shall comply with DoD 8570.01-M, "Information Assurance Workforce Improvement Program, CH4" November 10, 2015 as amended; 8500.01, "Cybersecurity", dated March 14, 2014; DoD Manual (DoDM) 6025.18, "Implementation of the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule Compliance in DoD Health Care Programs" dated March 3, 2019, Department of Defense Instruction (DoDI) 6025.18 "HIPAA Privacy Rule Compliance in DoD Health Care Programs", dated March 13, 2019; and DoDM 5200.02 "Procedures for the DoD Personnel Security Program (PSP)," incorporation change 3, effective September 24, 2020. Contractor responsibilities for ensuring personnel security include, but are not limited to, meeting the following requirements:

1.17.1.1 Follow the DHA Personnel Security Office guidelines for submittal of security clearances. Contact the DHA Personnel Security Office for guidance on the appropriate background investigation required for personnel on the contract. The DHA Personnel Security Office can be reached at (703) 275-6038.

1.17.1.2 Initiate, maintain, and document personnel security investigations appropriate to the individual's responsibilities and required access to Controlled Unclassified Information (CUI).

1.17.1.3 DHA Personnel Security Office does not deny any access to any automated information system (AIS), network, or Controlled Unclassified Information (CUI). If a contractor receives an unfavorable background investigation, the request for access will be sent back to the FSO for further action. Any unfavorable adjudication will result in DHA Personnel Security Office not signing off on any access request.

PART 2

2.0 DEFINITIONS, ACRONYMS, AND APPLICABLE PUBLICATIONS/INSTRUCTIONS

2.1 Definitions:

2.0.1 Category D: Information Technology (IT) and Telecommunications Services (called D-Services)

2.0.2 Category R: Support (Professional/Administrative/Management) Services (called R-Services)

2.0.3 Contracting Officer (CO): A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings.

2.0.4 Contracting Officer's Representative (COR): An individual, including a contracting officer's technical representative (COTR), designated, and authorized in writing by the CO to perform specific technical or administrative functions. This individual does NOT have authority to change the terms and conditions of the contract.

2.0.5 Nonpersonal services contract: a contract under which the personnel rendering the services are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

2.0.6 Quality Assurance Surveillance Plan (QASP): An organized written document specifying the surveillance methodology to be used for surveillance of contractor performance. The Government may either prepare the QASP or require the offerors to submit a proposed quality assurance surveillance plan for the Government's consideration in development of the Government's plan.

2.1 Acronyms:

ABACUS	Armed Forces Billing and Collections Utilization Solution
ADP/IT	Automated Data Processing/Information Technology
ADS	Automated Disbursing System
ADVANA	Derived term: "Advancing Analytics" is a DoD enterprise
AIS	Automated Information System
AQL	Acceptable Quality Level
ARRT	Acquisition Requirements Roadmap Tool
AO	Authorizing Official
ATO	Authority to Operate
AXOL	Access On-Line
BI	Business Integration
BUMED	Bureau of Medicine and Surgery

PART 3

3.0 GOVERNMENT FURNISHED PROPERTY, EQUIPMENT, AND SERVICES

The Requiring Activity Authority has assessed the need for Government Furnished Property, Equipment, and Services and determined:

3.1 Services: The Government:

☒ Will **NOT** provide Government Furnished Services in support of this contract/task order. As a result, this paragraph is Not Applicable.

☐ **WILL** provide Government Furnished Services required in support of this contract/task orders. These Services are described below:

3.2 Facilities: The Government:

☐ Will **NOT** provide Facilities in support of this contract/task order. As a result, this paragraph is Not Applicable.

☒ **WILL** provide Facilities in support of this contract/task orders. The Government provided Facilities are described below:

The necessary workspace for the contractor staff to provide the support outlined in the PWS to include desk space, telephones, computers, and other items necessary to maintain an office environment will be provided at government facilities at Joint Base San Antonio, TX, and the Defense Health Agency Headquarters (DHHQ), Falls Church, VA. These items are authorized for transaction of official Government business only and shall not be used for personal business. Personal long-distance calls are not authorized, and the cost of all personal long-distance calls made by contractor or subcontractor employees may be deducted from the contractor/s invoice payments. Telephones, facsimile machines, and computer equipment to include laptops are always subject to communications security monitoring. Contractor and subcontract employees may be issued keys signed for at scheduled and unscheduled key control inspections. The contractor shall be required to reimburse the Government for lost keys, or lockset (if lockset is required to be replaced) because of lost keys. The cost of replacement of keys/locksets may be deducted from payments to the contractor., They are to be used, turned in and/or disposed of as directed by the COR or CO.

3.3 Utilities: The Government:

☐ Will **NOT** provide Utilities in support of this contract/task order. As a result, this paragraph is Not Applicable.

☒ **WILL** provide Utilities in support of this contract/task orders. The Government provided Utilities are described below: all utilities in the facility will be available for the contractor's use in performance of tasks outlined in this PWS. The Contractor shall instruct employees in utilities conservation practices The Contractor shall instruct employees in utilities conservation practices.

3.4 Equipment: The Government:

☐ Will **NOT** provide Equipment in support of this contract/task order. As a result, this paragraph is Not Applicable.

☒ **WILL** provide Equipment in support of this contract/task orders. The Government provided Equipment is described below:

3.4.1 Procurement Integrated Enterprise (PIEE), GFP Module Application

The contractor shall be responsible for obtaining and maintaining access, training, and successful operation of the PIEE/GFP Module application for the entirety of the contract/task order PoP. The PIEE GFP Module application is located at the following website:

<https://wawf.eb.mil/piee-landing/>. Access to PIEE/GFP Module application training materials and in-depth information applicable to the contractor's responsibilities regarding GFP can be found at the following website: <https://dodprocurementtoolbox.com/>.

Contracting Office Responsibilities:

The Contracting Office shall ensure close coordination and validation of the GFP items with the COR and DHA Accountable Property Officer prior to uploading the GFP Attachment into the PIEE/GFP Module. At the time GFP is anticipated and identified, the Government will upload the GFP Attachment into the PIEE/GFP Module. It is the Contracting Office's responsibility to prepare, upload and maintain the GFP Attachment in the PIEE/GFP Module in accordance with the GFP Attachment instructions provided at the DoD Procurement Toolbox. The CO and COR shall manage and keep an inventory of any GFP associated with contract/task orders awarded through DHA, in accordance with applicable FAR Part 45, DoD FAR Supplement (DFARS) 245 with respective clauses, DHA AI 095 and PD 45-01 following the change in disposition of items listed on that PIEE/GFP Module Attachment.

The contracting office will also review, acknowledge, reject and/or approve shipment orders provided by the contractor as appropriate. Functional roles can be determined within the Contracting Office and requested within the PIEE/GFP Module system.

Contractor Responsibilities:

A key contractor responsibility is to work with the CO and COR to ensure the PIEE/GFP Module data, to include the PIEE/GFP Attachment, provides a timely, complete, and accurate accounting of the GFP applicable to the contract/task order. Contractors are required to report the receipt of any GFP shipped to them, regardless of whether it is listed on the GFP Attachment for their contract. Similarly, contractors are required to utilize the GFP Module application in conjunction with the shipment of GFP to the Government, or in reporting Property Loss of GFP

issued (such as destruction or loss). Discrepancies or disputes regarding property shipped to or shipped from the contractor must be reported via the GFP Module application, with the CO having authority over final designation of status.

3.5 Materials: The Government:

☒ Will **NOT** provide Materials in support of this contract/task order. As a result, this paragraph is Not Applicable.

☐ **IS** providing Materials in support of this contract/task orders. The Government-provided Materials are described below:

PART 4
4.0 CONTRACTOR FURNISHED ITEMS AND SERVICES

4.1 General: Reserved

4.2 Secret Facility Clearance: Reserved

4.3 Materials: Reserved

4.4 Equipment: Reserved

4.5 Facilities: Reserved

PART 5

5.0 SPECIFIC TASKS

5.1 Financial Support Desk (FSD)

5.1.1 Financial Analysis

5.1.2.1 The Contractor shall process and reconcile funding documents within Service-specific and internal financial systems to support the delivery of healthcare in MTFs in accordance with (IAW) fiscal law and DHA policies and business rules, to support future programming and audit.

5.1.2.2 The Contractor shall provide administrative support in the development of fiscal guidance and policy for financial management at the MTF level.

5.1.2.3 The Contractor shall perform budget execution review work during the execution phase, involving the monitoring of incurred and actual expenditures of a budget with different sources of funding, such as direct annual, multi-year, and no-year appropriations, apportionments, allotments, and transfers of funds from other DoD organizations.

5.1.2.4 The Contractor shall monitor spend plans and the use and rate of expenditures of budgeted funds through continuing dialogue with program officials and their staff, review of written documents, and examination of accounting records.

5.1.2.5 The Contractor shall prepare and analyze a variety of reports covering the status of funds, expenses, and obligations as required by higher headquarters.

5.1.2.6 The Contractor shall compare obligations and expenditures and identify conditions of over- or under-obligation of funds; analyze unfunded requirements to ensure accurate projections of financial posture; and develop recommendations for budgetary adjustments to support unanticipated changes in program operations and/or funding.

5.1.2.7 The Contractor shall maintain and review a comprehensive funds control system for appropriated funds to assure the accurate accounting and reporting of commitments and obligations, availability of funds, validity of documents within the official accounting system, and determination of the appropriateness of funds utilization for requested materials and services.

5.1.2.8 The Contractor shall participate in formulating budget estimates and program justifications to include all funding requirements, and shall evaluate spend plans and unfunded requirements to ensure accurate projections of financial posture.

5.1.2.9 The Contractor shall monitor year-end closing to ensure proper and full use of funds.

5.1.2.10 The Contractor shall make sound recommendations for adjustments in program spending.

5.1.2.11 The Contractor shall identify and research anomalies in financial data.

5.1.2.12 The Contractor shall generate reports to enable data-driven decisions by leaders at all levels within the Military Health System.

5.1.2.13 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.1.3 Programming and Budget Execution Reporting Support

5.1.3.1 The Contractor shall support DCFM Government employees in the compilation of various programming cycle documents, primarily concerning Direct Care.

5.1.3.2 The Contractor shall assist Government employees in activities and processes required for programmatic actions, including development and staffing of issue papers, Budget Change Proposals, Programming Change Proposals, Memoranda of Agreement (MOAs), various DoD budget exhibits (e.g., PB-15, PB-18, OP-26, PB-28, OP-53), and other agency-level coordination; analysis of programming actions or legislative decisions; and reconciliation of actual execution and programmed controls.

5.1.3.3 The Contractor shall maintain historical records to document programmatic decisions and shall prepare routine and ad hoc reports.

5.1.3.4 The Contractor shall provide support for monthly, quarterly, year-end, and ad hoc execution reporting to other DHA J8 Divisions, to include compilation of year-end actuals at the Budget Activity Group (BAG), Program Element

(PE), and OP-32-line levels from data extracted from GFEBS and DEAMS.

5.1.3.5 The Contractor shall provide support for the compilation of quarterly, year-end, and ad hoc civilian pay execution data, to include Full-Time Equivalent (FTE) execution computation at BAG and PE levels from data extracted from GFEBS and DEAMS.

5.1.3.6 The Contractor shall be proficient in Microsoft Office applications and the preparation of executive-level presentations, and shall be skilled in oral and written communications.

5.1.3.7 The Contractor shall provide Key Personnel IAW Section 1.13 of this PWS.

5.2 Accounting Support

5.2.1 Program Management

5.2.1.1 The Contractor shall provide senior-level analysis, reports, and recommendations on MTF and Market resource allocation and utilization.

5.2.1.2 The Contractor shall complete special projects, including business case analysis and research, to address anomalies in financial data and performance.

5.2.1.3 The Contractor shall demonstrate competencies consistent with a Senior Financial Analyst role and shall facilitate training for resource management staff and leadership at the Market and MTF level.

5.2.1.4 The Contractor shall synchronize reporting and training efforts between DCFM and the Business Integration Division related to web-based tools, reports, and data management.

5.2.2 Financial Application Reporting, Database Development and Maintenance, and Data Visualization

5.2.2.1 The Contractor shall operate in a support capacity with DHA DCFM Accounting personnel to assist in the compilation of various reports from data extracted from DoD financial systems, to include PIEE, GFEBS, and DEAMS. The Contractor shall create work products that support the visualization of data (e.g., graphs, bar charts, pie charts) as directed by the DCFM Accounting Branch Chief.

5.2.2.2 The Contractor shall develop and maintain various databases based on requirements established by DCFM POCs.

5.2.2.3 The Contractor shall prepare GFEBS Financial and Accounting System Reports for managerial decision-making.

5.2.3 Contract Management Support

5.2.3.1 The Contractor shall identify and prioritize de-obligations.

5.2.3.2 The Contractor shall have access to GFEBS, DEAMS, Wide Area Workflow (WAWF), and ADVANA.

5.2.3.3 The Contractor shall analyze contract data, perform reconciliations, and provide feedback for requirements identified as priority reviews (e.g., JFARM, consolidation plans, requests from Networks and activities), Quarterly Contract Reviews, and RPT/SOO.

5.2.3.4 The Contractor shall work with the requiring activity to gain concurrence for de-obligations.

5.2.3.5 The Contractor shall monitor all contract-related reports and shall work with Accounts Payable (AP) and activities to correct data quality issues.

5.2.3.6 The Contractor shall assist with and document Quarterly Contract Reviews and Contract Execution Review Board (CERB) requirements.

5.2.3.7 The Contractor shall work with the DCFM Reporting Section to validate reports.

5.2.4 Audit Support

5.2.4.1 The Contractor shall operate in a support capacity with the DHA DCFM Accounting Branch to assist in tracking progress for audit responses.

5.2.4.2 The Contractor shall review submissions from the field to ensure all Key Supporting Documents (KSDs) are provided as required.

5.2.4.3 The Contractor shall validate that DCFM Central Repositories contain all required documents.

5.2.4.4 The Contractor shall spot-check assigned processes to validate that proper procedures are being followed and

that no Personally Identifiable Information (PII) spillage has occurred.

5.2.4.5 The Contractor shall research, coordinate, and submit responses to satisfy Provided by Customer (PBC) requests.

5.2.4.6 The Contractor shall identify trends and develop recommended resolutions to audit issues and training requirements.

5.2.4.7 The Contractor shall support the DCFM Risk Management and Internal Controls (RMIC) Program and Quarterly Dormant Accounts Review (DAR-Q) reconciliations.

5.2.4.8 The Contractor shall compile a draft Annual OMB Circular A-123, Appendix A Assessment Plan to summarize how testing activities outlined in the plan will meet the overall requirements of OMB Circular A-123, Appendix A.

5.2.4.9 The Contractor shall assist with compiling the DCFM Annual Statement of Assurance (SoA).

5.2.4.10 The Contractor shall conduct a quality review of each Notice of Finding and Recommendation (NFR) and, in coordination with DCFM Subject Matter Experts (SMEs), shall support the development and implementation of Corrective Action Plans (CAPs).

5.2.4.11 The Contractor shall support the identification, review, and revision of applicable Information Technology General Controls (ITGCs) and Application-Level Controls (ALCs) related to material financial systems, and shall assess, document, and test their compliance with the Federal Information System Controls Audit Manual (FISCAM).

5.2.4.12 The Contractor shall perform testing of general or application controls IAW FISCAM, where applicable.

5.2.4.13 The Contractor shall coordinate with external system owners and other external stakeholders to obtain documentation of the effectiveness of system controls and to assess deficiencies identified by system owners.

5.2.4.14 The Contractor shall monitor system changes for impact on controls.

5.2.4.15 The Contractor shall develop and implement corrective action plans, as necessary.

5.2.4.16 The Contractor may be directed by the COR to perform backup functions for other branches or sections within J8/DCFM, as workload permits and within the scope of this contract.

5.2.4.17 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.2.4.18 The Contractor shall provide Key Personnel IAW Section 1.13 of this PWS.

5.2.5 Governance, Risk, and Compliance (GRC) Support

5.2.5.1 The Contractor shall operate in a support capacity with the DHA DCFM GRC staff.

5.2.5.2 The Contractor shall create GRC requests, provide reports, track progress on any clean-up requirements, assist with annual revalidation, and ensure all required supporting documents are uploaded to the DCFM SharePoint repository.

5.2.5.3 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.2.6 Accounts Receivable Support

5.2.6.1 The Contractor shall operate in a support capacity with the DHA DCFM Accounts Receivable team.

5.2.6.2 The Contractor shall provide support by monitoring and reviewing open deposits, DD Form 3210 corrections, and reimbursable receivables in the accounting system across all MTFs.

5.2.6.3 The Contractor shall assist the team with researching open receivables greater than 30 days and shall assist MTFs with error resolution (e.g., failed postings, unmatched transactions, IDOC errors) and input/posting into the Automated Disbursing System (ADS) and/or GFEBS upon request.

5.2.6.4 The Contractor shall provide recurring reports to document progress being made to resolve assigned responsibilities.

5.2.6.5 The Contractor shall process journal vouchers (JVs) on behalf of MTFs as directed by DCFM personnel. JVs will originate from various sections within DCFM.

5.2.6.6 The Contractor shall be knowledgeable of MHS policy and regulations governing Public Receivables and Reimbursables, and the accounting systems (GFEBS and DEAMS) and related systems (ABACUS, ADS, IPAC, dCAS, etc.) utilized by the MTFs.

5.2.6.7 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.2.7 Accounts Payable Support

5.2.7.1 The Contractor shall have access to GFEBS, DEAMS, WAWF, and ADVANA.

5.2.7.2 The Contractor shall create GFEBS Purchase Requisitions as required.

5.2.7.3 The Contractor shall work with the requiring activity to ensure requirements are set up properly.

5.2.7.4 The Contractor shall monitor and analyze all AP-related reports and shall work with other DCFM sections and activities to correct data quality issues.

5.2.7.5 The Contractor shall validate reports in coordination with the DCFM Reporting Section.

5.2.8 Operations Support

5.2.8.1 The Contractor shall have access to GFEBS, DEAMS, WAWF, and ADVANA.

5.2.8.2 The Contractor shall create GFEBS Purchase Requisitions as required.

5.2.8.3 The Contractor shall work with DCFM to ensure requirements are set up properly.

5.2.8.4 The Contractor shall monitor and analyze all headquarters (HQ) execution reports and shall work with other DCFM sections and activities to correct data quality issues.

5.2.8.5 The Contractor shall prepare GFEBS and DEAMS Financial and Accounting System Reports for managerial decision-making.

5.2.8.6 The Contractor shall assist with special projects as identified and directed by the COR.

5.2.8.7 The Contractor shall create, maintain, and modify GFEBS master data elements based on DCFM requirements.

5.2.9 Travel Support

5.2.9.1 The Contractor shall operate in a support capacity with the DCFM Travel team to provide customer support for both standard and patient travel, run and monitor travel reports, provide customer service assistance to users, assist with clearing Unliquidated Obligations (ULOs) and Unmatched Transactions (UMTs), validate that all compliance documents are uploaded to the DCFM repository, and assist with policy updates.

5.2.9.2 The Contractor shall be knowledgeable of DoD and MHS policies relating to travel and shall be experienced in the use of the Defense Travel System (DTS) and GFEBS.

5.2.9.3 The Contractor shall be knowledgeable of system requirements to include GFEBS, DTS, the Operations Data Store (ODS), and dCAS.

5.2.9.4 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.2.10 Civilian Payroll Assistance

5.2.10.1 The Contractor shall operate in a support capacity with the DCFM Civilian Pay (CivPay) team to provide customer support and coordination for civilian payroll requirements, run and monitor payroll reports, provide customer service assistance to users, and assist with clearing errors.

5.2.10.2 The Contractor shall assist activities in identifying and correcting payroll errors.

5.2.10.3 The Contractor shall assist in the dissemination of payroll-related information and guidance.

5.2.10.4 The Contractor may be directed by the COR to perform backup functions for other areas within DCFM, as workload permits and within the scope of this contract.

5.2.10.5 The Contractor shall be knowledgeable of DoD and MHS policies relating to Civilian Payroll and shall be experienced in the use of GFEBS and the Defense Civilian Pay System (DCPS).

5.2.10.6 The Contractor shall be knowledgeable of system requirements to include GFEBS and DCPS.

5.2.10.7 The Contractor shall be proficient in Microsoft Office applications and shall be skilled in oral and written communications.

5.3 Financial Improvement and Audit Readiness (FIAR) Program Support

5.3.1 Audit Response

5.3.1.1 The Contractor shall support DCFM's review, analysis, distribution, tracking, and responses to external audit requests received from the Department of Defense Inspector General (DoDIG), Government Accountability Office (GAO), and Independent Public Accountant (IPA). Representing all fund centers aligned under the DHA, the DHA-DCFM receives in excess of 500 audit sample requests throughout the fiscal year. It is critical that audit sample request packages are complete, contain all required Key Supporting Documents (KSDs), are completed in a timely and accurate manner, and undergo quality reviews to support the agency's goal of achieving a clean audit opinion. The Contractor shall assist in the compilation of audit response packages while monitoring remediation efforts. Critical outputs include preparation of audit packages, audit training, site visits, and walkthrough support. The Contractor shall facilitate key audit activities and work products, to include:

5.3.1.2 Development of an Audit Response Center (ARC) Strategy Plan to outline the DHA-DCFM's approach to efficiently managing multiple requests for information, data, and supporting documentation during the financial statement audit, including timelines and roles and responsibilities.

5.3.1.3 Coordination and interface with DHA Financial Reporting and Compliance (FR&C), Defense Health Program (DHP) Financial Statement Auditors, Service Providers, and other stakeholders, specifically in support of preparing for entrance and exit conferences and tracking ongoing audit sample requests.

5.3.1.4 Supplemental support in designing, implementing, and executing quality assurance reviews across the audit response life cycle.

5.3.1.5 Audit response support for both Business and IT processes and resulting Key Supporting Documents.

5.3.1.6 A reporting approach utilizing data analytics to provide status of the program, objectives, and areas for improvement.

5.3.2 Audit Remediation

5.3.2.1 The Contractor shall support all non-inherently governmental activities related to internal validation and reporting of remediation, including evaluation of Notices of Findings and Recommendations (NFRs) and deficiencies, developing Corrective Action Plans (CAPs) to remediate IPA findings, monitoring implementation as prioritized by DHA-DCFM leadership, and tracking and reporting the status of remediation efforts to stakeholders. The Contractor shall support DHA-DCFM and CAP action officers throughout the CAP lifecycle and shall perform validation procedures on evidentiary artifacts as part of internal controls evaluation. The Contractor shall support the remediation of deficiencies discovered by the DoD OIG or IPA by locating and presenting required source documentation, confirming DHP's position through remediation activity execution, analysis, and results reviews. Critical outputs include comprehensive status briefings and plans for corrective action and remediation, leveraging the ODCFO NFR database. In performance of this task, the Contractor shall:

5.3.2.2 Conduct root cause analysis on audit findings and known audit weaknesses, including IPA NFRs.

5.3.2.3 Coordinate NFR feedback from Subject Matter Experts (SMEs) to determine any necessary revisions to draft NFRs.

5.3.2.4 Track and report NFR and deficiency response status, collect source files, and perform crosswalks to previously identified deficiencies to inform root cause analysis and CAPs.

5.3.2.5 Develop and/or coordinate written recommendations based upon cited conditions.

5.3.2.6 Conduct training workshops on CAP development and implementation tools, processes, and best practices, such as SOP development, control design, test script development and execution, and sampling procedures to support sustainment.

5.3.2.7 Maintain reconciled NFR dashboards on a recurring basis, with documentation of concurrence or non-concurrence with each NFR, including an explanation and/or proposed corrective action.

5.3.3 Risk Management and Internal Controls (RMIC) Support

5.3.3.1 The Contractor shall support DHA-DCFM in building upon and enhancing its existing Risk Management and Internal Controls (RMIC) program. The objective of the RMIC program is to identify, manage, and monitor mission-critical risks in operations, policies, and procedures, and to establish and maintain an effective internal control system in accordance with the Standards for Internal Control in the Federal Government, GAO-14-704G ("Green Book"), September 2014. In support of DHA-DCFM RMIC, the Contractor shall utilize a prioritized, risk-based approach to enable more effective decision-making and obtain reasonable assurance through risk-based analysis, remediation, and

continuous monitoring that operations are effective and efficient, that financial reporting is reliable and timely, and that DHA-DCFM is compliant with applicable laws and regulations. The Contractor shall support the implementation of the DHA-DCFM's RMIC program across the organization based on Office of Management and Budget (OMB) Circular A-123 requirements for Internal Controls over Reporting (ICOR), including ICOR-Financial Reporting (ICOR-FR), ICOR-Operations (ICOR-O), and ICOR-Financial Systems (ICOR-FS). In performance of this task, the Contractor shall:

5.3.3.2 Effectively execute the implementation of OMB Circular A-123, "Management's Responsibility for Enterprise Risk Management and Internal Control," and all provisions of a robust process of risk management and internal control via the DHA-DCFM RMIC program, with results reported in the Statement of Assurance (SoA).

5.3.3.3 Develop the DCFM Annual Statement of Assurance (SoA) Guide.

5.3.3.4 Evaluate the effectiveness and efficiency of the OMB Circular A-123 program implementation, to include identifying and documenting end-to-end business processes, performing integrated risk assessments, evaluating internal controls, and reporting deficiencies.

5.3.3.5 Govern and enhance the financial and Information Technology (IT) controls framework to identify, standardize, and test internal controls over reporting per OMB Circular A-123. Evaluate the Test of Design (ToD) and Test of Effectiveness (ToE) of DHA-DCFM controls.

5.3.3.6 Track and report RMIC program status utilizing advanced data analytics and dashboarding to provide DHA-DCFM leadership with oversight of organizational risks and vulnerabilities, as well as areas for business process and control improvement.

5.4 Contract Management Cell (CMC)

5.4.1 Overview

DCFM's Contract Management Cell (CMC) plays a critical role in strengthening oversight of financial execution by serving as the nexus between Defense Health Networks (DHNs), MTFs, Contracting Offices, and CORs. The Contractor shall support the end-to-end contract lifecycle to ensure accurate alignment between procurement and financial systems and the timely recapture of excess or unused funds. Core tasks include:

5.4.2 Comprehensive Contract Reconciliation

5.4.2.1 The Contractor shall perform in-depth reviews of contract line items, obligations, modifications, and invoicing activity.

5.4.2.2 The Contractor shall reconcile discrepancies between GFEBS, the Procurement Integrated Enterprise Environment (PIEE), and other financial and procurement platforms.

5.4.2.3 The Contractor shall validate Unliquidated Obligations (ULOs) and ensure funds are accurately accounted for and de-obligated when appropriate.

5.4.3 De-obligation Strategy and Execution

5.4.3.1 The Contractor shall identify contracts with excess or unused funds and develop data-driven strategies for timely de-obligation and recoupment.

5.4.3.2 The Contractor shall support the development of de-obligation packages and coordinate submissions to Contracting Offices.

5.4.3.3 The Contractor shall partner with the U.S. Army Health Contract Activity (USAHCA) and the Defense Health Agency Contracting Activity (DHACA) to prioritize DCFM-related de-obligation packages and facilitate agency-wide coordination.

5.4.4 Strategic Stakeholder Engagement

5.4.4.1 The Contractor shall act as the primary liaison between DHNs, MTFs, CORs, and Contracting Offices.

5.4.4.2 The Contractor shall establish processes to improve communication, standardize reporting, and ensure timely contract closeout actions.

5.4.4.3 The Contractor shall facilitate resolution of execution barriers and bottlenecks through collaboration and

corrective action planning.

5.4.5 Contract Performance Reviews

5.4.5.1 The Contractor shall lead monthly and quarterly reviews with stakeholders to assess contract execution trends.

5.4.5.2 The Contractor shall analyze performance metrics, contract utilization, and spend rates to inform decision-making.

5.4.5.3 The Contractor shall generate reports to highlight underperforming contracts and provide recommendations for corrective actions or realignment. Reports shall be submitted to the COR no later than 10 business days following the close of each review period.

5.5 Reporting and Data Visualization

5.5.1 Overview

Timely and accurate reporting is essential to ensuring transparency and strategic decision-making within DCFM. The Contractor shall provide data analytics and visualization support to enhance financial oversight, performance monitoring, and audit readiness. All dashboards, reports, and visualizations developed under this section shall comply with Section 508 of the Rehabilitation Act. This includes the following:

5.5.2 Financial Dashboard Development

5.5.2.1 The Contractor shall design and develop user-friendly dashboards that integrate data across GFEBs, ADVANA, and other enterprise platforms.

5.5.2.2 The Contractor shall design the Healthcare Execution and Accountability for Leaders (HEAL) Dashboard to provide visibility into fiscal health by tracking key financial metrics through graded Key Performance Indicators (KPIs) and supplemental charts.

5.5.2.3 The Contractor shall provide executive-level insights into budget execution, contract health, and audit status.

5.5.2.4 The Contractor shall incorporate drill-down functionality for MTF and Network-level visibility.

5.5.3 Predictive Analytics and Trend Identification

5.5.3.1 The Contractor shall employ statistical models to forecast areas of contract underperformance or risk. The Contractor shall document and justify the analytical methodologies used, which may include regression analysis, time-series forecasting, or other approved techniques.

5.5.3.2 The Contractor shall identify patterns in de-obligation trends and recommend early interventions to recapture funds.

5.5.4 ADVANA Integration

5.5.4.1 The Contractor shall connect reporting tools with the ADVANA platform to improve interoperability and ensure consistency across DHA reporting environments.

5.5.4.2 The Contractor shall assist with data model development, query optimization, and real-time data refreshes.

5.5.5 Performance and Compliance Reporting

5.5.5.1 The Contractor shall generate recurring and ad hoc reports on contract execution, audit response, ULO status, and RMIC compliance metrics.

5.5.6 Data Governance and Quality Assurance

5.5.6.1 The Contractor shall implement controls to validate data integrity, standardize reporting formats, and ensure version control.

5.5.6.2 The Contractor shall support DCFM with data cleaning, transformation, and validation to enable consistent and

accurate reporting across programs.

5.5.6.3 The Contractor shall develop and maintain a Data Management Plan (DMP) that documents data sources, transformation logic, version control procedures, and quality assurance protocols.

5.6 Financial Management Education and Training Support

5.6.1 Program Management

5.6.1.1 The Contractor shall support DCFM Government personnel with the development, compilation, and editing of training materials and shall assist DCFM Government personnel with the coordination and facilitation of training events to be provided to MTF and DHA Market resource management personnel.

5.6.1.2 The Contractor shall provide support across training subject areas to include, but not be limited to:

- Financial management
- Budget execution and reporting
- Accounts payable and accounts receivable
- Travel
- Audit response package compilation
- Risk management and internal controls (RMIC) processes

Additionally, the Contractor shall support the J8/Business Integration Division staff with providing training to MTF and Market resource managers on the following topics:

- MTF Statements of Operations (SOO) development, validation, and interpretation
- The DHA Financial Management Information System (FMIS)
- The DHA Integrated Resources and Incentive System (IRIS)
- Methods for monitoring and analyzing Civilian Pay execution and reporting

5.6.1.3 The Contractor shall develop training materials to include user aids, user guides, technical guidance documents, hands-on exercise scenarios, and other similar documentation to meet training requirements.

5.6.1.4 The Contractor shall develop and conduct training surveys.

5.6.1.5 The Contractor shall collect and report student feedback metrics. The Contractor shall compile and submit training effectiveness reports on a quarterly basis to the COR, summarizing survey results, student feedback metrics, and recommended curriculum improvements.

PART 6

6.0 INFORMATION TECHNOLOGY & SECURITY

6.1 All work under this contract is unclassified.

6.2 The TIER II levels and position sensitivity designation for positions under this contract is:

6.2.1 TIER II: Non-critical sensitive position.

6.3 Personally Identifiable Information (PII)/Protected Health Information (PHI), Procurement, and Federal information requirements:

6.3.1. Data Sharing Agreements (DSAs): Contractors requiring access to PII, which includes PHI, or access to de-identified data, are subject to the DHA Privacy and Civil Liberties Office (DPCLO) (Privacy Office) Data Sharing Program. This program requires DHA to enter into DSAs with parties outside the MHS who use or create MHS data. A DHA contract may use the term Data Use Agreement (DUA) rather than DSA. DSAs assure that outside parties protect MHS data in accordance with the Privacy Act and the HIPAA Rules. To apply for a DSA, the contractor submits a Data Sharing Agreement Application (DSAA) to the DHA DPCLO. The contractor submits the DSAA even if a subcontractor will be the party accessing MHS data. After review and approval of the DSAA, the Privacy Office provides a DSA to the contractor for execution.

6.3.2. Processing Procurement Sensitive Information: All individuals shall seek guidance from the CO regarding the coordination of documents, dissemination, and transmission of procurement sensitive information. Procurement sensitive information shall not be transmitted electronically unless encryption is utilized. Depending on a particular procurement, other restrictions may apply.

6.4 Training: Reserved

6.5 Cybersecurity Requirements for Non-DoD IT or Covered Contractor IS:

6.5.1 The contractor shall, at time of award, have implemented the security requirements prescribed in the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>), in accordance with DFARS clause 252.204-7012.

6.5.2 NIST SP 800-171 DoD Assessment Methodology. The DFARS provision 252.204-7019 introduces the "NIST SP 800-171 DoD Assessment Methodology" requirement. This requirement enables a strategic assessment of a contractor's implementation of the NIST SP 800-171 requirements as required in DFARS clause 252.204-7012. The DoD Assessment Methodology requirement flows down to subcontractors.

6.5.2.1 Basic Assessment: The contractor shall obtain and maintain access to the Supplier Performance Risk System (SPRS) via the PIEE, (available via the internet at <https://www.sprs.csd.disa.mil/>)

6.5.2.1.1 The contractor shall perform a Basic Assessment, using the NIST SP 800-171 DoD Assessment Scoring Template, and enter the results electronically in SPRS for each covered contractor information system that is relevant to an offer, contract, task order, or delivery order. See Attachment 2, Deliverable Schedule Table.

6.5.2.1.2 The contractor shall ensure that applicable subcontractors also have their results of a current assessment posted in SPRS prior to awarding a subcontract or other contractual instrument in accordance with DFARS clause 252.204-7020.

6.5.3 The contractor shall provide the government with access to its facilities, systems, and personnel when necessary to conduct or renew a higher-level (i.e., Medium or High) assessment in accordance with DFARS clause 252.204-7020.

6.5.4 Cybersecurity Maturity Model Certification (CMMC) (When applicable): The CMMC (DFARS clause 252.204-7021) builds upon the NIST SP 800-171 DoD Assessment Methodology by adding a comprehensive and scalable certification element to verify the implementation of processes and practices associated with the achievement of a cybersecurity maturity level. The CMMC is designed to increase assurance to the DoD that federal contract information (FCI) and DoD Controlled Unclassified Information (CUI) is protected at a level commensurate with the risk. The CMMC requirement flows down to subcontractors.

6.5.4.1 The contractor shall have a current (i.e., not more than three years old) CMMC certificate in SPRS issued by an accredited CMMC Third Party Assessment Organization (3PAO) at the required CMMC level. The description of CMMC levels is available at <https://www.cmmcab.org/>.

6.5.5 The contractor shall submit requests to vary from NIST SP 800-171 in writing to the CO or COR, for consideration by the DoD Chief Information Officer (CIO). The contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be non-applicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

6.5.6 If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the CO or COR when requesting its recognition under this contract.

6.5.7 Cloud Computing: If the contractor intends to use an external cloud service provider, on their behalf, to store, process, or transmit any DoD CUI in performance of this contract, the contractor shall require the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/>) and that the cloud service provider complies with requirements in paragraphs 6.5.8 through 6.5.14 for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

6.5.7.1 If the information is DoD CUI-specific (e.g., PII/PHI), then the contractor shall ensure the external cloud service provider meet the security requirements equivalent to FedRAMP

High baseline.

6.5.8 Cyber Incident Reporting Requirement

6.5.8.1 When the contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the contractor shall:

6.5.8.1.1 Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other IS on the contractor's network(s), that may have been accessed because of the incident to identify compromised covered defense information, or that affect the contractor's ability to provide operationally critical support; and

6.5.8.1.2 In accordance with DFARS clause 252.204-7012, rapidly report (within 72 hours) cyber incidents involving DoD CUI to DoD Cyber Crime Center (DC3) via <https://dibnet.dod.mil/portal/intranet/>. In the event of a cybersecurity incident involving a CUI-Specific breach (i.e., PII/PHI), the contractor, in addition to reporting to the DC3, shall follow the incident reporting guidance prescribed in the TRICARE Operations Manual, Chapter 1, Section 5, "Compliance with Federal Statutes" at <https://manuals.health.mil/>.

6.5.8.2 Cyber incident report: The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements as prescribed at the <https://dibnet.dod.mil/portal/intranet/>.

6.5.8.3 Medium assurance certificate requirement: In order to report cyber incidents in accordance with this clause, the contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/>.

6.5.9 Malicious software: When the contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DC3 in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

6.5.10 Media preservation and protection: When a contractor discovers a cyber incident has occurred, the contractor shall preserve and protect images of all known affected IS and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

6.5.11 Access to additional information or equipment necessary for forensic analysis: Upon request by DoD, the contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

6.5.12 Cyber incident damage assessment activities: If DoD elects to conduct a damage assessment, the CO will request that the contractor provide all the damage assessment

information gathered in accordance with paragraph (e) of DFARS clause 252.204-7012.

6.5.13 Apply other IS security measures when the contractor reasonably determines that IS security measures may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., HIPAA) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

6.5.14 The contractor shall maintain within the US or US territories all Government data that is not physically located on DoD premises, unless the contractor receives written notification from the CO to use another location, in accordance with DFARS 239.7602-2(a).

6.5.15. The contractor shall mitigate supply chain risk to the government by complying with DFARS 252.239-7018 and only utilizing unified capability equipment identified on the DODIN Unified Capabilities Approved Products List (<https://aplits.disa.mil/processAPList>), unless granted a waiver in accordance with DODI 8100.04, DOD Unified Capabilities (UC).

6.6 Risk Management Framework (RMF) for DoD IT: Reserved

6.7. Facility Related Control Systems: Reserved

6.8. System Communications: Reserved

6.9 MHS Demilitarized Zone (DMZ) Medical Community of Interest (MedCOI) Business-to-Business (B2B) Gateway: Reserved

6.10 Contractor Provided IT Infrastructure: Reserved

6.11 System Authorization Access Request (SAAR), Defense Department (DD) Form 2875

6.11.1 The contractor shall submit the most current version of DD Form 2875, "System Authorization Access Request (SAAR), in accordance with CO guidance for all contractors that use the DoD Gateways to access Government IT systems and/or DoD applications shall. A DD Form 2875 shall be completed for each contractor employee who will access any system and/or application on a DoD network. The DD Form 2875 shall clearly specify the system and/or application name and justification for access to that system and/or application.

6.11.2 The contractor shall submit the completed DD Form 2875 to the DHA IT Security for verification of Tier I or Tier II Designation. The DHA Personnel Security will verify that the contractor employee has the appropriate background investigation completed or a request for background investigation has been submitted to the Office of Personal Management (OPM). Acknowledgment from OPM that the request for a background investigation has been received and that an investigation has been scheduled will be verified by the DHA Personnel Security prior to access being approved.

6.11.3 Upon approval, DHA will notify the user of the ID and password via secure/encrypted e-mail upon the establishment of a user account. User accounts will be established for individual use and may not be shared by multiple users or for system generated access to any DoD application. Misuse of user accounts by individuals or contractor entities will result in termination of system access for the individual user account.

6.11.4 The contractor shall conduct a monthly review of all contractor employees who have been granted access to DoD IS'/networks to verify that continued access is required.

6.11.5 The contractor shall provide the DHA DPCLO with a report of the findings of their review by the 10th day of each month following the review. Reports identifying changes to contractor employee access requirements shall include the name, DoD ID number from CAC, Company, IS/network for which access is no longer required and the date access will be terminated.

6.12 MHS Systems Telecommunications: Reserved

6.13 Establishment of Telecommunications: Reserved

6.14 Contractors Located on Military Installations

6.14.1 The contractor(s) shall coordinate/obtain the connections with the local MTFs/ Enhanced Multi-Service Markets (eMSMs) and Base/Post/Camp communication personnel located on a military installation who require direct access to Government systems.

6.14.2 These connections will be furnished by the Government.

6.14.3 Contractors located on military installations that require direct connections to their networks shall provide an isolated IT infrastructure. They shall coordinate with the Base/Post/Camp communications personnel and the MTF/eMSM to get approval for a contractor procured circuit prior to installation to ensure the contractor is within compliance with the respective organizational security policies, guidance, and protocols.

Note: In some cases, the contractor may not be allowed to establish these connections due to local administrative/security requirements.

6.14.4 The contractor shall be responsible for all security certification documentation as required to support DoD IA requirements for network interconnections.

6.14.5 The contractor shall provide, on request, detailed network configuration diagrams to support IA accreditation requirements.

6.14.6 The contractor shall comply with IA accreditation requirements. All network traffic shall be via Transmission Control Protocol/Internet Protocol using ports and protocols in accordance with current Service security policy. All traffic that traverses MHS and/or military Service Base/Post/Camp security infrastructure is subject to monitoring by security staff using Intrusion Detection Systems.

PART 7, ATTACHMENT 1 PERFORMANCE REQUIREMENTS SUMMARY

The contractor service requirements are summarized into performance objectives that relate directly to mission essential items. The performance threshold briefly describes the minimum acceptable levels of service required for each requirement. These thresholds are critical to mission success.

Performance Objective (The Service required—usually a shall statement from Part 5)	PWS Reference	Acceptable Quality Level (AQL) (This is the maximum error rate. It could possibly be “Zero deviation from standard”)	Method of Surveillance
Performance Requirements Summary (PRS) # 1. The contractor shall provide support for assigned audit requests, ensuring complete responses to include any required KSDs.	PWS Part 5, para 5.1.1 to include all subtasks	Reports must be accurate 98% of the time	Observation and spot checks along with feedback from the Audit team
PRS # 2. The Contractor shall provide support for all DCFM Accounting Reports and Dashboards.	PWS Part 5, para 5.3 to include all subtasks; 5.3 Reporting and Data Visualization	Reports must be accurate 98% of the time	Observation and spot checks along with feedback from the Reporting team
PRS # 3 The Contractor shall provide support to the DCFM Contract Management Cell by helping facilitate Quarterly and Ad Hoc Contract Reviews and meetings with the activities.	PWS Part 5, para 5.2 to include all subtasks; Contract Management Cell (CMC)	Quarterly contract reviews must be completed on time 95% of the time.	Observation and spot checks along with feedback from the CMC team
