

**Statement of Work for
ProjNet™ Dr.Checks Bidder Inquiry
Web-Based Subscription**

1.1 GENERAL: This project includes the procurement of a commercial, proprietary, web-based subscription for managing all bidder inquiries for U.S. Army Corps of Engineers (USACE) solicitations.

1.2 SCOPE OF WORK: This Statement of Work (SOW) defines the requirement for a secure, web-based subscription service to manage bidder inquiries for U.S. Army Corps of Engineers (USACE) solicitations. The service is critical for maintaining a transparent, equitable, and auditable communication channel between the Government and potential bidders during the procurement process. The Contractor shall provide the Memphis District access to the ProjNet™ Dr.Checks™ Bidder Inquiry system, a proprietary platform that facilitates the submission, review, and official response to all solicitation-related questions.

1.3 PERIOD OF PERFORMANCE: The period of performance for the base period of this contract is twelve (12) months, and there is an option for five (5) additional ordering periods.

1.4 CONTRACT TYPE: This is a firm fixed price contract.

1.5 WORK REQUIREMENTS:

- **1.5.1 EPA Designated (CPG):** Not applicable. This requirement is for a non-physical, web-based subscription service.
- **1.5.2 Safer Choice:** Not applicable. This requirement is for a non-physical, web-based subscription service.
- **1.5.3 Bio-based:** Not applicable. This requirement is for a non-physical, web-based subscription service.

1.6 DELIVERABLES and DELIVERY: The sole deliverable is the continuous and uninterrupted access to the ProjNet Dr. Checks web-based subscription service. As a web-based service, there are no physical items for delivery. The Government will validate receipt and acceptance of services through successful and continuous access to the platform by authorized users throughout the period of performance.

1.7 POINTS OF CONTACT:
