

N6264926RL004 A0002 MIGUEL KEITH (ESB 5) MTA

1. The purpose of this amendment is to cancel Work Item **0506**.
2. To provide responses to clarifications.

SPECIFICATION ITEM NO.: 456-00-001

PARA. NO.: 3.2

TITLE: RADOM AN/SPS-77(V) 3 Service Platform and Support Structure Repair and Preservation

QUESTION:

Please advise whether the Shipyard still needs to resubmit the documents mentioned in these paragraphs and whether the SRF team needs to review them again. As we understand it, we are already qualified to perform hot work under the NAVSEA procedure. Therefore, kindly confirm whether this requirement can be removed in the event that the project is awarded to us.

Also, we would greatly appreciate if you could provide photos for our reference.

ANSWER:

The past documents were only approved for the last avail and still needed updates. Therefore these documents need to be resubmitted for review and approval prior to commencing work.

SPECIFICATION ITEM NO.: 631-20-001

PARA. NO.: 3.1

TITLE: Fiddle Board Replace and Preserve

QUESTION:

Please advise whether the Shipyard still needs to resubmit the documents mentioned in these paragraphs and whether the SRF team needs to review them again. As we understand it, we are already qualified to perform hot work under the NAVSEA procedure. Therefore, kindly confirm whether this requirement can be removed in the event that the project is awarded to us.

Also, we would greatly appreciate if you could provide photos for our reference.

ANSWER:

The past documents were only approved for the last avail and still needed updates. Therefore these documents need to be resubmitted for review and approval prior to commencing work. I will work on getting photos.

SPECIFICATION ITEM NO.: 631-21-002

PARA. NO.: 3.12

TITLE: Forward Mast; preserve

QUESTION:

Please advise whether we can do SSPC-SP3 instead of SSPC-SP10 for the surface preparation.

ANSWER:

Need clarification as to the reason for SSPC-SP3 vice SSPC-SP10 before answer can be given.

SPECIFICATION ITEM NO.: 634-21-001

PARA. NO.: 4.5

TITLE: Flight Deck Nonskid; replace

QUESTION:

Please advise whether the attendance of QP1 can be arranged by the government instead.

ANSWER:

ANSWER:

*** This item should be removed from this work package during an amendment.

SPECIFICATION ITEM NO.: 0527

PARA. NO.: 7.9/7.9.4

TITLE: EDG COUPLING INSPECTION (1 YR)

QUESTION:

Please clarify whether we are required to engage both of the two (2) recommended OEMs, or if we may select only one to carry out this specific work item.

ANSWER:

Para. 7.9.4 contains possible sources, not required ones.

Only original equipment manufacturer (OEM) authorized technical field service providers or MSC qualified non-OEM technical field service providers and OEM authorized or MSC qualified non-OEM parts shall be used to accomplish the requirements of this work item.

A signed letter of qualification from OEM will be required.

SPECIFICATION ITEM NO.: 0554

PARA. NO.: 7.13

TITLE: INSPECT TEST AND CERTIFY MACHINERY SPACE CRANES AND HOISTS (1 YR)

QUESTION:

Please advise whether we can engage a locally certified vendor for this work item instead of an overseas OEM.

ANSWER:

Paragraph 7.13.1 - Provide the services of a Contractor recognized as a crane certifying authority to inspect, test and certify the machinery space cranes and hoists using Reference 2.1.1 through 2.1.5 as guidance. Qualifications and certificates for the company and field service rep are to be submitted to the OMT REP for review and approval prior to starting any work.

This can be any contractor that meets the qualifications and certificates required.

SPECIFICATION ITEM NO.: 0556B

PARA. NO.: 7.11

TITLE: INSPECT NON-MISSION EQUIPMENT DECK CRANES (1YR)

QUESTION:

Please advise whether we can engage a locally certified vendor for this work item instead of an overseas OEM.

ANSWER:

Paragraph 7.11.1 - Provide the services of a Contractor recognized as a crane certifying authority to inspect, repair, weight test and recertify the cranes using References 2.1.1 through 2.1.3 as guidance. Qualifications and certificates for the company and field service rep are to be submitted to the OMT REP for review and approval prior to starting any work

This can be any contractor that meets the qualifications and certificates required.

SPECIFICATION ITEM NO.: 0563

PARA. NO.: 7.5

TITLE: SCBA COMPRESSOR AND FILLING STATION INSPECTION AND MAINTENANCE (1 YR)

QUESTION:

Please confirm that the testing gases will be provided by the ship.

ANSWER:

Ship is currently in operational status but will verify availability of test gasses as soon able.

SPECIFICATION ITEM NO.: 0569

PARA. NO.: 7.6.4

TITLE: FIRE AND SMOKE DETECTION AND ALARM SYSTEM (1 YR)

QUESTION:

Please advise whether the specific work requirement stated in paragraph 7.6.4 can be covered under a change order instead. If not, kindly indicate the possible locations, particularly those that require scaffolding for the installation of new labels.

ANSWER:

If scaffolding is required to affix labels found to be missing/incorrect a CFR should be submitted, and a change order requested.

SPECIFICATION ITEM NO.: 0570

PARA. NO.: 7.4.1

TITLE: PORTABLE FIRE EXTINGUISHER SERVICE (1 YR)
