

**JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT (JNCP)
FOR ACTIONS ≤ SIMPLIFIED ACQUISITION THRESHOLD (SAT)**

JNCP#: [REDACTED]

PR/Solicitation Number: [REDACTED]

Code: 55108

1) **Agency, Contracting Activity and Purpose:** Naval Information Warfare Center - Pacific, Justification for Other than Full and Open Competition.

2) **Description of the Supply or Service being procured, its intended use and anticipated/estimated value**

a. MANUFACTURER: Midwest Microwave Solutions, Inc.

Item 1: 0.1 — 1 BGHz Wideband Microwave Digital Receiver

Description: 500MHz Bandwidth

Part No.: WRX-18G-500

Qty: [REDACTED]

b. [REDACTED] requests to procure a 0.1 — 1 BGHz Wideband Microwave Digital Receiver, by Midwest Microwave Solutions, Inc., in support of the [REDACTED]

[REDACTED]. This initiative provides a [REDACTED]

[REDACTED]. The 0.1–1 GHz wideband digital receiver will be utilized as a [REDACTED]

c. [REDACTED]

3) **Possible Authority for Non-Competitive Procurement**

Sole/Limited Source Procurement (Sole Source: Only one source exists with no known distributors of the required product or service. Only One Responsible/Capable Source IAW either FAR 8.401(b), FAR 12.102(a) or FAR 16.507-6(d)(1)).

4) **Reason for Non-Competitive Procurement**

Unique or highly specialized requirement/Only one source reasonable available

5) **Provide rationale and justification regarding the above selection.**

Midwest Microwave Solutions (MMS) provides the only 0.1–1 GHz digital receiver capable of meeting the technical requirements of the [REDACTED]. As a core component of this [REDACTED]

[REDACTED], the MMS receiver enables the integration of advanced commercial technology into a network of [REDACTED]

[REDACTED]. Their hardware is uniquely engineered for high-fidelity verification, offering the industry-leading dynamic range and low phase noise necessary to serve as a [REDACTED]

[REDACTED]. Unlike commercial alternatives, MMS receivers utilize a Modular Open Systems Approach (MOSA) and Sensor Open Systems Architecture (SOSA)-aligned architecture, ensuring [REDACTED]

[REDACTED]. Furthermore, their field-proven ability to deliver high-speed, real-time I/Q data streaming within a ruggedized, size, weight, and power (SWaP)-optimized footprint makes MMS the sole provider capable of supporting the [REDACTED]

[REDACTED]'s critical mission of [REDACTED].

6) **Describe the Market Research conducted.**

Market research was performed to identify wideband receivers capable of meeting new system requirements and updated technical specifications. This selection process involved a rigorous evaluation of hardware from several eligible manufacturers, including [REDACTED], [REDACTED], and [REDACTED]. While costs across these four systems ranged from [REDACTED] to [REDACTED], only the MMS system submission successfully met the updated specifications required by the [REDACTED]. Specifically, other evaluated models lacked the critical combination of SOSA-compliance, low phase noise, and sub-500 μ s tuning speeds essential for [REDACTED].

7) **Any other information of facts supporting the justification to limit competition not described elsewhere on this form (i.e. international agreement).**

N/A

8) **Provide a statement of actions that will be taken to remove or overcome any barriers to competition prior to any future procurements for this Supply or Service.**

NIWC Pacific continues to monitor the RF digitizer market and engage with industry partners through [REDACTED] to identify emerging technologies that may meet these stringent requirements in future procurement cycles.
