6. Reasons for Authority Cited:

a. BW Secure has been responsible for installation and maintenance of CCTV and ACS since inception of the current system, which is upwards of 15 years old. They are a local provider that has continued to exceed service requirements due to their extensive specified knowledge with the 10th SFG(A) compound and infrastructure. Given the restricted nature of the approximately 350-acre footprint, coupled with significant network and physical infrastructure changes over the past decade, BW has provided critical continuity with the existing systems. The complex and secure integration of these systems requires intimate knowledge of historical implementation, network integration, mechanisms used, and tie-in configurations, all of which only BW Secure can provide.

Lastly, these systems are highly sensitive in nature and require rapid support 24/7, 365 days a year. BW Secure is physically located within 15 miles of Fort Carson and can provide immediate around-the-clock support. They have multiple technicians which have a security clearance and Common Access Card commensurate with government systems. This allows them unique authority and access rights to the computer systems used for the ACS locally. Based on the above, BW Secure is assessed to be the most responsible source to procure the requested items to satisfy agency requirements.

b. This modernization project supports physical security and enables a continued strong force protection posture in the 10th SFG(A) compound. Moreover, it enhances protection against criminal activity and sabotage while protecting Soldiers and Government systems in accordance with AR 190-51, Ch. 6-4, para. e. (2).

c. BW Secure can immediately begin work without the additional cost associated with acquiring a new vendor. This ensures the project is completed in the shortest possible timeframe, minimizing disruption to base operations and security. Using the incumbent contractor avoids the administrative delays of a new solicitation and the operational delays of coordinating between a new installation contractor and BW Secure for system integration. This streamlined approach prevents potential security gaps that could arise during a prolonged or complicated integration process involving multiple parties.

7. Publicizing Contract Actions:

- a. The public display and synopsis requirements of FAR 5.101(a) and FAR 5.101(d)
- ☐ do not apply, less than \$20K threshold
 - ☒ apply and will be followed
 - ☐ do not apply due to an exception at FAR 5.101(b)(1)()

b. Requirement to post justification in accordance with, FAR 12.102(a)(2), GSAM 538.7104-3(a)(3) or FAR 16.507-6(f) unless:

- ☒ Action is not a brand name restriction and is under SAT, no posting required.
- ☐ Action is a brand name restriction, under \$40K, no posting required.
- ☐ Action is a brand name restriction over \$40K but will not be posted due to the following exception:
 - ☐ FAR 6.301(e)
 - ☐ GSAM 538.7104-3(b)(3)(i)(B)
 - ☐ FAR 16.507-6(f)(4)

8. Market Research: The 10th SFG(A) conducted extensive market research on local vendors that met the basic vicinity prerequisite for response time. Given this major restriction and the constraints listed in Part a, BW Secure is the sole source that meets all necessary requirements to execute this government contract in its entirety. BW Secure is a Federal Government VAR (Value Added Resellers) and the VAR of record for Ft. Carson. Additionally, they are also the preferred vendor for Ft. Carson NEC and

T&H for Access Control and CCTV. Because therequested vendor is the only responsible sources for the needs described above, and no othertype of vendor will satisfy agency requirements, this sole source is requested.

9. Other Facts: To increase competition, the 10th SFG (A) will periodically monitor themarket looking for other possible vendors.

10. Technical/Requirements Certification: I certify that the supporting data under my cognizance which are included in the justification are accurate and complete to the best of my knowledge and belief.

11. Contracting Officer Certification/Approval: I hereby determine that the anticipated cost or price to the Government for this contract action will be fair and reasonable based upon previous contracts of this same nature.

I certify that this justification is accurate and complete to the best of my knowledge and belief, and that completing this purchase as a sole source is in the best interest of the Government. Additionally, I approve this justification to limit competition subject to the availability of funds and provided that the services or supplies herein described have otherwise been authorized for acquisition.
