PROGRAM BACKGROUND

This contract is for Multifunctional Devices (MFDs) that meet the minimum salient characteristics listed in the attached document to include color printing, copy/scan functionality, CAC Smartcard enabled, and standard finishing capability. Each MFD will include a Full-Service Maintenance Agreement for service and supplies to include print, toner, developer, dry ink, cleaning rollers, fillers, staples, and HD removal. The Army (Receiving Unit) will maintain ownership of the hard drive(s) at the end of the final POP and/or when the device is replaced. The Contractor must provide non-personal services to furnish all labor, tools, equipment, transportation, materials, testing and supervision in order to provide an operating lease to the AFSBn-Bliss HQ, of Fort Bliss, Texas. The MFDs must remain in inventory for the duration of the awarded delivery orders unless otherwise replaced by a new device of equal or better capabilities at no additional cost to the Government.

REQUIRED CAPABILITIES

The contractor must provide non-personnel services for Multifunction Devices, including a Full-Service Maintenance Agreement that covers all service and supplies such as print consumables, toner, developer, dry ink, cleaning rollers, filters, staples, and hard-drive removal.

If your organization has the potential capacity to perform these contract services, please provide the following information: 1) Organization name, address, email address, Web site address, telephone number, and size and type of ownership for the organization; and 2) Tailored capability statements addressing the particulars of this effort, with appropriate documentation supporting claims of organizational and staff capability. If significant subcontracting or teaming is anticipated in order to deliver technical capability, organizations should address the administrative and management structure of such arrangements.

In accordance with FAR 10.001(b), agencies should not request potential sources to submit more than the minimum information necessary.

The Government will evaluate market information to ascertain potential market capacity to: 1) provide services consistent, in scope and scale, with those described in this notice and otherwise anticipated; 2) secure and apply the full range of corporate financial, human capital, and technical resources required to successfully perform similar requirements; 3) implement a successful project management plan that includes: compliance with tight program schedules; cost containment; meeting and tracking performance; hiring and retention of key personnel and risk mitigation; and 4) provide services under a performance based service acquisition contract.

SPECIAL REQUIREMENTS:

- Contractor and all associated sub-contractors employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures as per the installation SOP. The contractor shall also provide all information required for background checks to meet installation access requirements to be accomplished by installation Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements as directed by DOD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes.
