GENERAL BID NOTES

- a. Award will be made on the total sum of Line Item 1.
- b. The Government reserves the unilateral right to award Line Items 6 through 12 to the Contractor at the proposed price within 365 calendar days after the contract award. A firm fixed proposed price is required for Line Items 2 through 12. No provision is made for economic price adjustment. If Line Items 6 through 12 are exercised, the contract completion date remains 622 calendar days after the award of the contract. If Option 3 is exercised, 40 days will be added to the contract completion date.
- c. Evaluation of Options (JUL 1990). Except when it is determined in accordance with FAR 17.206(b) Evaluation not to be in the Government's best interest, the Government will evaluate offers for award purposes by adding the price for the Option(s) to the total price for Line Item 0001. In accordance with FAR 52.217-5 Evaluation of Options, evaluation of options will not obligate the Government to exercise the Option(s).
- d. The Government may reject an offer as non-responsive if it is materially unbalanced as to prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.
- e. If any of Line Items 2 through 12 are exercised, additional bonding and consent of surety is required. Consequently, the Performance Bond must reflect 100 percent of the aggregate amount of all Items.
