

INDUSTRY DAY

Mine Warfare & Unmanned Operations

18 FEBRUARY 2026

Distribution Statement A. Approved for public release: distribution is unlimited.

DOMINATE THE LITTORALS

*Delivering relevant solutions in the
littorals from seabed to space:
For Today, Tomorrow, and the Navy after Next*

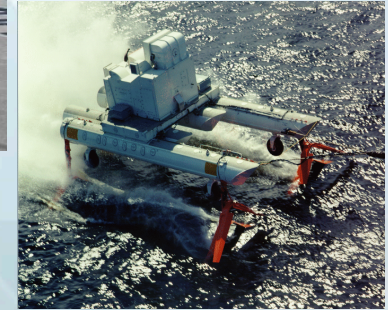

Key Missions & Capabilities

Fleet Readiness and Sustainment (Code A20)

Key Missions/Capabilities

- Fleet Support/Introduction
- Fleet Reach-Back Support
- Fleet Alteration Installation Teams
- Fly-away Technical Teams
- Depot Services
- Life Cycle Sustainment
- Engineering (SE/SW/EE/ME/CS)
- Helicopter/Ship Integration

- Product Acceptance and Improvement
- Obsolescence/Diminishing Resources Management
- Training Development and Instruction
- Acquisition Support
- Test and Evaluation

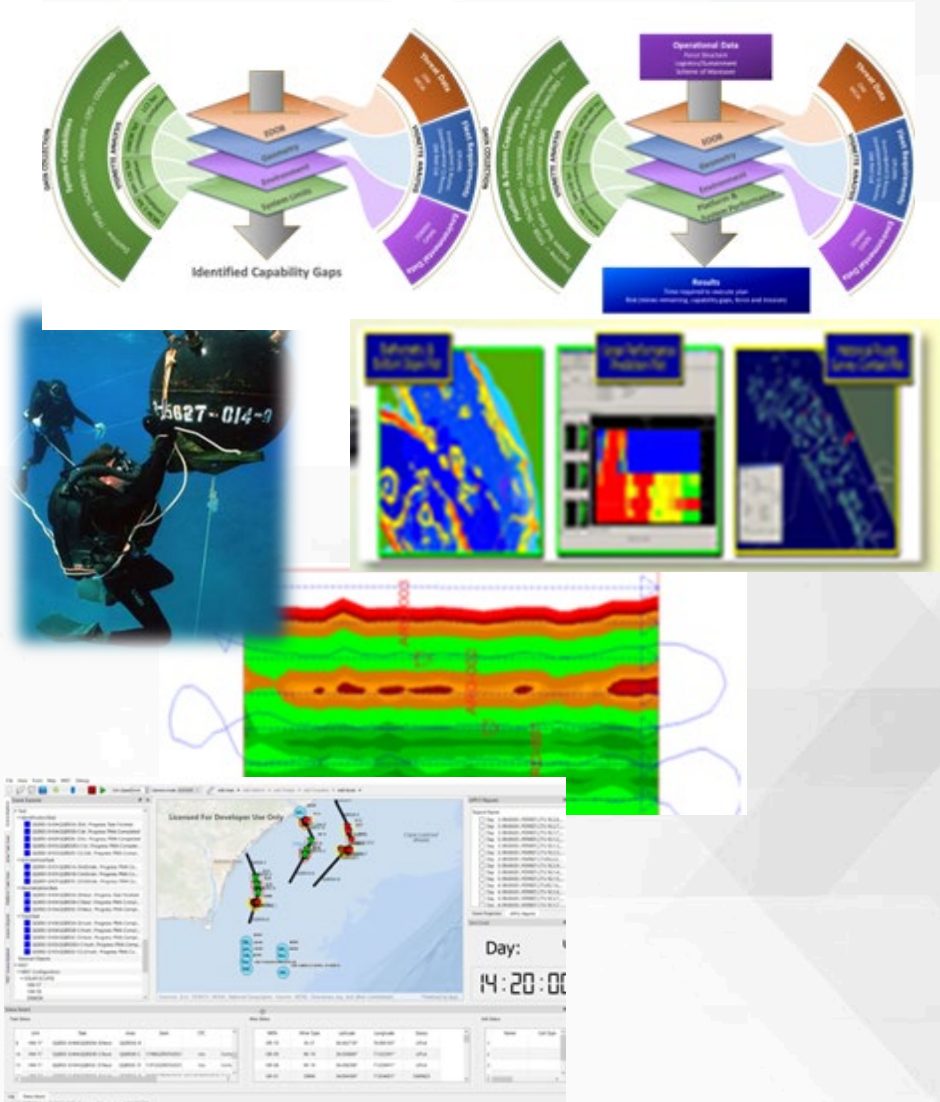

Command Control Computers Communication & Cyber (Code A30)

Key Mission / Capabilities

- MCM Mission Package Systems Engineering
- MCM Mission Package Test & Evaluation
- MCM Mission Package Integrated Logistics Support, Training & Sustainment
- MCM Mission Package Support Container & Support Equipment
- MCM Mission Package Application Software
- Multi-Vehicle Communications System
- Mission Package Computing Environment Technical Direction Agent & In-Service Engineering Agent (ISEA)
- Mission Package Integration Laboratory

Analysis, Tactics, and Simulation Division (Code A40)

Key Missions/Capabilities

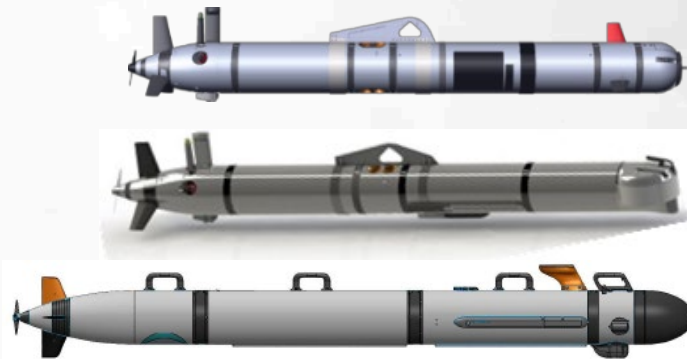

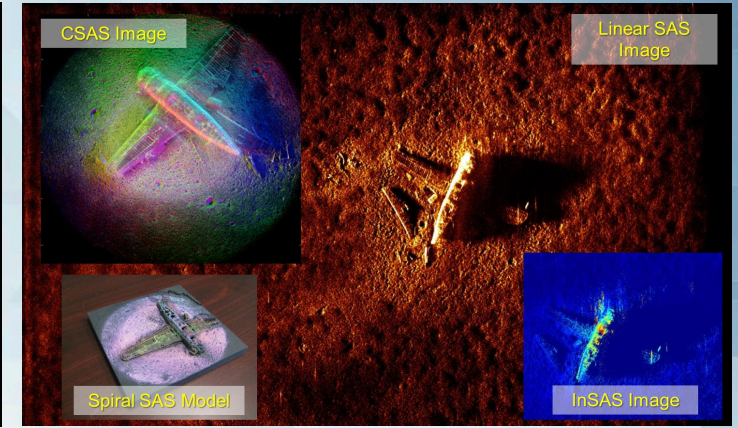

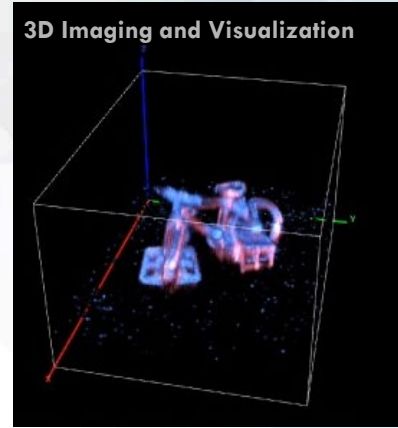

- Warfare Analysis
 - Mine Warfare (MIW)
 - Expeditionary
 - Wargaming
 - Requirements analysis
- Tactics
 - MIW
 - Mine Countermeasures (MCM) Mission Package and Modular MCM
 - Expeditionary MCM
 - Integrated Staff-level
- Fleet Tactical Software Decision Aids
 - Program of Record Software Development
 - Software Testing and Integration
 - In-Service Engineering Agent (ISEA) and Software Support Activity (SSA)
 - MCM and Mining Planning & Evaluation, Post Mission Analysis (PMA), Fleet Training, Proficiency and Certification, Mission assessment
- Modeling and Simulation (M&S)
 - Verification, Validation, Accreditation (VV&A)
 - Analytical and Tactical Level M&S Tools
 - Systems, Engineering Level Models & Sims
 - Visualization

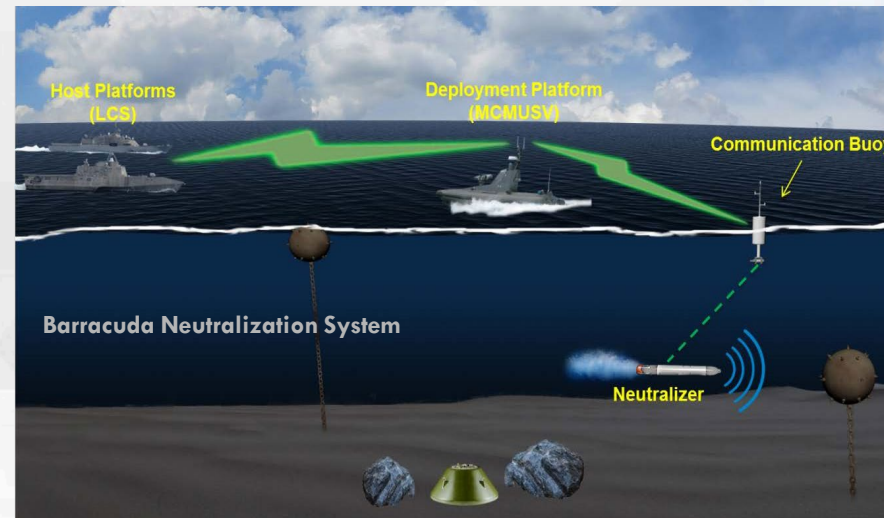

Systems Development Division (Code A50)

Key Missions/Capabilities

- Technical Direction Agent for Mine Countermeasure Systems
- Acquisition and Systems Engineering
- Science and Technology
- Requirements Definition
- Software Development
- System Integration
- Test and Evaluation
- Navigation and Command/Control
- Data Analysis

Mk-18 Family of Systems

- Mine Hunting Sonar Systems
- Unmanned Underwater Vehicles
- Automated Target Recognition
- Laser and Optical Detection Systems
- Mine Neutralization Systems
- Autonomy Development
- Advanced Sensor Integration

Future Outlook

A Department Business Outlook

In-Service Systems: Sustainment & Support

- In-Service Engineering, Software Support, Depot Operations & Maintenance, Reach Back Support & Technical Assists, Reverse Engineer, Installations & Upgrades, Foreign Military Sales
 - Airborne Mine Countermeasures Systems
 - AQS-24B/C Sonar, MK 103/104/105 Sweeps, AN/AQS-232A Seafox, ALMDS, AMNS Archerfish
 - Surface Mine Countermeasures Systems
 - AN/SLQ-48 MNS, AN/SQQ-32 MSS, AN/SLQ-37 AAG, AN/SSN-2 PINS, SMCM Seafox
 - Expeditionary Mine Countermeasure Systems
 - MK 18 Family of Systems
 - Mission Modules & Mission Packages
 - MCM USV, MVCS, MPCE, Support Containers, MPAS, MEDAL

A Department Business Outlook

Mission Package: System Integration & Engineering

- Systems Engineering, Hardware & Software Engineering, Test & Evaluation, Certification, Command & Control, Cybersecurity, Analysis
 - Mission Module Integration & Certification
 - MVCS & MPCE
 - MEDAL & NSAM
 - Mission Package Support

A Department Business Outlook

Unmanned Maritime Systems: Development & Acquisition

- Acquisition Support, Systems Engineering, Hardware & Software Engineering, Test & Evaluation, ISEA, SSA, Pre-planned Product Improvements, System Integration
 - UUVs
 - MK 18 Family of Systems
 - Barracuda Mine Neutralizer
 - USVs & Payloads
 - MCM USV + Sweep
 - MCM USV + Hunt
 - MCM USV + Neutralize

A Department Business Outlook

Future Technologies: Science & Technology

- Advanced Undersea Sensing & Effects
 - Full water column detect-to-engage systems
 - Multi-sensor research & development
 - Lethal & non-lethal effectors
 - Sensor Fusion Algorithms
- Unmanned Systems & Operations RDT&E
 - Vehicle enhancements, Autonomy, AI/ML, Automated Target Recognition
 - Position, Navigation, & Timing, Command & Control, Edge Computing
 - Commercial UxS Market Research & Demonstration Support
- Cross-Cutting System & Platform Integration
 - Watercraft Launch, Recovery, and Handling System Design & Development
 - Mission System Integration aboard Navy vessels, Commercial Vessels, & Shore-based Facilities

Representative Skill Sets

- Information Assurance/Information Technology, Cyber Security
- Systems Engineering
- Engineering Services
 - Electrical, Mechanical, Computer, Software, Communications, Networks
 - Design, Analysis, Modeling, Rapid Prototyping, Tech Insertion, Integration
- System Safety (limited)
- Test & Evaluation
- Quality Assurance
- System Acquisition Support/Documentation
- Tactical Analysis (Math, Physics, Operations Research, Modeling & Sim)
- Program and Financial Management
- Technical Data Package Development
- Alterations and Installation Support
- Technician Support

Representative Facility & Space Needs

- Integration & Assembly Spaces
- Maintenance & Depot Spaces
- Secure & Restricted Meeting & Lab Spaces
- Rapid Prototyping Facilities

A Department - Mine Warfare and Unmanned Operations

UNOFFICIAL - OPERATIONAL
EFFECTIVE February 12, 2026

**WARFARE CENTERS
PANAMA CITY**
