Section I

1.0 Description of Services

1.0.1 General.

Headquarters Department of the Air Force (DAF/A10) provides Strategic Deterrence and Nuclear Integration. The purpose of this effort is to provide expert technical, analytical, operational, programmatic, and planning support for DAF/A10 and its component divisions. All work performed shall support DAF national security strategic plans, policies, concepts, and initiatives. The Contractor support provided will cover International Affairs and Foreign Policy, CWMD and Biodefense, the Nuclear Enterprise, Legislative Support, Strategic Deterrence Education, Integrated Air and Missile Defense, Ancillary Support and Program Management.

1.0.2 Scope.

The Contractor shall be responsible for providing all personnel, management, and other resources necessary to deliver the outcomes and meet the requirements detailed in this Performance Work Statement (PWS). The Contractor shall manage its own personnel and is solely responsible for the quality, timeliness, and completion of all specified deliverables.

1.0.3 Background.

Historically, DAF/A10 has relied on Contractor support to assist in policy development and maintenance on national security issues across its portfolio. To augment its organic capabilities, DAF/A10 periodically requires specialized contractor support to provide flexible subject matter expertise, aid in maintaining continuity, and contribute to the professional development and institutional knowledge of the government workforce.

1.1 Task 1 – International Treaties & Agreements and FCP Support

As directed by Air Force Policy Directive (AFPD) 16-6 and Headquarters Air Force Mission Directive (HAFMD) 1-60, the Policy and Strategy Division (DAF/A10P) is responsible for three operational areas: International Treaties and Agreements; Arms Control (Strategy, Policy, and Doctrine); and the Foreign Clearance Program. As the central Air Staff office for these matters, the division coordinates Department of the Air Force (DAF) policy for interagency arms control negotiations, oversees compliance with related agreements, and serves as the primary DAF liaison for international arms control and nonproliferation treaties.

Additionally, the division serves as the Department of War (DoW) executive agent for the Foreign Clearance Program (FCP) on behalf of the Secretary of the Air Force (SecAF). In this capacity, it is the DAF's central point of contact for all matters related to foreign area access. Key responsibilities include: managing the policy for and interpretation of the Foreign Clearance Guide (FCG); providing inputs for policies and procedures for overseas clearances; managing the Aircraft and Personnel Automated Clearance System (APACS); and overseeing training for Embassy Attachés, Operations Coordinators (OPSCOs), and Passport Agents.

1.1.1 Subtask 1 – Arms Control Support to HAF

1.1.1.1 The Contractor shall provide subject matter expertise to support implementation, training, and compliance activities for all arms control agreements affecting DAF operations. Personnel assigned to this task must possess a Top Secret (TS) security clearance with eligibility for Sensitive Compartmented Information (SCI), Special Access Program (SAP), and Special Access Required (SAR) programs.

Required Activity	Deliverable / Outcome
Policy & Position Development	Assist in the analysis and provide draft inputs for official DAF policy, position statements, and responses to Higher Headquarters (HHQ) taskings on treaty-related issues.
Treaty Impact Analysis	Produce analytical reports, impact assessments, and briefing materials on how proposed and existing treaties affect DAF capabilities and operations for government use.
Compliance & Implementation Oversight	Conduct assessments and generate reports to support DAF-wide implementation and assist in the verification of compliance with all applicable arms control agreements.
Inspection Readiness & Support	Provide analysis and draft inputs for inspection readiness plans, prepare pre-inspection materials, and provide on-site coordination and support for all designated facilities subject to treaty inspections.

1.1.1.2 The Contractor shall provide analytical support for both existing and proposed arms control treaties. This support requires research, review, and analysis of policy and technical aspects to inform the development and execution of treaty-related guidance for the DAF.

Task Area	Required Analysis	Deliverable / Outcome
Analysis of In-Force Treaties and Agreements	Conduct continuous research and analysis of the policy and technical details of all current treaties and agreements affecting the DAF.	Provide draft inputs and recommendations for implementation strategies, compliance guidance, and operational procedures for DAF personnel. Produce analytical reports identifying treaty implications and specific items of interest relevant to DAF operations.
Analysis of Proposed Treaties and Agreements	Perform research and analysis on the policy and technical aspects of contemplated treaty provisions, negotiation documents, and implementation plans.	Produce detailed assessments on the potential impact of proposed treaties on DAF policy and capabilities. Formulate and recommend specific courses of action for government consideration to shape the DoW and interagency debate.

1.1.1.3 The Contractor shall support the analysis and coordination required for the formulation and dissemination of DAF arms control policy. This includes providing draft inputs for official documents and providing analytical support for various government forums.

Required Activity	Deliverable / Outcome
Policy Documentation & Guidance	Provide draft inputs and recommendations for official guidance documents, including summaries, pamphlets, and guides for all relevant arms control treaties. Provide analysis and recommendations for updates to DAF Instructions (AFIs) to reflect current treaty implementation plans.
Interagency & International Forum Support	Develop studies, analyses, point papers, and briefings to support DAF positions in DoW, USG, and international deliberations. Provide analysis and recommendations for Treaty Compliance Review Groups (CRGs) and other consultative bodies.
Staff Action & Tasking Support	Prepare draft formal responses to HHQ taskings. Provide analysis and draft inputs for official service positions on treaties under negotiation, delivered via Staff Summary Sheets (SSSs) or other staff instruments that outline findings and recommendations for government approval.

1.1.1.4 The Contractor shall provide comprehensive support for all daily taskings and Requests for Information (RFIs) directed to DAF/A10P. This includes providing analysis to support the rapid development and coordination of DAF positions, plans, and policies.

Required Activity	Deliverable / Outcome
Tasker Analysis & Response Formulation	Analysis: Conduct research and review existing policy to assess the potential impact of all inquiries on DAF guidance and operations. Recommendation: Formulate formal recommendations and assist in the analysis supporting official DAF positions. Drafting: Produce draft inputs for official staff instruments, including responses, point papers, and briefings that communicate findings and recommendations for government review.
Coordination & Stakeholder Engagement	Consultation: Engage Subject Matter Experts (SMEs) from Major Commands (MAJCOMs) and other government agencies as required. Staffing Support: Assist government personnel in coordinating with all necessary stakeholders to obtain formal approval on responses.
Rapid Response	For taskings with deadlines of less than 24 hours, provide an initial analysis and draft response within the suspense, clearly identifying any external dependencies that may affect the final, fully coordinated response.

1.1.1.5 The Contractor shall provide comprehensive implementation and compliance support by evaluating existing processes, managing inspection events, and operating key data systems.

Required Activity	Deliverable / Outcome
Process Evaluation & Improvement	Continuously evaluate DAF treaty compliance processes. Identify systemic shortcomings and recommend improvements to existing procedures. Deliverable: Produce formal papers and briefings to present recommended changes for government consideration.

Inspection & Event Management	Track all arms control inspections and events, serving as the primary point of contact for related inquiries. Provide regular status updates to DAF/A10 leadership. Deliverable: Draft and submit all required after-action reports for government approval upon completion of events.
Data System Operations & Reporting	Arms Control Enterprise System (ACES): Operate the classified ACES web-based system to prepare and submit all required notifications and reports. Information and Resources Support System (IRSS): Monitor the unclassified IRSS database to review documents for potential treaty implications. Deliverable: For ACES, ensure timely submission of all required forms. For IRSS, notify the Office of Primary Responsibility (OPR) of any documents with potential treaty impacts.

1.1.1.6 The Contractor shall provide comprehensive support for all arms control treaty-related exercises and inspections, from initial planning to on-site execution.

Required Activity	Deliverable / Outcome
Exercise Planning & Scheduling	In coordination with HAF and MAJCOM staff, develop and maintain a planning calendar for all treaty compliance exercises and training events. Deliverable: A current and accurate forecast and planning calendar.
Exercise Execution & Training	Provide draft inputs for all necessary training materials for tabletop and field exercises. Organize, instruct, and facilitate the training events. Conduct "hot wash" evaluations immediately following each event. Deliverable: Produce draft lesson plans, exercise scripts, scenarios, and post-event evaluation reports for government approval.
Real-World Inspection Support	Provide draft inputs for and maintain all HAF inspection support documentation. Provide specialized technical, procedural, and operational expertise to DAF staff during actual treaty inspections. Deliverable: A deployable subject matter expert available for deployment within 48 hours of notification. Provide up-to-date inspection support documents.

1.1.1.7 The Contractor shall provide support for the development, management, and dissemination of all education and training materials related to DAF arms control treaty implementation.

Required Activity	Deliverable / Outcome
Training Material Development	Provide draft inputs and recommendations for a comprehensive suite of education and training materials. Deliverable: Produce and regularly provide recommended updates for computer-based training modules, briefings, handbooks, pamphlets, and guides.
Air Force Course Management	Assist in the development and execution of the official DAF Course for Treaty Compliance Officers (TCOs). Conduct post-course assessments. Deliverable: Delivery of the TCO course and submission of a detailed post-course assessment report with actionable recommendations.

External Training Coordination	Identify and coordinate opportunities for DAF personnel to attend external arms control-related training courses, professional development seminars, and workshops. Deliverable: Manage the scheduling and facilitate the attendance of personnel at relevant external events.
--------------------------------	--

1.1.1.8 Contractor shall provide comprehensive logistical support for all DAF/A10-sponsored conferences, workshops, and meetings.

Required Activity	Deliverable / Outcome
Event Planning & Preparation	Coordinate and schedule all meeting facilities. Provide draft inputs for official event documentation. Prepare draft talking points and presentations for DAF officials. Deliverables: Produce and manage agendas, attendee rosters, read-ahead materials, and briefing slides.
On-Site Execution & Facilitation	Host and facilitate the event from start to finish. Secure, coordinate, and set up all required audio-visual (AV) and IT equipment. Manage all security requirements for the event location and attendees. Deliverable: A fully managed and successfully executed event.
Post-Event Reporting & Follow-Up	Prepare and distribute detailed meeting minutes and track all resulting action items to completion. Deliverable: Submit a comprehensive After-Action Report containing an overall assessment, cost breakdown, attendee list, feedback, and actionable recommendations.

1.1.1.9 The Contractor shall provide modernization and acquisition support to ensure all relevant programs comply with arms control treaties. This involves continuous review, analysis, and coordination throughout the acquisition lifecycle. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Acquisition Program Review	Review and track Air Force, Space Force, and Joint acquisition programs, Concepts of Operations (CONOPS), and nuclear policy guidance. Deliverable: Ensure and document that programs are compliant with in-force treaties and aligned with agreements under negotiation.
Compliance & Interpretation Support	Throughout all phases of the acquisition process, engage DAF staff to identify programs with potential treaty implications. Deliverable: Facilitate and obtain official treaty policy interpretations and formal determinations from the DoW CRG for all affected programs.
International Monitoring & Analysis	Monitor and analyze arms control proposals from international treaty bodies and ongoing negotiations. Deliverable: Produce analytical reports and formal recommendations to protect Air Force modernization programs and strategic interests.

1.1.1.10 The Contractor shall provide strategy and planning support by analyzing high-level policy and providing recommendations to ensure Air Force compliance with treaty obligations. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Strategic & Policy Analysis	Analyze strategic nuclear doctrine, deterrence theories, and national security policies to interpret treaty obligations and support Conventional-Nuclear Integration (CNI) and Nuclear Posture Review (NPR) (or as appropriate) implementation. Deliverable: Produce and deliver comprehensive analytical papers (point, white, decision) that detail findings, recommendations, and the impact of national policy shifts on Air Force treaty compliance. These documents will include proposed courses of action to maintain compliance.
Process Analysis & Improvement	Continuously analyze the operational and national security environment to identify systemic shortcomings in existing Air Force treaty compliance processes. Formulate and propose improvements to current implementation and compliance procedures. Deliverable: Provide formal recommendations for process improvements and prepare the necessary staff instruments (e.g., point papers, briefings, SSSs, JABs) to execute the recommended actions.

1.1.1.11 The Contractor shall provide arms control history support by conducting issue-focused studies and creating knowledge management products based on the DAF's implementation and compliance activities over the past three decades. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Historical Research & Documentation	Access and collect large quantities of classified and unclassified documentation related to the DAF's historical execution of arms control operations, activities, and investments. Deliverable: A comprehensive, organized, and queryable collection of historical arms control documents
Knowledge Synthesis & Management	Analyze historical information to synthesize and organize it for targeted knowledge management. Deliverable: An organized and queryable repository of historical documents and "lessons learned" products that capture the history of DAF arms control operations.
Product Development & Briefing	Develop succinct "lessons learned" products suitable for use in online repositories and official DAF education and training courses. Brief leadership on findings, lessons learned, and knowledge capture products. Deliverable: A suite of historical knowledge products and the delivery of informational briefings to leadership.

1.1.1.12 The Contractor shall provide manpower and workforce development support for the Air Force's arms control billets and the Treaty Compliance Officer (TCO) community. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Manpower & Billet Management	Support the tracking and management of all designated arms control billets. Provide administrative support for billet transfers between units as directed. Deliverable: Review Unit Manpower Documents (UMDs) and provide analysis or recommendations as required.
Workforce Development & Coordination	Assist in the execution of all TCO workforce development initiatives. Liaise with Major Commands (MAJCOMs) and AF/A1 on manpower activities as directed. Deliverables: Maintain current and accurate contact lists for all relevant personnel. Prepare and deliver briefings and presentations on manpower topics.

1.1.2 Subtask 2 – Arms Control Support to MAJCOMs, NAFs, Units

1.1.2.1 The Contractor shall provide full-time, on-site arms control support at designated CONUS and OCONUS locations as directed by AF/A10. This support will be provided at the following DAF units, though this list is not exhaustive:

Command / Unit	Location
Headquarters Air Combat Command (ACC)	Langley Air Force Base (AFB), Virginia
Headquarters Air Force Materiel Command (AFMC)	Wright-Patterson AFB (WPAFB), Ohio
Headquarters United States Space Force (USSF)	Peterson AFB, Colorado
Headquarters Air Force Special Operations Command (AFSOC)	Hurlburt Field, Florida
Headquarters Air Force Global Strike Command (AFGSC)	Barksdale AFB, Louisiana
Headquarters U.S. Air Forces in Europe (USAFE)	Ramstein Air Base (AB), Germany
Headquarters Pacific Air Forces (PACAF)	Joint Base Pearl Harbor-Hickam, Hawaii
U.S. Air Forces Central Command (AFCENT)	Shaw AFB, South Carolina

1.1.2.2 The Contractor shall provide dedicated, on-site subject matter expertise to MAJCOMs and other DAF units, supporting a full range of arms control activities. This direct support is organized into the following areas:

Required Activity	Deliverable / Outcome
Policy Formulation & Dissemination	Conduct research and analysis on policy and technical issues to provide recommendations on treaty negotiations, implementation, and compliance. Serve as the primary liaison between the MAJCOM, HAF, the DoW, and interagency forums (e.g., CRGs, IWGs)
Implementation & Compliance	Provide technical expertise on all treaty implementation and compliance activities. Support the preparation of annual programming and budgeting submissions for the MAJCOM's treaty-related activities. Review and provide input on MAJCOM and unit-level compliance plans and instructions. Input all required notifications and data into the Arms Control Enterprise System (ACES).
Exercise & Inspection	Plan, schedule, and manage annual exercise events within the MAJCOM's Area of Responsibility (AOR). Assist units in preparing for treaty implementation exercises and real-world on-site inspections. Provide direct on-site assistance during exercises and inspections and update all relevant HAF and MAJCOM guidance documents.
Education & Training	Deliverable: Provide quarterly-reviewed and updated MAJCOM-unique training materials. A log of changes will be submitted with each update.
Modernization & Acquisition	Work directly with Program Executive Offices (PEOs) and System Program Offices (SPOs) to review and track acquisition programs, ensuring full compliance with all in-force and developing treaties. Provide treaty expertise and advice to PEOs and SPOs regarding program impacts on treaty compliance.
Analysis & Research	Conduct detailed research and analysis on policy and technical issues to support MAJCOM positions on treaty negotiations, implementation, and compliance. Deliverable: Produce formal treaty analysis papers, impact assessments, and recommendations.
Conference & Meeting Support	Provide full logistical support for all MAJCOM-sponsored conferences, workshops, and meetings. Deliverables: Prepare and manage all event materials (agendas, briefings, etc.), facilitate the event, and produce detailed after-action reports and meeting minutes.

1.1.2.3 The Contractor shall provide on-site subject matter expertise to designated MAJCOMs and other units, focusing on arms control policy formulation, development, and dissemination. This direct support is organized into the following activities:

Required Activity	Deliverable / Outcome
Policy Analysis & Recommendation	Conduct continuous research, review, and analysis of policy and technical issues. Deliverable: Provide formal comments on official documents and produce detailed recommendations on Air Force policy and operations concerning treaty negotiations, implementation, and compliance.
Interagency Liaison	Serve as the primary liaison between the supported MAJCOM and external entities, including DAF, the DoW, and other interagency planning and

polymaking forums.

Deliverable: Represent MAJCOM equities and positions in key forums such as CRGs, IWGs, and interagency backstopping meetings.

1.1.3 Subtask 3 – Arms Control Workforce Development and Communications Support

1.1.3.1 The Contractor shall provide subject matter expertise to support AF/A10P in workforce management and strategic communications. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Workforce Management	Provide subject matter expertise to support the effective recruitment, management, and professional development of the TCO workforce. Deliverable: Provide quarterly status reports on TCO billet fill rates and training completion, along with recommendations to address any identified gaps.
Strategic Communications	Develop and execute all A10P-directed arms control communications. Deliverables: Produce and distribute timely "items of interest" summaries, create and disseminate topic-specific bulletins, and develop and maintain collaboration sites. Manage other communications as directed.

1.1.4 Subtask 4 – Foreign Clearance Program Support

1.1.4.1 The Contractor shall provide comprehensive support to the Foreign Clearance Program (FCP) across a full range of policy, operational, and technical activities. This support is organized into the following areas:

Required Activity	Deliverable / Outcome
Policy, Procedure, & Analysis	Develop and refine operational concepts for aircraft and personnel clearances, including DoW Passport policy. Provide recommendations and draft language for updates to overseas travel regulations based on new guidance. Analyze global access and overflight issues, delivering proposed recommendations to maximize airspace access. Research and analyze international sovereignty policies (e.g., Freedom of Navigation, Incidents at Sea) and technical details (e.g., Flight Information Regions), delivering findings and recommended courses of action.
Foreign Clearance Guide (FCG) Management	Maintain and update the unclassified and classified FCG websites, which serve as the single point of reference for DoW international procedures. Edit and confirm all content changes (approx. 6,000 per year) to ensure compliance with international law and U.S. policy. Maintain an electronic archive of all past FCG versions.
Aircraft & Personnel	SME & User Support: Provide on-site policy, administrative, and

Automated Clearance System (APACS) Support	helpdesk support for the NIPRNET and SIPRNET APACS portals, which serve approx. 550,000 users. This includes resolving user issues, answering policy questions, and managing trouble tickets. System Maintenance & Development: Provide technical support for all application software updates (e.g., bug fixes, upgrades) and API management. Coordinate with DISA and appropriate others to ensure all server patches and upgrades are performed with minimal impact to end-users. Track all requests for new capabilities and provide a consolidated list to the Configuration Control Board (CCB). Deliverable: Implement all CCB-approved system changes on a recurring three-month cycle. Deliverable: Develop, upgrade, and deliver a dedicated SIPRNet APACS-SPECAT module to automate the sensitive travel approval workflow for USSOCOM and other personnel.
Development, Testing, & Cybersecurity	Environment: Provide and maintain a dedicated development, build, and testing environment for APACS and the FCG at the Contractor's facility. Code Security: Scan all source code to identify and address security violations prior to production deployment. Testing & Evaluation: Perform comprehensive testing and evaluation of all systems and components to verify requirements, identify software bugs, and assess the severity of all findings. Cybersecurity Management: Provide a designated Information System Security Manager (ISSM) and manage APACS cybersecurity using the Risk Management Framework (RMF) and eMASS. Perform all assessment and accreditation activities required to maintain the system's Authority to Operate (ATO). Configuration Management: In coordination with DISA and appropriate others, maintain the System Security Accreditation Agreement (SSAA) and manage all configuration change control processes.
Training & Outreach	Develop, maintain, and deliver all FCP training products. Conduct training as needed for U.S. Embassy Attachés, passport agents, and other personnel. Sustain an outreach program to ensure FCP issues are widely understood throughout the DoW.
Prime Nuclear Airlift Force (PNAF) Support	Perform technical analysis and support the promulgation of diplomatic clearance requirements for PNAF aircraft as contained in the FCG and the classified Special Weapons Overflight Guide (SWOG) supplement.

1.2 Task 2 – Countering Weapons of Mass Destruction (CWMD) and Biodefense Support

The growing threat of WMD, specifically chemical, biological, radiological, and nuclear (CBRN) weapons, poses one of the most serious challenges facing Department of the Air Force (DAF) (i.e., Headquarters USAF and US Space Force) core mission operations. As part of the Service's responsibility to provide CBRN and CWMD-ready Airmen and Mission-Critical systems (i.e. aircraft, spacecraft) for Combatant Command Air Component forces, the DAF is tasked to fully develop and institutionalize required CWMD capabilities, thus enabling the success of air, space and cyber operational missions in the 21st century battlespace.

1.2.0.1 The Contractor shall provide comprehensive analytical, operational, and policy support for the Department of the Air Force (DAF) CWMD and Biodefense enterprises. This support is critical for developing and institutionalizing Doctrine, Organization, Training, Materiel, Leadership & Education, Personnel, Facilities, and Policy (DOTMLPF-P) solutions that enable mission success in a CBRN-contested environment. The contractor will assist in codifying strategy, analyzing threats, defining requirements, and preparing materials for DAF representation in key national and international forums. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Develop CWMD Policy, Doctrine, and Strategy	Analyze and synthesize information to assist in codifying CWMD and Biodefense principles into DAF-wide operational strategy, plans, doctrine, and guidance documents. Deliverables: • Draft policy and guidance documents. • Draft Concept of Operations (CONOPS) and Tactics, Techniques, and Procedures (TTPs).
Conduct Operational and Technical Analysis	Conduct operational analysis of the DAF CWMD, CBRN Defense, and Biodefense enterprises. Evaluate information from S&T and RDT&E to refine procedures and demonstrate capabilities. Deliverables: • Formal Threat Analysis reports. • Technical Research and Operational Analysis reports. • Decision-quality briefings identifying findings and recommending Courses of Action (COAs).
Define and Integrate CWMD Requirements	Support the identification and codification of DAF CWMD requirements within the DAF process and other requirements documents. Deliverable: Draft language and analysis for inclusion in requirements documents and technical reports.
Support CWMD Survivability and Modernization	Conduct reviews, assessments, and data collection to support the CBRN Survivability of mission-critical systems and facilities. Provide analysis to support the integration of CWMD concepts into AF programs and budgets. Deliverables: • CBRN Survivability Assessment reports. • Analytical products supporting program and budget integration. • Joint, Congressional, and other CWMD/CBRN readiness reporting
Support Interagency Engagement and Governance Forums	Prepare analytical materials to support DAF representation and advocacy in international, interagency, OSD, Joint Staff, MAJCOM, Service, and other forums involving CWMD. Deliverable: Support packages (e.g., draft read-aheads, talking points, position papers) for DAF participation in designated forums.
Support the AF Biodefense Enterprise	Provide dedicated Biodefense analysis, recommendations, coordination, and integration activities support for DAF/A10 leadership and the AF Biodefense Council in the implementation of National, DoD, and AF Biodefense strategies and policies.

Deliverable: Analytical products and formal recommendations for the AF Biodefense Council.

1.2.1 Subtask 1 – CWMD Policy Support

1.2.1.1 The Contractor shall provide expert analytical, programmatic, and staff process support for AF/A10's CWMD and Biodefense policy responsibilities. This requires analyzing national strategy, managing daily staff actions, reviewing joint programs, and providing logistical support for key events to ensure Air Force positions are effectively developed and represented. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Manage CWMD Staff Actions and Taskings	Analyze, research, draft, coordinate, and route all daily CWMD requirements and taskings from internal and external organizations (e.g., OSD, JS, HAF). Deliverables: • Draft staff packages (e.g., SSSs, point papers, white papers, briefings) prepared in the proper AF format. • Coordinated responses to official Requests for Information (RFIs). • Completed Comment Resolution Matrixes (CRMs) for document reviews.
Support CWMD/Biodefense Policy and Program Analysis	Review and analyze DoD, Joint, and Air Force programs, strategic documents (e.g., NPR, NDS), and policy directives to determine impacts and equities for the CWMD and Biodefense enterprises. Deliverables: • Formal analysis reports on guidance and strategy documents. • Recommendations for DAF positions in requirements development forums. • Analysis of intelligence reports with options to address readiness challenges. • Coordinate with Joint, CCMD, MAJCOM, Center, and other CWMD/CBRN staff as needed to support DAF policy, readiness, exercise, planning and other tasks.
Provide CBRN Survivability Program Support	Conduct research and analysis and provide program management support for the DoD CBRN Survivability Program in accordance with DoDI 3150.09. Deliverable: Draft inputs for the annual CBRN Survivability Report delivered via the designated data system.
Provide Forum and Event Logistical Support	Provide comprehensive SME, logistical, administrative, and security support for all AF/A10-sponsored CWMD, CBRND, and Biodefense forums, meetings, working groups, and conferences.

Deliverables:

- All event materials (agendas, minutes, read-aheads, rosters, talking points, briefings).
- A fully managed and successfully executed event, including facility, security, and AV/IT coordination.

1.2.2 Subtask 2—CWMD Enterprise Governance Support

1.2.2.1 The Contractor shall provide expert analytical and administrative support for the multi-tiered Air Force CWMD governance structure, including the CWMD Council, CWMD Integration Group (CIG), and the Policy Working Group (PWG). Support shall also be provided for other designated DoD, Joint, and interagency CWMD-related forums as required. This support is essential for preparing senior leaders, managing forum workflows, and tracking strategic decisions. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Pre-Forum Analytical and Administrative Support	Coordinate and consolidate agenda topics, develop support materials, and prepare senior leaders for effective participation in all designated governance forums. Deliverable: Senior Leader Support Packages, including draft read-aheads, agendas, and briefing materials.
Support Forum Execution and Documentation	Provide logistical and administrative support during forum execution to capture a comprehensive record of all discussions, decisions, and assigned tasks. Deliverable: Draft meeting minutes for government review and formal distribution.
Manage Post-Forum Follow-Up Actions	Monitor, document, and report on the progress of all action items assigned during governance forums to ensure their timely completion. Deliverable: A current Action Item Tracker detailing the status, responsible office, and closure of all assigned tasks.

1.2.3 Subtask 3 – CWMD Strategy, Plans, Policy, Operations, Doctrine, and CONOPS Support

1.2.3.1 The Contractor shall provide comprehensive Doctrine, Organization, Training, Materiel, Leadership & Education, Personnel, Facilities, and Policy (DOTMLPF-P) analytical support to improve DAF CWMD and Biodefense capabilities. This requires analyzing strategic guidance, identifying operational gaps, defining requirements, and engaging with stakeholders to ensure DAF equities are represented in all relevant forums. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
-------------------	-----------------------

Analyze and Integrate Strategic Guidance	Review and analyze high-level strategic documents (e.g., Defense Planning Guidance, Global Campaign Plans, OPLANs) to ensure DAF CWMD and Biodefense equities, threats, and objectives are fully integrated. Deliverable: Analysis reports and formal recommendations for updates to strategic documents.
Support the Development of DAF Requirements	Analyze DAF operational needs to provide formal recommendations for CWMD, CBRND, and Biodefense requirements. Prepare analytical products and draft inputs to support government representation and advocacy in Joint, Service, and interagency acquisition and planning forums. Deliverable: Draft requirements documents and supporting analysis for government approval.
Conduct CWMD Gap Analyses	Conduct studies and analysis to identify and analyze CWMD and Biodefense operational readiness and planning gaps, informed by capabilities documents and best practices from allied, joint, and interagency partners. Deliverable: Formal Gap Analysis Reports detailing findings and actionable recommendations.
Support Stakeholder Engagement and Communications	Prepare analytical materials and briefings to support DAF engagement with DoD, non-DoD institutions, other Services, and foreign partners. Deliverable: Executive-level briefings and support packages for DAF leadership's use in designated forums.

1.2.4 Subtask 4 – CBRN Technical Analysis Support

1.2.4.1 The Contractor shall provide highly specialized scientific and technical analysis to translate complex CBRN data into actionable operational insights for the DAF. This requires conducting detailed research, evaluating test results, and leveraging advanced modeling to inform AF strategy, policy, doctrine, and TTPs regarding CWMD and Biodefense. The support activities are detailed in the tables below:

Technical Analysis & Operational Translation

Required Activity	Deliverable / Outcome
Conduct CBRN Operational Impact Analysis	Analyze OPLANS, Force Models, intelligence, CBRN threats, delivery means, and environmental effects to assess the operational impact on DAF missions, including aircraft sorties, logistics, equipment, and personnel. Deliverables: • Operational Impact Analysis Reports. • Threat and Vulnerability Assessment papers. a. Basic Challenge Sources.

- b. Attack Characterization.
- c. Atmospheric Transport Dispersion Modeling.
- d. Chemical-Biological Defense Equipment Operations/Capabilities/Capacities/ Limitations.
- e. AF Operations both normal and in CBRN environment.
- f. Risk Assessment/Management.
- g. Hazard Modeling and Analysis.
- h. Detector Capability Analysis.
- i. Decontamination Requirements Analysis.
- j. Technical Design.

Provide Test & Experimentation (T&E) Support	Support and provide subject matter expertise for AF, Joint, or inter-agency T&E events. Evaluate raw scientific test results to determine operational relevance and application. Deliverables: • Test Result Evaluation Reports. • Recommendations for operational guidance (e.g., evacuation criteria, exposure limits, standoff distances, and decontamination standards) based on test findings.
Support Policy & Doctrine Refinement	Conduct technical reviews of requirements documents and monitor advances in the scientific community to ensure AF guidance is accurate, relevant, and current. Deliverable: Formal recommendations for technical and analytical updates to AFIs, AFMANs, TTPs, and other policy/doctrine documents.

Modeling, Simulation & Software Development

Required Activity	Deliverable / Outcome
Operate and Maintain M&S Products	Develop, maintain, and operate current and future sortie generation and hazard prediction Modeling & Simulation (M&S) products (e.g., VLSTRACK, HPAC, JEM, etc.). Deliverables: • Hazard prediction and sortie generation models and simulations. • Updates to hazard duration risk management tool databases.
Develop Custom Software Solutions	Program new modeling and visualization tools as directed to depict complex systems, such as aircraft generation flow or chemical agent behavior. Deliverable: New custom modeling programs and visualization tools developed in common programming languages – (e.g.; Python, C++, Visual Basic).

1.2.5 Subtask 5 – CWMD and Biodefense Air Force & Joint Education & Interaction

1.2.5.1 The Contractor shall provide analytical and logistical support to improve DAF CWMD and Biodefense interoperability and knowledge sharing across the Air Force, sister Services, Joint, interagency, and academic communities. This requires identifying and supporting DAF participation in key educational and policy forums to ensure Air Force equities are represented and strategic insights are integrated into DAF/A10 planning. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Identify and Support Forum Participation	Identify opportunities for DAF personnel to attend relevant CWMD and Biodefense discussions, conferences, workshops, and seminars hosted by educational and policy institutions (e.g., Air University, NDU). Provide analytical and logistical support for government attendance. Deliverable: A curated list of recommended engagement opportunities.
Provide Forum Representation and Analysis	As directed, attend and participate in designated CWMD and Biodefense forums to represent Air Force equities. Analyze all exchanged information, concepts, and requirements. Deliverable: Post-Forum Analysis Reports detailing findings, impacts on DAF/A10 strategy, and recommended courses of action for government consideration.
Develop Analytical and Decision Products	Based on forum outcomes, produce comprehensive analytical products to inform AF/A10 leadership. Deliverable: Formal information, point, white, and decision papers discussing forum results, progress, and recommended AF positions.

1.2.5 Subtask 5 – CWMD Support to MAJCOMs and Other Agencies

1.2.5.1 The Contractor shall provide dedicated, on-site CWMD and Biodefense subject matter expertise to designated Major Commands (MAJCOMs), including but not limited to AFSOC, USAFE, and PACAF. This support focuses on assisting the MAJCOMs in the implementation of Air Force guidance, the integration of CWMD concepts into command-level plans and operations and acting as a liaison between the MAJCOM and HAF. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Integrate CWMD and Biodefense into MAJCOM Policy and Plans	Analyze and assist in integrating CWMD efforts into MAJCOM OPLANs and CONOPS. Draft and review MAJCOM-level compliance plans and doctrine documents to ensure alignment with HAF guidance.

Deliverables:

- Analysis and recommendations for integrating CWMD into OPLANs and CONOPS.
- Draft MAJCOM-level doctrine and implementation guidance.
- Coordinated staff packages representing the MAJCOM position.

Identify and Analyze MAJCOM CWMD Capabilities and Gaps	Identify, evaluate, and disseminate information on the MAJCOM's CWMD and Biodefense capabilities, shortfalls, and potential solutions across each line of effort. Deliverable: Formal analysis reports, briefings, and staff papers detailing MAJCOM capabilities, shortfalls, and recommended solutions for delivery to DAF/A10.
Support MAJCOM-level CWMD Exercises, Training, and Inspections	Support the development and institutionalization of CWMD/Biodefense education and training at the MAJCOM level. Assist in the planning and execution of exercises and wargames and provide expertise during inspections. Deliverables: • Support for the planning and execution of MAJCOM exercises and wargames. • Updated and reviewed MAJCOM-specific training materials. • On-site subject matter expertise during real-world inspections.
Serve as MAJCOM Liaison and Represent Command Equities	Act as the MAJCOM's liaison to HAF, other Services, and interagency forums on CWMD and Biodefense issues. Deliverable: Representation of MAJCOM CWMD positions in designated Joint, Service, and interagency forums.

1.2.6 Subtask 6 – CBRN Technical Analysis Support to United States Air Force Europe and Air Force Africa (USAFE-AFAFRICA)

1.2.6.1 The Contractor shall provide dedicated CBRN technical analysis, as detailed in Subtask 3, specifically tailored to address the unique operational challenges and requirements of USAFE-AFAFRICA forces. The contractor will produce the following specific studies, analyses, and decision-support products, with priority determined by the government customer.

Required Analytical Product	Description / Key Objectives
Combined Attack Impact Analysis	An analysis detailing the likely impact of combined High-Explosive (HE) and Chemical Warfare (CW) attacks on the execution of Air Force OPLANs.

Chemical Hazard Duration Tables	The development and delivery of updated chemical hazard duration tables for operational planning and risk management.
Radiation Monitoring CONOPS	A formal recommendation and proposed Concept of Operations (CONOPS) for Radiation Area Detection and Monitoring.
Nuclear Fallout Operations Structure	A proposed organizational and operational structure for the Air Force to effectively operate within nuclear fallout environments.
Wartime CBRNE Training Materials Analysis	An analysis of current wartime CBRNE-related base populace training materials, with formal recommendations for improvements.
CW Detector Employment TTPs	An analysis of detector employment tactics for various base sizes and operating packages, resulting in recommended Tactics, Techniques, and Procedures (TTPs) for current and projected CW detectors in an A2/AD environment.
Counter-Biological Warfare (C-BW) Report	A comprehensive technical analysis report on Air Force Counter-Biological Warfare capabilities, gaps, and recommendations.
CBRN Equipment Performance Specifications	The development of proposed performance specifications for Air Force CBRN equipment to inform future acquisition and modernization.
CBRNE Commander's Guides	The development and delivery of concise, practical CBRNE-related guides for commanders.
"Exercise-in-a-Box" Package	A complete, self-contained exercise package designed to train units on responding to a combined HE-CW environment.
Ad-Hoc CBRN Analysis	Emergent technical analysis on specific CBRN community topics as requested by government stakeholders.

1.3 Task 3 – Nuclear Enterprise Support

AF/A10 is the AF focal point for the nuclear, CWMD, and Biodefense enterprises. Contractors supporting designated elements of this task require a TS security clearance with SCI. In addition, Nuclear Stockpile requires SAP and SAR eligibility to perform designated functions.

1.3.0.1 The Contractor shall assist AF/A10 in developing and coordinating AF strategic-level policy; formulating and implementing AF future strategic concepts; developing and disseminating AF views on strategic deterrence policies; and codifying AF nuclear deterrence strategy in DoW strategic policy and Joint doctrine.

1.3.1 Subtask 1 – Nuclear Stockpile Support

1.3.1.1 The Contractor shall provide subject matter expertise and analytical support for the management of the U.S. nuclear stockpile. This requires conducting in-depth analysis of stockpile sustainment issues, managing staff coordination processes, and supporting AF/A10XC engagement in relevant DoD, DoE, and interagency forums. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Nuclear Stockpile Analysis and Policy Recommendations	Conduct research and analysis on nuclear stockpile sustainment issues. Synthesize information from stakeholders to develop formal policy positions, recommendations, and analytical products for government consideration. Deliverables: • Research, point, white, and decision papers. • Formal briefings detailing analytical findings. • Draft testimony and articles for publication for government use.
Manage Staff Packages and Document Review	Serve as the focal point for coordinating all nuclear stockpile-related staff packages. Review and provide formal comments on a broad array of sustainment-related documents from internal and external organizations. Deliverables: • Completed staff packages prepared in the standard AF format. • Comment Resolution Matrixes (CRMs) for all reviewed documents.
Support Forum and Interagency Engagement	Attend and participate in designated nuclear stockpile-related technical discussions, meetings, wargames, and interagency forums. Analyze all exchanged information to identify impacts on AF/A10XC equities. Deliverable: Post-Forum Analysis Reports detailing findings, impacts, and recommended courses of action.
Maintain Historical and Programmatic Archives	Document and organize current and historical data related to nuclear stockpile activities to maintain programmatic continuity. Deliverable: An organized and accessible electronic and/or physical archive of programmatic decisions and supporting material.

1.3.2 Subtask 2 – Nuclear Command Control and Communications (NC3) Support

1.3.2.1 The NC3 Division, AF/A10XN, per HAF Mission Directive 1-60, is the DAF point of contact for assessing NC3 programs, policies and capabilities to ensure the Air Force budgets, develops, acquires,

supports, and maintains assigned NC3 enterprise systems and elements of the National Military Command System (NMCS). The NC3 mission area encompasses elements from USAF, US Space Force, US Navy and supporting interagency functions to ensure execution of NC2 authorities.

1.3.2.2 The Contractor shall provide specialized technical, analytical, and programmatic support for the NC3 Division (AF/A10XN). This support focuses on ensuring the resiliency, survivability, and cybersecurity of the DAF NC3 enterprise by analyzing requirements, assessing capabilities, and preparing materials for government use in key governance forums and stakeholder engagements. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Analyze the resiliency and survivability of the NC3 enterprise against all threats, including cyber, physical, and electromagnetic effects.	Deliverable: NC3 Resiliency and Survivability Analysis Report(s) for government review.
Analyze enterprise cybersecurity best practices and their impact on NC3 systems, policies, and guidance.	Deliverables: • Draft Responses to Inquiries regarding cybersecurity. • Cybersecurity Impact Analysis Reports. • Draft Point Papers and Briefings on cybersecurity topics.
Analyze JROC, Joint Staff, and Combatant Command NC3 requirements and their effect on DAF policies and guidance.	Deliverables: • Draft Responses to Inquiries regarding joint requirements. • Requirements Impact Analysis Reports. • Draft Point Papers and Briefings on joint requirements topics.
Analyze Next Generation NC3 concepts and strategic guidance to develop proposed solutions and assess alignment with JADC2.	Deliverables: • Technical Analysis Reports on Next Generation waveforms, technologies, and systems. • Proposed Solutions briefs and/or papers addressing NC3 capability limitations. • JADC2 Integration Analysis Reports. • Analysis Reports on alignment with strategic documents (e.g., NC3 CPG, Next Gen MNS).
Provide analytical and preparatory support for DAF participation in NC3-related governance forums, technical meetings, and senior leader engagements.	Deliverables: • Governance Forum Support Packages (e.g., draft read-aheads, draft talking points) for government use. • Draft Senior Leader Engagement Briefings.

• Technical Meeting Summary Reports.

1.3.2.3 Supported NC3 Governance Forums

1.3.2.3.1 To provide specific clarity on the scope of the 'Governance Forum Support' activity, the contractor shall provide preparatory and analytical support for DAF participation in the following forums and their associated working groups.

Forum / Working Group (Full Name)	Acronym	Lead Organization / Focus Area
Council for the National Leadership Command Control & Communications System	CONLC3S	DoD CIO
NC3 Enterprise Operational Risk Advisory Group	NEORAG	USSTRATCOM NC3 Enterprise Center (NEC)
NC3 Cyber Defense Operational Planning Team	CD-OPT	USSTRATCOM / USCYBERCOM
Mission Focused-Cyber Hardening NC3	MFCH	OUS(A&S)
Strategic Automated Command and Control System to Navy Modernized Hybrid System Integrated Product Team	IPT	SACCS to NMHS
Special Mode 'A' Very Low Frequency Waveform Development Working Group	VLF WG	VLF Waveform Development
DAF NC3 Cybersecurity Working Group & NC3 Cyber Summit	CWG	AF/A10XN
Nuclear Command, Control, and Communications (NC3) Next-Gen Terrestrial & Subsurface	NNTSS	NC3 Modernization
Strategic Terminal Executive Group	STEG	Strategic Terminals
Reflex Delta / Rebound Echo GO Steering Group	GOSG	Classified Exercises
Mission Assurance Working Group	MAWG	Mission Assurance

1.3.3 Subtask 3 – Nuclear Enterprise Governance Support

1.3.3.1 The Contractor shall provide dedicated analytical and administrative support for the Air Force's primary nuclear governance body, the Nuclear Oversight Council (NOC), as well as other designated nuclear-related forums. This support is critical for preparing senior leadership, managing the forum's workflow, and tracking strategic decisions related to the sustainment and modernization of the nuclear enterprise. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Pre-Forum Analytical and Administrative Support	Coordinate and consolidate agenda topics and briefing materials from relevant stakeholders to prepare senior leaders for participation in the NOC and other forums. Deliverable: Senior Leader Support Packages, including draft read-aheads, agendas, and briefing materials.
Support Forum Execution and Documentation	Provide logistical and administrative support during forum execution to capture a comprehensive record of all discussions and strategic decisions. Deliverable: Draft meeting minutes for government review and formal distribution.
Manage Post-Forum Follow-Up Actions	Monitor and document the progress of all tasks assigned during governance forums to ensure timely completion. Deliverable: A current Action Item Tracker detailing the status, responsible office, and closure of all assigned tasks.

1.3.4 Subtask 4 — NC3 Governance Support

1.3.4.1 NC3 Decision Forum (NC3DF): Chaired by Secretary or Deputy Secretary of War, held no less than twice annually, is the senior NC3 review by DoW. Principal briefers may include CDRUSSTRATCOM, as NC3 Enterprise Lead, and USW(A&S), as the NC3 Capability Portfolio Manager (CPM). Service reps include the Secretary of the Air Force, with A10 as a plus one.

1.3.4.2 The Contractor shall provide dedicated analytical support to prepare Department of the Air Force (DAF) senior leadership for participation in the highest levels of DoD governance, specifically the NC3 Decision Forum (NC3DF). This support ensures DAF principals are equipped with comprehensive technical and operational analysis to effectively represent Air Force positions. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
-------------------	-----------------------

Provide analytical and preparatory support for DAF senior leader participation in the NC3 Decision Forum (NC3DF) and other key stakeholder meetings.

Deliverables:

- Draft Read-Ahead materials and talking points.
- Technical and Operational Analysis Reports on draft DAF positions.
- Meeting Summary Reports (as required).
- Revised Senior Leader Engagement materials incorporating government feedback.

1.3.5 Subtask 5—Enterprise Governance Administrative and Logistical Support

1.3.5.1 The Contractor shall provide common administrative and logistical support functions for all enterprise governance forums detailed in Subtasks 1.2.2, 1.3.3, and 1.3.4 (CWMD, Nuclear and NC3). This support covers the full lifecycle of each event, from initial planning through post-event assessment, to ensure the seamless execution of senior leader meetings. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Pre-Forum Planning, Coordination, and Material Production	Manage all logistical and administrative preparations for each governance forum. This includes reserving venues, de-conflicting schedules, and producing all necessary materials for senior leader pre-briefings and final distribution. Deliverables: • A current and de-conflicted master governance forum calendar. • An updated Point of Contact (POC) list for all forum members. • A complete Senior Leader Support Package containing: draft agendas, read-aheads, consolidated briefing decks, name placards, and seating charts.
Provide On-Site Support During Forum Execution	Manage all on-site logistical and administrative functions during the execution of the forum. This includes venue setup, security coordination, AV/IT equipment management, and capturing a comprehensive record of the proceedings. Deliverable: A successfully managed and executed event.
Provide Post-Forum Documentation, Task Tracking, and Event Assessment	Document all outcomes of the forum and conduct a thorough assessment to identify improvements for future events. Deliverables: • Draft meeting minutes documenting all key discussions, decisions, and

assigned action items for government review.

- A formal After-Action Report (AAR) detailing lessons learned, evaluation of logistics and content, and actionable recommendations.

1.3.6 Subtask 6 – Program Budget Analysis Support

1.3.6.1 The Contractor shall provide comprehensive program and budget analysis support throughout all phases of the Planning, Programming, Budgeting, and Execution (PPBE) cycle. This requires assisting in the development and advocacy of programmatic positions, analyzing fiscal data, preparing funding documents, and reporting on financial execution to support all DAF/A10 mission requirements. The contractor shall not perform inherently governmental functions. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Program and Budget Formulation Support	Analyze strategic planning documents (e.g., DPG) and assist Program Element Monitors (PEMs) in developing annual financial plans (FINPLANS) and out-year programming requirements. Draft and prepare programmatic budgeting materials for use in decision processes and in response to inquiries from Congress, DoD, and other agencies. Deliverables: • Analysis reports on planning documents. • Draft Financial Plans (FINPLANS) for government review. • Draft programmatic and budget justification materials (e.g., presentations, staffing papers).
Provide Budget Execution and Financial Analysis Support	Assist Resource Advisors (RAs) in the preparation and processing of funding documents. Analyze financial data daily for accuracy, including commitments, obligations, and expenditures. Monitor execution of funds distributed to the field. Deliverables: • Draft funding documents (e.g., MIPRs, AF Form 9s, MORDs). • A Monthly Budget Execution Report detailing the status of all accounts, justifications for changes, and overall financial position.
Support PPBE-Related Meetings and Forums	Attend designated program review meetings to document requirements and identify implications for the PPBE process. Deliverable: Post-Meeting Reports detailing findings and formal recommendations for government consideration.

1.3.7 Subtask 7 - Nuclear Sustainment and Modernization Integrated Master Schedule Support

1.3.7.1 The Contractor shall provide integrated master schedule (IMS) development and management support for DAF/A10 and applicable MAJCOMs. This requires the coordination, deconfliction, and

visualization of schedules from numerous organizations into a single, unified product addressing all nuclear (NC3 inclusive) sustainment and modernization (new acquisition inclusive) efforts. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
IMS Development & Management	Coordinate and gather schedules from all relevant stakeholder organizations. Assist in consolidating disparate schedules into a unified product, arranging milestones and action points chronologically. Identify and flag any discrepancies between different scheduling products. Deliverable: A single, unified Integrated Master Schedule (IMS).
Critical Path & Dependency Analysis	Analyze and denote all event dependencies, identifying which events are sequential versus those that can occur in parallel. Identify and track all cross-functional relationships and dependencies. Continuously adjust event associations and the accompanying critical path as actions are modified. Deliverable: A clearly defined and continuously updated critical path to mission accomplishment.
Risk & Opportunity Management	Identify and document existing and potential risk areas within the schedule. Deliverable: A risk register that categorizes all identified risks into four categories: strategic, compliance, financial, and operational.
Product Generation & Briefing Support	Prepare and develop materials for General Officer/Senior Executive Service (GO/SES) forums. Deliverables: Produce talking points, briefing slides, and meeting materials. Generate custom graphic and text-based products from the IMS as required for daily use and senior leader decision-making.
Security & Classification	Must handle classified material up to the TOP SECRET level. Deliverable: Produce schedule products at various classification and releasability levels, including U.S.-only (NOFORN), FVEY, NATO, and other partner nations as required.

1.4 Task 4 – Legislative Support

Legislative actions, inquiries, and perspectives have a direct and significant impact on the entire DAF/A10 portfolio, including international agreements, nuclear modernization, CWMD capabilities, and the Foreign Clearance Program. Proactive and informed engagement with Congress is therefore essential for advocating for DAF equities and ensuring mission success.

1.4.0.1 The Contractor shall provide comprehensive legislative analysis and support for all DAF/A10 mission areas. This requires actively monitoring and analyzing Congressional activities, perspectives, and trends, and maintaining a repository of official statements to ensure DAF/A10 leadership is prepared for all legislative engagements. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
-------------------	-----------------------

Monitor and Analyze Legislative and Congressional Activities	Research and analyze legislative actions, trends, and events, including hearings, committee markups, and GAO reports. Track and report on Congressional authorization and appropriation actions affecting the DAF nuclear portfolio. Deliverables: • A Weekly Legislative Review and Events Schedule. • Synopses of Congressional Hearings. • Ad-hoc reports and briefings on legislative trends. • A Congressional Authorization and Appropriations Tracker.
Maintain a Repository of Strategic Statements and Postures	Research, compile, and maintain a consolidated record of all current and historical Air Force statements, postures, and responses to Congressional inquiries related to DAF/A10 mission areas. Track and include related statements from the U.S. Navy and other Services. Deliverable: A single, continuously updated repository of all collected statements and postures.

1.5 Task 5 – Emerging Deterrence Issues Research and DAF Deterrence Education

To organize, train, equip, exercise, and inspect the Nation's deterrent force, DAF/A10 is mandated to champion Air Force Deterrence Education and spearhead research into emerging deterrence challenges. This dual-pronged effort is designed to establish, sustain, and lead a culture of critical inquiry focused on national safeguarding and countering adversary Weapons of Mass Destruction (WMD), Nuclear Deterrence Operations (NDO), Conventional-Nuclear Integration (CNI), arms control matters, and myriad related subjects. By fostering a deep, intellectual understanding of deterrence theory and practice across the DAF, this initiative ensures that Airmen can serve as an authoritative voice in strategic debates, policy formulation, and operational planning. The continuous research into evolving threats, new technologies, and the shifting geopolitical landscape ensures the Air Force's deterrent posture remains credible, adaptive, and intellectually rigorous, thereby directly supporting its foundational mission to provide a safe, secure, and effective deterrent for the Nation.

1.5.1 Subtask 1 – Emerging Issues

1.5.1.1 The Contractor shall provide research, analysis, and consultative support on emerging issues related to strategic deterrence. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Research & Analysis	Conduct continuous research and scholarly analysis on a full range of emerging issues in strategic deterrence, including policy, strategy, arms control, NC3, CWMD, and related national security topics. Support exercises and studies to develop new Air Force deterrence concepts and CONOPs. Deliverable: Produce and deliver comprehensive draft and final reports, briefings, and analyses detailing findings, strategic insights, and implications. Research efforts may be short-term or long-term (up to one year) and may require CONUS/OCONUS travel.

Organizational Consultation	Provide expert assistance and consultation to devise innovative managerial and organizational solutions for mission challenges arising from emerging deterrence issues. Deliverable: Present proposed solutions and implementation strategies to AF/A10 leadership.
Forum & Event Support	As directed, plan, support, and/or conduct forums, workshops, seminars, and conferences on emerging deterrence issues. Deliverable: Produce and deliver all event-related materials, including research reports, analyses, briefings, and discussion summaries resulting from the forums.

1.5.2 Subtask 2 – National Deterrence Guidance and Strategic Planning Support

1.5.2.1 The Contractor shall provide expert support to analyze and integrate national-level strategic guidance into Air Force policy and planning for the deterrence mission. This support is organized into the following activities:

Required Activity	Deliverable / Outcome
Strategic Document Analysis & Integration	Analyze, interpret, and integrate guidance from a full range of national strategic documents, including Presidential Directives, the National Security Strategy, the National Defense Strategy, Nuclear Posture Review, Missile Defense Review, strategic planning guidance, and operational plans and force management tools. Deliverable: Provide expert advice and formal recommendations for consideration in the development of effective DoW, DAF, and USAF policies, procedures, and guidance related to the force composition and execution of deterrence missions.
Strategic Review & Planning Support	Review, analyze, and provide direct support to AF/A10 for its participation in major strategic reviews such as the Program Budget Review (PBR), Nuclear Posture Review (NPR), Joint Strategic Capabilities Plan (JSCP), and (Global Force Management Allocation Plan (GFMAP). Deliverable: Provide analysis and support for the development of official Air Force input, positions, and strategy for these national-level planning activities.

1.5.3 Subtask 3 – Deterrence Education and Research Support

1.5.3.1 The Contractor shall provide comprehensive support for deterrence education and research activities. This support is organized into the following areas:

Required Activity	Deliverable / Outcome
Community Review & Assessment	Review all deterrence community education and research initiatives to assess their relevance and applicability. Deliverable: Provide analyses and recommendations for informing Air Force policy, doctrine, professional force development, CONOPs, and strategic plans.

Deliberate Research & Analysis	Conduct on- and off-site research to evaluate and align Air Force nuclear missions and capabilities with national deterrence policy, strategy, and doctrine. Deliverable: Produce and deliver formal research papers, briefings, and other scholarly materials detailing findings and strategic implications.
Knowledge Dissemination & Collaboration	When directed, publish research findings and host meetings or conferences to share results with the broader Air Force Deterrence Education and Research communities. Deliverable: Successfully execute and manage all aspects of meetings and conferences.
Academic & Research Networking	Establish and maintain a professional network of relevant academic and research organizations focused on deterrence studies. Deliverable: A current and functional network of contacts and partner institutions.

1.5.4 Subtask 4 – AF/A10 Professional Development Support

1.5.4.1 The Contractor shall assist in the development and execution of a HAF-level orientation and action officer training program focused on the Nuclear Enterprise for all incoming DCS members. The goal of this support is to enable government personnel to eventually lead and sustain the program independently. The program's structure and required deliverables are detailed below:

Required Activity	Deliverable / Outcome
Program Development & Execution	Develop and execute a comprehensive training program covering key HAF processes (e.g., strategic planning, SPPBE, tasking management), A10 mission partners, essential tools and products, security protocols, and core DCS activities. The training program must incorporate practical, hands-on application where feasible.
Program Structure & Timeline	The training program must be structured in two distinct phases: Phase 1 - Foundational information and preparation to be completed within the member's first two months; Phase 2 - Advanced information and preparation to be completed within the member's first four months.
Deliverable: A10 Action Officer Handbook	Deliverable: Develop and maintain an "A10 Action Officer Handbook" to serve as a practical, day-to-day reference tool for all action officers assigned to the DCS.

1.6 Task 6 – Integrated Air and Missile Defense (IAMD) Support

The proliferation of advanced cruise missiles, ballistic missiles, and hypersonic weapons presents a complex and evolving threat to the homeland, deployed forces, and our allies. An effective Integrated Air and Missile Defense (IAMD) is a critical national security imperative, requiring the seamless

integration of capabilities across the Department of the Air Force (DAF), the Joint Force, and with international partners. DAF/A10 is charged with developing and advocating for DAF policy and strategy within this complex enterprise to ensure its contributions are effective and aligned with national objectives.

1.6.0.1 The Contractor shall provide expert analytical, programmatic, and staff process support for the Air Force IAMD mission. This support requires analyzing complex IAMD policies, operations, and systems to develop decision-quality information, recommendations, and preparatory materials for AF leadership's engagement at the National, DoD, Joint, and Service levels. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
SME & Technical Knowledge	Provide decision-quality information on IAMD concerns, demonstrating in-depth knowledge of missile defense doctrine, relevant DoW and non-DoW organizations, and current/emerging IAMD systems. Required Knowledge: Must have expertise in systems including, but not limited to: COBRA DANE, LRDR, UEWR, AN/TPY-2, SBX, Aegis, SM-3/6, THAAD, Patriot, C2BMC, ITWAA, SBIRS, HBTSS, GBI, C-sUAS, JADC2, associated platforms (e.g., F-35, E-3), and Air and Space Operations Centers.
Analysis, Coordination & Engagement	Coordinate with external offices (e.g., MDA, USAFE, NATO) and attend wargames, exercises, and approximately 100 meetings per year. Analyze requirements, concepts, and discussions from all forums. Analyze the performance of the DAF's IAMD, Defensive Counter-Air (DCA), Offensive Counter-Air (OCA), Counter-sUAS (C-sUAS), Air Base Air Defense (ABAD) missions along with the Agile Combat Employment (ACE) and Conventional Support to Nuclear Operations (CNSO) operating concepts. Deliverables: Provide research, analysis, and recommendations via point papers, white papers, briefings, and other staff instruments. Draft testimony, articles for publication, and materials for public speaking engagements. Provide recommendations to senior leaders on how to best organize, train, and equip the IAMD mission.
Programmatic & Staff Process Support	Serve as the focal point for coordinating and tracking all IAMD policy staff packages, ensuring they conform to AF standards. Provide support for the SPPBE process, associated programming databases, and the management and transfer of IAMD-related Program Elements (PEs). Provide engineering expertise for technology transition from developmental to operational status.
Senior Leader Forum Support	Support DAF participation in senior-level decision forums, such as, but not limited to, PBR, DMAGs, JROC (and its successor), and Missile Defense Executive Board (MDEB). Deliverable: Provide pre-briefings, scheduling support, and all associated product and position development for these forums.
International	Support the development of DoW and DAF IAMD international engagement

Strategy Support	strategies. Join U.S. contingents in meetings with foreign representatives as required. Deliverable: Draft, review, and provide formal written comments on a broad array of international documents, including engagement strategies and bilateral/multilateral agreements.
------------------	---

1.7 Task 7 – Ancillary IT, Systems, and Cybersecurity Support

Mission success in a modern, data-driven headquarters is critically dependent on the availability, integrity, and confidentiality of its information technology systems. These systems form the operational backbone for all policy analysis, strategic planning, and communications across the DAF/A10 enterprise. Securing this infrastructure against a backdrop of persistent cyber threats and ensuring compliance with stringent DoD security protocols is not merely a support function, but a direct enabler of the strategic deterrence mission.

1.7.1 Subtask 1 – Ancillary Support

1.7.1.1 The Contractor shall provide comprehensive systems support, including planning, administration, maintenance, and development, to ensure the continuous availability and optimal performance of all AF/A10 IT systems and resources. This support is organized into the following areas:

Required Activity	Deliverable / Outcome
Helpdesk & Client Support	Serve as the first point of contact for all IT issues related to workstations, printers, scanners, and other peripherals maintained by the 844th Communications Squadron. Manage all helpdesk inquiries (approx. 75 per month) from receipt to resolution, escalating complex issues as necessary. Analyze helpdesk data to identify trends and implement preventive measures; provide an annual report on trends and preventive measures to the DAF/A10 DS. Deliverable: Maintain a comprehensive trouble ticket log, including status monitoring and metrics reporting for the Monthly Status Report (MSR) which will be delivered to the AF/A10E.
Systems & Network Administration	Act as the intermediary between end-users and the 844th Communications Squadron, providing expert system administration and technical support for all operational systems. Manage configuration change control, status accounting, and audits, ensuring only approved changes are incorporated into software and documentation. Provide Client Support Technician (CST) support to ensure all community of interest systems, servers, and devices are online and supported.
Cybersecurity, Information Assurance & Compliance	Cybersecurity Liaison (CSL): Develop, implement, and oversee the organization's cybersecurity program. Enforce all DoW, USCYBERCOM, DISA, and DAF cybersecurity policies, manage access control, and coordinate system modifications with the HQ AF cybersecurity office. EMSEC & TMAP: Implement and maintain all preventive measures to ensure compliance with Emission Security (EMSEC) and Telecommunications

Monitoring Assessment Program (TMAP) directives.

Compliance: Ensure all systems and equipment are operated and maintained in accordance with all DoW, DISA, and AF security guidelines.

Deliverable: Maintain all authorized use and access control documentation.

Web & Application Support	Design, create, update, and maintain all AF/A10 SharePoint sites and other websites, ensuring content is current and compliant with data integrity standards. Analyze, develop, implement, and modify web-based applications, including encoding, debugging, and testing. Manage conference registration websites, surveys, and other custom applications as required. Deliverable: Provide a summary of all website enhancements and problems encountered in the MSR.
Telecommunications & VTC Support	Provide overall technical administration and management for all telephone, telecommunication, and VTC systems. Operate, maintain, and troubleshoot all VTC hardware and software, and manage the planning, scheduling, and execution of VTC sessions. Provide end-user training for telephone devices and configure all phone equipment features. Deliverable: Maintain and update the DAF/A10 telephone number database and organizational rosters monthly or as directed.
Asset & Records Management	ADPE Custodian: Perform all equipment custodian duties for Automated Data Processing Equipment (ADPE), including managing accounts, transfers, turn-ins, and coordinating all requests for new equipment and repairs. Records Management: Provide oversight to ensure all electronic and paper records are managed in accordance with AFI 33-322, AFI 33-364, and the AFRIMS Records Disposition Schedule (or as appropriate). Deliverable: Develop, maintain, and document an ADPE program for tracking all IT assets, and submit Reports of Survey (ROS) as required.
Administrative & Task Management	Provide daily task management support, including assigning reminders to Action Officers (AOs) and ensuring the follow-up and closure of all office taskings. Serve as the Organizational Messaging Services POC (OMPAC) Trusted Agent (TA) and Open Mission Systems (OMS) Sub-Registration Authority (SRA). When directed, purchase and maintain periodicals, IT products, and other incidentals.

1.7.2 Subtask 2 - Security Manager Support

1.7.2.1 The Contractor shall provide comprehensive security support to the Senior Security and Information Management Specialist for HQ USAF/A10. This support encompasses the development and implementation of multi-disciplinary security programs, facility accreditation, training, and incident response to protect all classified and Controlled Unclassified Information. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Provide Security Program Development and	Assist in the development, implementation, and integration of multi-dimensional security programs, including Information, Personnel, Industrial,

Management Support	Physical, SCI, and Special Access Programs. Identify and propose solutions to ensure program success. Deliverables: • Draft security program documentation and implementation plans. • Formal action plans and recommendations for process improvements.
Support Facility Accreditation and COMSEC Management	Perform activities to support the continued accreditation of SCIF and collateral storage facilities. Assist in the management of the COMSEC program and associated equipment. Deliverables: • Accreditation support packages for SCIF and collateral facilities. • Draft documentation for JWICS account creation requests. • COMSEC program management support documentation.
Execute Security Training, Inspections, and Incident Response	Develop and conduct security training for all personnel. Perform annual self-inspections and assist in the evaluation of all security incidents. Deliverables: • A complete suite of security education and awareness training materials. • Annual Self-Inspection Reports. • Draft Security Incident Reports with recommended corrective actions.

1.7.3 Subtask 3 – Cyber Security Support

1.7.3.1 The Contractor shall provide comprehensive cybersecurity expertise, including vulnerability assessments, artifact analysis, and support for Mission Defense Teams. This support is organized into the following areas of responsibility:

Required Activity	Deliverable / Outcome
Cybersecurity Assessment & Mitigation	Conduct continuous assessments of existing and proposed software and hardware systems to identify vulnerabilities. Deliverable: Produce research, evaluations, and formal position papers detailing findings and recommending mitigation strategies.
Working Group & Team Support	Lead or attend cybersecurity working groups focused on threats to both legacy and next-generation systems. Provide subject matter expertise to Mission Defense Teams for software program reviews and network security operations.
Artifact & System Analysis	Review and analyze a wide range of software, network, and security artifacts for credibility, including: project management documents, code, and user test cases; system documentation, diagrams, and user manuals; Authorization to Operate (ATO) packages; Information Assurance Vulnerability Alerts (IAVAs). Required Knowledge: Must have expert knowledge of the Information Assurance Vulnerability Management (IAVM) program and the Enterprise Mission Assurance Support Service (eMASS) for Risk Management Framework (RMF) reporting.
Required Technical Knowledge	The Contractor must be proficient in the security principles of Data-at-Rest and Data-in-Motion. NIST Publications: Must be familiar with the following NIST Special Publications (SP): 800-218, 800-209, 800-207, 800-184, 800-161, 800-137, 800-123, 800-94,

800-82, 800-53, 1800-35, 1800-34, 1800-14, and 1800-10.

1.8 Task 8 – Program Management Support

The successful execution of the diverse and mission-critical support activities detailed throughout this Performance Work Statement (PWS) requires a robust, transparent, and accountable management framework. Effective program management is essential for ensuring the seamless integration of contractor personnel, maintaining clear lines of communication, and providing the government with continuous, verifiable insight into contract performance, cost, and schedule.

1.8.0.1 The Contractor shall provide the comprehensive program management, project planning, and personnel management required to ensure the successful and efficient execution of all contract requirements. This includes providing a designated Program Manager as a single point of accountability, developing and maintaining a detailed Project Management Plan (PMP), and managing a qualified workforce with the specific expertise necessary to support the DAF/A10 mission. The required support activities and their specific deliverables are detailed below:

Required Activity	Deliverable / Outcome
Program Management & Oversight	Provide management and oversight of all activities performed by Contractor personnel and subcontractors. Deliverable: A designated Program Manager (PM) who serves as the primary Government POC and has full authority to act on behalf of the Contractor.
Project Management Plan (PMP)	Develop and maintain a comprehensive PMP utilizing standard project management software. The PMP must include a detailed Work Breakdown Structure (WBS), Standard Operating Procedures (SOPs), a staffing matrix, operating procedures (travel, leave, etc.), a Quality Control Plan (QCP), and a deliverable/milestone schedule. Deliverables: Draft PMP due NLT 10 working days after project start. Final PMP updated and delivered bi-annually, at a minimum.
Communication & Reporting	Support Government-Contractor communications and assist in tracking all requirements and activities. Monthly Status Report (MSR): Submit an MSR by the end of the second business week of each month summarizing all technical and managerial work, including activities, metrics, problems, personnel status, schedule updates, financial status, and recommendations. In-Progress Reviews (IPRs): Conduct formal, quarterly IPRs with the COR, ACOR, or Functional Commander/Director (FC/FD) to review progress and planning. Provide IPR reports to AF/A10E within 5 workdays following the meeting. Problem Notification: Notify the COR of any technical, financial, or managerial problems via a Problem Notification Report (PNR). Kick-Off Meeting: Schedule and conduct a project kick-off meeting NLT 10 working days after contract award. Provide a draft agenda 3 working days after award.
Personnel & Key	Staffing: Maintain a stable workforce with an employee turnover rate of 15% or

Personnel
Management

less. Fill all vacancies with qualified personnel within 30 days.

Key Personnel: Obtain written concurrence from the COR before replacing any designated Key Personnel. Provide notification of any key person's unavailability exceeding 10 working days.

Key Personnel positions include: PM, International Treaties SMEs, FCP SME, CWMD SME, CWMD Computer Programming SME, Nuclear Stockpile Stewardship SME, IAMD SME, A10 Portfolio Intelligence SME, and NC3 SME. ASSA Requirements: For personnel in Germany, submit all required Analytical Support Status Accreditation (ASSA) documentation to the COR at the Kick-Off Meeting.

Key Personnel
Qualifications

Program Manager: Must have demonstrated experience planning, directing, and managing complex projects of similar size and scope, including experience with DAF/DoW leadership.

International Treaties and Agreements SME: Must have demonstrated knowledge and experience with specific treaties (e.g., New START, CWC, NPT), compliance activities, and reporting systems (e.g., ACES).

Foreign Clearance Program (FCP) SME: Must have demonstrated experience with the DoW FCG, international entry requirements, sovereignty issues, and APACS policy.

CWMD SME: Must possess an active TS/SCI clearance and have extensive experience with CWMD/Counterproliferation programs, CBRN science, operational impacts, and Modeling & Simulation (M&S) tools.

CWMD Computer Programming SME: Must be an expert programmer in Python, C++, and Visual Basic, capable of modeling complex systems involving chemical, biological, radiological, or nuclear effects on air operations.

Nuclear Stockpile Stewardship SME: Must have demonstrated knowledge of nuclear stockpile stewardship at all government levels and experience working with the broader nuclear enterprise.

IAMD SME: Must possess an active TS/SCI clearance and have demonstrated expertise in IAMD strategy, policy, doctrine, technologies, and the SPPBE process.

A10 Portfolio Intelligence SME: Must have demonstrated knowledge and research experience in Nuclear and CWMD-related topics, and experience working with the Intelligence Community (IC) to integrate intelligence into plans, policy, and operations.

Nuclear Command, Control and Communications (NC3) SME: Must have demonstrated experience with NC2 authorities, C2 relationships, and the waveforms, technologies, and platforms associated with the NC3 enterprise weapon system (AN/USQ-225).

Section II

2.0 Service Delivery Summary

2.1 Services

2.1.0.1 The Contractor service requirements are summarized into performance objectives that relate directly to *mission essential items*. The performance threshold briefly describes the minimum acceptable levels of service required for each requirement and will be assessed on an “Acceptable” or “Unacceptable” basis. These thresholds are critical to mission success.

<u>Performance Objective</u>	<u>PWS Para</u>	<u>Performance Threshold</u>	<u>Method of Surveillance</u>
SS – 1 Provide qualified personnel throughout contract period of performance	1.8	a) Contractor shall identify and nominate a qualified candidate for any vacancy within 30 calendar days of the vacancy start date. b) This 30-day requirement shall be considered tolled (paused) during the period a nominated candidate's security clearance investigation and adjudication is pending with the U.S. Government.	Customer Complaint Periodic Surveillance
SS – 2 Provide qualified key personnel throughout contract period of performance	1.8	a) Contractor shall identify and nominate a qualified candidate for any Key Personnel vacancy within 30 calendar days of the vacancy start date. b) This 30-day requirement shall be considered tolled (paused) during the period a nominated candidate's security clearance investigation and adjudication is pending with the U.S. Government.	Customer Complaint Periodic Surveillance
SS – 3 Provide accurate and compliant task deliverables without error	Section 2	a) 95% of all deliverables shall be Accepted on First Submission. A deliverable is considered "Accepted on First Submission" if it is either: i) Accepted by the government as-is, OR ii) Requires only Minor Revisions. b) Deliverables requiring Major Revisions will be considered as failing this threshold. The	Customer Complaint Periodic Surveillance

		contractor shall have 3 business days to correct and resubmit any deliverable requiring Major Revisions .	
SS - 4 Security	4.4	Ensure compliance with all applicable security plans and protocols with zero deficiencies or violations.	Customer Complaint Periodic Surveillance

2.1.0.2 Definitions Section

Minor Revision	A revision to correct administrative or formatting issues, such as typographical errors, grammatical mistakes, or non-compliance with a government template, where the core analysis and conclusions remain sound.
Major Revision	A revision required due to substantive deficiencies, such as factual inaccuracies, flawed or incomplete analysis, failure to address all parts of the original tasking, or conclusions that are not logically supported by the data presented.

2.2 Deliverables

2.2.0.1 The Contractor shall provide deliverable(s) in a format mutually agreed upon by the Government and the Contractor. The following enumerated deliverables are not expected to change. Due Date intervals are not expected to change but actual dates may need to be revised depending on actual contract start date. The Contractor shall notify the COR via a PNR (**Section 2.2, Deliverable 14**) as soon as it becomes apparent to the Contractor that a scheduled deliverable will be late, a cost overrun will occur, or any other event will occur that could negatively impact performance. The Contractor shall include in the PNR the rationale, the expected mitigation strategy, and overall project impact. The COR will review the PNR and provide guidance to the Contractor. Such notification in no way limits any Government contractual rights or remedies including, but not limited to, termination.

<u>No.</u>	<u>DELIVERABLE</u>	<u>PWS PARA</u>	<u>PLANNED COMPLETION DATE</u>
1	Project Kick-Off Meeting	1.8	NLT 10 WD after PS
2	Kick-Off Meeting Agenda	1.8	NLT 3 WD prior to Kick- Off Meeting
3	Monthly Status Report (MSR)	1.7 1.8	10 th day of the subsequent Month
4	Draft Project Management Plan (PMP)	1.8	NLT 10 WD after PS
5	Final PMP	1.8	Bi-annually or as needed
6	PMP Updates	1.8	As needed, no less frequently than bi-annually

2.2.0.2 Freedom of Information Act (FOIA). All official Government records affected by this contract are subject to the provisions of the FOIA (5 U.S.C. 552/DoW Manual 5400.7-R/AF Manual 33-302). Any request received by the Contractor for access/release of information from these records to the public (including Government/Contractor employees acting as private citizens), whether oral or in writing, shall be immediately brought to the attention of the CO for forwarding to the FOIA Manager to ensure proper processing and compliance with the Act.

2.2.0.3 Controlled Unclassified Information (CUI). The Contractor shall comply with DoW Manual 5400.07, DoW Freedom of Information Act (FOIA) Program and DoW Manual 52001.01 Volume 1, DoW Information Security Program Protection of Classified Information. This manual sets procedures for the disclosure of records to the public and for marking, handling, transmitting, and safeguarding CUI material.

2.2.0.4 Records. All records created and received by the Contractor in the performance of this contract shall be maintained and readily accessible. Records shall remain the property of the Government.

2.3 Quality Control

2.3.1 Quality Assurance.

2.3.1.1 The Government shall rely on the Contractors' existing quality assurance system as the method to ensure that the requirements of the contract and performance thresholds are met; however, the government reserves the right to monitor and evaluate the quality of services provided and compliance with the contract terms and conditions at any time.

2.3.2 Quality Control Plan (QCP)

2.3.2.1 The Contractor shall develop and maintain an effective quality control program to ensure services are performed IAW this PWS, applicable laws and regulations, and best commercial practices. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services with special emphasis placed on those services listed in this PWS. The Contractor's quality control program is the means by which it assures itself that the work complies with the requirement of the contract. The Contractor shall periodically update the QCP as changes in program processes occur. The draft QCP is due NLT 10 working days after project start. The final QCP is due NLT 30 working days after project start. At a minimum, the QCP shall be reviewed and updated once a year. (Section 2.2, Deliverables 7, 8 and 9) The Contractor's QCP shall describe, at a minimum, the following:

- a. Approach and procedures for communicating with the Government, resolving issues, and identifying potential program improvements for Government consideration.
- b. Quality control methodology performance expectations and objectives including benchmark metrics and measures. The Contractor shall fully discuss its validated processes and procedures that provide high quality performance for each task area and how these processes and procedures integrate with the Government's requirements.
- c. Detailed description of the Contractor's internal quality review process including the individual(s) responsible, how frequently quality reviews occur, the method(s) that shall be utilized, and what services/products/capabilities shall be reviewed by the Contractor.

Section III

3.0 Government Furnished Property, Equipment, Material, Information or Services

3.0.1 The Government will provide on-site office facilities for Contractor personnel at required AF/A10 divisions, and AF/A3OY (limited); and, specified MAJCOM, NAFs, Logistic Centers, and other agencies on-site support locations specified in the previous sections.

3.0.2 The Government will provide the Contractor's on-site support staff with office space, a desktop computer consisting of a standard central processing unit (CPU) (up to two units per Contractor employee), monitor, keyboard and mouse, basic telephone service, and basic access to fax machines, scanners, and copy machines. Software will include the AF standard suite of desktop applications.

3.0.3 The Government will provide appropriate building badges/access to enter Government facilities.

3.0.4 As needed, Government will provide required full-time Contractor employees with Government Furnished Equipment (GFE) laptops (with Virtual Private Network (VPN) capabilities) for travel.

3.0.5 The Contractor shall safeguard and secure all GFE IAW AF and DoW governing policies and procedures. Use of all GFE for other than Government work is strictly prohibited. All GFE including, IT equipment, software, communication devices, telephones, access cards, office furniture, and supplies shall be returned to the AF/A10 TPOC prior to the departure of each responsible Contractor employee or at the end of the contract, whichever date comes earlier.

3.0.6 OCONUS assignments, the Government will provide logistics support for Contractors and their dependents for the sole purpose of supporting U.S. Forces. Logistics support includes, but is not limited to the following: Base or Post Exchange; Commissary; Alcoholic Beverage Commission (Class VI); Privately Owned Vehicle (POV) registration; Purchase of Petroleum, Oil, Lubricants (POL); Military Post Office (APO/FPO); club, theater, libraries, and access to recreational facilities; Military banking; Bachelor Officer's Quarters (BOQ); Transportation (in- country); DoW Schools; and, Medical/Dental.

Section IV

4.0 General Information

4.1 Scheduling Concerns

4.1.1 Duty Hours

4.1.1.1 The Contractor shall have access to the Government facility five days per week, Monday through Friday, eight hours a day, except when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings, unless otherwise approved. Contractor personnel are expected to conform to customer agency normal operating hours; however, the Contractor may be required access to Government facility outside of duty hours based on the customer agency's needs. As a baseline, Contractor personnel shall work 8 hours per day, 40 hours per week. Compensatory time arrangements are permissible for temporary spikes in worktime; but overtime pay is prohibited without COR and CO approval.

4.1.1.2 Federal Holidays shall be observed in accordance with the Office of Personnel Management policy.

4.1.2 Core Duty Hours and Base Shutdown/Inclement Weather

4.1.2.1 Core duty hours are 0800 - 1600, Monday through Friday (excluding federal holidays). The Contractor shall follow guidance of the installation containing their place of performance to determine reporting schedules whether due to a base closure or inclement weather. The website for guidance regarding status of performance for work to be performed at CONUS and OCONUS locations is <http://www.opm.gov/status/>.

4.2 Place of Performance

4.2.0.1 The contractor shall provide full-time, on-site or remote (including telework), support for CONUS and OCONUS locations identified in Section I. If the position requires recurring work at the classified level, the contractor must live in the local area and have ready access to the A10 Pentagon and/or Joint Base Anacostia Bolling (JBAB) workspaces.

4.3 Travel

4.3.1 Local Travel

4.3.1.1 Local travel to attend meetings or events may be required at no cost to the Government. Travel within the National Capital Region commuting vicinity is considered a cost of doing business and shall not be separately reimbursed.

4.3.2 CONUS Travel

4.3.2.1 Prior to travel, the Contractor shall coordinate with, and receive approval from, the COR at least 10 working days prior to trip.

4.3.3 OCONUS Travel

4.3.3.1 Prior to travel, the Contractor shall coordinate with, and receive approval from, the COR at least 20 working days prior to trip. Theater Business Clearances shall be obtained, as necessary, prior to travel.

4.3.4 Guidance

4.3.4.1 Further guidance for Contractor travel can be found at <https://www.defensetravel.DoW.mil/site/faqctr.cfm>.

4.3.5 Trip Reports

4.3.5.1 Following each trip, the Contractor shall prepare and deliver Trip/After Action Reports to the COR IAW AFH 33-337. The trip report shall be completed in accordance with AF/A10 guidance.

4.4 Security Instructions

4.4.1 Physical Security

4.4.1.1 Physical. The Contractor shall safeguard all Government property, documents and controlled forms provided for Contractor use and adhere to the Government property requirements contained in this contract. At the end of each workday, all Government facilities, equipment, and materials shall be secured by a Government POC. Contractors are not allowed to secure Government facilities, equipment, and materials.

4.4.1.2 Access Control. The Contractor shall establish and implement methods of ensuring that no building access instruments issued by the Government are lost, misplaced or used by unauthorized persons. Access codes shall not be shared with any person(s) outside the organization. The Contractor shall control access to all Government provided lock combinations to preclude unauthorized entry. The Contractor is not authorized to record lock combination without written approval by the Government COR. Records with written combinations to authorized secure storage containers, secure storage rooms, or certified vaults, shall be marked and safeguarded at the highest classification level as the classified material maintained inside the approved containers.

4.4.1.3 Retrieving Identification Media. The Contractor shall retrieve all identification media, including vehicle passes, from employees who depart for any reason before the contract expires.

4.4.2 Industrial Security

4.4.2.1 All Contractor personnel (including teaming partners and/or subcontractors, if proposed) under this requirement providing on-site support at a Government location shall possess at a minimum a Secret clearance before performing any work under this requirement. All Contractor personnel requiring clearances shall have active clearances at the appropriate level for the task areas they are being proposed to support.

4.4.2.2 All Key Personnel with the exception of the PM and FCP SME shall possess an active TS clearance with SCI eligibility. Applicable Contractors must possess TS clearance in good standing to be eligible to receive SCI designation.

4.4.2.3 All Contractor personnel providing off-site support from the Contractor's facility shall possess an active Secret clearance or be eligible for a Secret clearance.

4.4.2.4 Communications Security (COMSEC). Contractors may require access to COMSEC information on AF installations. The Contractor shall not require a COMSEC account. Access shall be controlled by the sponsoring agency. Access to COMSEC material by personnel is restricted to US citizens holding final US Government clearances. Such information is not releasable to personnel holding only reciprocal clearances. If it is determined the Contractor is required to access COMSEC information, the necessary training information and courses shall be provided by the COR. The DD Form 254 shall give further instructions on safeguarding and managing COMSEC material.

4.4.2.5 The Contractor shall attain access to SIPRNET at the Government sites. The Contractor shall not access classified systems from the Contractor's site. The Contractor shall also be capable of hosting meetings, conferences, and other events at its facility at a Secret level. A DD254 will be provided at the time of award. Contractor employees supporting AF/A10, AF/A3OY, and identified MAJCOMS on-site at a Government location shall be required to obtain a facility badge/I.D., CAC, and unclassified and/or classified system accounts (log-on and email). Contractor personnel shall be required to obtain and maintain security badges and adhere to the security requirements of the AF installation.

4.4.2.6 Failure to safeguard any privileged information which may involve the Contractor or the Contractor's personnel, or to which they may have access, may subject the Contractor and/or Contractor's personnel to criminal liability under Title 18, section 793 and 798 of the United States Code. Provisions of the Privacy Act apply to all records and reports maintained by the Contractor.

4.4.2.7 Privacy and Security Requirements required by the USAF: This is a DoW work effort involving access to and/or the safeguarding of classified information/material. The security policies, procedures, and requirements stipulated in the National Industrial Security Program (NISP) and National Industrial Security Program Operating Manual (NISPOM) and any supplements thereto are applicable.

4.4.2.8 This requirement involves the Contractor having access to and/or safeguarding of classified information/material and some personnel shall require TS clearances with SCI eligibility for performance. Other work performed under this requirement may require lower clearance levels appropriate for performance. Contractors having access to and/or safeguarding classified information/material shall require the appropriate security clearance. The security policies, procedures, and requirements stipulated in the NISP, NISPOM, and supplements thereto are applicable, to include the following security requirements and/or guidance whenever performance will occur on a DoW installation or within a DoW controlled facility or activity:

- a. The Contractor shall possess or acquire a facility clearance equal to the highest

classification stated in the above paragraph IAW the NISPOM for contract performance.

- b. Disclosure of Information: The Contractor shall not release to anyone outside the Contractor's organization any classified information, regardless of medium (e.g., film, tape, document, etc.), pertaining to any part of this requirement or any program related to this requirement, unless: (1) The CO has given prior written approval; or (2) The information is otherwise in the public domain before the date of release. Request for approval shall identify the specific information to be released, the medium to be used, and the purpose for the release. The Contractor shall submit its request to the CO at least 45 days before the proposed date for the release. The Contractor agrees to include a similar requirement in each subcontract under this requirement. Subcontractors shall submit a request for authorization to release through the prime Contractor to the CO.
- c. The Contractor's procedures for protecting against unauthorized disclosure of information shall not require DoW employees or members of the Armed Forces to relinquish control of their work product, whether classified or not, to the Contractor.
- d. Prior to beginning operations involving classified information at the Government facility, the offeror must possess, or acquire prior to contract award, a facility clearance equal to the highest classification stated on the Contract Security Classification Specification 9, draft DD Form 254, provided at award, the Contractor shall enter into a security agreement (or understanding) with the local Government security office. This will ensure Contractors follow local security procedures while performing at the Government facility. As a minimum, the agreement shall identify the security actions that will be performed:
 - 1. By the Government facility for the Contractor, such as providing storage and classified reproduction facilities, guard services, security forms, security reviews under DoW 5220.22-M, classified mail services, security badges, visitor control, and investigating security incidents; and
 - 2. Jointly by the Contractor and the installation, such as packaging and addressing classified transmittals, security checks, internal security controls, and implementing emergency procedures to protect classified information.

4.4.2.9 Security Requirements for Overseas Travel: For travel requirements/restrictions to any foreign country, reference the FCG on the following website for applicable information:

<https://www.fcg.pentagon.mil/fcg.cfm>

4.5 Contractor Personnel

4.5.1 Contractor Identification

4.5.1.1 All Contractor personnel shall wear the AF issued Common Access Card at all times when away from their immediate work area to distinguish themselves from Government employees. When conversing with Government personnel during business meetings, over the telephone or via electronic mail, Contractor personnel shall identify themselves as a Contractor to avoid situations arising where sensitive topics might be better discussed solely between Government employees. Contractors

shall identify themselves on any attendance sheet or any coordination documents they may review. Electronic mail signature blocks shall identify their company affiliation. Where practicable, Contractors occupying collocated space with their government program customer should identify their workspace area with their name and company affiliation or as a minimum “Contractor” after name.

4.5.2 Background Investigation

4.5.2.1 Single Scope Background Investigation is required for Contractor personnel performing duties of Information Technology I position (i.e. critical sensitive position with responsibility direction, planning, or design of a computer system or can access a system during the operation or maintenance in such a way and with a relatively high risk causing grave damage or realize a significant personal gain)

Reference: DoW Manual 5200.2_AFMAN 16-1405,1 Aug 2018, Air Force Personnel Security Program.

4.5.3 Non-Disclosure Agreement (NDA)

4.5.3.1 Contractor personnel shall not divulge, or release privacy data or information developed or obtained in the performance of this requirement, until made public or specifically authorized by the Government. The Contractor shall not use, disclose, or reproduce third party companies’ proprietary data, other than as authorized and required in performance of this requirement.

Personnel working on this project will be required to sign a Non-Disclosure Agreement (NDA) immediately upon their start on the requirement. The Contractor’s procedures for protecting against unauthorized disclosure of information shall not require DoW employees or members of Armed Forces to relinquish control of their work product, whether classified or not, to the Contractor.

4.5.4 Contractor Professionalism

4.5.4.1 The Contractor shall:

- a) Present a professional appearance and maintain professional demeanor and conduct at all times.
- b) Conduct their work assignments IAW project schedules
- c) Function effectively and efficiently during extended periods of high pressure and stress.
- d) Function as an integral member of a team of highly trained professionals responsible for the safety and security of USAF personnel and resources.

4.5.5 Inherently Governmental Functions

4.5.5.1 The Contractor shall not perform inherently Governmental functions as defined in the Federal Acquisition Regulation (FAR) Subpart 7.5 in relation to this PWS.

4.5.6 Ethics

4.5.6.1 The Contractor shall not employ any person who is an employee of the US Government if employing that person would create a conflict of interest. Additionally, the Contractor shall not employ any person who is an employee of the Department of the Air Force, either military or civilian, unless such person seeks and receives approval according to DoWD 5500.07, Standards of Conduct, and DoW 5500.7-R, Joint Ethics Regulation.

4.5.7 Professional Appearance of Workspace

4.5.7.1 The Contractor shall keep workspace areas neat and orderly and avoid conditions leading to safety violations.

4.5.8 Non-Personal Services

4.5.8.1 The Contractor employees shall not be supervised or tasked by the Government in any manner that generates actions of the nature of personal services, or that creates the perception of personal services. It is the responsibility of the Contractor to manage its employees directly and to guard against any actions that are of the nature of personal services or give the perception of personal services to the Government or to Government personnel. If the Contractor feels that any actions constitute, or are perceived to constitute personal services, it is the Contractor's responsibility to notify the CO immediately. Non-personal Contractor services shall not be used to perform work of a policy/decision making or management nature.

4.6 Service Contract Reporting (SCR)

4.6.0.1 The Contractor shall report ALL labor hours (including subcontractor labor hours) required for performance of services provided under this contract via the secure Service Contract Reporting in the System for Award Management data collection site. The Contractor is required to completely fill in all required data fields at: <https://sam.gov>. Reporting inputs shall be for the labor executed during the period of performance for each Government fiscal year (FY), which runs 1 October through 30 September. While inputs may be reported anytime during the FY, all data shall be reported not later than 31 October of each calendar year. The Contractor may direct questions to the Federal Service Desk (Helpdesk for beta.SAM.gov): <https://fsd.gov>.

4.6.0.2 Subcontractor Input in SCR:

Prime Contractors are responsible to ensure all subcontractor data is reported. Subcontractors will not be able to enter any data into SCR, but the prime contractor will enter their information into SCR from the SAM.

4.7 Emergency Operations/Mission Essential Personnel

4.7.0.1 Continuation of Essential Contractor Services During Crisis. All services in this PWS HAVE NOT been defined or designated as essential services for performance during crisis IAW DFARs 252.237-7023, "Continuation of Essential Contractor Services."

4.8 Transition-In and Transition-Out Plans

4.8.1 Transition-In Plan

4.8.1.1 The Contractor shall provide a Transition-In Plan (Section 2.2, Deliverable 16) at the Kickoff Meeting. The agenda shall be provided no later than three working days prior to the kick-off meeting. The Contractor shall ensure that there will be minimum service disruption to vital Government business and no service degradation during and after transition.

The Transition-In period shall begin at project start and shall conclude within 30 days of project start. The Contractor shall provide an updated Transition-In Plan, based on the Contractor's draft plan submitted with the proposal, to be approved by the Government. The Contractor shall identify how it will coordinate with the incumbent Contractor and Government personnel to transfer knowledge regarding the following:

- a) Project management processes
- b) Points of contact
- c) Location of technical and project management documentation
- d) Status of ongoing technical initiatives
- e) Transition of key personnel
- f) Schedules and milestones

- g) Actions required of the Government
- h) Coordination of IT related programs, issues

4.8.1.2 The Contractor shall also establish and maintain effective communication with the incumbent Contractor and Government personnel for the period of the transition via weekly status meetings per the COR's direction.

4.8.1.3 Incumbent employees may be interviewed for possible employment by the incoming Contractor; however, the Contractor will have the right of refusal.

4.8.2 Transition-Out Plan

4.8.2.1 The Contractor shall provide a Transition-Out Plan within six months of project start. The Government will work with the Contractor to finalize the plan. The plan shall facilitate the accomplishment of a seamless transition from the incumbent to an incoming Contractor (if applicable). The Contractor shall continue to accomplish all the tasks as outlined in the contract during this period. Additionally, the transition plan shall be reviewed and updated quarterly during Option Period 4, should the contract reach that option period. The Contractor shall identify how it will coordinate with the incoming Contractor and Government personnel to transfer knowledge regarding the following:

- a) Project management processes
- b) Points of Contact
- c) Location of technical and project management documentation
- d) Status of ongoing technical initiatives
- e) Transition of key personnel
- f) Schedules and milestones
- g) Actions required of the Government
- h) Coordination of IT related programs, issues
- i) A final invoice and close-out schedule with dates and actions to be completed for close-out.

4.8.2.2 The Contractor shall also establish and maintain effective communication with the incoming Contractor and Government personnel for the period of the transition via weekly status meetings.

4.8.2.3 Current employees under this contract may be interviewed for possible employment by a incoming Contractor; however, the incoming Contractor shall have the right of refusal. The incumbent Contractor shall release any employee who chooses to be employed by an incoming Contractor. The incumbent Contractor shall assist by orienting assigned employees of the incoming Contractor during the last 30 days of the period of this contract, if so, directed by the CO. The Government will make available to such employees existing Government Furnished Property listed under Section III of this PWS. Items that are not accountable, such as desks, chairs, telephones, and other normal office equipment and office supplies during the orientation period, will only be transferred to the incoming Contractor if items were solely purchased by the current Contractor's company.

ATTACHMENT 1

Acronym	Definition
AAR	After Action Report
ACC	Air Combat Command
ACES	Arms Control Enterprise System
AF	Air Force
AFB	Air Force Base
AFCERT	Air Force Computer Emergency Response Team
AFCS	Air Force Corporate Structure
AFGSC	Air Force Global Strike Command
AFI	Air Force Instruction
AFISMC	Air Force Installation Management Support Center
AFMAN	Air Force Manuals
AFMC	Air force Materiel Command
AFPAM	Air Force Pamphlets
AFPD	Air Force Policy Directive
AFSOC	Air Force Special Operations Command
AOR	Area of Responsibility
APACS	Aircraft and Personnel Automated Clearance System
ASSA	Analytical Support Status Accreditation
ATO	Authority to Operate
ATSO	Ability to Survive and Operate
AV/IT	Audio Visual/Information Technology
CAC	Common Access Card
CBDP	Chemical, Biological Defense Program
CBR	Chemical, Biological, Radiological
CBRN	Chemical, Biological, Radiological, and Nuclear
CBRND	Chemical, Biological, Radiological, Nuclear Defense
C-BW	Counter-Biological Warfare
CCB	Configuration Control Board
CCMD	Combatant Command
CDRUSSTRATCOM	Commander United States Strategic Command
CENTAF	Central Command Air Force
CIG	CWMD Integration Group
CJCS	Chairman Joint Chiefs of Staff
CLIN	Contract Line-Item Number
CNI	Conventional Nuclear Integration
CO	Contract Officer
COA	Course of Action
