

Questions

1. Would the Bureau consider responses from vendors that can support a specific portion of the scope, such as the Social Media Monitoring and Open-Source Intelligence component, rather than the full combined requirement including physical surveillance? We would like a vendor that can provide all aspects of the requirement.
2. When does your office expect to release the re-compete for this opportunity? This is a new requirement.
3. Will your office release the opportunity on SAM.gov or another website? At this time, it has not been determined. We are actively doing RFIs on GSA and SAM.gov. The results from those will determine our approach during the solicitation phase.
4. Is there a current incumbent contractor performing this requirement? This is a new requirement.
5. Is there a current incumbent could the agency share the total contract value and period of performance? This is a new requirement.
6. Will the incumbent receive any evaluation preference or transition advantage? This is a new requirement.
7. What is the anticipated total dollar value (ceiling or estimated value) for this contract? That information is not available currently.
8. Is the agency planning to conduct an Industry Day, pre-proposal conference, or Q&A session? The agency is not conducting an Industry Day, pre-proposal conference, or Q&A session currently.
9. Could the agency please clarify the anticipated Period of Performance for this requirement? The anticipated Period of Performance is expected to be a one-year base period with four one-year option periods, for a potential total performance period of five years.
10. Could the agency please clarify the Place(s) of Performance? Work is anticipated to be performed primarily at contractor facilities, with travel required to various locations as needed.
11. Could the agency specify the anticipated labor categories required for this effort?

Anticipated labor categories may include Junior, Mid-Level and Senior Investigator, Surveillance Specialist, Case Analyst, Field Operations Manager and Administrative Support.

12. Are there any required certifications, licenses, or minimum qualifications for the proposed labor categories? Personnel will be required to meet applicable state licensing requirements for investigative services.
13. What is the average monthly volume of new investigations? Based on historical data, the anticipated average volume is estimated at 30 new investigations per month, however, the volume may fluctuate based on program demand.
14. What are the anticipated timeframes to complete an investigation? Typical investigations are expected to be completed within 30-60 calendar days from assignment, depending on case complexity and geographical locations.
15. Will all investigations require surveillance and observation? If not, what percentage of the investigations will require this level of effort? Not all investigations will require surveillance. It is estimated that 60-70% of cases may involve surveillance activities, however, requirement will vary by case.
16. In what states or territories will the investigations occur? Investigations may occur nationwide, including U.S. territories, depending on the subject location.
17. Will the Government consider releasing the RFP as a small business set-aside? This determination will be made once we review the information received from this RFI.
18. Will the Government allow the OSINT component of the work to be performed at the contractor's site? Yes, Open-Source Intelligence activities may be performed at the contractor's facilities, provided all security, privacy, and data protection requirements are met.
19. What is the anticipated frequency of the interim monitoring reports and observation logs? Interim monitoring reports and observation logs should be submitted on a weekly basis during active surveillance periods, with a comprehensive final report submitted upon case completion.
20. What is the anticipated period of performance? Individual task orders are expected to range from 30 to 90 days per case, depending on complexity and scope.
21. Can you tell me if consideration will be given regarding a direct contract with the BOP as an Independent Contractor and Company size of one in my area for

completing this type of work as it pertains to workers compensation claims?
Contracting determinations will follow Federal Acquisitions Regulations (FAR) guidelines. Company standards status will be evaluated in accordance with SBA standards applicable to the North American Industry Classification System code assigned. Any considerations regarding direct contracting will be addressed in formal solicitation.
