

INTENT TO SOLE SOURCE FOR
AVIAN RADAR EXTENDED WARRANTY, SERVICE, & MAINTENANCE PLAN (MERLIN)
THIS NOTICE IS ISSUED AS AN RFI ANNOUNCEMENT FOR INFORMATION PURPOSES

This document outlines the intent of the 48th Contracting Squadron (48 CONS) to procure Avian Radar Maintenance on a sole source basis from DeTect. Inc. DeTect Inc. is the sole source to provide the services due to the reasons outlined below. This notice DOES NOT constitute a Request for Proposal (RFP), Request for Quotation (RFQ), Invitation for Bid (IFB), or solicitation, nor does it represent any commitment by the Government. Since this is an RFI announcement, no evaluation letters and/or results will be issued to the respondents. No reimbursement will be made for any costs associated with providing information in response to this announcement. No telephone calls will be accepted requesting a bid package or solicitation.

This requirement is for warranty, service, and maintenance of the MERLIN Aircraft Birdstrike Avoidance Radar (MERLIN). The system is a proprietary technology of DeTect and DeTect provides all system service, support and upgrades, including proprietary hardware and software, as a direct service provider.

DeTect does not subcontract or authorize any other firm to provide such support, service or upgrades and any such work can only be performed by a DeTect office and DeTect employees. Service, support and/or upgrades to the system by other parties will void the warranty on any system on which such third party is used.

Market research was conducted, however after further investigation, it was determined that none of the other vendors are deemed qualified to fulfill this requirement.

Based on the information above, the Government intends to award a Firm Fixed Price contract to DeTect Inc.

ALYANNA PARSONS, USAF
Contracting Officer
