

Sources Sought/Request for Information

The Drug Enforcement Administration (DEA) is conducting market research to determine sources available to investigate all causes of suspected moisture intrusion, water damage, and mold growth at the Aviation Operations Center located at Fort Worth, Texas 76177.

The goal is to determine the root cause or causes of all infiltration and provide actionable recommendations to restore the building envelope's integrity and prevent future damage.

Interested vendors should respond to this source sought with a capabilities statement outlining recent/relevant experience and how they are able to meet the intent of this requirement. The Government is using this market research to determine availability of sources, so please be sure to include Name of Business, Government Points of Contact, Unique Entity ID (UEI), Cage Code (as applicable), business size type/socio-economic status as represented/registered in the System for Award Management (SAM), and GSA Schedule/Contract number.

This market research and Sources Sought notice is not a solicitation announcement and will not constitute any commitment by the Government. A market survey is being conducted to gain knowledge of potential qualified sources to determine if they can effectively compete for award of a Delivery Order contract.

All interested vendors shall submit their capabilities packages addressing their interest and capability to perform the services stated above and the attached Statement of Work (SOW). In addition to the capabilities package, please PROVIDE A BRIEF PARAGRAPH describing your firms' capabilities for the following questions:

1. Provide examples of the size and complexity of other projects you have conducted water intrusion studies on.
2. Provide your step-by-step process - beginning to end.
3. Confirm all forensic engineers will be licensed.
4. Verify tests are performed in accordance with ASTM/AAMA standards.
5. What specialized diagnostic tools will you use?

All information submitted in response to this announcement is voluntary, the Government will not pay for information requested, nor will it compensate any respondent for any cost incurred in developing information provided to the Government. If information or capabilities packages are not received from at least two capable small business concerns by the response date or if the Government determines that no small businesses are capable of performing this requirement based upon an evaluation of the capabilities packages and information submitted; this requirement may be solicited under unrestricted full and open procedures.

Information/Capabilities packages shall be submitted (via e-mail) to the POC listed below not later than 10:00 AM, Eastern Daylight Time (EDT), Monday, April 20, 2026. Any questions concerning this announcement shall be in writing (e-mail) to the POC listed below. No telephone calls will be accepted. POC: The Point of Contact is Teresa Roshau-Delgado, Contract Specialist, FACN.Proposal.Submission@dea.gov.

In the subject line of your email, state: "Response to: (FAFI) Moisture Intrusion Study"

No responses will be accepted by mail or fax. Submittals will not be returned. Telephonic responses will not be honored.
