

NAVAL SURFACE WARFARE CENTER DAHLGREN DIVISION

V Department Integrated Combat Systems

Combat Weapon System Technology and Engineering Support

The following is being provided in an effort to enhance competition and allow industry adequate time to develop acquisition strategies

This is a combined Sources Sought/Advance Notice only. This is not a request for proposals and does not obligate the Government to award a contract or task order.

Integrated Combat Systems (ICS) Department (V) performs combat system engineering, combat system certification, combat system test and evaluation, mission/force/System-of-Systems analysis and engineering, interoperability engineering, and human system integration. The Department provides a lead role in developing, fielding, and sustaining operationally superior warfare systems and performing the full spectrum of warfare analysis, research, development, integration, test and evaluation, and certification to provide quality system engineering and war fighting products to the Navy, Marine Corps, and Coast Guard.

The ICS Department promotes synergy across warfare and combat system development and ship acquisition programs within the Navy Surface Warfare Center Dahlgren Division (NSWCDD). They achieve this synergy in two parts. In the first part, they provide strategic planning, coordination, collaboration, and programmatic execution of similar complex warfare and combat system program efforts, including the associated weapons and systems for those programs, executed across all NSWCDD technical departments. The ICS Department works with various sponsors including Naval Sea Systems Command (NAVSEA), Program Executive Office (PEO) Integrated Warfare Systems (IWS), PEO Ships, PEO Unmanned and Small Surface Combatants (USC), PEO Carriers, Fleet, Marine Corp, Coast Guard, and the Missile Defense Agency (MDA) to advocate their requirements and promote NSWCDD technical capability, as appropriate to render efficient and effective solutions to their requirements. In the second part of the synergy, the ICS Department consolidates business, financial management and associated support functions under a centralized Business Office. The Business Office works collaboratively with the NSWCDD Corporate and Department business offices for financial planning, execution, and reporting. The ICS Department promotes commonality of business operations across multiple NSWCDD programs and technical departments as well as sponsor organizations.

The technical and engineering expertise in the areas of combat and weapons systems engineering will provide support focused on enabling synergy across the combat system portfolio through successful programmatic and technical execution.

The current effort is currently supported under Seaport-NxG Contract No. N0017819D7230 Task Order No. N0017823F3002, awarded to Basic Commerce and Industries, Inc.

Attachments – A draft Statement of Work (SOW), and a draft Personnel Qualifications and Level-of-Effort (LOE).

Additionally, a PIEE account will be required to access documents and information pertaining to Industry Day.

Contract Type – The Government contemplates award of a Cost-Plus-Fixed-Fee (CPFF) Level of Effort Task Order.

Period of Performance – The resultant order will have a Base Period of twelve (12) months, four (4) Option Years, each consisting of twelve (12) months, for a total of sixty (60) months, if all options are exercised.

Security Clearance Requirements – The Prime Contractor’s primary facility providing support to this requirement is required to have a Facility Security Clearance of TOP SECRET and safeguarding clearance of SECRET. All individuals performing support under this contract are required to have, as a minimum, a Department of Defense Industrial Security Clearance of SECRET. Interim clearances are acceptable. During the performance of the Task Order, higher level security clearances (TOP SECRET) may be required and will be identified at the WA level.

OCI - An Organizational Conflict of Interest Clause (OCI) as defined by FAR 9.505 will be included in the resultant Request for Proposal (RFP) and task order. Offerors must certify to OCI or provide an acceptable mitigation plan.

Industry Day – Industry Day will be held in May 2026 at Dahlgren Theater, 6238 Welsh Rd #117, Dahlgren, VA 22448 in the main theater at a time to be determined at a later date. **The exact date and time will be posted via an amendment to this sources sought.**

This industry day is a coordination with NSWCDD’s V Department for the Combat Weapon System Technology and Engineering Support requirement. A question and answer period will follow the brief. All interested parties are encouraged to attend.

Pre-registration for Industry Day is required. Required information will be provided via an amendment to this sources sought.

Milestones – It is anticipated that the Solicitation will be available in the PIEE Solicitation Module by February 2027 and will be open for approximately thirty (30) calendar days. Performance is anticipated to begin no later than February 2029.

RFP – The RFP number for the purpose of this announcement is N0017826R3106. The RFP number will be updated in the future to reflect a FY27 RFP release.

The Navy is utilizing the Solicitation Portal within the Procurement Integrated Enterprise Environment (PIEE) as an enterprise solution for soliciting and receiving proposals. All SeaPort MAC holders need to register PIEE accounts in order to receive the solicitation and submit an offer. *ONLY SEAPORT MAC IDIQ HOLDERS are eligible for award.

PIEE Module Vendor Registration Instructions can be found at:

https://www.acq.osd.mil/asda/dpc/ce/cap/docs/piee/PIEE_Solicitation_Module_Vendor_Access_Instructions.pdf

Set Aside – A set-aside determination has not yet been made for this requirement. Once a set-aside determination has been made, an update will be posted in PIEE via an amendment to this sources sought.

Request for Capability Statements – The purpose of Capability Statements is to identify any businesses (small and large) with the appropriate expertise that might be interested in responding to a formal solicitation. Interested Seaport-NxG businesses shall submit capability statements, not to exceed a total of ten (10) pages in length with font size nine (9) or greater describing their ability to fulfill this requirement. Capability statements shall include the following:

(1) A company profile including the UEI number, CAGE code, and a statement regarding current Small Business status (for NAICS 541330) (including all applicable categories of Small Business: Service-Disabled Veteran-Owned Small Business, HUBZone, 8A, Woman-Owned Small Business, Economically Disadvantaged Woman Owned Small Business (EDWOSB), Veteran-Owned Small Business or Small Disadvantaged Business).

(2) A brief description of the Offeror’s capabilities relating to the draft SOW.

(3) The qualifications, capabilities, and experience of the Contractor's personnel that would be available to support the effort and number of cleared personnel to potentially support this effort.

(4) Specific certifications of personnel related to the SOW.

(5) Relevant Corporate experience – Specific past performance on the same or similar work performed by the offeror, including a description of the services provided, period of performance, contract number, and dollar value of the effort.

(6) Address the ability to meet surge in any year of performance.

(7) Provide a statement and metrics that contain sufficient information concerning the ability to meet the government limitations in FAR 52.219-14 Limitations on Subcontracting (Sept 2021) (DEVIATION 2021-O0008).

No telephone responses will be accepted. Responses must be received no later than NOON EST on 1 May 2025 via e-mail to collin.t.ende.civ@us.navy.mil and samantha.l.price22.civ@us.navy.mil. Responses should reference "Combat Weapon System Technology and Engineering Support"

Note: The requested information is for planning purposes and does not constitute a commitment, implied or otherwise, that a procurement action will be issued nor will the Government pay for the information solicited. All information and data received in response to the sources sought marked or designated as corporate proprietary information will be fully protected and held in strict confidence.

The Government will be accepting comments from industry. Comments will be considered in drafting the final requirement documentation. Comments and questions will only be accepted via the Contracting office and should be directed to the Contract Specialist, Collin Ende (collin.t.ende.civ@us.navy.mil) and Contracting Officer, Samantha Price (samantha.l.price22.civ@us.navy.mil).
