NO FAST PAY.

DO NOT INDUCT TO CAV.

THE CONTRACTOR IS REQUIRED TO SHIP BY TRACEABLE MEANS.

GOVERNMENT SOURCE INSPECTION IS REQUIRED.

CONTACT DCMC TRANSPORTATION OFFICER FOR SHIPPING INSTRUCTIONS.

PACKAGING AND MARKING SHALL BE IN ACCORDANCE WITH BEST STANDARD COMMERCIAL PACKAGING FOR OVERSEAS SHIPMENT. IF AN ITEM IS FOUND TO BE EITHER BEYOND ECONOMICAL REPAIR (BER) OR BEYOND REPAIR (BR), THE CONTRACTOR SHALL NOTIFY THE DEFENSE CONTRACT MANAGEMENT AGENCY (DCMA) QUALITY ASSURANCE REPRESENTATIVE (QAR) FOR VERIFICATION OF THE ITEM'S CONDITION. THE QAR WILL PROVIDE THEIR ASSESSMENT OF THE ITEM'S CONDITION ALONG WITH ANY OTHER PERTINENT INFORMATION TO THE DCMA ADMINISTRATIVE CONTRACTING OFFICER (ACO). THE ACO WILL ROUTE THE INFORMATION TO THE NAVSUP WSS PROCUREMENT CONTRACTING OFFICER (PCO). THE CONTRACTOR SHALL NOT SCRAP OR CANNIBALIZE THE ITEM UNTIL WRITTEN AUTHORIZATION IS PROVIDED BY THE NAVSUP WSS PCO.

Repair Turnaround Time (RTAT) definition: The contractual delivery requirement is measured from asset Return to the date of asset acceptance under the terms of the contract. For purposes of this section, Return is defined as physical receipt of the F-condition asset at the contractor's facility as reflected in the Action Date entry in the Commercial Asset Visibility (CAV) system. In accordance with the CAV Statement of Work, the contractor is required to accurately report all transactions by the end of the fifth regular business day after receipt and the Action Date entered in CAV must be dated to reflect the actual date of physical receipt. The Contractor must obtain final inspection and acceptance by the Government for all assets within the RTATs established in the subsequent contract.

Desired RTAT: 90 days after receipt of asset

Throughput Constraint: Contractor must provide a throughput Constraint for each NSN(s). Total assets to be repaired monthly after initial delivery commences X/month (contractor fill in #). A throughput of 000 per month reflects no throughput constraint.

Induction Expiration Date: 365 days after contract award date. Any asset received after this date in days is not authorized for repair without bi-lateral agreement between the Contractor and NAVSUP WSS Contracting Officer.

Reconciliation:

A reconciliation modification will be issued after final Inspection and acceptance of all assets inducted under the subsequent contract. The parties have agreed to a price (shown on the schedule page) for each unit at the negotiated RTAT. Such prices are based on the Contractor meeting the RTAT requirements described within the schedule page. If the Contractor does not meet the applicable RTAT requirement, consideration will be assessed and subject to negotiation. All contractual documents (i.e. contracts, purchase orders, task orders, delivery orders, and modifications) related to the instant procurement are considered to be "issued" by the Government when copies are either deposited in the mail, transmitted by facsimile, or sent by other electronic commerce methods, such as email. The Government's acceptance of the contractor's proposal constitutes bilateral agreement to "issue" contractual documents as detailed herein.

This solicitation will be using competitive procedures. The Government will issue an order resulting from this Request for Quotation to the responsible offeror whose quotation, conforming to the solicitation, results in the best value to the Government. Proposal submission should include non-price factors and price on one document. The evaluation will consider RTAT as more important than price. Descending order of factors. The Government reserves the right to award the contract to other than the lowest priced offer.

(1) RTAT.

(2) Price.

(3) Past Performance.

Offerors are instructed to submit Firm Fixed Prices for any quote submittal. Tiered pricing will not be accepted

or evaluated. Early and incremental deliveries accepted and preferred.

WSSTERMBZ04 IMPORTANT NOTICE REGARDING HAZARDOUS MATERIAL

(Oct 2006)

FAR clause 52.223-3, Hazardous Material Identification and Material Safety Data, is incorporated by reference in Section I in this solicitation and requires offerors to--

- (1) identify any hazardous material (defined in FED STD 313 as an item or chemical which is a "health or physical hazard" per OSHA in 29 CFR 1910.1200) that will be delivered under a resultant contract, and
- (2) provide a Material Safety Data Sheet meeting OSHA/FED STD 313 requirements for all hazardous material identified.

While not an all-inclusive listing of hazardous material, at a minimum, any item with a four-digit Federal Supply Code (FSC), which correlates to the first four positions of the National Stock Number (NSN), of 6810, 6820, 6830, 6840, 6850, 7930, 8010, 8030, 8040, 9110, 9135, 9140, 9150, or 9160 is considered hazardous material and requires submission of a Material Safety Data Sheet or an appropriate representation that there is no hazardous material contained in the item.

Failure to provide the required information and documentation may render you ineligible for award. If you have questions about whether a solicited item is classified as hazardous, contact the NAVICP HAZMAT point of contact, NAVSUP WSS Code N26 Director Jeff Whitman, at (564) 230-3019 or jeff.w.whitman.civ@us.navy.mil.

3.3 Changes in Design, Material Servicing, or Part Number - Except for a Code 1 change, which shall be processed as provided in the code statement shown below, no substitution of items shall be made until the NAVSUP-WSS- MECH Contracting Officer has notified and approval has been given by issuance of a written change order. When any change in design, material, servicing or part number is made to replace or substitute any item to be furnished on this contract/purchase order, the Contractor shall furnish, for the substituting/replacement item, a drawing and an explanation of the reason for the change, explaining the reason therefor. If finished detail drawings are not available, shop drawings in the form used by the manufacturer will be acceptable for Government evaluation. When notifying the Procurement Contracting Officer of the reasons for making substitutions, the type of change shall be indicated by code number in accordance with one of the following statements:

Code 1: PART NUMBER CHANGE ONLY - If the Manufacturer's Part Number indicated thereon has changed, but the parts are identical in all respects, supply the item and advise NAVSUP-WSS-MECH immediately of the new part number.

Box 2020, Mechanicsburg Pa. 17055-0788.)

3.5 Mercury Free - The material supplied under this contract/purchase order is intended for use on submarines/surface ships and therefore shall contain no metallic mercury and shall be free from mercury contamination. Mercury contamination of the material will be cause for rejection.

If the inclusion of metallic mercury is required as a functional part of the material furnished under this contract, the Contractor shall obtain written approval from the Procurement Contracting Officer before proceeding with manufacture. The contractor's request shall explain in detail the requirements for mercury, identify specifically the parts to contain mercury, and explain the method of protection against mercury escape. Such a request will be forwarded directly to the Procurement Contracting Officer with a copy to the applicable Government Inspector.

Upon approval by the Contracting Officer, the vendor will provide a "Warning Plate" stating that metallic mercury is a functional part of the item and will include name and location of that part.

The use of mercury, mercury compounds, or mercury-bearing instruments and/or equipment in a manner which might cause contamination in the manufacture, assembly, or test of material on this contract is prohibited. The most probable causes of contamination are direct-connected manometers, mercury vacuum pumps, mercury seals, or the handling of mercury in the immediate vicinity. Mercury switches, mercury in glass thermometers, standard cells and other items containing mercury may be used if they are located so as not to constitute a contamination hazard.

If external contamination by metallic mercury occurs or is suspected, the following test may be used to determine whether contamination by metallic mercury exists or whether corrective cleaning measures have been effective. Enclose the equipment in a polyethylene bag or close-fitting airtight container for eight hours at room temperature (70 degrees F minimum). Sample the trapped air and if mercury vapor concentration is 0.01 mg/cu meter or more, the material is mercury contaminated insofar as the requirements of this contract are concerned.

These requirements shall be included in any subcontract or purchase order hereunder and the Contractor shall insure SubContractor compliance with these requirements.

Technical questions pertaining to these requirements shall be referred to the Procurement Contracting Officer via the cognizant Administrative Contracting Officer. For background, the following information is provided:

Mercury is corrosive to gold, silver, nickel, stainless steels, aluminum and copper alloys. Stainless steels, nickel, and copper alloys are widely used in reactor plants and other submarine/surface ship systems. Accidental trapping of mercury in a component could cause serious damage to vital parts. Mercury is also toxic if inhaled, ingested, or absorbed through the skin. It is evident that grave consequences could result from small amounts of mercury vapor present in an unreplenished submarine /surface ship atmosphere.

WSSTERMDZ03 PRESERVATION, PACKAGING, PACKING AND MARKING

(Dec 2025)

PRESERVATION, PACKAGING, PACKING AND MARKING

The contractor shall preserve, package, pack and mark all items as cited below. Where specifications or standards are cited herein the latest revision of that specification or standard shall apply.

1. PRESERVATION REQUIREMENTS

a. SYSTEM STOCK SHIPMENTS - The contractor shall preserve all items intended to enter the military distribution system for stock in accordance with the MIL-STD-2073-1, "Standard Practice for Military Packaging", Packaging Requirements Code specified in the Schedule. When a Specialized Preservation Code/Method of Preservation (MOP) (Table J-Ia) is specified, and one or more of the following packaging fields (WM, CUD, CT, UC) value is a 00 (numeric), the Specialized Preservation/MOP procedure and materials takes precedence. Contractors should disregard the LP field and third digit of the PACK field and use the Unit Container Level (UCL) to identify the level of packing protection the unit container meets for packing requirements. When HM = D, the item is regulated in accordance with Title 49 Code of Federal Regulations (CFR); when HM = N the item is not regulated for transportation.

1) When a specified packaging material has an associated Qualified Products List (QPL), the contractor shall use only packaging materials produced by a manufacturer listed on the applicable QPL. Barrier materials that have QPLs are MIL-PRF-131, MIL-PRF-81705, MIL-PRF-22191, MIL-PRF-3420 and MIL-PRF-22019. Sources for QPL material can be obtained from the Qualified Products Database at <http://qpldocs.dla.mil/>.

b. IMMEDIATE USE/INSTALLATION AND PART NUMBER BUY SHIPMENTS - Government PCO or ACO approval is required to use the packaging standards outlined in this paragraph. Any national stock numbered (NSN) item required for immediate use (used or consumed within 7 days of receipt) or direct installation, or part numbered item (authority granted to ship without NSN) shall be preserved and packed in accordance with ASTM D3951-18 (2023), "Standard Practice for Commercial Packaging", for all shipments to a Continental United States (CONUS) government activity or contractor-owned facility. All material destined for overseas shipment (OCONUS) shall be preserved in accordance with MIL-STD-2073-1.

c. GOVERNMENT-OWNED MATERIAL - In the event that the contract expires, is terminated, or completed, and Government-owned material is to be returned to the supply system, the contractor shall preserve and package this material in accordance with the requirements of paragraph 1.a.

2. PROTECTION FROM DEGRADATION DUE TO ELECTROSTATIC (ES)/ELECTROMAGNETIC (EM) FORCES

a. When ASTM D3951-18 (2023) is authorized for packaging and the item is considered Electrostatic Discharge Sensitive (ESDS), protection shall be in accordance with ANSI/ESD S20.20-2021, "For the Development of an ESD Control Program for - Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices)."

b. When MIL-STD-2073-1 is specified and the preservation method code (PMT) in the solicitation does not specify ESD/EM protection (PMT = GX) and the contractor's proposed item of supply is subject to degradation from ES/EM forces, contractors shall provide recommended packaging data with their proposals/quotes.

3. PACKING REQUIREMENTS - The contractor shall pack as follows:

Domestic Shipments (CONUS):

Level B

Overseas Shipments (OCONUS) (including Navy ships at sea):

Via air, FPO, APO	Level B
Via freight forwarder	Level B
Via surface	Level A

Exterior shipping containers for Packing Levels A and B are listed in MIL-STD-2073-1, Appendix C, Table C.II. Long-life reusable containers and wood containers are shipping containers which do not require overpacking for shipment.

4. MARKING REQUIREMENTS - All unit, intermediate and shipping containers shall be marked in accordance with MIL-STD-129. In addition, the following specific requirements apply:

a. ADDITIONAL MARKING FOR SPARES ONLY - Each MIL-STD-129 label shall also include the following:

- 1) Procurement Instrument Identifier (PIID) - the 13-digit contract order number,
- 2) Contract Line Item Number (CLIN) - the 4-digit individual line item number (e.g. 0001, 0002, etc.), and
- 3) SubCLIN - the 6-digit sub line item number (e.g. 0001AA, 0001AB, 0002AA, 0002AB, etc.).

b. DEPOT LEVEL REPAIRABLE (DLR) LABELS

1) Items identified with a Cognizance (COG) Code of either "7" or an even number preceding the NSN, excluding 6A, 6H and 6X COGs (e.g. 7RH 5826-014289999), are defined as Depot Level Repairable (DLR) items. DLR items require that a DLR label be placed on the outside of the unit, intermediate and shipping containers as close to the bar code label as possible.

EXCEPTION: When a DLR item requires use of both a reusable inner unit container and a reusable outer shipping and storage container (excluding wood and fiberboard), only the inner unit container shall be affixed with a DLR label. In these cases only, DLR labels shall NOT be placed on the outer reusable container.

2) Labels are available via the Naval Forms Online website: <https://forms.documentservices.dla.mil/order/>. The website will advise the procedures for ordering and establishing an account.

3) NAVSUP WSS authorizes contractors to create and print their own DLR labels.

5. PALLETIZATION. Palletization of shipments shall be accomplished in accordance with MIL-STD-147 "DOD Standard Practice: Palletized Unit Loads." Failure to meet these palletization/packaging requirements and measures, without a written waiver from the PCO or ACO, may result in charges back to the contractor for repalletization and/or repackaging of items. Pallets shall conform to the requirements of American National Standards Institute, Material Handling-MH1-2016, Pallets, Slip Sheets, and Other Bases for Unit Loads. MH1-2016 may be obtained at the following website: <http://www.mhi.org>

- a. For all WPM furnished under this contract the contractor shall ensure the American Lumber Standards Committee (ALSC) approved mark is applied to every shipment regardless of destination.
- b. Failure to comply with the requirements of ISPM 15 may result in refusal of the shipment, destruction or corrective treatment of WPM at the point of receipt and the associated costs charged back to the contractor.

7. NAVY SHELF-LIFE PROGRAM. Navy shelf-life requirements are listed under the item description in a 3-digit alpha/numeric code. Position one (1) is the DOD shelf-life code, defining the type of shelf-life for an item (Type I, non-extendible or Type II, extendible), and the number of months an item can remain ready for issue in a Navy specified package. Positions two (2) and three (3) combined form the Navy-unique shelf-life action codes used by storage activities, and do not impose any requirements on the contractor. The contractor shall use the applicable shelf-life paragraphs and table in MIL-STD-129 to apply either Type I or Type II shelf-life markings to an item's unit, intermediate and shipping containers. Contractors will ensure that at least eighty-five percent (85%) of the Navy shelf-life requirement is remaining when received by the first government activity.

8. REUSABLE NSN CONTAINERS. An item that has an NSN assigned in the "Container NSN" field (e.g. 8145 012622982) requires shipment in a reusable shipping and storage container.

- a. REUSABLE CONTAINERS FOR NAVSUP WSS, MARITIME REQUIREMENTS - Reusable NSN containers for maritime material (designated by a COG Code of "7E", "7G" and "7H") shall be provided as contractor-furnished material (CFM).

REUSABLE CONTAINERS FOR NAVSUP WSS, AVIATION REQUIREMENTS - Reusable NSN containers (excluding fiberboard and most wood) for aviation material (designated by a COG Code of "7R", "6K" or "0R") shall be provided as government-furnished material (GFM). Fast pack containers will not be provided as GFM. To obtain GFM reusable containers, the contractor must request via email usn.philadelphia.navsupwssphil.mbx.navsupcrf@us.navy.mil at least 90 days prior to the anticipated shipping date, 30 days prior for repair contracts. If the Navy's Container Management Area (CMA) informs the contractor that containers are unavailable, the following alternate packaging requirements apply. The unavailability of reusable containers shall not be an excusable delivery delay.

WSSTERMFZ10 REDISTRIBUTION ORDER/READY FOR ISSUE – NAVSUP WSS (Feb 2025) **TRANSPORTATION (FOB ORIGIN)**

I. For Commercial Asset Visibility Repairables Portal (CAV RP) Reporters:

CAV RP reporting is required under this purchase order/contract. Refer to your Basic Ordering Agreement, Long Term Contract or NAVSUP website (<https://www.navsupsup.navy.mil/NAVSUP-Enterprise/NAVSUP-Weapon-Systems-Support/Provisions-Instructions-and-Contract/>) for the CAV RP Reporting requirements contained in the CAV Statement of Work (SOW).

II. For Non-CAV Reporters:

- A. NAVSUP Weapon Systems Support (NAVSUP WSS) has contracted sole responsibility for transportation of repairable assets to the Navy's transportation organization, Advanced Traceability and Control (ATAC). ATAC is responsible for delivery and pickup of Government-owned assets going to and from the repair facility. ATAC will send a subcontracted transporter (e.g. Federal Express, Miramar) to the repair facility to pick up material as specified herein.
- B. Assets to be delivered to your facility for repair in accordance with the contract will include any Depot Level Repairable (DLR) in any condition. Upon receipt of material, compare the quantity of units and the NIIN of the item inside the container to the quantity and NIIN on the DD Form 1348-1A document that accompanies the material. There may be multiple DD Form 1348-1A documents with the material. The appropriate DD Form 1348-1A to use for comparison is the one that reflects the material being shipped to the repair facility. Any discrepancies in quantity or NIIN must be reported by creating a Supply Discrepancy Report (SDR) - SF364 via <https://www.pdrep.csd.disa.mil/> using the EZ PDR Login option.
- C. Assets to be picked up from the repair facility will include material in any of the following conditions:
 1. "A" Condition - Units that have been repaired and are Ready for Issue (RFI)
 2. "F" Condition - Units that are NOT authorized for repair - Not Ready for Issue
 3. "H" Condition - Units that have been determined Beyond Repair (BR) or Beyond Economical Repair (BER)

4. "J" Condition - Units that have been misidentified or misdirected to the repair facility

D. Upon completion of the repair of each unit, the repair facility shall:

1. Contact the Government Quality Assurance Representative (QAR) to schedule an on-site visit date for inspection and acceptance of the material, including, if required, signature or Wide Area Workflow (WAWF) authorization of the DD250 Receiving Report, which is required for payment purposes.
2. The contractor shall provide to the DCMA QAR the ATAC Request Form which will be obtained by the QAR before signing for acceptance in WAWF DD250 Receiving Report: (The QAR will validate the contract number, delivery order number, CLIN, shipping location, National Stock Numbers, Condition Code, Serial number as applicable and quantities.)
3. Contact the ATAC Dispatcher at 1-877-846-8728 or ATACCustomerService@navy.mil and provide the information below. The ATAC database will house much of this information, but the repair facility will be asked to verify the following data:
 - a. CAGE or UIC (e.g. 12345 or Q01234)
 - b. National Stock Number (e.g. 01-123-4567)
 - c. Quantity (e.g. 10 each)
 - d. Pieces (number of boxes)
 - e. Receipt Document Number (e.g. N003835001XD01 or N001045001XK01)
 - f. Nomenclature
 - g. Date contractor started repair of the unit
 - h. Condition Code of material (e.g. A, F, H or J)
 - i. Pick-up Address
 - j. Destination Unit Identification Code (UIC) (e.g. SW3117)
 - k. Destination Address
 - l. Contract Number or Purchase Order Number (e. g. N0038309GA001 or N0010409PDG71)
 - m. Delivery Order Number for BOA or LTC (e.g. 0001 or 7001; not applicable for non-BOA or non-LTC purchase orders or contracts)
 - n. Contract Line Item Number (e.g. 0001AA)
 - o. Serial Number of the Unit
 - p. Hazardous Material (Yes or No)
 - q. Priority (e.g. Routine or Urgent - requiring immediate pick up)
 - r. Available Pick-up Date (date material can be picked up after QAR inspection)
 - s. Weight
 - t. Dimensions (L, W, H)

Upon receipt of this information, the ATAC Dispatcher will provide instructions for obtaining a DD Form 1348-1A for shipping purposes. A MILSTRIP Document number will be assigned to each individual unit and will appear on the DD 1348-1A. The serial number of the unit will be referenced in Block 27 "Additional Data" in the DD1348-1A to identify for the repair facility which MILSTRIP document number belongs to each unit.

E. Preparation for ATAC pickup

1. Two copies of the DD Form 1348-1A should be affixed to the outside of the shipment container and one copy should be placed inside the container. Units ready for shipment must be either single-packed or packed in multiple quantities of the same NIIN to the same destination. Different NIINs shall NOT be packaged together. DO NOT INCLUDE A COPY OF THE DD FORM 250 WITH THE MATERIAL TO BE SHIPPED.

NAVSUPWSSFA24 COMMERCIAL ASSET VISIBILITY REPAIRABLES PORTAL (CAV RP) REPORTING

(Aug 2023)

Commercial Asset Visibility Repairables Portal (CAV RP) reporting is required under this purchase order/contract, and all proposed pricing must include any costs associated with this requirement. Detailed information on CAV RP reporting requirements can be found in the CAV Statement of Work (SOW) located at:

<https://www.navsup.navy.mil/NAVSUP-Enterprise/NAVSUP-Weapon-Systems-Support/Provisions-Instructions-and-Contract/>

Contractors participating in the Direct Ship program can find additional information in the CAV SOW.

CAV RP registration requires the contractor to purchase a commercial PKI certificate, complete web-based information assurance training (approximately 1 hour to complete) and submit a System Authorization Access Request (SAAR). Access to CAV RP is authenticated based on a valid PKI certificate registered in the NAVSUP Master Directory and an active CAV RP account. The contractor is required to access the account at least one time within every 30 days, regardless of whether there are transactions to report, in order to keep the account active. Questions regarding CAV RP registration/implementation can be addressed to:

usn.philadelphia.navsupwssphil.mbx.cavsaar@us.navy.mil for NAVSUP WSS Philadelphia solicitations and contracts (document numbers beginning with N00383) usn.mechanicsburg.navsupwssmech.mbx.mech-cav-saar@us.navy.mil for NAVSUP WSS Mechanicsburg solicitations and contracts (document numbers beginning with N00104).

Contractors not already registered for, or reporting via, CAV RP are required to initiate registration no later than 10 days following receipt of this purchase order/contract by providing their point of contact information to the appropriate CAV RP email address above. All contractor actions for registration (PKI certificate, training, and SAAR) must be completed within 30 days of receipt of this order/contract for U.S. contractors and within 60 days for non-U.S. contractors. If government property is received or assets are ready for delivery to the Government prior to implementation of CAV RP, the contractor must send a notification to the appropriate email address above, and must also notify the NAVSUP WSS contracting officer identified on the purchase order/contract. The contractor should notify the contracting officer if a response from a CAV RP representative is not received within 3 working days.

(b) The maximum amount for which the Government shall be liable if this contract is terminated is ____ dollars.

(End of clause)

52.217-9 Option to Extend the Term of the Contract.

(Mar 2000)

OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within ____ [insert the period of time within which the Contracting Officer may exercise the option]; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least ____ days [60 days unless a different number of days is inserted] before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed ____ (months) (years).

52.223-3 Hazardous Material Identification and Safety Data. (Deviation 2026-O0038)

(Feb 2026)

HAZARDOUS MATERIAL IDENTIFICATION AND SAFETY DATA (FEB 2026) (DEVIATION 2026-O0038)

(a) *Hazardous material*, as used in this clause, includes any material defined as hazardous under the latest version of Federal Standard No. 313 (including revisions adopted during the term of the contract).

(b) The Offeror must list any hazardous material, as defined in paragraph (a) of this clause, to be delivered under this contract. The hazardous material shall be properly identified and include any applicable identification number, such as National Stock Number or Special Item Number. This information shall also be included on the Safety Data Sheet submitted under this contract.

Material (If none, insert <i>None</i>)	Identification No.
=====	=====
=====	=====
=====	=====

(c) This list must be updated during performance of the contract whenever the Contractor determines that any other material to be delivered under this contract is hazardous.

(d) The apparently successful offeror agrees to submit, for each item as required prior to award, a Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous material identified in paragraph (b) of this clause. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(f) Neither the requirements of this clause nor any act or failure to act by the Government shall relieve the Contractor of any responsibility or liability for the safety of Government, Contractor, or subcontractor personnel or property.

(g) Nothing contained in this clause shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

(h) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:

(1) To use, duplicate and disclose any data to which this clause is applicable. The purposes of this right are to-

(i) Apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials;

(ii) Obtain medical treatment for those affected by the material; and

(iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (h)(1) of this clause, in precedence over any other clause of this contract providing for rights in data.

(3) The Government is not precluded from using similar or identical data acquired from other sources.

52.223-7 Notice of Radioactive Materials. (Deviation 2026-O0038) (Feb 2026)

NOTICE OF RADIOACTIVE MATERIALS (FEB 2026) (DEVIATION 2026-O0038)

(a) The Contractor shall notify the Contracting Officer or designee, in writing, ____*days prior to the delivery of, or prior to completion of any servicing required by this contract of, items containing either (1) radioactive material requiring specific licensing under the regulations issued pursuant to the Atomic Energy Act of 1954, as amended, as set forth in title 10 of the Code of Federal Regulations, in effect on the date of this contract, or (2) other radioactive material not requiring specific licensing in which the specific activity is greater than 0.002 microcuries per gram or the activity per item equals or exceeds 0.01 microcuries. Such notice shall specify the part or parts of the items which contain radioactive materials, a description of the materials, the name and activity of the isotope, the manufacturer of the materials, and any other information known to the Contractor which will put users of the items on notice as to the hazards involved.

(b) If there has been no change affecting the quantity of activity, or the characteristics and composition of the radioactive material from deliveries under this contract or prior contracts, the Contractor may request that the Contracting Officer or designee waive the notice requirement in paragraph (a) of this clause. Any such request shall-

(1) Be submitted in writing;

(2) State that the quantity of activity, characteristics, and composition of the radioactive material have not changed; and

(3) Cite the contract number on which the prior notification was submitted and the contracting office to which it was submitted.

(c) All items, parts, or subassemblies which contain radioactive materials in which the specific activity is greater than 0.002 microcuries per gram or activity per item equals or exceeds 0.01 microcuries, and all containers in which such items, parts or subassemblies are delivered to the Government shall be clearly marked and labeled as required by the latest revision of MIL-STD 129 in effect on the date of the contract.

(d) This clause, including this paragraph (d), shall be inserted in all subcontracts for radioactive materials meeting the criteria in paragraph (a) of this clause.

* The Contracting Officer shall insert the number of days required in advance of delivery of the item or completion of the servicing to assure that required licenses are obtained and appropriate personnel are notified to institute any necessary safety and health precautions.

52.223-11 Ozone-Depleting Substances. (Deviation 2026-O0038) (Feb 2026)

OZONE-DEPLETING SUBSTANCES (FEB 2026) (DEVIATION 2026-O0038)

(a) *Definition.* As used in this clause-

Ozone-depleting substance means any substance the Environmental Protection Agency designates in 40 CFR part 82 as-

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

(b) *Requirement.* In accordance with 40 CFR 82.84(a)(5), the Contractor shall label products that contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j(b), (c), (d), and (e) and 40 CFR part 82, subpart E, as follows:

Warning: Contains (or manufactured with, if applicable) * ____, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.

* The Contractor shall insert the name of the substance(s).

(End of clause)

52.243-7 Notification of Changes. (Deviation 2026-O0038)

(Feb 2026)

NOTIFICATION OF CHANGES (FEB 2026) (DEVIATION 2026-O0038)

(a) Definitions.

Contracting Officer, as used in this clause, does not include any representative of the Contracting Officer.

Specifically Authorized Representative (SAR), as used in this clause, means any person the Contracting Officer has designated by written notice (a copy shall be provided to the Contractor) that shall refer to this subparagraph and shall be issued to the designated representative before the SAR exercises such authority.

(b) *Notice*. The primary purpose of this clause is to obtain prompt reporting of Government conduct that the Contractor considers to constitute a change to this contract. Except for changes identified in writing and signed by the Contracting Officer, the Contractor shall notify the Administrative Contracting Officer in writing promptly, within ____ (to be negotiated) calendar days from the date that the Contractor identifies any Government conduct that the Contractor regards as a change to the contract terms and conditions. Examples of conduct that may be regarded as a change to terms and conditions include actions, inactions, and written or oral communications. On the basis of the most accurate information available to the Contractor, the notice shall state-

- (1) The date, nature, and circumstances of the conduct regarded as a change;
- (2) The name, function, and activity of each Government individual and Contractor official or employee involved in or knowledgeable about such conduct;
- (3) The identification of any documents and the substance of any oral communication involved in such conduct;
- (4) In the instance of alleged acceleration of scheduled performance or delivery, the basis upon which it arose;
- (5) The particular elements of contract performance for which the Contractor may seek an equitable adjustment under this clause, including-
 - (i) What line items have been or may be affected by the alleged change;
 - (ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;
 - (iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;
 - (iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and
- (6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.

(c) *Continued performance*. Following submission of the notice required by paragraph (b) of this clause, the Contractor shall diligently continue performance of this contract to the maximum extent possible in accordance with its terms and conditions as construed by the Contractor, unless the notice reports a direction of the Contracting Officer or a communication from a SAR of the Contracting Officer, in either of which events the Contractor shall continue performance. However, if the Contractor regards the direction or communication as a change as described in paragraph (b) of this clause, notice shall be given in the manner provided. All directions, communications, interpretations, orders and similar actions of the SAR shall be reduced to writing promptly and copies furnished to the Contractor and to the Contracting Officer. The Contracting Officer shall promptly countermand any action which exceeds the authority of the SAR.

(d) *Government response*. The Contracting Officer shall promptly, within ____ (to be negotiated) calendar days after receipt of notice, respond to the notice in writing. In responding, the Contracting Officer shall either-

- (1) Confirm that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance;
- (2) Countermand any communication regarded as a change;
- (3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or
- (4) In the event the Contractor's notice information is inadequate to make a decision under (1), (2), or (3) of paragraph (d) of this clause, advise the Contractor what additional information is required, and establish the date by which it should be furnished and the date thereafter by which the Government will respond.

(e) *Equitable adjustments.*

(1) If the Contracting Officer confirms that Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether changed or not changed by such conduct, an equitable adjustment shall be made-

- (i) In the contract price or delivery schedule or both; and
- (ii) In such other provisions of the contract as may be affected.

(2) The contract shall be modified in writing accordingly. In the case of drawings, designs or specifications which are defective and for which the Government is responsible, the equitable adjustment shall include the cost and time extension for delay reasonably incurred by the Contractor in attempting to comply with the defective drawings, designs or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for delay resulting from the Contractor's failure to provide notice or to continue performance as provided, respectively, in paragraphs(b) and (c) of this clause.

Note: The phrases contract price and cost wherever they appear in the clause, may be appropriately modified to apply to cost-reimbursement or incentive contracts, or to combinations thereof.

52.247-1 Commercial Bill of Lading Notations.

(Feb 2006)

As prescribed in 47.104-4 , insert the following clause:

COMMERCIAL BILL OF LADING NOTATIONS (FEB 2006)

When the Contracting Officer authorizes supplies to be shipped on a commercial bill of lading and the Contractor will be reimbursed these transportation costs as direct allowable costs, the Contractor shall ensure before shipment is made that the commercial shipping documents are annotated with either of the following notations, as appropriate:

- (a) If the Government is shown as the consignor or the consignee, the annotation shall be:

Transportation is for the ____[name the specific agency] and the actual total transportation charges paid to the carrier(s) by the consignor or consignee are assignable to, and shall be reimbursed by, the Government.

- (b) If the Government is not shown as the consignor or the consignee, the annotation shall be:

Transportation is for the ____[name the specific agency] and the actual total transportation charges paid to the carrier(s) by the consignor or consignee shall be reimbursed by the Government, pursuant to cost-reimbursement contract No. _____. This may be confirmed by contacting _____[Name and address of the contract administration office listed in the contract].

(End of clause)

52.248-1 Value Engineering. (Deviation 2026-O0038)

(Feb 2026)

VALUE ENGINEERING (FEB 2026) (DEVIATION 2026-O0038)

(a) *General.* The Contractor is encouraged to develop, prepare, and submit value engineering change proposals (VECP's) voluntarily. The Contractor shall share in any net acquisition savings realized from accepted VECP's, in accordance with the incentive sharing rates in paragraph (f) of this clause.

- (b) *Definitions.*

Acquisition savings, as used in this clause, means savings resulting from the application of a VECP to contracts awarded by the same contracting office or its successor for essentially the same unit. Acquisition savings include-

(1) Instant contract savings, which are the net cost reductions on this, the instant contract, and which are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the Contractor's allowable development and implementation costs;

(2) Concurrent contract savings, which are net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and

(3) Future contract savings, which are the product of the future unit cost reduction multiplied by the number of future contract units in the sharing base. On an instant contract, future contract savings include savings on increases in quantities after VECP acceptance that are due to contract modifications, exercise of options, additional orders, and funding of subsequent year requirements on a multiyear contract.

Collateral costs means agency costs of operation, maintenance, logistic support, or Government-furnished property.

Collateral savings, as used in this clause, means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

Contracting office includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

Contractor's development and implementation costs, as used in this clause, means those costs the Contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the Contractor incurs to make the contractual changes required by Government acceptance of a VECP.

Future unit cost reduction, as used in this clause, means the instant unit cost reduction adjusted as the Contracting Officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either-

- (1) Throughout the sharing period, unless the Contracting Officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated; or
- (2) To the calculation of a lump-sum payment, which cannot later be revised.

Government costs, as used in this clause, means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in this contract's cost or price resulting from negative instant contract savings.

Instant contract, as used in this clause, means this contract, under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If this is a multiyear contract, the term does not include quantities funded after VECP acceptance. If this contract is a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

Instant unit cost reduction means the amount of the decrease in unit cost of performance (without deducting any Contractor's development or implementation costs) resulting from using the VECP on this, the instant contract. If this is a service contract, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on this contract, multiplied by the appropriate contract labor rate.

Negative instant contract savings means the increase in the cost or price of this contract when the acceptance of a VECP results in an excess of the Contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

Net acquisition savings means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

Sharing base, as used in this clause, means the number of affected end items on contracts of the contracting office accepting the VECP.

Sharing period, as used in this clause, means the period beginning with acceptance of the first unit incorporating the VECP and ending at a calendar date or event determined by the contracting officer for each VECP.

Unit, as used in this clause, means the item or task to which the Contracting Officer and the Contractor agree the VECP applies.

Value engineering change proposal (VECP) means a proposal that-

- (1) Requires a change to this, the instant contract, to implement; and
- (2) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; *provided*, that it does not involve a change-
 - (i) In deliverable end item quantities only;
 - (ii) In research and development (R&D) end items or R&D test quantities that is due solely to results of previous testing under this contract; or
 - (iii) To the contract type only.

(c) *VECP preparation*. As a minimum, the Contractor shall include in each VECP the information described in paragraphs (c)(1) through (8) of this clause. If the proposed change is affected by contractually required configuration management or similar procedures, the instructions in those procedures relating to format, identification, and priority assignment shall govern VECP preparation. The VECP shall include the following:

- (1) A description of the difference between the existing contract requirement and the proposed requirement, the comparative advantages and disadvantages of each, a justification when an item's function or characteristics are being altered, the effect of the change on the end item's performance, and any pertinent objective test data.
- (2) A list and analysis of the contract requirements that must be changed if the VECP is accepted, including any suggested specification revisions.
- (3) Identification of the unit to which the VECP applies.

(4) A separate, detailed cost estimate for (i) the affected portions of the existing contract requirement and (ii) the VECP. The cost reduction associated with the VECP shall take into account the Contractor's allowable development and implementation costs, including any amount attributable to subcontracts under the Subcontracts paragraph of this clause.

(5) A description and estimate of costs the Government may incur in implementing the VECP, such as test and evaluation and operating and support costs.

(6) A prediction of any effects the proposed change would have on collateral costs to the agency.

(7) A statement of the time by which a contract modification accepting the VECP must be issued in order to achieve the maximum cost reduction, noting any effect on the contract completion time or delivery schedule.

(8) Identification of any previous submissions of the VECP, including the dates submitted, the agencies and contract numbers involved, and previous Government actions, if known.

(d) *Submission.* The Contractor shall submit VECP's to the Contracting Officer, unless this contract states otherwise. If this contract is administered by other than the contracting office, the Contractor shall submit a copy of the VECP simultaneously to the Contracting Officer and to the Administrative Contracting Officer.

(e) Government action.

(1) The Contracting Officer will notify the Contractor of the status of the VECP within 45 calendar days after the contracting office receives it. If additional time is required, the Contracting Officer will notify the Contractor within the 45-day period and provide the reason for the delay and the expected date of the decision. The Government will process VECP's expeditiously; however, it will not be liable for any delay in acting upon a VECP.

(2) If the VECP is not accepted, the Contracting Officer will notify the Contractor in writing, explaining the reasons for rejection. The Contractor may withdraw any VECP, in whole or in part, at any time before it is accepted by the Government. The Contracting Officer may require that the Contractor provide written notification before undertaking significant expenditures for VECP effort.

(3) Any VECP may be accepted, in whole or in part, by the Contracting Officer's award of a modification to this contract citing this clause and made either before or within a reasonable time after contract performance is completed. Until such a contract modification applies a VECP to this contract, the Contractor shall perform in accordance with the existing contract. The decision to accept or reject all or part of any VECP is a unilateral decision made solely at the discretion of the Contracting Officer.

(f) *Sharing rates.* If a VECP is accepted, the Contractor shall share in net acquisition savings according to the percentages shown in the table below. The percentage paid the Contractor depends upon-

(1) This contract's type (fixed-price, incentive, or cost-reimbursement);

(2) The sharing arrangement specified in paragraph (a) of this clause (incentive, program requirement, or a combination as delineated in the Schedule); and

(3) The source of the savings (the instant contract, or concurrent and future contracts), as follows:

Contractor's Share of Net Acquisition Savings (Figure in Percent)				
	Sharing arrangement			
Contract Type	Incentive (Voluntary)		Program Requirement (Mandatory)	
	Instant Contract Rate	Concurrent and Future Contract Rate	Instant Contract Rate	Concurrent and Future Contract Rate
Fixed-price (includes	*50	*50	25	25

fixed-price-award-fee; excludes other fixed-price incentive contracts)				
Incentive (fixed-price or cost) (other than award fee)	(**)	*50	(**)	25
Cost-reimbursement (includes cost-plus-award- fee; excludes other cost- type incentive contracts)	***25	***25	15	15
* The Contracting Office may increase the Contractor's sharing rate to as high as 75 percent for each VECP.				
** Same sharing arrangement as the contract's profit or fee adjustment formula.				
*** The Contracting Office may increase the Contractor's sharing rate to as high as 50 percent for each VECP.				

(g) Calculating net acquisition savings.

(1) Acquisition savings are realized when (i) the cost or price is reduced on the instant contract, (ii) reductions are negotiated in concurrent contracts, (iii) future contracts are awarded, or (iv) agreement is reached on a lump-sum payment for future contract savings (see paragraph (i)(4) of this clause). Net acquisition savings are first realized, and the Contractor shall be paid a share, when Government costs and any negative instant contract savings have been fully offset against acquisition savings.

(2) Except in incentive contracts, Government costs and any price or cost increases resulting from negative instant contract savings shall be offset against acquisition savings each time such savings are realized until they are fully offset. Then, the Contractor's share is calculated by multiplying net acquisition savings by the appropriate Contractor's percentage sharing rate (see paragraph (f) of this clause). Additional Contractor shares of net acquisition savings shall be paid to the Contractor at the time realized.

(3) If this is an incentive contract, recovery of Government costs on the instant contract shall be deferred and offset against concurrent and future contract savings. The Contractor shall share through the contract incentive structure in savings on the instant contract items affected. Any negative instant contract savings shall be added to the target cost or to the target price and ceiling price, and the amount shall be offset against concurrent and future contract savings.

(4) If the Government does not receive and accept all items on which it paid the Contractor's share, the Contractor shall reimburse the Government for the proportionate share of these payments.

(h) *Contract adjustment.* The modification accepting the VECP (or a subsequent modification issued as soon as possible after any negotiations are completed) shall-

(1) Reduce the contract price or estimated cost by the amount of instant contract savings, unless this is an incentive contract;

(2) When the amount of instant contract savings is negative, increase the contract price, target price and ceiling price, target cost, or estimated cost by that amount;

(3) Specify the Contractor's dollar share per unit on future contracts, or provide the lump-sum payment;

(4) Specify the amount of any Government costs or negative instant contract savings to be offset in determining net acquisition savings realized from concurrent or future contract savings; and

(5) Provide the Contractor's share of any net acquisition savings under the instant contract in accordance with the following:

(i) Fixed-price contracts-add to contract price.

(ii) Cost-reimbursement contracts-add to contract fee.

(i) Concurrent and future contract savings.

(1) Payments of the Contractor's share of concurrent and future contract savings shall be made by a modification to the instant contract in accordance with paragraph (h)(5) of this clause. For incentive contracts, shares shall be added as a separate firm-fixed-price line item on the instant contract. The Contractor shall maintain records adequate to identify the first delivered unit for 3 years after final payment under this contract.

(2) The Contracting Officer shall calculate the Contractor's share of concurrent contract savings by-

(i) Subtracting from the reduction in price negotiated on the concurrent contract any Government costs or negative instant contract savings not yet offset; and

(ii) Multiplying the result by the Contractor's sharing rate.

(3) The Contracting Officer shall calculate the Contractor's share of future contract savings by-

(i) Multiplying the future unit cost reduction by the number of future contract units scheduled for delivery during the sharing period;

(ii) Subtracting any Government costs or negative instant contract savings not yet offset; and

(iii) Multiplying the result by the Contractor's sharing rate.

(4) When the Government wishes and the Contractor agrees, the Contractor's share of future contract savings may be paid in a single lump sum rather than in a series of payments over time as future contracts are awarded. Under this alternate procedure, the future contract savings may be calculated when the VECP is accepted, on the basis of the Contracting Officer's forecast of the number of units that will be delivered during the sharing period. The Contractor's share shall be included in a modification to this contract (see paragraph (h)(3) of this clause) and shall not be subject to subsequent adjustment.

(5) *Alternate no-cost settlement method.* When, in accordance with section 48.104-4 of the Federal Acquisition Regulation (FAR), the Government and the Contractor mutually agree to use the no-cost settlement method, the following applies:

(i) The Contractor will keep all the savings on the instant contract and on its concurrent contracts only.

(ii) The Government will keep all the savings resulting from concurrent contracts placed on other sources, savings from all future contracts, and all collateral savings.

(j) *Collateral savings.* If a VECP is accepted, the Contracting Officer will increase the instant contract amount, as specified in paragraph (h)(5) of this clause, by a rate from 20 to 100 percent, as determined by the Contracting Officer, of any projected collateral savings determined to be realized in a typical year of use after subtracting any Government costs not previously offset. However, the Contractor's share of collateral savings will not exceed the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or \$100,000, whichever is greater. The Contracting Officer will be the sole determiner of the amount of collateral savings.

(k) *Relationship to other incentives.* Only those benefits of an accepted VECP not rewardable under performance, design-to-cost (production unit cost, operating and support costs, reliability and maintainability), or similar incentives shall be rewarded under this clause. However, the targets of such incentives affected by the VECP shall not be adjusted because of VECP acceptance. If this contract specifies targets but provides no incentive to surpass them, the value engineering sharing shall apply only to the amount of achievement better than target.

(l) *Subcontracts.* The Contractor shall include an appropriate value engineering clause in any subcontract-valued at or above the simplified acquisition threshold, as defined in FAR 2.101 on the date of subcontract award, and may include one in subcontracts of lesser value. In calculating any adjustment in this contract's price for instant contract savings (or negative instant contract savings), the Contractor's allowable development and implementation costs shall include any subcontractor's allowable development and implementation costs, and any value engineering incentive payments to a subcontractor, clearly resulting from a VECP accepted by the Government under this contract. The Contractor may choose any arrangement for subcontractor value engineering incentive payments, *provided*, that the payments shall not reduce the Government's share of concurrent or future contract savings or collateral savings.

(m) *Data.* The Contractor may restrict the Government's right to use any part of a VECP or the supporting data by marking the following legend on the affected parts:

"These data, furnished under the Value Engineering clause of contract _____, shall not be disclosed outside the Government or duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate a value engineering change proposal submitted under the clause. This restriction does not limit the Government's right to use information contained in these data if it has been obtained or is otherwise available from the Contractor or from another source without limitations."

If a VECP is accepted, the Contractor hereby grants the Government unlimited rights in the VECP and supporting data, except that, with respect to data qualifying and submitted as limited rights technical data, the Government shall have the rights specified in the contract modification implementing the VECP and shall appropriately mark the data. (The terms "unlimited rights" and "limited rights" are defined in part 27 of the Federal Acquisition Regulation.)

RIGHTS IN TECHNICAL DATA, COMPUTER SOFTWARE, AND COMPUTER SOFTWARE DOCUMENTATION--OTHER THAN COMMERCIAL PRODUCTS OR COMMERCIAL SERVICES (DEVIATION 2026-O0036) (FEB 2026)

(a) *Definitions.* As used in this clause--

"Commercial computer software" means software developed or regularly used for nongovernmental purposes which--

- (1) Has been sold, leased, or licensed to the public;

(2) Has been offered for sale, lease, or license to the public;

(3) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or

(4) Satisfies a criterion expressed in paragraph (1), (2), or (3) of this definition and would require only minor modification to meet the requirements of this contract.

"Computer database" means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

"Computer program" means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

"Computer software" means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer databases or computer software documentation.

"Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

"Covered Government support contractor" means a contractor (other than a litigation support contractor covered by 252.204-7014) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort, rather than to directly furnish an end item or service to accomplish a program or effort, provided that the contractor--

(1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

"Developed" means--

(1) (Applicable to technical data other than computer software documentation.) An item, component, or process exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component, or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(2) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(3) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(4) Computer software documentation the contractor must deliver under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

"Developed exclusively at private expense" means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a Government contract, or any combination thereof.

(1) Private expense determinations should be made at the lowest practicable level.

(2) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at Government, private, or mixed expense.

"Developed exclusively with Government funds" means development was not accomplished exclusively or partially at private expense.

"Developed with mixed funding" means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

"Form, fit, and function data" means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

"Generated" means, with regard to technical data or computer software, first created in the performance of this contract.

"Government purpose" means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations, or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data, computer software, or computer software documentation for commercial purposes or authorize others to do so.

"Government purpose rights" means the rights to--

(1) Use, modify, reproduce, release, perform, display, or disclose technical data, computer software, or computer software documentation within the Government without restriction; and

(2) Release or disclose technical data, computer software, or computer software documentation outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data or software for United States Government purposes.

"Limited rights" means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if--

(1) The reproduction, release, disclosure, or use is--

(i) Necessary for emergency repair and overhaul; or

(ii) A release or disclosure to--

(A) A covered Government support contractor in performance of its covered Government support contract for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

(B) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(2) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(3) The contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

"Minor modification" means a modification that does not significantly alter the nongovernmental function or purpose of the software or is of the type customarily provided in the commercial marketplace.

"Other than commercial computer software" means software that does not qualify as commercial computer software under the definition of "commercial computer software" of this clause.

"Restricted rights" apply only to other than commercial computer software and mean the Government's rights to--

(1) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(2) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

(3) Make a reasonable number of copies of the computer software required for the purposes of safekeeping (archive), backup, modification, or other activities authorized in paragraphs (1), (2), (4) and (5) of this definition;

(4) Modify computer software provided that the Government may--

(i) Use the modified software only as provided in paragraphs (1) and (3) of this definition; and

(ii) Not release or disclose the modified software except as provided in paragraphs (2) and (5) of this clause;

(5) Use, modify, reproduce, perform, display, or release or disclose the computer software, and permit contractors, subcontractors, or covered Government support contractors to do so, for purposes set forth in subparagraph (i) of this paragraph, subject to the conditions set forth in subparagraphs (ii) of this paragraph:

(i)(A) In performance of service contracts (see FAR 37.101), to diagnose and correct deficiencies, to modify the software to enable a computer program to be combined with, adapted to, or merged with other computer programs, or when necessary to respond to urgent tactical situations, provided that the Government notifies the party which has granted restricted rights that any such release or disclosure to particular contractors or subcontractors was made;

(B) To perform emergency repairs or overhaul of items or components procured under this or a related contract, when necessary to perform such repairs or overhaul; or

(C) For the management and oversight of a program or effort by a person authorized to receive restricted rights computer software, including in the performance of covered Government support contracts.

(ii)(A) Any contractor, subcontractor, or covered Government support contractor receiving access to the software for the purposes of subparagraphs (i), (ii), or (iii) of this paragraph shall be subject to the use and nondisclosure agreement at 227.7103-7 or be performing a Government contract that contains the clause at 252.227-7994, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(B) The Government must not permit any recipient of the software under this paragraph to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(C) Any use, modification, reproduction, performance, display, release, or disclosure of the computer software under this paragraph remains subject to the limitations in paragraphs (1) through (4) of this definition.

"Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) data" means all technical data or computer software developed or generated in the performance of a phase I, II, or III SBIR/STTR contract or subcontract.

"Technical data" means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or financial, administrative, cost or pricing, or management information, or information incidental to contract administration.

"Unlimited rights" means rights to use, modify, reproduce, perform, display, release, or disclose technical data, computer software, or computer software documentation in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Applicability.* (1) Except as provided in paragraph (b)(2) of this clause--

(i) This clause governs all technical data related to other than commercial products or commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense;

(ii) This clause governs all other than commercial computer software or other than commercial computer software documentation; and

(iii) The clause at DFARS 252.227-7990, Technical Data--Commercial Products and Commercial Services, governs the technical data related to any portion of a commercial product or commercial service that was developed exclusively at private expense.

(2) The clause at DFARS 252.227-7993, Rights in Other Than Commercial Technical Data and Computer Software--Small Business Innovation Research Program and Small Business Technology Transfer Program, governs technical data that are SBIR/STTR data.

(c) *Rights in technical data and computer software.* The Contractor grants or shall obtain for the Government the following royalty free, worldwide, nonexclusive, irrevocable license rights:

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data, computer software, or computer software documentation that are--

(i) Data related to an item, component, or process which has been or will be developed exclusively with Government funds;

(ii) Studies, analyses, test data, or similar data produced for this contract, when the study, analysis, test, or similar work was specified as an element of performance;

(iv) Form, fit, and function data;

(v) Technical data necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(vi) Government-furnished corrections or changes to--

(A) Technical data furnished to the Contractor by the Government; or

(B) Computer software or computer software documentation;

(vii) Data, computer software, or computer software documentation that is publicly available or previously released or disclosed by the Contractor or subcontractor without restrictions on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(viii) Data, computer software, or computer software documentation in which the Government has obtained unlimited rights under another Government contract or as a result of negotiations;

(ix) Data furnished to the Government, under this or any other Government contract or subcontract, with--

(A) Government purpose license rights or limited rights and the restrictive condition(s) has/have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such data for commercial purposes has expired; or

(x) Computer software developed exclusively with Government funds;

(xi) Computer software documentation the contractor must deliver under this contract; or

(xvii) Computer software or computer software documentation furnished to the Government, under this or any other Government contract or subcontract with--

(A) Restricted rights in computer software, limited rights in technical data, or government purpose license rights and the restrictive conditions have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such software or documentation for commercial purposes has expired.

(2) *Government purpose rights.* (i) The Government shall have government purpose rights for a 5-year period, or such other period as may be negotiated, in technical data or computer software--

(A) Related to items, components, or processes developed with mixed funding except when the Government is entitled to unlimited rights in such data or software as provided in paragraphs (c)(1)(ii), (c)(1)(iv) through (c)(1)(ix), and (c)(1)(xii) through (c)(1)(x)(v)(i) of this clause; or

(B) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The 5-year period, or such other period as may have been negotiated, shall begin upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the items, components, or processes, development of the computer software, or creation of the data described in paragraph (c)(2)(i)(B) of this clause. Upon expiration of the 5-year or other negotiated period, the Government shall have unlimited rights in the technical data or computer software.

(iii) The Government will not release or disclose technical data or computer software in which it has government purpose rights unless--

(A) Prior to release or disclosure, the intended recipient completes the nondisclosure agreement at DFARS 227.7103-7; or

(B) The recipient is a Government contractor receiving access to the data or software for performance of a Government contract that contains the clause at DFARS 252.227-7994, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data or computer software in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights legend prescribed in paragraph (g)(3) of this clause.

(3) *Limited rights.* (i) Except as provided in paragraphs (c)(1)(ii) and (c)(1)(iv) through (c)(1)(ix) of this clause, the Government shall have limited rights in technical data--

(A) Related to items, components, or processes developed exclusively at private expense and marked with the limited rights legend prescribed in paragraph (g) of this clause; or

(B) Created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The Government will require a recipient of limited rights data for emergency repair or overhaul to destroy the data and all copies in its possession promptly following completion of the emergency repair/overhaul and to notify the Contractor that the data have been destroyed.

(iii) The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data furnished to the Government with limited rights. However, if the Government desires to obtain additional rights in technical data in which it has limited rights, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. The Contractor shall ensure that any resulting license agreement, made part of the contract, lists or describes all technical data for which the Government has been granted additional rights and specifies those additional rights.

(iv) The Contractor acknowledges that--

(A) The Government is authorized to release or disclose limited rights data to covered Government support contractors;

(B) The Government will notify the contractor of such release or disclosure;

(C) The Contractor or the party asserting restrictions in the limited rights legend may--

(1) Require each covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor or the party asserting restrictions regarding use of the data; or

(2) Waive in writing the requirement for a nondisclosure agreement; and

(D) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the limited rights data as set forth in the clause at DFARS 252.227-7994, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(4) *Restricted rights.* (i) The Government shall have restricted rights in other than commercial computer software the contractor must deliver, or that is otherwise provided, to the Government under this contract that was developed exclusively at private expense.

(ii) The Contractor, its subcontractors, or suppliers are not required to provide the Government additional rights in other than commercial computer software delivered or otherwise provided to the Government with restricted rights. However, if the Government desires to obtain additional rights in such software, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. The Contractor shall ensure that any resulting license agreement, made part of the contract, lists or describes all other than commercial computer software for which the Government has been granted additional rights and specifies those additional rights.

(iii) The Contractor acknowledges that--

(A) The Government is authorized to release or disclose restricted rights computer software to covered Government support contractors;

(B) The Government will notify the Contractor of such release or disclosure;

(C) The Contractor or the party asserting restrictions in the restricted rights legend may--

(1) Require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor or the party asserting restrictions regarding the use of the software; or

(2) Waive in writing the requirement for a nondisclosure agreement; and

(D) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the restricted rights software as set forth in the clause at DFARS 252.227-7994, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(5) *Specifically negotiated license rights.* The standard license rights granted to the Government under paragraphs (c)(1) through (c)(4) of this clause, including the period during which the Government shall have government purpose rights in technical data or computer software, may be modified by mutual agreement but shall not provide the Government lesser rights than provided in the definition of "limited rights" or restricted rights" of this clause. Any negotiated rights shall be identified in a license agreement made part of this contract.

(6) *Prior government rights.* Technical data or computer software that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the preexisting rights, unless--

(i) The parties have agreed otherwise; or

(ii) The restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data or software have expired or no longer apply.

(7) *Release from liability.* The Contractor agrees to release the Government from liability for any authorized release or disclosure of technical data or computer software made in accordance with this clause or any negotiated license agreement. This release from liability for the Government also applies to releases or disclosures made by a third party who received the data or software from an authorized recipient. For any unauthorized use or disclosure by such third parties of technical data or computer software marked with restrictive legends, the Contractor agrees to seek relief solely from that party.

(d) *Contractor rights in technical data and computer software.* The Contractor retains all rights not granted to the Government.

(e) *Third party copyrighted data and software.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted data or software in the technical data or computer software the contractor must deliver under this contract unless the Contractor is the copyright owner or has obtained license rights for the Government of the appropriate scope set forth in paragraph (c) of this clause, and has affixed a statement of the license or licenses obtained on behalf of the Government and other persons to the data transmittal document.

(f) *Identification and delivery of data to be delivered with restrictions on use, release, or disclosure.* (1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (f)(3) of this clause, technical data or computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure are identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any data or software with restrictive markings unless the data are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, the Contractor may identify other assertions after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. The Contractor shall submit such identification and assertions to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the data or software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures in the DFARS 252.227-7997, Validation of Asserted Restrictions, clause of this contract.

(g) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software the Contractor must deliver under this contract by marking the deliverable data or software subject to restriction. Except as provided in paragraph (g)(7) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (g)(3) of this clause; the limited rights legend at paragraph (g)(4) of this clause; the restricted rights legend at paragraph (g)(5) of this clause; the special license rights legend at paragraph (g)(6) of this clause; and a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all technical data or computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data or computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. For software that will or might be used in combat or situations that simulate combat conditions, the contractor shall not insert instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data or computer software or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Omitted markings.* (i) Technical data or computer software delivered or otherwise provided under this contract without restrictive markings will be presumed to have been delivered with unlimited rights. To the extent practicable, if the Contractor has requested permission (see paragraph (g)(2)(ii) of this clause) to correct an inadvertent omission of markings, the Contracting Officer will not release or disclose the technical data or computer software pending evaluation of the request.

(ii) The Contractor may request permission to have conforming and justified restrictive markings placed on unmarked technical data or computer software at its expense. The request must be received by the Contracting Officer within 6 months following the furnishing or delivery of such technical data or computer software, or any extension of that time approved by the Contracting Officer. The Contractor shall--

(A) Identify the technical data or computer software that should have been marked;

(B) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of technical data or computer software contained in this clause; and

(C) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the technical data or computer software made prior to the addition of the marking or resulting from the omission of the marking.

(3) *Government purpose rights markings.* Technical data or computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

GOVERNMENT PURPOSE RIGHTS

Contract Number _____

Contractor Name _____

Contractor Address _____
Expiration Date _____

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data or computer software are restricted by the government purpose rights license in the DFARS 252.227-7989, Rights in Technical Data, Computer Software, and Computer Software Documentation--Other Than Commercial Products and Commercial Services, clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(4) *Limited rights markings.* Data delivered or otherwise furnished to the Government with limited rights shall be marked as follows:

LIMITED RIGHTS

Contract Number _____
Contractor Name _____
Contractor Address _____

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by the limited rights license in the DFARS 252.227-7989, Rights in Technical Data, Computer Software, and Computer Software Documentation--Other Than Commercial Products and Commercial Services, clause contained in the above identified contract. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor.

(End of legend)

(5) *Restricted rights markings.* Software delivered or otherwise furnished to the Government with restricted rights shall be marked as follows:

RESTRICTED RIGHTS

Contract Number _____
Contractor Name _____
Contractor Address _____

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by the restricted rights license in the DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such software must promptly notify the above named Contractor.

(End of legend)

(6) Special license rights markings. (i) Technical data or computer software in which the Government's rights stem from a specifically negotiated license shall be marked as follows:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data or software are restricted by Contract Number [Insert contract number] ____, License Number [Insert license identifier] _____. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (c)(5) of this clause).

(7) *Preexisting data or software markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software deliverable under this contract, and those restrictions are still applicable, the Contractor may mark such data or software with the appropriate restrictive legend for which the data or software qualified under the prior contract or license. The Contractor shall follow the marking procedures in paragraph (g)(1) of this clause.

(h) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver technical data or computer software with other than unlimited rights, shall--

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data or computer software delivered under this contract.

(i) *Removal of unjustified and nonconforming markings--*(1) *Unjustified technical data markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data or computer software delivered or to be delivered under this contract are contained in the DFARS 252.227-7997, Validation of Asserted Restrictions, clause of this contract. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures in the Validation of Asserted Restrictions clause of this contract, a restrictive marking is determined to be unjustified.

(2) *Nonconforming technical data or computer software markings.* A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the DFARS 252.227-7997, Validation of Asserted Restrictions, clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking and the Contractor fails to remove or correct such marking within 60 days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming marking.

(j) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(k) *Limitation on charges for rights in technical data, computer software, or computer software documentation.* (1) The Contractor shall not charge to this contract any cost, including, but not limited to, license fees, royalties, or similar charges, for rights in technical data, computer software, or computer software documentation the Contractor must deliver under this contract when--

(i) The Government has acquired, by any means, the same or greater rights in the data or software; or

(ii) The data or software are available to the public without restrictions.

(2) The limitation in paragraph (k)(1) of this clause--

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data, computer software, or computer software documentation, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data, computer software, or computer software documentation will be delivered.

(l) *Applicability to subcontractors or suppliers.* (1) The Contractor shall ensure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 3771-3775, 10 U.S.C. 3781-3786, and the identification, assertion, and delivery processes of paragraph (f) of this clause are recognized and protected.

(2)(i) Except as provided in paragraph (l)(2)(ii) of this clause, the Contractor shall include this clause in any subcontract or contractual instrument under which technical data or computer software will be obtained from a subcontractor or supplier for delivery to the Government. This requirement applies to technical data or software related to other than commercial products or commercial services, or related to commercial products or commercial services developed in any part with Government funds. The Contractor shall also require its subcontractors and suppliers to include this clause, without alteration except to identify the parties, in any contractual instrument under which technical data or computer software will be obtained from a subcontractor or supplier for delivery to the Government. This clause will govern the technical data related to an other than commercial product or service or to any portion of a commercial product or commercial service that was developed in any part at Government

expense, and the clause at 252.227-7990 will govern the technical data related to any portion of a commercial item that was developed exclusively at private expense. No other clause shall be used to expand or reduce the Government's, the Contractor's, or a higher-tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data, computer software, or computer software documentation.

(ii) The Contractor shall use the clause at DFARS 252.227-7993, Rights in Other Than Commercial Technical Data and Computer Software--Small Business Innovation Research Program and Small Business Technology Transfer Program, to govern technical data, computer software, or computer software documentation that is SBIR/STTR data.

(3) Technical data, computer software, or computer software documentation a subcontractor or supplier must deliver shall normally be delivered to the next higher-tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such data or software directly to the Government, rather than through a higher-tier contractor, subcontractor, or supplier.

(4) The Contractor and higher-tier subcontractors or suppliers shall not use the award of a contract as economic leverage to obtain rights in technical data, computer software, or computer software documentation from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data, computer software, or computer software documentation as an excuse for failing to satisfy its contractual obligations to the Government.

Information, including business sensitive/confidential or proprietary data, that the offeror provides to the Government or information already in the possession of the Government may be viewed and utilized by the AbilityOne Program support contractor personnel during the course of its contract performance. The information that may be made available to the support contractor may include, for example, pricing and technical proposals, historical contract, pricing and performance information, Commercial Asset Visibility (CAV) reporting information and similar data/information.

By submission of a proposal in response to this solicitation, the offeror and its subcontractors consent to a release of their business sensitive/confidential or proprietary data to the Government's AbilityOne Program support contractor personnel in order to perform close out services. Prior to the release of any such information to the support contractor, the support contractor will have in place with the Government a Non-Disclosure/Non-Use Agreement in accordance with the terms of the AbilityOne Program support contract.

Offerors may execute their own Non-Disclosure Agreement with the AbilityOne Program (AbilityOne contact information available from the contracting point of contact). The support contractor must provide copies of the executed agreements to the Contracting Officer and the Contracting Officer's Representative (COR) for the support contract; and the offeror/contractor for this acquisition must provide copies of the executed Agreement to the Contracting Officer for this acquisition. WSSTERMLZ17 EVALUATION AND REPAIR SERVICES (PURCHASE ORDERS)

(Feb 2006)

Evaluation to include inspection, disassembly and tests required to determine the extent of labor and material needed to restore the Government Furnished Property (GFP) described below to an operable condition. For the purposes of this acquisition, an operable condition is defined as capable of functioning and performing as a new unit without necessarily having the appearance of newness.

Repair Services to include labor and material required to repair and package the GFP cited herein. Property repaired hereunder shall be in accordance with drawing revision unless otherwise specified. If upon receipt of the order/ contract such specifications are considered inappropriate, the contractor shall immediately recommend to the cognizant Contracting Officer that the repair work to be done in accordance with specifically identified specifications (including drawings) to which such articles were manufactured, and shall not commence the particular work concerned pending directions to be incorporated by modification. Additionally, whenever any specification of the order provides for the use of a specific article or its equivalent, the contractor may use any equivalent. Also, in those instances where specifications permit and if it is economically feasible to do so, component parts of the item(s) being repaired shall also be authorized to be repaired.

In addition to NSN and P/N markings, repaired units shall be marked with the purchase order number and date of repair in such a manner as to conform with the requirements of Military Standard Identification Marking of U.S. Military Property, MIL-STD-130 current edition (to the maximum extent possible).

The contractor shall determine, in conjunction with the ACO, if the GFP cannot be repaired. Disposition instructions for such property shall be requested from the Post-Award PCO identified in Section G of this award.

NOTE TO CONTRACTOR: UNDER NO CIRCUMSTANCES SHALL THE CONTRACTOR PROCEED WITH THE PERFORMANCE UNDER THIS ORDER/CONTRACT IF THE GOVERNMENT FURNISHED PROPERTY (GFP) RECEIVED (NSN & P/N) DOES NOT EXACTLY MATCH THAT CITED IN THIS ORDER. ALSO, IF THE GFP HAS NOT BEEN RECEIVED WITHIN FORTY-FIVE (45) DAYS FROM THE EFFECTIVE DATE OF THIS ORDER/CONTRACT, CONTACT THE POST-AWARD PCO IDENTIFIED IN SECTION G OF THIS AWARD.

Repair Price Available:

If Block 21 on the DD1155 does not indicate "Ceiling Price" and the Unit Price(s) in Section B of the award (see continuation sheet) does not indicate (EST), the REPAIR PRICE(s) was AVAILABLE to the Government and the funds obligated by this order are the result of negotiation conducted by the PCO and contractor. The amount shown represents the FIRM PRICE to complete repair of the GFP listed in the order.

Repair Price Not Available:

If Block 21 on the DD1155 indicates "Ceiling Price" and the Unit Price(s) in Section B of the award (on the continuation sheet) indicates (EST), the REPAIR PRICE was NOT AVAILABLE to the Government and the funds obligated by this order are provided to initiate evaluation and/or repair work which must be finalized and modification issued to the contractor before payment can be made. The contractor shall submit to the PCO a detailed pricing proposal, to include delivery (turn-around time) for repair of the unit(s) cited in the order. The repair proposal is due no later than 60 days from date of order or when costs incurred against the order are 50% of the contract price, whichever occurs first.
