

**REQUEST FOR INFORMATION (RFI) WORKSHEET
FOR
UNITED STATES TRANSPORTATION COMMAND (USTRANSCOM)
SCHEDULED FUEL BARGE TRANSPORTATION IN GULF REGION
TRANSCOM26W001**

1. Company Information:

Company Name:

Unique Entity ID:

CAGE Code:

POCs, to include name, title, phone number, and email address:

2. The anticipated North American Industry Classification System (NAICS) for this effort is 483211, Inland Water Freight Transportation. The Small Business Administration's small business size standard for this NAICS is 1,050.

- a. Based on NAICS 483211, Inland Water Freight Transportation, identify your business size as a LARGE or SMALL business:

- i. If a small business, identify any of the following socio-economic categories that apply to your business under this NAICS: Historically Under-utilized Business Zones (known as "HUBZone"), Service-Disabled Veteran-Owned, Veteran-Owned, Small Disadvantaged Business, 8(a), Women-Owned, or Economically Disadvantaged Women-Owned.

Contractor Response:

3. Interested Parties are invited to provide information on the following subjects of interest, specifically describing your capabilities in successfully executing the following:

- a. Furnishing all supplies, materials, equipment, and personnel necessary to perform the tug/barge transportation services incidental to the operation of the following equipment, to include maintaining, cleaning, repairing, and positioning:
 - i. Three (3) tank barges with the following capacities in accordance with (IAW) Performance Work Statement (PWS) Para 2.2.2.1
 - Two (2) tank barge tows navigated by one (1) tug, each having a total calibrated capacity of not less than 25,000 barrels (and not more than 30,000 barrels). The total calibrated capacity of the two (2) tank barges should be 50,000 barrels with inland water way capability, and
 - One (1) on-call tow must meet the same capacity as those listed in paragraph 2.2.2 and 2.2.2.1.

Contractor Response:

- b. Barge transportation to the locations specified in Appendix A of the PWS.

Contractor Response:

- c. Loading and/or discharging any quantity of cargo, entire or partial, in the designated locations IAW PWS Para 3.1.1.

Contractor Response:

- d. Are you currently operating in the area? If not, would you be willing to reposition the required barges to the area?

Contractor Response:

- e. Providing a USCG Endorsed Tankerman at all loading and discharging points IAW PWS Para 2.6.

Contractor Response:

- f. Providing 24-hour, seven-days a week availability of equipment and crew IAW PWS Para 1.1.3.

Contractor Response:

- g. Providing a cargo pumping system IAW PWS Para 2.2.3.1.

Contractor Response:

- h. Providing a cargo tank stripping system IAW PWS Para 2.2.3.2.

Contractor Response:

- i. Providing a water stripping system IAW PWS Para 2.2.3.3.

Contractor Response:

- j. Establishing and maintaining a Quality Control Plan IAW PWS Para 3.6.1.1.

Contractor Response:

- k. If your company is a large business, specify whether you partnered or subcontracted with small business concerns to provide the same or similar services at this requirement.

Contractor Response:

- l. If your company has no direct performance or experience with the above, explain how you will perform tasks utilizing experienced subcontractors through a proposed teaming arrangement or the hiring of qualified personnel.

Contractor Response:

--

4. Similar Experience:
Project/Contract #1:

Contract Number:

--

Period of Performance

--

Was your company a prime or subcontractor

--

Dollar Value of the project

--

Brief Description:

--

Scope of the portion of the effort your company supported:

--

Project/Contract #2:

Contract Number:

--

Period of Performance

--

Was your company a prime or subcontractor

--

Dollar Value of the project

--

Brief Description:

Scope of the portion of the effort your company supported:

5. Commercial Availability:

- a. Is this service available commercially as defined in Federal Acquisition Regulation (FAR) 2.101? If so, what commercial solutions can address the requirement?

Contractor Response:

- b. What types of contracts are normally used in the commercial marketplace for this type of service (e.g., single-award, multiple-award, firm-fixed price, cost reimbursement, labor hours, time-and-materials)?

Contractor Response:

- d. How are your commercial contracts for these services normally priced (i.e. monthly service fee, per hour, per unit, firm fixed price, reimbursable, etc.)? Please be specific.

Contractor Response:

- e. What is the recommended pricing structure, and what are the largest cost-drivers for this type of service (e.g., labor, equipment, leases, depreciation, fuel)?

Contractor Response:

- f. What typical performance measures are included in your commercial contracts for liner service? Please identify.

Contractor Response:

- g. What evaluation criteria are typical for use in selecting a contractor to provide this type of service?

Contractor Response:

--

6. Commercial Industry Standards: What applicable industry standards, terms and conditions, or regulations are germane to the services to be acquired, such as the following?

- a. Making the tugs and barges available for inspection and acceptance at the loading points prior to the initiation of transportation services. How many days are required?

Contractor Response:

--

- b. Contractor's responsibility to verify port restrictions.

Contractor Response:

d. Contractor's liability for loss of and/or damage to the freight being transported.

Contractor Response:

--

e. Insurance requirements to include types and amounts.

Contractor Response:

--

f. Contractor's liability for injury to persons or damage to property other than the freight being transported.

Contractor Response:

--

g. Re-procurement costs due to a Contractor's failure to perform.

Contractor Response:

7. Other Important Information:

- a. Explain your understanding of the transportation of DoW-owned bulk Jet A Fuel (JAA), Jet Propellant 5 (JP5), and Marine Diesel (F76).

Contractor Response:

- b. What is your experience in providing vessels that (1) meet the requirements of the U.S. Coast Guard and (2) are suitable to load and deliver the intended cargo?

Contractor Response:

- c. Provide a summary of your tug and barge capabilities.

Contractor Response:

- d. Are there any organizational conflict of interest concerns?

Contractor Response:

e. Are there challenges posed to non-incumbent interested parties that should be addressed?

Contractor Response:

--

f. Are you a current Voluntary Intermodal Sealift Agreement (VISA) participant?

Contractor Response:

--

g. Are you a current Voluntary Tanker Agreement (VTA) participant?

Contractor Response:

--

h. Please discuss an instance where you have taken over providing a service previously provided by another contractor.

Contractor Response:

--

i. What is your preferred lead time between contract award and performance start?

Contractor Response:

--

- j. What contract transition activities do you anticipate?

Contractor Response:

- k. Please list existing contract vehicles available for use in procuring this effort to include Federal Supply Schedules, GSA Governmentwide Acquisition Contracts, Do W Indefinite Delivery Indefinite Quantity contracts (known as “IDIQs”), or any other Government Agency contract vehicles. (This information on available contract vehicles is for market research only and does not preclude your company from responding to this notice.) Please list any existing contracts you have which could be used to procure this effort.

Contractor Response:

- l. Provide any other suggestions or considerations to improve this procurement. Are there software advancements, industry developments, or innovative solutions to be considered?

Contractor Response:

- m. Suggestions on what may improve or innovate this requirement.

Contractor Response:

- n. This block is provided for the Contractor to expand on their responses to any of the above items. For each response, please identify the item number from above associated with the response.

Contractor Response:
