
Department of the Air Force: Justification for Other Than Full and Open Competition

Dollar Value of this Acquisition: [REDACTED]

CERTIFICATIONS: CO certification serves as J&A approval $\leq$ \$10M, *See [J&A Template Guidance](https://usaf.dps.mil/sites/AFCC/AQCP/KnowledgeCenter/SitePages/DAF-Contracting-Compass/Part-6---Competition-Requirements.aspx#exceptions-to-full-and-open-competition-mandatory) at <https://usaf.dps.mil/sites/AFCC/AQCP/KnowledgeCenter/SitePages/DAF-Contracting-Compass/Part-6---Competition-Requirements.aspx#exceptions-to-full-and-open-competition-mandatory>* J&A Template Guidance tab

Date 07 April 2026	Contracting Officer (RFO 6.104-1(12)) Kalyn N. Becker 772 ESS/PKD, NCOIC, Readiness I certify that this justification is accurate and complete to the best of my knowledge and belief.	Signature BECKER.KALYN.NICOLE.1525276291 Digitally signed by BECKER.KALYN.NICOLE.1525276291 Date: 2026.04.07 09:30:24 -05'00'
Date 01 April 2026	[REDACTED] I certify that the supporting data herein, which is my responsibility, is accurate and complete.	Signature [REDACTED]

COORDINATION

APPROVALS (RFO 6.104-2(a) Table 6-1 & R-DFARS 206.104-72 Table 206.1)

Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

Agency: Air Force Installation and Mission Support Center (AFIMSC)

Contracting Activity: 772d Enterprise Sourcing Squadron (ESS), Air Force Installation Contracting Center (AFICC)

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

This document approves the award of a Firm-Fixed Price (FFP) purchase order on a sole source basis to the National Registry of Emergency Medical Technicians, Inc. (NREMT) (Cage Code: 1AZ62) for Emergency Medical Response (EMR), Emergency Medical Technician (EMT), Advanced Emergency Medical Technician (AEMT), and Nationally Registered Paramedic (NRP) for cognitive exam testing vouchers, in support of the Department of the Air Force Fire & Emergency Services (DAF F&ES) Emergency Medical Services (EMS) program. This justification is made on an Individual basis.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

Department of the Air Force Instruction (DAFI) 32-2001, *Fire and Emergency Services Program*, Para 3.5.6.1, states that The Air Force Surgeon General directs medical services on the installation. The Fire & Emergency Services Program responsibilities and oversight are outlined in AFI 44-102, *Medical Care Management*. Department of the Air Force Instruction (DAFI) 32-2001, *Fire and Emergency Services Program*, Para 3.5.6.1.1 states National Registry Emergency Medical Responder (NREMR) is required for all civilian F&ES personnel below Assistant Chief, and all Military personnel holding AFSC 3E771, 3E751 and, 3E731. In addition, Strategic Message dated 20 March 2026 states National Registry of Emergency Medical Technicians is the sole provider for National EMS Certification for the First Responder, Emergency Medical Technician, Advanced Emergency Medical Technician, and Paramedic levels.

To obtain a recertification, an application process must be accomplished that includes completing annual continuing education courses, psycho-motor skills evaluations, and a fee associated with recertification; a fee for which this contract is being requested to pay for vouchers to accomplish recertification.

Recertification vouchers will be purchased from the National Registry of Emergency Medical Technicians, the national certification program that provides these vouchers. The Air Force Civil Engineer Center will then manage and issue these vouchers to fire fighter personnel who have completed the required continuing education courses and psycho-motor skills evaluations. Upon successful completion, the fire fighter personnel will have the required certification for their duty position.

These certifications are available in the commercial marketplace and meet the definition of commercial items as defined by RFO 2.101: Commercial Product, (1) A product, other than real property, that is of a type customarily used by the general public or by nongovernmental entities for purposes other than governmental purposes (i.e., purposes that are not unique to a government), and

(i) Has been sold, leased, or licensed to the general public; or

(ii) Has been offered for sale, lease, or license to the general public.

ITEM NAME	QUANTITY
Emergency Medical Response (EMR) Recertification Voucher	2500 each
Emergency Medical Technician (EMT) Recertification Voucher	3500 each
Advanced Emergency Medical Technician (AEMT) Recertification Voucher	200 each
Nationally Registered Paramedic Recertification Voucher (NRP)	200 each

The value of each re-certification voucher is [REDACTED] The total quantity of vouchers to be purchased under this purchase order is 6,400. The total value of this acquisition is [REDACTED] Expected appropriation to be used for the purchase of the vouchers will be Air Force Operations and Maintenance (O&M) funds (3400).

Department of the Air Force: Justification for Other Than Full and Open Competition

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

The National Registry of Emergency Medical Technicians (NREMT) is the sole national certifying credential for Nationally Registered Emergency Medical Responders (EMR), Emergency Medical Technicians (EMT), Advanced Emergency Medical Technicians (AEMT), and Paramedics in the United States. This certification is a mandatory prerequisite for state licensure in all 50 states, making it an essential requirement for our personnel to legally perform their duties. NREMT is the designated national database for EMS personnel, tracking licensure and disciplinary actions across member states, reinforcing its central and exclusive role in the nation's emergency medical services infrastructure. Therefore, procuring certification vouchers from any other source is not possible.

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

A Market Analysis included a search of all mandatory sources, inventories of the agency, excess from other agencies, Federal Prison Industries (FPI), Inc. and Procurement Lists in accordance with RFO 8.103. These searches yielded no matching results. In an effort to solicit competition, a sources sought notice was posted on Sam.gov on March 11, 2026, for a period of seven days. This notice generated interest from two vendors. However March 20, 2026 NREMT provided a definitive statement to the Government, clarifying that they do not authorize any third-party vendors to resell their products. Based on the market research efforts, the Contracting Officer has determined that no other sources are capable and/or authorized to provide NREMT products.

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

NREMT has been the sole provider of these vouchers for the following previous contracts;
FA805124P0025, FA805123P0019, FA805122P0012, FA805121P0009, FA301620D0001

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

The NREMT Inc. is the only known source that can provide this supply required. The Air Force Medical Readiness Agency and Air Force Headquarters A4/CX mandates that all EMT testing certification requirements come from the National Registry of Emergency Medical Technicians (NREMT) Inc. When other official military EMT testing and processing sources are later authorized and approved to provide for national registry certifications indicated by military regulations, future requirements will then be competed against those approved sources. In addition, the Air Force will continue to conduct market research to determine if other vendors have the certification capability when it is time to procure this effort again.
