DESCRIPTION

1. This sources sought is being conducted by Network Contracting Office (NCO) 17 VHA Regional Procurement Office-West (RPO-W), 1901 Veterans Memorial Dr. Building #171, Temple, TX 76504 on behalf of the South Texas VA located in San Antonio, Texas.

2. The requirement is for Sterile Processing Systems requirement for testing, maintenance, and repair of sterile processing water systems. SPS is a critical part of any Hospital as it ensures all clinical departments have a readily available supply of sterile equipment. One of the key pieces of equipment supporting any SPS is the direct critical water supply to SPS personnel and equipment. **The updated AASI/AAMI ST108:2023 Standard**, which governs the processes and requirements for Sterile Processing, added requirements to the roster of locations needing monthly critical water sampling. Per the standard, the requirement to test critical water at “every point of use” has significantly raised the quantity of water samples needed each month. Current water sampling contracts only cover the bare minimum of testing locations at the source of Critical Water systems.

3. If this is an item/service your business can provide, **please respond to this Sources Sought Notice by 10:00 AM Central Time on Tuesday, April 27, 2026.**
