SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification):

The purpose of this amendment is to provide the Government's response to respond to contractor questions received.

Question 1: "It is not possible to apply paint the area where the dock block located in one docking operation. Is it necessary to shift the dock block and do docking operation again and apply paint?"

Answer 1: "Yes, it is necessary to shift the dock block to apply paint to area dock block is located."

Question 2: "Regarding Gas Free Operation, we would like to conduct gas free inspection IAW local OSHA Regulation by KTR Industrial Hygienist instead of Marine Chemist. Is it acceptable?"

Answer 2: "Yes, if the gas free inspection meets local regulations, it is acceptable."

Question 3: "YCV-19 will be towed into our facility in accordance with the requirement of SOW. Could you please confirm the requirement of the level of security or waterborne patrol?"

Answer 3: "No security or patrol required."

Question 4: "Is there any possibility that the coating currently being painted on the hull contains lead, etc.? And if so, should the cost of inspection of them be included in the proposal price?"

Answer 4: "The U.S. Navy prohibits the use of lead paint in accordance with federal law."

Question 5: "Is there any possibility that the gasket of the hatches and other items to be replaced in this maintenance package contain Asbestos?"

Answer 5: "We cannot guarantee gaskets are asbestos free. Therefore removal and handling procedures shall be treated as material containing asbestos."

Question 6: "With respect to the "marine chemist" certification for "hot work", "Safe for men" etc... required in various work item in addition to requirement of any WI, we intend to conduct them too in accordance with local safety regulation and with locally trained/certified personnel along the requirement. Is it acceptable?"

Answer 6: "Yes, any certification or testing conducted by qualified personnel in accordance with local instructions is acceptable."

Question 7: "For bidding purposes, is it possible to show us the total preservation area(SF) of Power tool cleaning (SSPC-SP3) as required in paragraph 4.2.3 of SOW?"

Answer 7: "Further testing and inspection is required to determine."

Question 8: "We would like to propose using dry abrasive blast (SSPC-SP10), the same method as in Paragraph 4.2.4, instead of power tool smooth (SSPC-SP3) as required in Paragraph 4.2.3. Is this acceptable?"

Answer 8: "Yes, SSPC-SP-10 would be an upgrade in surface preparation."

Question 9: "Paragraph 4.2.6 mentions the replacement of zinc anodes. Could you please provide detailed documentation showing the previously installed materials? Also, would it be acceptable to use Japanese-made materials?"

Answer 9: "Drawing YCV19 Zinc_6619378_7X312_-_0001_ A_-_0001 shows zinc locations and description. Japan made materials is acceptable."

Question 10: "Could you please provide the quantities and specifications of all hatches, associated parts including the coaming system, and gaskets that need to be replaced, as described in Paragraph 4.2.6.13?"

Answer 10: "see attachment: YCV-19 CROSSBAR."

Question 11: "Could you please provide the quantities and specifications of all lifering stanchions, lifeline stanchions including base connectors, connector tabs, support poles, Kevlar lifelines, chains, and shackles that need to be replaced, as described in Paragraph 4.2.6.14?"

Answer 11: "see attachment: YCV-19 CROSSBAR."

Question 12: "For the replacement of a deteriorated pad eye or cleat as described in 4.2.6.4 of the SOW, we decide that the scope will be determined after the NDT Inspection, and therefore we propose a unit price cost for the replacement of one pad eye or cleat (excluding interference work such as scaffolding) in this estimate. Is it estimate acceptable? Or if you have any estimate quantity, please let us know."

Answer 12: "Yes. This is acceptable"
