Note: This Performance Work Statement (PWS) was derived from a template and is tailored for the specific requirement detailed herein. Topical sections/items from the originating template that were determined to not apply to this acquisition have been marked “reserved” in lieu of deletion to ensure numbering consistency with the originating template. See the PWS parts and sections which follow for details on these specific requirements.

Part 1

General Information

1.0 General: This is a hybrid contract consisting of firm fixed price Contract Line-Item Numbers (CLINs) for services and Cost-reimbursement CLINs for the reimbursement of required other direct costs (ODCs) in support of the Performance Work Statement (PWS) requirements. This contract is for non-personal services contract / task order as defined in FAR 37.101 and in accordance with (IAW) FAR 37.104 Guidance to provide Tenant Satisfaction Survey (TSS) Support Services as detailed herein. The Government shall not exercise any supervision or control over the contract / task order service providers performing the services herein. Such contract / task order service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government.

Under this contract / task order, Contractor personnel:

- (1) Shall perform the services described herein as Contractors, not as employees of the Government;
- (2) Shall NOT be placed in a position where they are under the supervision, direction or evaluation of a federal employee, military or civilian, but shall, pursuant to the Government's right to inspect, accept or reject work, comply with such general direction of the Contracting Officer or the duly appointed representative of the Contracting Officer as is necessary to ensure completion of the contract / task order objectives;
- (3) Shall NOT be placed in a position of command, supervision administration or control over military or civilian personnel or personnel of other Contractors or become part of the Government organization; and
- (4) As this contract / task order does not create any employer-employee relationships, entitlements and benefits applicable to such relationships do NOT accrue by virtue of this contract / task order.

1.1 Background: Commanding General, Marine Corps Installations Command (MCICOM) has the core responsibility to provide oversight of facility conditions, housing services, and customer service provided to Marines and their families. The Marine Corps Housing Program (GF3) within MCICOM provides life cycle program management support for all family, unaccompanied, and privatized housing requirements worldwide. Continuing efforts are required to support the necessary planning and decision processes to make the best possible use of scarce resources and provide the best possible service to military members and their families. These support services are provided by the Housing Program (MCICOM GF3), Installation Housing Offices, Base Commanding Generals, Regional Commanding Generals, other MCICOM functional representatives, and public private sector service providers engaged to support the Housing Mission. The primary tools used to evaluate and measure progress of these services are Tenant Satisfaction Surveys (TSSs), for which authorization originates in the 2020 National Defense Authorization Act, Subtitle D "Development of Housing Reform Standards and Processes", Section 3058 (Public Law 116-92). Further, the Assistant Secretary of Defense

(ASD)'s Policy Update Memorandum dated 05 February 2025 directs all Military Departments to annually conduct a tenant satisfaction survey for all privatized and all government owned/controlled family and unaccompanied housing in the second quarter of each fiscal year, making every effort to distribute the annual tenant satisfaction survey in March of each year. The data generated and the resulting analysis from conducting these surveys is integral to the continuing evaluation of MCICOM processes and provides performance improvement actions by transforming customer feedback into business process changes and improvements. In support of this responsibility, MCICOM GF3 has a requirement for non-personal support services for tenant satisfaction survey support services as set forth within this PWS.

The USMC Tenant Satisfaction Survey universe consists of all USMC uniformed personnel and their accompanying family members, as applicable, residing in Government Owned Family Housing, Government Owned Unaccompanied Housing, and Public Private Venture Housing. For the purposes of this contract, the uniformed service member and their family are counted as one (1) tenant/resident. The current annual estimated number of tenants/residents in the survey universe are as follows:

Population Type	CONUS*	OCONUS**	Total	Regions+	Installations++	Neighborhoods/Areas+++
Family Housing (FH) Government Owned (units)	76	1,788	1,864	3	3	18
Unaccompanied Housing (UH) (beds)	123,144	29,708	152,852	5	21	44
Public Private Venture (PPV) Housing	23,303	0	23,303	4	14	113

* Contiguous United States (CONUS)

** Outside [the] Contiguous United States (OCONUS)

+ Regions: Marine Corps Installations East (MCIEAST), Marine Corps Installations West (MCIWEST), Marine Corps Installations Pacific (MCIPAC), Marine Corps Installations National Capital Region (MCINCR), and Marine Corps Forces Command (MARFORCOM)

++ Installations: MCIEAST (6), MCIWEST (7), MCIPAC (5), MCINCR (2), and MARFORCOM (2)

+++ Neighborhoods/Areas: MCIEAST (11), MCIWEST (17), MCIPAC (12), MCINCR (2), MARFORCOM (2)

Note: Any or all of these groups may be divided into smaller populations based on housing type (FH, UH, or PPV), management, or any other criteria the Marine Corps specifies at the start of the survey project.

1.2 Objective: The objective of this contract / task order is to obtain the necessary support services to assist the Marine Corps Housing Program to assess and improve its business processes through tenant satisfaction surveys and related analysis while ensuring compliance with applicable directives/Orders/Policies.

The following goals are identified for this contract / task order:

- (1) Identify best practices as well as deficiencies of Marine Corps housing management and the suitability of Marine Corps housing facilities to improve effectiveness;
- (2) Inform the Marine Corps Housing Program on common trends identified by tenants: and
- (3) Provide data analysis on Government housing trends.

1.3 Scope: The scope of work under this contract involves technical and project management support services including data collection, analyses, and reporting, particularly in terms of housing satisfaction in support of the Marine Corps Housing Program. The data analysis will provide common trends and best practices, as well as suitability of Marine Corps housing facilities to improve effectiveness. In the course of the execution of tasks, the Contractor may need to coordinate with other Government Contractor personnel, as needed, to verify occupancy of specific neighborhoods or gain clarification of current management practices when developing improvement plans and recommendations for the Marine Corps. Except as provided in PWS Part 3 “Government Furnished Items”, the Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, other items, and non-personal services necessary to perform the support services defined in this PWS to the acceptable quality levels and time frames specified in this contract.

1.3.1 Higher Level Task Areas: The scope of work under this contract / task order includes effort aligned with the following Higher Level Task Areas

- (1) Task Area 1: Inventory Data and Population Data Reconciliation Support
- (2) Task Area 2: Survey Methodology Support
- (3) Task Area 3: Survey Related Materials/Media Support
- (4) Task Area 4: Survey Data Reporting Website Support
- (5) Task Area 5: Survey Distribution and Survey Period Support
- (6) Task Area 6: Post-Survey Reporting and Other Outside Survey Period Support

See PWS [Part 5 Specific Requirements and Tasks](#) for additional details on these task areas.

1.3.2 Applicable Directives/Orders/Policies: The following directives are applicable to this contract / task order:

- (1) ASD policy memorandum entitled “Policy Update for Tenant Satisfaction Survey for DoD Housing” dated 05 February 2025

1.4 Reserved

1.5 Reserved

1.6 Period of Performance

The period of performance of this contract / task order shall be in accordance with the Contract Line-Item Numbers (CLINs) included in the solicitation / contract / task order.

1.6.1 Transition Periods

1.6.1.1 Transition-In (Phase-In)

Unless the Contractor is currently providing support under a contract / task order to which this is the successor, the first sixty (60) days of the base period of performance shall be a transition period. During this period the Contractor shall cooperate with the existing Contractor (if any) to ensure a smooth and seamless assumption of all required support. The Contractor shall execute its Phase-In Plan to ensure minimum disruption to vital Government business. The Contractor shall ensure that there will be no service degradation during and after transition. At the end of the transition period the Contractor shall be fully and solely responsible for all required support.

The Contractor's Phase-In Plan shall detail how it will conduct operations during the transition from the period of performance (PoP) start date to full operational capability at PoP start plus 60 days. The Contractor shall achieve the following service milestones:

- (a) PoP Start Date: The Contractor shall be staffed and capable of starting all required pre-survey period tasks to ensure timely submission of all required post-award and pre-survey period deliverables to enable the initiation of a calendar year 2026 online tenant satisfaction survey period required to begin 60 days after the PoP start date and close 90 days after the PoP start date. The required pre-survey period deliverables include:
- A001 Inventory and Data Reconciliation Report
 - A002 Web-based Survey Functionality Demo
 - A003 Risk Management Plan
 - A005 FH/PPV Annual TSS Information Letter
 - A006 UH Annual TSS Information Letter
 - A007 TSS Promotional Posterboard
 - A008 TSS Promotional Fliers
 - A009 TSS Survey Door Hangers
 - A010 TSS Promotional Video Clip
 - A011 TSS Promotional Newspaper Article
 - A012 TSS Scripted Sentence
 - A013 TSS Survey Data Reporting Website Demo

See deliverables schedule for submission due dates.

- (b) PoP Start Date plus 60 days: The Contractor shall be capable of initiating the Calendar Year 2026 online tenant satisfaction survey.

1.6.1.2 Transition-Out (Phase-Out)

The phase-out period shall apply to any contract / task order follow-on requirements. Prior to the completion of this contract / task order, an observation period shall occur, at which time key personnel of the incoming Contractor may observe operations and will correspond to the final 30 days of performance of this contract / task order, whichever performance period that may be. This will allow for orderly turnover of facilities, equipment, and records and will ensure

continuity of services. The outgoing Contractor is ultimately responsible for performing full services IAW the contract / task order during the phase-out period and shall not defer any requirements for the purpose of avoiding responsibility or of transferring, such responsibility to the succeeding Contractor. The outgoing Contractor shall fully cooperate with the succeeding Contractor and the Government, so as not to interfere with their work or duties. All outgoing Contractor personnel shall out-process through the designated Government personnel to ensure compliance with the Government's requirements for closing email accounts, terminating access, turning in CACs, computers, radios, etc.

1.6.2 Close Out

Upon completion of the contract / task order, the Contractor shall ensure sufficient staffing to complete orderly close out.

1.7 Place of Performance

The work to be performed under this contract / task order will be performed 100 percent in Contractor's facilities.

1.8 Business Relations, Contract/Task Order Management, and Administration

The Contractor shall provide a Program and Contract Management / Administration Office structure and organization to manage the requirement of this contract / Task Order. The Contractor shall manage, organize, coordinate, and control all program activities to meet performance factors and requirements of the contract / task order. The Contractor shall participate in such activities as analysis, meetings, partnering, and transition meetings. The Contractor shall seek to ensure customer satisfaction and professional and ethical behavior of all Contractor personnel. The Contractor shall respond to Government business relations requests (changes in technical and contractual needs and data calls) as required.

1.8.1 Contract / Task Order Administration

The Contractor shall establish processes and assign appropriate resources to effectively administer the requirement. The Contractor shall have a single primary POC between the Government and Contractor personnel assigned to support task orders, and a single point of contact between the Government and Contractor personnel at each manned location (determined by the Contractor's analysis of manpower requirements) to support the contract / task order. The Contractor shall assign work effort and maintain proper and accurate time keeping records of personnel assigned to work on the requirements of this contract / task order.

1.8.2 Program Management

The Contractor shall provide management support as required. The Contractor shall maintain the currency of Contractor personnel qualifications by providing initial and refresher training as required to meet the contract / task order requirements. The Contractor shall provide necessary infrastructure to support contract / task order tasks.

1.8.3 Post Award conference.

Within 5 working days of the contract award, the Contractor shall participate in the post-award conference.

1.8.10 Service Contract Reporting (formerly called Contractor Manpower Reporting)

The Contractor shall report ALL Contractor labor hours (including subContractor labor hours) required for performance of services provided under this contract / Task Order for the DC P&R (and any other stakeholder) via a secure data collection site. The Contractor is required to completely fill in all required data fields through the following web address: www.sam.gov. Reporting inputs will be for the labor executed during the period of performance during each Government FY, which runs from October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk by clicking “View Assistance for SAM.gov” which is located at the top of the SAM.gov website. From there, you can the select “Contact Our Service Desk” which will allow you to contact SAM.gov directly. If contract / task order period of performance ends prior to September 30, the Contractor has 30 calendar days from end date of the contract / task order to complete the SAM SCR requirement.

Steps for Submitting a Service Contract Report (SCR)

- (1) Go to www.sam.gov and log in.
- (2) Select Entity Registrations and then select Service Contract Reporting.
- (3) SAM displays your entities which have service contracts and meet the reporting criteria. Select View by entity to see the service contracts for each entity.
- (4) Next, select Add for the service contract against which you want to create a Service Contract Report. Each service contract which meets the FAR Subpart 4.1703 reporting thresholds is displayed.
- (5) You will be taken to the Complete Service Contract Report page. SAM displays the contract details and allows you to report. You are required to enter the following information:
 - **Total Amount Invoiced:** Total dollar amount invoiced for services performed during the previous Government fiscal year under the contract (this amount should include the prime and any subcontract amount).

- **Prime Contractor Hours Expended:** Prime Contractor direct labor hours expended on the services performed during the previous Government fiscal year. The amount you enter is automatically divided by 2,080 hours to calculate a Full Time Equivalent (FTE) Employee, displayed under the Prime Contractor Hours Expended as Prime Contractor FTEs.
- (6) Report any required Tier 1 subContractor information by selecting the Add Tier 1 Subcontract Information button.
- (7) When you are ready to submit the report, select Submit. This saves your report and returns you to the Select Service Contract page where you can create other SCR's or edit an existing SCR.

Steps for Editing a Submitted Report

- (1) Follow steps 1-4 above. Any previously submitted SCR will have a View/Edit button instead of an Add button.
- (2) Select View/Edit. You will be able to view the current SCR, edit available fields, and resubmit the record. You can also delete previously entered information altogether.

1.9 Quality Control

Quality Control is the responsibility of the Contractor. The Contractor is responsible for the delivery of quality services/supplies to the Government.

1.9.1 Quality Control Plan (QCP): The Contractor shall develop and maintain a QCP to ensure services are performed in accordance with (IAW) this PWS including Technical Exhibit B Performance Requirements Summary (PRS). The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor's QCP is the means by which it assures that the work provided complies with the requirements of the contract / Task Order.

The Contractor's Proposed QCP shall be submitted to the Contracting Officer (KO) through the Contracting Officer's Representative (COR) for review within 30 days after date of contract / task order award (Deliverable A007).

The Government will review and either notify the Contractor in writing of acceptance of the plan or return their comments to the Contractor within 15 days. If the Government has provided comments, the Contractor shall then have 15 days to submit a Final QCP. After receipt of the Final QCP, the Contractor may receive the Contracting Officer's acceptance in writing. Any proposed changes to the accepted QCP are required to be resubmitted for acceptance by the Contracting Officer no later than 5 days prior to the anticipated change and before implementation by the Contractor. After acceptance of the QCP, the Contractor shall consider any proposed changes to their QCP from the Contracting Officer (KO). The timeline noted above will apply for review and acceptance of proposed changes. At a minimum, the QCP must include and answer the following to be acceptable:

- (a) A chart showing the organizational structure and lines of authority, the names, qualifications, duties, responsibilities, and classification of each member of the Contractor's Quality Control Team;

(b) How the Contractor will monitor work to ensure performance complies with all deliverables (etc. timelines, deadlines, and goals);

(c) How the Contractor will monitor work to ensure performance complies with all specifications and requirements of the contract / task order, including the contract / task order's clauses;

(d) How the Contractor will monitor and ensure staff qualifications remain current and valid including Department of Defense (DoD) Contractor Personnel Office (DOCPER) processes/approvals throughout contract performance;

(e) How the Contractor will ensure all keys issued will remain controlled items (If applicable);

(f) How the Contractor will inventory, and track maintenance of all Government Provided Equipment / Materials;

(g) How the Contractor will identify, investigate, and correct any non-conforming performance and prevent similar deficiencies in the future; and

(h) How the Contractor will file and save all Quality Control related documents for the life of the contract / task order plus 5 years.

1.9.1.1 An Analysis of Quality Control and Timeliness of Submittals (i.e., deliverables) shall be provided electronically via email to the COR within 30 days upon completion of each task order performance period (Deliverable A008).

1.9.1.2 The Contractor shall inform the COR of issues or potential issues that might affect contract / task order performance within 24 clock hours of identifying those issues. Verbal reports shall be followed up by written reports within 5 business days (Deliverable A009).

1.9.2 Quality Assurance: The Government will evaluate the Contractor's performance under this contract / task order in accordance with the Contractor's QCP and the Government's Quality Assurance Surveillance Plan (QASP). The QASP is a Government developed and applied document used to make sure systematic quality assurance methods are used in the administration of the Performance Based Service Award (PBSA) standards included in this PWS. The intent is to ensure that the Contractor performs in accordance with the performance metrics and the Government receives the quality of services required under the award. The QASP details how the performance standards identified in the PWS are measured, who will perform the measurement, the frequency of surveillance, and the acceptable defect rate(s).

1.9.3 Contracting Officer's Representative: COR will monitor all technical aspects of the contract / task order and assists in contract administration and will be identified through a separate appointment letter with a copy sent to the Contractor. This letter states/affirms the responsibilities and limitations of the COR, especially regarding changes in cost or price,

estimates or changes in delivery dates. The COR is authorized to perform the following functions; assure that the Contractor performs the technical requirements of the contract / task order; perform inspections necessary in connection with contract / task order performance; maintain written and oral communications with the Contractor concerning technical aspects of the contract / task order; issue written interpretations of technical requirements, including Government drawings, designs, specifications; monitor Contractor's performance and notifies both the Contracting Officer and Contractor of any deficiencies; coordinate availability of government furnished property, and provide site entry of Contractor personnel.

1.9.4 Contract Changes - Contracting Officer Only: During contract performance, the Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract. No order, statement, or conduct of Government personnel, including the COR, who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the Changes clause of this contract. As such, the Contractor shall not comply with any order, direction, or request of Government personnel that may constitute a change to the requirements of this contract unless it is issued in writing and signed by the Contracting Officer or is pursuant to specific authority otherwise included as a part of this contract.

1.10 Travel / Temporary Duty

Contractor travel is not required to support this contract.

1.11 Other Direct Costs (ODCs)

1.11.1 ODC Coordination and Pre-Approval

Other direct costs (ODCs) in the form of printing, packaging, and shipping of "printed media" are anticipated to be required to support this contract (See PWS Section 5.3.4). All ODCs shall be specifically requested in writing by the Contractor and approved in advance by the COR, prior to incurring any ODC expense. The Contractor's ODC request shall include at a minimum, the following:

- Contract Number;
- Contractor's estimate cost of ODC to include breakdown of printing, packaging, and shipping;
- Copies of printing, packing, and shipping quotes as applicable to support the Contractor's estimate of ODC expense; and

- Evidence that sufficient funding is available on the contract to cover the cost of the ODC including the amount of obligated funding in relation to invoiced/paid and executed but not yet billed ODC expenses, if any.

The COR must review and approve/disapprove (as appropriate) all ODC requests submitted, giving written notice of such approval or disapproval to the Contractor. The COR will verify funds are available on the applicable Contract Line Item (or sub-Line Item) as part of their review. The concurrence by the COR affirms that the ODC is reasonable, appropriate, and necessary to execute the contract requirements. The COR will immediately coordinate with the Contracting Office to address any apparent funding shortfall on contract.

1.11.2 ODC Reporting

RESERVED

1.11.3 ODC Reimbursement

1.11.3.1 Direct Costs: Under this contract / task order, the Contractor will be reimbursed for all allocable (i.e., properly assignable), reasonable, and allowable direct expenses (i.e., direct costs as defined in FAR 31.202 “Direct Costs”) incurred for reasonable and necessary ODC expenses (i.e., preapproved by the COR IAW PWS section 1.11.1) in support of this contract / task order at actual costs as set forth in FAR Clause 52.216-7 “Allowable Cost and Payment” subject to the allowability, allocability, and reasonableness provisions and limitations set forth in FAR Part 31 “Contract Cost Principles and Procedures”, specifically Subpart FAR 31.2 “Contracts with Commercial Organizations” (i.e., subparts FAR 31.201-2, FAR 31.201-3, FAR 31.201-4, FAR 31.201-5, and FAR 31.201-6, as applicable) up to the not to exceed ceiling value set forth at the CLIN level for this purpose in each contract performance period. For the purposes of this contract / task order, actual ODC direct expenses include the actual price paid by the Contractor includes taxes paid, if any, and reduced by any and all credits and rebates, whether accrued or realized, associated with the supplies and services provided. See FAR Clause 52.216-7 and FAR Subpart 31.2 for additional information.

1.11.3.2 Indirect Costs: Under this contract, the Contractor will not be reimbursed, neither on a provisional nor on a final basis, any indirect cost (i.e., indirect costs as defined in FAR 31.303 “Indirect Costs”) which might otherwise be allocable to this contract / task order owing to a potential or verified causal-beneficial relationship with the reimbursed direct ODC expenses under this contract / task order. The reimbursement limitation of \$0.00 indirect costs dollars herein applies but is not limited to handling charges, general and administrative cost, overhead, and any other indirect cost / indirect cost rate category of the Contractor.

1.11.3.3 Profit/Fee: Under this contract / task order, the Government will not pay the Contractor profit or a fee on any reimbursed ODC expenses.

1.11.3.4 Total Cost Reimbursement

1.11.3.4.1 Under this contract / task order, the specific printing, packaging, and shipping costs are not readily determinable therefore the total ODC costs for this contract / task order are not known / readily determinable. For this purpose, the Government has established a not-to-exceed (NTE) value for the purposes of reimbursing ODC expenses for each Cost Reimbursement (CR) CLIN, or Sub-CLIN (where applicable), under each contract / task order performance period. All Contractor requests for reimbursement shall be limited to reasonable, allocable, and allowable direct ODC expenses in support of this contract / task order as set forth in the preceding sections and referenced FAR Clauses, Parts, and Subparts covering the reimbursement of these costs. Reimbursement requests shall be submitted as Cost Vouchers within Wide Area Workflow (WAWF) as required in DFARS Clause 252.232-7006 "Wide Area Workflow Payment Instructions", specifically subparagraph (f)(1)(i); with a separately identified payment amount for each CR CLIN, or Sub-CLIN (where applicable), that reasonably reflects the contract / task order work performance for which payment request is being submitted in accordance with DFARS 252.204-7006 "Billing Instructions-Cost Vouchers" subparagraphs (a) and (b); and shall be properly supported with all documentation appropriate to support the type of payment request in accordance with the payment clause, contract / task order financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable to the contract / task order, as required in DFARS Clause 252.232-7006 subparagraph (f)(4). Under this contract / task order, the applicable payment clause for the CR ODC CLINs is FAR 52.216-7.

1.11.3.4.2 The documentation submitted with the Cost Voucher in WAWF shall be sufficient to support Government review and validation that the reasonableness, allocability, allowability tests, and limitations set forth in FAR 31.2 and its subsections have been met to ensure only actual allocable, reasonable, and allowable costs are being reimbursed prior to and in support of contract / task order closeout. Under this contract / task order, this documentation submitted in support of Cost Vouchers in WAWF shall include at a minimum, a copy of the COR's written pre-approval of the ODC before expense was incurred by the Contractor; with all applicable evidence, such as original receipts, substantiating the actual expenses incurred for the ODC reimbursement request; and (3) evidence of the Contractor's efforts to document the reasonable, allocable, and allowable tests set forth in FAR 31.2 within its accounting records were accomplished for the incurred ODC expenses included in the payment request (i.e., Cost Voucher) prior to submitting the reimbursement request. Claimed direct ODC expenses submitted on payment requests under this contract / task order are subject to audit and the invoiced costs are subject to adjustment as set forth in FAR 52.216-7(g). See FAR Subpart 42.803 "Disallowing costs after incurrence" for additional information.

1.11.3.4.3 Under this contract / task order, the not-to-exceed ceiling amounts for the CR ODC CLINs, once established under this contract / task order, are not anticipated to change. However, should the Government determine that a revision to the NTE ceiling amount is needed in any given contract / task order performance period, the changes will be negotiated/coordinated with the Contractor and adopted via a bilateral contract / task order modification at that time. The aggregate of all reimbursed ODC expenses under this contract / task order shall not exceed the total NTE value and funded amounts set forth at the CR ODC CLIN level for this purpose under each contract / task order performance period. Funding under these CLINs may be provided

incrementally or in full as set forth in FAR 52.232-20 and 52.232-22, respectively. The Contractor shall provide timely notice regarding funds utilization, as applicable to the acquisition circumstances for the specific CR ODC CLIN during each contract / task order performance period, as set forth in these clauses. Except as required by other provisions of this contract / task order, specifically citing and stated to be an exception to either clause 52.232-20 or 52.232-22, as applicable to the respective performance period, the Government is not obligated to reimburse the Contractor for incurred costs in excess of the total CR ODC CLIN NTE value and allotted funding for this purpose under each contract / task order performance period nor is the Contractor obligated to continue performance of this reimbursable portion of this contract / task order or otherwise incur costs for this purpose in excess of the funded amount stated on the CR ODC CLIN in a performance period unless and until the conditions set forth in FAR 52.232-20(d) and 52.232-22(f), respectively, have been satisfied.

1.11.3.4.4 For additional information regarding the processes, procedures, and limitations governing reimbursement of costs under this contract / task order, see contract / task order clauses FAR 52.216-7 “Allowable Cost and Payment”, FAR 52.232-20 “Limitation of Cost”, FAR 52.232-22 “Limitation of Funds”, DFARS 252.204-7006 “Billing Instructions-Cost Vouchers”, DFARS 252.232-7006 “Wide Area WorkFlow Payment Instructions” included in this contract / task order.

1.12 Contractor Employee Telework

The Government has determined that all task areas within this PWS are suitable for telework. Telework for Contractor employees regularly supporting this PWS from outside of Government facilities at the primary place of performance are subject to the telework policies of the Contractor.

If the Contractor uses Government-furnished equipment (GFE), the Contractor will use and protect the equipment in accordance with Marine Corps Order (MCO) 5239.2B Marine Corps Cybersecurity requirements and procedures. GFE will be serviced and maintained by the Government. The Contractor agrees to comply with the terms of computer software license and copyright agreements, computer virus and protection requirements and procedures.

No classified documents (hard copy or electronic) may be taken to, or created at, the Contractor’s alternative worksite. If classified telework is authorized at an approved alternative secure location, teleworkers must comply with the procedures established by DoD 5200.01-R and the DoD Component regarding such work. For Official Use Only (FOUO) and controlled unclassified information (CUI) data may be taken to alternative worksites, if necessary, ensure precautions are taken to protect the data, consistent with DoD regulations.

The Government will not be responsible for operating, maintenance, or any other costs (e.g., utilities, installation of broadband or telephone lines, etc.) associated with the use of the Contractor employee’s residence under approved telework supporting this PWS. The Government is not liable for damages to a Contractor's personal or real property while the Contractor is working at home, except to the extent the Government would be held liable by the Federal Tort Claims Act.

1.13 Recognized Holidays

The following provides information on recognized holidays for the purpose of the PWS. If submittal of any documentation (e.g., deliverables, submittals, etc.) deadlines fall on a holiday, the closest workday prior to the holiday will apply as the deadline for submittal.

1.13.1 U.S. Holidays

Work shall not be performed on U.S. federally recognized holidays occurring during the normal workweek unless otherwise directed by the Contracting Officer. When a U.S. holiday occurs on a Saturday or a Sunday, the holiday is observed on the preceding Friday or following Monday, respectively.

List of recognized Federal Government holidays are as follows:

New Year's Day	1st day of January
Dr. Martin Luther King's Birthday	3rd Monday of January
Presidents Day	3rd Monday of February
Memorial Day	Last Monday of May
Juneteenth	19th of June
Independence Day	4th day of July
Labor Day	1st Monday of September
Columbus Day	2nd Monday of October
Veteran's Day	11th day of November
Thanksgiving Day	4th Thursday of November
Christmas Day	25th day of December

1.13.2 Reserved

1.14 Operating Hours: The Government facility office hours, facility operating hours, and the Contractor support hour requirements often coincide, however, they may differ. Please refer to the following.

1.14.1 Government Facility Office Hours: The Government facility office hours are generally between 0700 to 1700 local time, Monday through Friday except for U.S. Holidays identified in paragraph 1.13.1 above or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings.

1.14.2 Government Facility Operating Hours: The Government facility operating hours are 24 hours per day, 365 days per year. The Government facility is open for operations during the recognized U.S. Holidays identified in paragraph 1.13.1 above. The Government facility may close due to local or national emergencies, administrative closings, or similar Government directed facility closings and will be communicated by the Contracting Officer to the Contractor.

1.14.3 Contract / Task Order Support Hours: The Contractor is responsible for conducting business in support of this contract / task order during the days and hours appropriate to ensure timely coordination and accomplishment of required tasks and deliverables. The Contractor shall at all times maintain an adequate workforce for the uninterrupted performance of all tasks

defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce is essential. For other than firm fixed price contract / task orders, the Contractor will not be reimbursed when the Government facility is closed for the above reasons.

In the event of a Government shutdown, performance under this contracts if appropriately funded, shall continue in accordance with the respective contract terms and conditions and governing facility procedures subject to any applicable limitations set forth in FAR 52.232-18 Availability of Funds, FAR 52.232-19 Availability of Funds for the Next Fiscal Year, FAR 52.232-20 Limitation of Costs, FAR 52.232-22 Limitation of Funds, and DFARS 252.232-7007 Limitation of Governments Obligation, as applicable to this contract and performance period.

1.15 Contractor Personnel Requirements: The Contractor is responsible for providing sufficient quantities of technically qualified Contractor personnel to perform the work specified in this PWS. The Contractor shall maintain the personnel, organization, and administrative control necessary to ensure that the work delivered meets the contract specifications and requirements. The Contractor shall maintain minimal personnel turnover throughout the life of the contract and ensure continuity of services during personnel absences due to sickness, leave, and voluntary or involuntary termination from employment such that impact to the Government is minimal. The Contractor shall ensure personnel assigned to support this contract are properly qualified and are experienced with the complexities associated with FH, UH, and PPV Housing, and/or large-portfolio residential property management. Contractor personnel shall be capable of supporting data collection and analysis efforts using web-based survey tools to support continuity and comparability with data and analyses from previous survey efforts to permit direct comparison of data and allowing benchmark capabilities and trend analysis for its neighborhoods, buildings and complexes, other military services, PPV Housing Partners, and private sector firms from current and prior year surveys.

1.15.1 General Skills and Qualifications – All Contractor Personnel/Functions. All Contractor personnel supporting this contract shall:

- Able to work independently;
- Able to conduct themselves in a professional manner and have proper telephone and e-mail etiquette, customer service techniques, and organizational skills;
- Able to direct Contractor personnel and interfacing with the Government and customers if performing in a Contractor leadership capacity;
- Able to communicate applicable technical subject matter expertise to management and others;
- Possess strong written and oral communication skills in the English language. All Contractor personnel must be able to read, write, speak, and understand English;
- Possess training and experience that is appropriate for the tasks to which they will be assigned;
- Possess exceptional customer service skills; and
- Possess strong time-management and prioritization skills.

1.15.2 Additional Requirements - Key Personnel / Functions.

The Government has not designated any key personnel/functions for this requirement.

1.15.3 RESERVED

1.16 Identification of Contractor Employees

Pursuant to DFARS 211.106, Contractors shall take all means necessary to not represent themselves as government employees. All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties must identify themselves, to include proper marking of signature blocks in correspondence, to avoid creating an impression in the minds of members of the public that they are Government officials. Contractor-occupied facilities (on Department of the Navy or other Government installations) such as offices, separate rooms, or cubicles must be clearly identified with Contractor supplied signs, name plates or other identification, showing that these are work areas for Contractor or subContractor personnel.

1.16.1 Contractor ID

Contractor personnel supporting this contract / task order must be clearly identifiable while on Government property by wearing appropriate badges at all times. These badges shall be worn at all times and presented for examination upon request from the Contracting Officer, COR, Military Police, or any other Government Official with a need to see the badge. The Contractor(s) and its employees shall be subject to all traffic, security, and registration regulations for personnel and vehicles.

1.16.1.1 Common Access Card

Some government facilities/installations require Contractor personnel to have a Common Access Card (CAC) for physical access to the facilities or installations. Contractors supporting work that requires access to any DoD IT/network also requires a CAC. Granting of logical and physical access privileges remains a local policy and business operation function of the local facility. The Contractor is responsible for obtaining the latest facility/installation and IT CAC requirements from the applicable local Security Office. All Contractor employees requiring a CAC shall coordinate through the COR and complete a DD Form 1172-2 (it is anticipated the Contractor will be able to schedule appointment with CAC card issuing facility within 48-72 hours of submitting DD1172-2). Pursuant to DoD Manual (DoDM-1000.13-M-V1), issuance of a CAC is based on the following four criteria:

- a. Eligibility for a CAC. To be eligible for a CAC, Contractor personnel's access requirement shall meet one of the following three criteria: (a) individual requires access to multiple DoD facilities or access to multiple non-DoD Federal facilities on behalf of the government on a recurring bases for a period of 6 months or more, (b) individual requires both access to a DoD facility and access to DoD network on site or remotely, or (c) individual requires remote access to DoD networks that use only the CAC logon for user identification.

b. Verification of DoD affiliation from an authoritative data source. CAC eligible personnel must be registered in the Defense Enrollment Eligibility Reporting Systems (DEERS) through either an authoritative personnel data feed from the appropriate Service or Agency or Mission Partner Identify, Credential, Access management (MP ICAM) System.

c. Completion of background vetting requirements according to FIPS PUB 201-2 and DoD Regulation 5200.2-R. The completion of Federal Bureau of Investigation (FBI) fingerprint check with favorable results and submission of a National Agency Check and Inquiries (NACI) investigation to the Office of Personnel Management (OPM), or a DoD-determined equivalent investigation. NOTE: Contractor personnel requiring logical access shall be required to obtain and maintain a favorable National Agency Check with Law and Credit (NACLC) investigation.

d. Verification of a claimed identity. All Contractor personnel shall present two forms of identification in their original form to verify a claimed identity. The identity source documents must come from the list of acceptable documents included in Form I-9, OMB No. 115-0136, Employment Eligibility Verification. Consistent with applicable law, at least one document from the Form I-9 list shall be a valid (unexpired) State or Federal Government-issued picture identification (ID). The identity documents will be inspected for authenticity, scanned, and stored in the DEERS.

When a Contractor requires logical access to a Government IT system or resource (directly or indirectly), any CAC provided to Contractor or subContractor personnel in support of this contract, must utilize a Public Key Infrastructure (PKI) certificate. Pursuant to DoDM 1000.13-V1, CAC PKI certificates will be associated with an official Government issued e-mail address (e.g. .mil). Prior to receipt of a CAC with PKI, Contractor personnel shall complete the mandatory Cybersecurity Awareness training, Personally Identifiable Information Training, and submit a signed System Authorization Access Request (SAAR) form to the COR to include copies of current training completion certificates for the following items:

- DoD Cyber Awareness Challenge; and
- DON-DoD Mandatory Controlled Unclassified Information (CUI) Training

1.16.1.2 Pentagon Access Badge

Pursuant to the following authorities: 10 U.S.C. 2674, Operation and Control of Pentagon Reservation and defense facilities in National Capital Region; 32 CFR 234, Conduct on the Pentagon Reservation, as amended; DoD Directive (DoDD) 5105.68, Pentagon Force Protection Agency (PFPA); DoDI 5200.08, Security of DoD Installations and Resources and the DoD Physical Security Review Board (PSRB); DoD Manual 5200.08 v3, Physical Security Program: Access to DoD Installations; OSD Administrative Instruction 30, Force Protection on the Pentagon Reservation; and Directive-Type Memorandum (DTM) 09-12, Interim Policy Guidance for DoD Physical Access Control, all Contractor employees providing support to government staff in the Pentagon and requiring access to the Pentagon in support of this contract / task order's requirements shall coordinate completion of Form DD2249 Pentagon Facilities Access Enrollment with the COR and/or corresponding Pentagon Marine Corps security office. Perimeter swipe access to facilities protected by the Pentagon Force Protection Agency is granted are coordinated through the Director, Administration and Resource Management (ARS)

and issued by the Pentagon Force Protection Agency (PFPA) through the submission of Form DD 2249.

1.16.1.3 Other Government Facility Badge Requirements

While on Government installations/facilities, Contractors shall abide by each site's security badge requirements. Various Government installations are continually updating their security requirements to meet Homeland Security Presidential Directive (HSPD-12) identification standards. Contractors are responsible for obtaining and complying with the latest security identification requirements for their personnel. Contractors shall submit valid paperwork (e.g., site visit request, request for picture badge, and/or SF-86 for CAC) to the applicable Government security office via the COR. The Contractor FSO shall track all personnel holding local Government badges on the task order.

1.17 Security Requirements:

1.17.1 Government Facility Access:

Contractor personnel shall physically access government facilities and installations for purposes of site visitation, supervisory and quality evaluation, work performed within government spaces (either temporary or permanent), or meeting attendance. Individuals supporting these efforts shall comply with the latest security regulations applicable to the government facility/installation. Access to Government buildings will be granted to Contractor(s) staff, when needed. The Contractor(s) is required to wear site-access badges at all times while on-site. Contractor(s) personnel shall follow procedures established at each site for ensuring the security of the building, equipment, materials and personnel who are working in and around facilities. See Section 1.16 and 1.16.1 above for Contractor Identification requirements when in government facilities and Sub-Sections 1.16.1.1 through 1.16.1.3 for Pentagon and other government facility identification / badge requirements.

Contractor personnel who need to access government spaces will require a visitor request submitted by the contract company via Defense Information System for Security (DISS). If Contractor personnel are not in DISS, a Visitor Authorization Letter (VAL) on company letterhead must be submitted with the following information: company name, address, telephone number, assigned Commercial and Government Entity (CAGE) Code, Contractor personnel(s) full name, full social security number (SSN), date of birth (DOB), place of birth (POB), citizenship status, contract / task order number, and visit dates for the length of the contract / task order.

1.17.2 Data Access:

This is an unclassified contract. Access to classified information is not required to execute this contract and will not be provided to Contractor personnel. However, Contractor personnel will require periodic access to Controlled Unclassified Information (CUI), to include Personally Identifiable Information (PII) in order to successfully execute this contract. All CUI associated with this contract must be safeguarded to prevent unauthorized public disclosure. Contractors

receiving, transmitting or accessing CUI on or through its Contractor information system(s) must safeguard the information to avoid compromise, including but not limited to, disclosure of information to unauthorized persons, unauthorized modification, destruction, or loss of an object, or the copying of information to unauthorized media, as required per DFARS Subpart 204.73 and Clauses 204.7304 and 252.204-7012. Contractors shall report to the DOD each Cyber incident that affects unclassified controlled technical information resident on or transiting Contractor information systems in accordance with DFARS clause 204.7304 and 252.204-7012. Detailed reporting criteria and requirements are set forth in the DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting. For information on handling CUI, see DOD M-5200.01, Volume 4.

Contractor personnel shall complete the following security related training requirements annually in accordance with Department of Defense (DoD) / Department of Navy (DoN) security policies including but not limited to:

- DoD Cyber Awareness Challenge;
- DON-DoD Mandatory Controlled Unclassified Information (CUI) Training;
- DON-Operations Security (OPSEC);
- DON-Identifying and Safeguarding Personally Identifiable Information (PII); and
- All others as determined by Security Policies.

All emails containing CUI information or attachments must be appropriately marked and digitally signed and encrypted if being transmitted. The destruction of all CUI associated with this contract shall be accomplished by any of the following approved methods: A cross-cut shredder; a certified commercial destruction vendor; a central destruction facility; incineration; chemical decomposition; pulverizing, disintegration; or methods approved for classified destruction.

Should it be determined during the performance of the Contract / task order that the Contractor will require access to any data above the unclassified and/or CUI level, this section will be revisited, revised, and the contract / task order be bilaterally modified accordingly.

1.17.2.1 Non-Disclosure Agreement

Owing to required access to CUI information, all Contractor personnel shall be required to sign a non-Disclosure agreement [Contract Data Requirements List (CDRL) A028].

1.17.2.2 Organizational Conflict of Interest (OCI)

Contractor and subContractor personnel performing work under this contract will not receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications, or work statements, etc.) or perform evaluation services which may create a current or subsequent OCI as defined in FAR Subpart 9.5.

1.17.3 Reserved

1.17.4 Reserved

1.17.5 Personnel Security Clearance Requirements:

Personnel Security Clearances are not applicable to this requirement owing to the Contractor not being provided access to data beyond the unclassified and/or CUI level or require access to facilities that require an active Personnel Security Clearance. However, all prime Contractor and subContractor personnel supporting this contract must have a favorable background check at the appropriate level for this contract. To obtain DoD CACs and privileged access to required systems, contract personnel are required to have a favorable T-3, T-3R or NACLC adjudication. Personnel with unfavorable adjudications are not eligible to perform work on this contract. If Contractor personnel do not have current adjudication of T-3, T-3R or NACLC, then, prior to commencement of work on this contract, all Contractor personnel, at a minimum, must have an initiated Electronic Personnel Security Questionnaire (EPSQ SF86). The EPSQ SF86 must be reflected within the DoD Personnel Security System to perform work on this contract and to access Government systems in support of this contract.

1.17.6 Facility Clearance Requirements:

A Contractor Facility clearance is not applicable to this requirement owing to the Contractor not being provided access to, required to produce, or required to store data beyond the unclassified and/or CUI level.

1.17.7 Contractor Responsibility:

Notwithstanding the personnel and facility clearance limitations stated above, the Contractor is responsible for compliance with the applicable security classification guide, technical, management, and operational security controls to ensure that the Government's security requirements are met, as applicable to this contract task order. The Contractor shall protect DoD sensitive unclassified data regardless of the location or ownership of the transport media, including, but not limited to mobile computing devices and removable storage media, whether Government furnished or Contractor owned/leased. Contractor shall comply with all current information assurance and information security policies, procedures, and statutes applicable to DoD information technology, including the 03 July 2007 DoD CIO Policy Memorandum on Encryption of Sensitive Unclassified Data at Rest on Mobile Computing Devices and Removable Storage Media.

The Contractor is responsible for ensuring all Contractor and sub-Contractor personnel supporting this contract / task order have a favorable National Agency Check with Local Agency Check and Credit Checks (NACLC).

The Contractor is responsible for ensuring that all Contractor personnel performing tasks under this contract that require a DoD Common Access Card shall meet and maintain the eligibility for obtaining a DoD Common Access Card (CAC) and associated DoD PKI certificates for identity verification and encryption of transmitted correspondence.

The Contractor is responsible for ensuring that all Contractor personnel possess the required security certifications and training in accordance with DoD Directive 8570.01.

The Contractor is responsible for ensuring that all Contractor personnel comply with all applicable security and safety regulations, guidance, and procedures, including local, referenced in this PWS and at the work sites.

1.17.8 Data, Software, and Intellectual Property Rights

1.17.8.1 Use of Works. Without the prior written permission of the contracting officer, no Items, created or provided expressly for this effort/contract/order/PWS shall be used by the Contractor for any purpose other than those purposes that are in support of, or for performance under, this effort/contract/order/PWS. The Contractor and its employees and subContractors are obligated to protect from unauthorized use or disclosure of all Government confidential or classified material and/or Government-owned proprietary and/or Personally Identifiable Information or Personal Privacy, Items obtained in the course of performance under this effort/contract/order/PWS, as long as such Items remain proprietary, confidential, sensitive, or classified. Any information obtained in the course of duties, or the performance of services, under this effort/contract/order/PWS including, but not limited to, information that may be made available for use that relates to the technical data, trade secrets, processes operations, style of work, or apparatus, or to the technical data, statistical data, amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation, or association is included in this clause. Contractor personnel shall not publish, divulge, disclose, or make known this information (hereinafter, singularly or collectively, included in "Items") or any other Items created or provided expressly for this contract / task order, in any manner, or to any extent not previously authorized in writing by the Contracting Officer or the COR. Moreover, when the Contractor's need for any such Items ends, the Items shall be returned promptly (within ten (10) business days) to the appropriate government program personnel.

1.17.8.2 Marking of Contractor Reports. All reports generated under this contract / task order should prominently be shown on the cover of the report:

- Name and business address of the Contractor.
- Contract / task order number.
- Contract / task order dollar amount.
- Name of individual sponsor. The sponsor should be an individual from the requiring activity at the Program Manager or comparable level.
- Name and address of requiring activity.

Part 2

Definitions and Acronyms

2.0 Definitions and Acronyms

2.1 Key Definitions

2.1.1 CONTRACTOR. A supplier or vendor awarded a contract / task order to provide specific supplies or service to the government. The term used in this contract refers to the prime.

2.1.2 CONTRACTING OFFICER. A person with authority to enter into, administer, and or terminate contracts / task orders, and make related determinations and findings on behalf of the government. Note: The only individual who can legally bind the government.

2.1.3 CONTRACTING OFFICER'S REPRESENTATIVE (COR). An employee of the U.S. Government appointed by the contracting officer to administer the contract / task order. Such appointment shall be in writing and shall state the scope of authority and limitations. This individual has authority to provide technical direction to the Contractor if that direction is within the scope of the contract / task order, does not constitute a change, and has no funding implications. This individual does NOT have authority to change the terms and conditions of the contract / task order.

2.1.4 DEFECTIVE SERVICE. A service output that does not meet the standard of performance associated with the Performance Work Statement.

2.1.5 DELIVERABLE. Anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

2.1.6 GOVERNMENT PROPERTY. Government Property means all property owned or leased by the Government. Government property includes both Government-furnished and Contractor-acquired property. Government property includes material, equipment, special tooling, special test equipment, and real property. Government property does not include intellectual property and software.

2.1.7 INCIDENTAL PROPERTY. Incidental property means Government property that is incidental to the place of performance, when the contract / task order requires Contractor personnel to be located on a government site or installation, and when the property used by the Contractor within the location remains accountable to the Government.

2.1.8 GOVERNMENT FURNISHED PROPERTY(GFP). Government-furnished Property (GFP) means property in the possession of, or directly acquired by, the Government and subsequently furnished to the Contractor for performance of a contract / task order. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance, overhaul, or modification. Government-furnished property also includes Contractor-acquired property if the Contractor-acquired property is a deliverable under

a cost contract / task order when accepted by the Government for continued use under the contract / task order.

2.1.9 CONTRACTOR ACQUIRED PROPERTY. Contractor Acquired Property (CAP) means property acquired, fabricated, or otherwise provided by the Contractor for performing a contract / task order and to which the Government has title. CAP and records will remain the property of the Government and shall be returned to the Government upon request, at the end of the contract / task order period of performance, or as directed by the Contracting Officer. All CAP shall be used in support of the contracted function and operated in the prescribed manner intended. The Contractor shall take all actions necessary to adjust for overages, shortages, damage and/or other discrepancies discovered upon receipt, in shipment of CAP from a vendor or supplier, including costs. All CAP must be cataloged, and the Contractor shall use an automated property system for the purpose of tracking and accounting for CAP. The Contractor shall keep a database or electronic spreadsheet of all requisitioned CAP during the life of the contract / task order.

2.1.10 KEY PERSONNEL. Means in general, Contractor employees who are executing the roles and responsibilities of specific designated key positions or functions described within this PWS which are considered by the Government to be essential resources in the work performance.

2.1.11 PHYSICAL SECURITY. Actions that prevent the loss or damage of Government property.

2.1.12 QUALITY ASSURANCE. The Government procedures to verify that services being performed by the Contractor are performed according to acceptable standards.

2.1.13 QUALITY ASSURANCE Surveillance Plan (QASP). An organized written document specifying the surveillance methodology to be used for surveillance of Contractor performance.

2.1.14 QUALITY CONTROL. All necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract / task order requirements.

2.1.15 SUBCONTRACTOR. One that enters into a contract / task order with a prime Contractor. The Government does not have privity of contract / task order with the subContractor.

2.1.16 WORKDAY. The number of hours per day the Contractor provides services in accordance with the contract / task order.

2.1.17 WORK WEEK. Monday through Friday, unless specified otherwise.

2.2 Key Acronyms

Key Acronym	Key Acronym Detail
ACOR	Alternate Contracting Officer's Representative
BCTF	Boards, Commissions, and Task Forces

Part 3

Government Furnished Items

3.0 Government Furnished Items

As required in the performance of this contract / task order, the Government will provide Government Furnished Materials, Facilities, Equipment, Property, Services, and Information defined / detailed in this section.

3.1 Government Furnished Materials, Facilities, Equipment, Property, Services, and Information.

3.1.1 General:

3.1.1.1 The Government will provide specific locations and inventory counts for PPV, FH and UH, shipping/mailling/email information, and any other required data (e.g. standard operating procedures and policies) to the Contractor upon award.

3.1.1.2 The Government will not provide equipment or supplies such as workstations, computers, or phones to the Contractor. However, the Government will provide any necessary access to the Marine Corps Enterprise Network (MCEN) and Marine Corps intranet (internal website) in support of this contract via a Virtual Private Network (VPN), as applicable.

3.1.1.3 The Government will provide access to Microsoft© Teams to collaborate and share documents with Government personnel, as applicable.

3.1.2 Common Access Cards (CACs): When required to support this contract / task order, the Government will provide Common Access Cards via the Mission Partner Identify, Credential, Access management (MP ICAM) System. Additional information on the MP ICAM system is available at <https://www.cac.mil/common-access-card/getting-your-cac/for-Contractors/>.

3.1.3 Installation/Building Access Passes: When required to support this contract / task order, the Government will coordinate and provide requisite Installation/Building access passes through local policies and procedures applicable to the installation/building.

3.1.4 Background Checks: When required to support this contract / task order, the Government shall validate Contractor obtained Background Checks associated with CAC, facility access, and security clearance checks as appropriate to support the issuance of these items are access.

3.1.5 Property Management System Analysis Evaluation (PMSA): RESERVED

3.1.6 Disposition of Government Property: RESERVED

3.1.7 Property Closeout: RESERVED

Part 4 Contractor Furnished Items

4.0 Contractor Furnished Items and Services

4.1 General:

The Contractor shall furnish all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision and other items and non-personal services necessary to perform the TSS Support Services as defined in this PWS and associated contract / task order documents, except for those items specified in Part 3 Government Furnished Items.

4.2 Facility Clearance: (RESERVED)

4.3 Background Checks: The Contractor shall provide Background Checks in accordance with this PWS and as determined necessary by the Government to support this contract / task order.

4.4 Compliant Contractor Equipment: In the performance of their duties, Contractor personnel will require connectivity and access to the Marine Corps Enterprise Network (MCEN) for accessing sensitive information or required IT systems to include sending and/or receiving e-mails that contain sensitive information. The Contractor is responsible for providing all laptops/computers required for its personnel's efforts in support of this contract / Task Order. In doing so, the Contractor shall ensure that the Contractor provided laptop/computers are MCEN compliant.

The current list of laptop/computers eligible for imaging, as of the date of this document, are located in [Technical Exhibit E](#). Periodic updates to this list are uploaded to MCSC PEO Digital's SharePoint portal (restricted access) at: https://usmc.sharepoint-mil.us/sites/MCSC_PEODigital/EUSCommonMCEDS/Forms/AllItems.aspx, but can be obtained from MCSC G-6 upon request. Due to the ever-updating list of MCEN approved laptops/computers from MCSC G-6, prior to purchasing any equipment intended to be attached to the MCEN, the Contractor shall get approval from the COR or Contracting Officer to validate machine/model number is compliant with the current MCEN list prior to purchasing any laptops. Upon purchase, the Contractor will transfer the Contractor-owned laptops to the MCSC, G-6, Information Technology Asset Management (ITAM) department to have the MCEN image placed on each laptop before it can be connected to the MCEN. The Contractor will be required to get compliant laptops/computers imaged at the Pentagon. No more than one laptop/computer will be imaged per Contractor employee.

Contractor personnel shall ensure laptops are not lost or misplaced and are not used by unauthorized persons. The Contractor shall not transfer any information to a Government computer that is not authorized or use the computer for unauthorized purposes. The Contractor shall report to the applicable COR any occurrences of a lost laptop or unauthorized use of a Government-imaged computer within two hours of occurrence. In the event, a laptop is lost, or the security of a computer is compromised, the Contractor may be held financially liable, upon written direction of the Contracting Officer, to replace or repair the affected computer with no

additional cost to the Government. The Government may replace the affected computer and deduct the cost of such from the monthly payment due to the Contractor.

Upon completion of the contract / task order or at such time as the Contractor reclaims the asset from the USMC effort; non-Government owned internal\external hard drives and data associated with the laptop shall become the property of the US Government and turned over to the COR upon request. For additional questions regarding current system specifications contact the COR. The laptops purchased will not be considered Government property and will not transfer to the Government at the end of the contract / task order (except hard drives and data listed above). The Contractor will not be reimbursed for the cost of any Contractor Furnished laptops and related hard drives covered under this acquisition.

Part 5

Specific Requirements and Tasks

5.0 Specific Requirements and Tasks

5.1 Task Area 1: Inventory Data and Population Data Reconciliation Support.

The Marine Corps housing inventory and population changes frequently. These changes may occur during project set-up, while a survey is open, or outside the survey cycle due to neighborhood, building, and complex reconfigurations, demolition, deployment, new construction, or errors in initial inventory collection. The Contractor shall conduct inventory data and population data reconciliations to prepare for and adapt to these changes as needed.

5.1.1 The Contractor shall review the Marine Corps housing inventory generated from the Enterprise Military Housing (eMH) system and/or other applicable data sources annually prior to the start of the survey to validate:

- (a) All neighborhoods, buildings, and complexes are associated with the correct Installation, Region, Year Built, Active/Inactive Status;
- (b) Tenant/resident population status; and
- (c) Mailing addresses and email addresses of current tenants/residents against historical information to ensure consistency in naming conventions and accurate reporting. The Contractor shall promptly notify the COR of any inconsistencies to facilitate resolution.

5.1.2 The Contractor shall:

- (a) Verify housing inventory through the COR;
- (b) Add or delete neighborhoods, buildings, and/or complexes;
- (c) Change neighborhood, building, and/or complex names or combine neighborhoods, buildings, and/or complexes; and
- (d) Change Installation or Region names and configurations.

5.1.3 The Contractor shall report completion of the Inventory and Data Reconciliation to the COR via email no later than close of business 14 calendar days after 1st day of each performance period (i.e., PoP start plus 14 days). Contractor format is acceptable. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter (CDRL A001).

5.2 Task Area 2: Survey Methodology Support

The Marine Corps will affirm the required method(s) of surveying for each segment of the survey population and the Contractor shall employ the required survey methodology set forth within this PWS, as coordinated by the Government at the start of every annual survey period.

5.2.1 All survey methods shall display a Marine Corps approved Privacy Statement and

appropriate Marine Corps Housing branding.

5.2.2 All surveys conducted under this contract shall be online/Web-based and mobile device accessible. The Contractor shall provide an email address for tenants/residents to contact the Contractor for any technical challenges with the survey or requests for information required to complete the online survey.

5.2.3 All surveys:

- (a) Shall be separate for each of the three different population types [i.e., UH, FH, and PPV Housing];
- (b) Shall include only the survey questions related to their specific housing population type and shall be those published annually by the Office of Management & Budget (OMB) and verified through the COR as current for the specific survey period.
- (c) Shall include the OMB Control Number published annually by OMB, as applicable;
- (d) Shall be released each year no later than 01 March (or the first business day thereafter) and remain open through 31 March annually unless otherwise requested/approved by the Government (i.e., data collection period);
- (e) Shall provide for the collection of tenant/resident comments;
- (f) Shall group questions in a way that allows for data logic to reduce the total amount of survey questions asked when a respondent does not satisfy a required answer for additional questions in a group and allow for them to skip if questions do not apply to that respondent's situation;
- (g) Shall contain accurate identifying information to identify neighborhood and building or complex;
- (h) Shall show a progress bar of user's status while answering survey questions;
- (i) Shall contain images and themed backgrounds that align with the questions and groups of respondents;
- (j) Shall be accessible from any desktop, laptop, portable device, and cell phone;
- (k) Shall render visually on all operating systems, portable devices, and cell phone operating systems;
- (l) Shall be accessible by a Uniform Resource Locator (URL), shortened URL, Quick Response (QR) code, and any other means available for respondent to utilize; and
- (m) Shall be fully functional no later than 14 calendar days prior to the first day of the final approved survey data collection period for each performance period. The Contractor shall demonstrate full functionality of the web-based survey for all population types via MS Teams no later than 14 calendar days prior to the first day of the final approved survey collection data period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter (CDRL A002).

5.2.4 The Marine Corps TSS notices/invitations shall be in the following format, as applicable to the population type:

- (a) Printable information letters (UH and FH only) that include the survey website address or QR Code link to the survey website, online survey instructions, and the OMB

- Control Number;
- (b) Email invitations (UH, FH, and PPV, depending on email availability) that include the survey website or QR Code link to the survey website, online survey instructions, and the OMB Control Number; and
 - (c) All images and themes shall be reviewed and accepted by the COR. Changes to any of these items may occur anytime throughout the survey process based on current events or any other possible conflicts.

5.2.5 The Contractor shall develop and implement a Risk Management Plan (RMP). The Contractor's RMP shall include appropriate controls to ensure quality of information, provide consistency within and between surveys, processes to prevent participants from completing more than one survey, and methodology to assure tenant/resident confidentiality. Additionally, the RMP shall include the Contractor's process for identifying and quarantining suspicious survey results or patterns and for communicating non-conforming information received to the Government. The RMP shall be submitted to the COR via email in Microsoft® Word and Adobe® Portable Document Format (PDF) no later than close of business 14 calendar days after 1st day of the base period of performance (i.e., PoP start plus 14 days). Updates shall be submitted no later than close of business 14 calendar days after the 1st day of each subsequent period of performance as applicable (CDRL A003).

5.2.6 The Contractor shall notify the COR of any identified contract cost, performance, or schedule risks in accordance with the approved plan. The Contractor shall coordinate with the COR to establish acceptable risk mitigation for the identified risks. All identified risks shall be tracked monthly until resolution within the RMP. Technical risk shall be mitigated by including the COR in all aspects of the risk mitigation process. The Contractor shall discuss with the Marine Corps any non-conforming information received and provide the Marine Corps with results from such materials in accordance with the approved RMP, electronically via email upon request by the Government. Contractor format is acceptable. (CDRL A004).

5.3 Task Area 3: Survey Related Materials/Media Support

The Contractor shall develop and submit the following survey related materials/media to the COR to support the Housing Installations delivery and marketing of the Survey(s) in every performance period. All items below shall contain information to support the surveys with who, what, when, where, why, and the OMB Control Number. The Contractor shall coordinate through the COR to ensure all materials and information required are timely delivered to the Government to support an effective distribution of the materials/media in advance of the approved annual survey start date. All materials/media shall display a Marine Corps approved Privacy Statement and appropriate Marine Corps Housing branding. Any available templates from previous surveys can be provided by the Government at the request of the Contractor. The materials/media shall include the following:

5.3.1 FH/PPV TSS annual tenant/resident information letter (CDRL A005): The Contractor shall develop and submit the FH/PPV TSS annual tenant/resident information letter in Microsoft® Word format to the COR. This document shall be formatted according to the Naval Correspondence Manual (8.5" by 11" paper, 1" margins all sides, Times New Roman font, size

12, single spaced). The Contractor shall update the letter and resubmit to the COR for each subsequent annual survey period. This document shall be provided electronically via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.2 UH TSS annual resident information letter (CDRL A006): The Contractor shall develop and submit the UH TSS annual resident information letter in Microsoft® Word format to the COR. This document shall be formatted according to the Naval Correspondence Manual (8.5" by 11" paper, 1" margins all sides, Times New Roman font, size 12, single spaced). The Contractor shall update the letter and resubmit to the COR for each subsequent annual survey period. This document shall be provided electronically via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.3 TSS promotional posterboard and fliers:

(a) Posterboard (CDRL A007): The Contractor shall develop and submit one TSS promotional document in Microsoft® Word format to the COR. This document shall be formatted for printing on 2'x3' poster board for Installation Housing Offices. The Contractor shall update the TSS Advertisement Posterboard and resubmit to the COR for each subsequent annual survey period. This document shall be provided electronically via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

(b) Fliers (CDRL A008): The Contractor shall develop and submit one TSS promotional document in Microsoft® Word format to the COR. This document shall be formatted on 8.5" by 11" paper. The Contractor shall update the TSS Advertisement Flier and resubmit to the COR for each subsequent annual survey period. This document shall be provided electronically via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.4 UH TSS Survey Door Hangers (CDRL A009): The Contractor is required to comply with FAR Subpart 8.8, Acquisition of Printing and Related Supplies, to obtain printing services and supplies from the Government Publishing Office (44 U.S.C. 501) and/or the Defense Automated Printing Services (DAPS). The Contractor shall develop and submit a door hanger template in Microsoft® Word format to the COR. This document shall be designed and formatted for 8.5" x 11" standard printer paper, accommodate two door hangers per sheet of paper no larger than 4.25" by 11" per door hanger and incorporate pre-cut holes for door hanging (i.e., on UH doorknobs). Upon confirmation with the COR, the Contractor shall also print, package, and ship printed door hangers to each installation's housing office for subsequent Government distribution. Shipping to OCONUS locations shall be to APO/FPO addresses. The specific

quantity of printed door hangers is not currently known. However, the Contractor shall provide a minimum of one door hanger for each UH rooms at each installation. The Contractor shall update the UH TSS Survey Door hangers for each subsequent annual survey period. The estimated quantity of door hangers by region and installation/neighborhood/subcamp to include anticipated shipping address information is as follows:

Region	Installations (In Bold) Neighborhood/Subcamps (In Italics)	Estimated Number of Rooms / Door Hangers	Anticipated Shipping Address

	OVERALL TOTAL	58,391	

While the estimated quantity is provided above, the final quantity needed by installation and final shipping address for each installation shall be verified through the COR prior to printing, packing, and shipping any items.

The Contractor shall submit the door hanger template electronically to the COR via email no later than close of business 45 calendar days prior to the first day of the final approved survey data collection period for each performance period. The COR shall have 7 calendar days to approve the template. The Contractor shall print, package, and ship printed door hangers no later than close of business 7 calendar days after COR concurrence to the template and verification of quantity needed and final shipping addresses each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.5 TSS annual promotional video announcement clip (CDRL A010): The Contractor shall develop and submit one promotional video announcement clip to support and maximize TSS participation. The clip duration shall be 20-35 seconds and MP4 video format. Live actors are not required. The Contractor shall update the TSS announcement clip and resubmit to the COR each subsequent annual survey period. Each submission shall include one (1) promotional video clip. The clip shall be submitted electronically via email to the COR no later than close of business 30 calendar days prior to the first day of the final approved survey data collection period each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.6 TSS annual promotional newspaper article (CDRL A011): The Contractor shall develop

and submit one promotional newspaper article for Government inclusion in all base newspapers. The Contractor shall update the news article and resubmit to the COR for each subsequent annual survey period. Contractor format is acceptable. This document shall be provided electronically to the COR via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.3.7 TSS annual scripted sentence (CDRL A012): The Contractor shall develop and submit one scripted sentence, not to exceed 150 characters, for Government use on installations entrance light emitting diode reader board signs. The Contractor shall update the scripted sentence and resubmit to the COR for each subsequent annual survey period. Contractor format is acceptable. This document shall be provided electronically to the COR via email no later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted on the first business day thereafter.

5.4 Task Area 4: Survey Data Reporting Website Support

5.4.1 The Contractor shall develop and maintain a website specifically dedicated for the Marine Corps on which the Contractor shall post all data and analysis information, as it occurs, for the benefit of review by users designated by the Marine Corps. The website shall be secured, allow for varying levels of access, be accessible during and after the survey process through the duration of the contract, and shall include a dashboard based on specific user rights to identify survey counts of their respective installations and regions. The Contractor shall provide a “walk-through” on the organization and functionality of the survey data reporting website via MS Teams no later than close of business 14 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted/coordinated to occur no later than the first business day thereafter (CDRL A013).

- (a) The Contractor shall assign and maintain user access and group levels as defined below. Approval for individuals' access shall be coordinated with and validated by the COR.

Levels of access are:

1. Headquarters Total Portfolio (PPV, FH, and UH);
2. Region;
3. Installation; and
4. Neighborhood/Building/Complex.

Group accesses are:

5. Tenant/Survey taker;
6. On-site Property Manager;
7. Installation Manager;
8. Regional Manager; and
9. Headquarters.

- (b) The Contractor shall ensure the COR-identified users shall see data only for their designated level and any levels which roll up to their level of access.
- (c) Authorized users may have multiple and varying levels of access for different group surveys. (e.g. Tenant/Resident, On-site Property Manager, Installation Manager, Regional Manager, and Headquarters).
- (d) The Contractor shall make changes to authorized users and associated permission within 24 hours of receipt of the Government's request to update authorized users and their permissions as they are subject to change frequently. These changes may occur during project set-up, during the data collection period, during the reporting phase, or outside of the survey cycle.
- (e) The Contractor shall accept, utilize, and document information regarding the users, when access was authorized, and level of access granted.
- (f) The Contractor shall ensure Users are able to easily navigate between levels within PPV, FH, or UH as permissions allow. Data shown shall correlate to level selected.
- (g) The Contractor shall ensure the inclusion of the following minimum data requirements for data provided on the website:
 - 1. Distribution quantities by method for selected level;
 - 2. Response rate for selected level;
 - 3. Response rates for levels immediately below selected level; and
 - 4. Comments.

Additionally, the Contractor shall ensure all finalized data and reports for each survey period shall remain on this website for duration of the contract.

- (h) The Contractor shall ensure this information is updated no less than daily. However, the frequency may be adjusted through coordination and approval by the COR.

5.5 Task Area 5: Survey Distribution and Survey Period Specific Tasks/Support

5.5.1 All surveys conducted under this contract shall be online/Web-based, shall run concurrently for all population types, and shall be made available by the Contractor to all population types on the final approved survey start date. However, notification/invitation dates may vary depending on the location of the tenants/residents being surveyed. The Contractor shall:

- (a) Coordinate through the COR to ensure timely distribution of TSS notices/invitations to tenants/residents prior to the final approved survey start date.
- (b) Coordinate with the COR to develop the process for distribution of TSS information letters, that include a QR Code or URL link, online survey instructions and the OMB

Control Number.

- (c) Send email to designated recipients (UH, FH, and PPV) upon survey start date with each email containing a link to the survey, online instructions, and the OMB Control Number.
- (d) Track any returned email (non-deliverable) and determine response with the Marine Corps and send weekly reminders via same method for incomplete surveys.
- (e) Coordinate with the COR in the event of incomplete transmission, returned emails, loss, incorrect counts, or other circumstances requiring additional emails. The Contractor shall notify the COR no later than 48 hours after occurrence to obtain instructions for resolution. Contractor format is acceptable (CDRL A014).
- (f) Coordinate with the COR prior to sending printed door hangers to installation's housing office prior to shipping.

5.5.2 During the survey period, the Contractor shall respond to all tenant/resident emails within 24 hours and work to resolve all tenant/resident technical issues with the survey without involving the Marine Corps. The Contractor shall respond to all email requests from tenants/residents for information required to complete online survey within 24 hours.

5.5.3 During the survey period, the Contractor shall submit a Weekly Response Count Update Report to the COR in Microsoft® Excel format containing the number of survey links distributed (by method), surveys received, and percent received from the neighborhoods, buildings, complexes, Installations, Regions, and overall levels during the data collection period. This report shall be submitted no later than close of business local time Washington DC the last business day of each calendar week beginning the 1st calendar week of the survey data collection period and continuing every calendar week thereafter until the survey data collection period closes for each performance period. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter (CDRL A015).

5.6 Task Area 6: Post-Survey Reporting and Other Outside Survey Period Support.

5.6.1 General Report Criteria:

- (a) Reporting shall be geared toward performance improvement and provide a summarized analysis for the reporting entity.
- (b) Reporting entities for survey response reporting shall include all of the following:
 1. Reports by Neighborhoods, buildings, and complexes;
 2. Reports by Installation;
 3. Reports by Region;
 4. Reports for Overall Marine Corps;
 5. Reports for other combinations of properties as necessary based on the survey population and summary needs of the Marine Corps; and
 6. Reports at levels which combine various neighborhoods, buildings, and/or complexes need to contain data showing information from the component neighborhoods, buildings, and/or complexes; at a minimum, Overall, Property, Service and Topic scores.

- (c) Reports shall be easily interpreted by on-site staff as well as senior personnel.
- (d) Report format shall include extractable charts and graphs. Contractor may use any graphic or text methodologies it deems appropriate to illustrate areas of strengths and weaknesses.

5.6.2 Individual Survey and Consolidated Survey Result Report (CDRL A016): The Contractor shall develop and submit the individual survey and consolidated result reports for each performance period. Each report shall be in Microsoft® Word and Adobe® PDF, shall be submitted via the survey data reporting website no later than 30 calendar days after the survey data collection period ends for each performance period and shall be downloadable from the survey reporting website by the Government in both formats for the duration of the contract. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

- a) These reports are required for PPV, FH and UH separately, as well as one consolidated report, except as noted:
 - 1. Overall Marine Corps
 - 2. Region (not required for FH)
 - 3. Installation
 - 4. Neighborhood, Building, and Complex
 - 5. For PPV only, the following additional data elements are also required:
 - Parent Companies and projects (PPV only)
 - PPV Company Reports (PPV only)
- b) Data elements required on each report include:
 - 1. List of all survey questions, with a count and percentage of responses shown for each answer choice.
 - 2. A score for each question using the previously identified, defined, and consistent methodology, provided by the Government.
 - 3. Additional scores or performance indicators based on groups of like questions which indicate drivers of tenant/resident satisfaction (topic scores).
 - 4. A score or performance indicator based on Service Levels.
 - 5. A score or performance indicator for Property Satisfaction.
 - 6. A score or performance indicator for Overall Satisfaction.
 - 7. Trending data with up to 4 years of prior score data, if available, for the Overall, Property, Service, and Topic scores.
 - 8. Comparison with prior survey scores, if available, at the Question level.
 - 9. Number of surveys distributed, number of surveys received, and calculated response rate.
- c) Correlate prior scores based on previous neighborhood, building, and complex names to new neighborhood, building, and complex names.
- d) Create scores using past data as prior scores on reports for modified entities; and

- e) Based off correlation between previous neighborhoods replaced by new neighborhoods, use scores from previous neighborhood, building, and/or complex as prior scores for multiple new neighborhoods, buildings, and/or complexes.

5.6.3 Comparative Benchmark Report (CDRL A017): The Contractor shall develop and submit a comparative benchmark report in Adobe© PDF and Microsoft© Word format which compares Marine Corps Overall, Property, Service, and Topic scores with similarly calculated scores of private sector multifamily housing firms. The Contractor shall submit this report via the survey data reporting website no later than 30 calendar days after the survey data collection period ends for each performance period and shall be downloadable from the survey reporting website by the Government in both formats for the duration of the contract. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

5.6.4 Score Spreadsheets (CDRL A018): The Contractor shall develop and submit summary reports in Microsoft© Excel format which summarizes report score data. Score spreadsheets shall be submitted via the survey data reporting website no later than 30 calendar days after the survey data collection period ends for each performance period and shall be downloadable from the survey reporting website by the Government for the duration of the contract. If scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

Four types of summary reports are required:

- a) List of current survey distribution numbers, Overall, Property, Service, and Topic scores by neighborhoods, buildings, and complexes;
- b) List of current and prior Response Rate, Overall, Property, Service, and Topic scores by neighborhood, building, and complex, with differences calculated;
- c) List of current survey distribution numbers, Overall, Property, Service, and Topic scores for Rollup reports; and
- d) List of current and prior Response Rate, Overall, Property, Service, and Topic scores for Rollup Reports, with differences calculated.

5.6.5 Comment Reports by Neighborhood, Building, and Complex (CDRL A019): The Contractor shall develop and provide reports of all comments received for each neighborhood, building, and or complex in Adobe© PDF and Microsoft© Excel via the survey data reporting website no later than 30 calendar days after the survey data collection period ends for each performance period and shall be downloadable from the survey reporting website by the Government in both formats for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

5.6.6 Comment Analysis Worksheets FH, PPV, and UH (CDRL A020): The Contractor shall review survey comments, assign them to a category and subcategory using a list developed in conjunction with MCICOM through the COR, and prepare Microsoft© Excel spreadsheets that summarize comment category and subcategory frequency by activity and by neighborhood. Word-search based automated analysis is insufficient to meet this requirement, as one comment

can require multiple category or subcategory assignments. Contractor format is acceptable. However, the selected format shall be coordinated with and approved by the COR prior to use. Completed comment analysis worksheets shall be submitted to the COR via the survey data reporting website no later than 30 calendar days after the survey data collection period ends for each performance period and shall be downloadable from the survey reporting website by the Government in the approved format for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

5.6.7 Action Plans (CDRL A021): The Contractor shall develop and submit action plans using a standard template for creation of Action Plan documents for each neighborhood, building, or complex that includes current and prior scores (if available), current survey question results, and provide for action items to be itemized. Actions plans shall be submitted in Microsoft® Word format via the survey data reporting website and via email to the COR in no later than 30 calendar days after the survey data collection period ends for each performance period. Action Plans shall be downloadable from the survey reporting website by the Government for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

5.6.8 Exception Reports (CDRL A022): The Contractor shall develop and provide short, easy-to-read reports highlighting score issues and major areas of concern. The reports shall address Overall, Property, Service and Topic scores, as well as comment analysis. Contractor format is acceptable. However, the reports shall quickly and accurately identify areas of concern and provide an analytical perspective on how to address them and shall not be just an overall summary. Exception reports shall be generated one time and submitted via the survey data reporting website and via email to the COR no later than 30 calendar days after the survey data collection period ends for each performance period. Exception reports shall be downloadable from the survey reporting website by the Government for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

- (a) Exception Reports shall be created for:
 - 1. Overall Marine Corps FH;
 - 2. Overall Marine Corps UH;
 - 3. Overall Marine Corps PPV;
 - 4. Each Marine Corps UH Region; and
 - 5. Each Marine Corps PPV Region.

5.6.9 Ad-Hoc Reports (CDRL A023): Other reports may be required during the survey project if they are necessary to amplify specific findings or recommendations made by the Contractor. Reports may include data analysis on current year, prior years housing data, and comparisons to private sector data. If requested by the Government, Ad-Hoc reports shall be submitted via the survey data reporting website and via email to the COR as needed and, in the format specified at time of Government request. Ad-Hoc reports shall be downloadable from the survey reporting website in the format specified by the Government at time of request for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it

shall be submitted no later than the first business day thereafter.

5.6.10 Training Program and Performance Improvement Training

- (a) Training Program (CDRL A024): The Contractor shall develop and present a training program annually; initially targeted at higher command representatives (Headquarters, Regions, and Installations) that will enhance their understanding of the TSS, interpreting survey results, understanding reporting, and enable the participants to successfully develop Action Plans that focus on improving tenant satisfaction as requested. The training program presentation shall not exceed 2 hours in length and shall be in Microsoft© PowerPoint format. The Contractor shall present the training via MS Teams to the identified higher command representatives no later than 45 calendar days after the survey data collection period ends for each performance period. A copy of the presentations to support this task shall be provided via email to the COR as a read ahead no later than 48 hours prior to the scheduled time for the presentation.
- (b) Performance Improvement Training (CDRL A025): The Contractor shall develop and provide performance improvement training to increase customer satisfaction after the survey data collection period ends for each performance period, as needed by the Government. All performance improvement training presentations, if requested, shall be held via MS Teams. Copies of any presentations developed to support this task shall be provided via email to the COR as a read-ahead in Microsoft© PowerPoint format no later than 48 hours prior to the scheduled time for the presentation.

5.6.11 After Action Report (CDRL A026): The Contractor shall review prior year survey results, identify lessons learned, and provide an After Action Report (AAR) which recommends process improvements for the next annual survey cycle. AARs shall be submitted via the survey data reporting website no later than 60 calendar days after the survey data collection period ends for each performance period in Adobe© PDF and Microsoft© Word. Contractor format is acceptable. AARs shall be downloadable from the survey reporting website by the Government in both formats for the duration of the contract. If the scheduled due date falls on a weekend or a federal holiday, it shall be submitted no later than the first business day thereafter.

5.6.12 Survey Results Briefings/Calls:

- (a) The Contractor shall participate in briefings or conference calls with MCICOM staff members and others as requested by the Marine Corps to amplify findings and recommendations. All of these briefings/calls will be virtual either through Microsoft© Teams or via telephone. The Contractor shall prepare and deliver meeting minutes via email and ensure TEAMS meetings are recorded and delivered to the Government stakeholder, as necessary, no later than five (5) calendar days post meeting. Contractor format is acceptable for minutes (CDRL A027).
- (b) The Contractor shall meet with the COR at a minimum once per quarter per contract performance period. These meetings may occur before, during, and/or after the survey period and shall cover any administrative notices, concerns, or

recommendations, as well as ideas for process improvement. The Contractor shall also attend a contract post-award kickoff meeting within 5 business days after contract award. All meetings for these purposes shall be held virtually via Microsoft© Teams. The Contractor shall prepare and deliver meeting minutes via email and ensure TEAMS meetings are recorded and delivered to the Government stakeholders, as necessary, no later than five (5) calendar days post meeting. Contractor format is acceptable for minutes (CDRL A027).

DRAFT

Part 6
Applicable Publications

6.0 Applicable Publications (Current Versions)

6.1 The Contractor shall abide by all applicable regulations, publications, manuals, and local policies and procedures applicable to this contract / task order.

				data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, the article shall be submitted on the first business day thereafter.	
A012	TSS Scripted Sentence	5.3.7	Via email in Contractor format.	No later than close of business 45 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, the sentence shall be submitted on the first business day thereafter.	COR
A013	TSS Survey Data Reporting Website Demo	5.4.1	Survey data reporting website functionality demo via MS Teams.	No later than close of business 14 calendar days prior to the 1st day of the final approved survey data collection period for each performance period. If scheduled due date falls on a weekend or a federal holiday, the demo shall be submitted/coordinated to occur no later than the first business day thereafter	COR
A014	Circumstances Requiring Additional Emails to be Sent	5.5.1 (e)	Via email in Contractor format.	No later than 48 hours after occurrence to obtain instructions for resolution.	COR
A015	Weekly Response Count Update Report	5.5.3	Via email in Microsoft® Excel format.	No later than close of business local time Washington DC the last business day of each calendar week beginning the 1st calendar week of the survey data collection period and continuing every calendar week thereafter until the survey data collection period closes for each performance period. If scheduled due date falls on a weekend or a federal holiday, the report shall be submitted no later than the first business day thereafter.	COR
A016	Individual and Survey Result Report	5.6.2	Via survey data reporting website in Microsoft® Word and Adobe® PDF.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the report shall be submitted no later than the first business day thereafter.	COR
A017	Comparative Benchmark Report	5.6.3	Via survey data reporting website in Adobe® PDF and Microsoft® Excel format.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the report shall be submitted no later than the first business day thereafter.	COR
A018	Score Spreadsheets	5.6.4	Via survey data reporting website in Microsoft® Excel format.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the spreadsheets shall be submitted no later than the first business day thereafter.	COR
A019	Comment Reports by Neighborhood, Building, and Complex	5.6.5	Via survey data reporting website in Adobe® PDF and Microsoft® Excel format.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the reports shall be submitted no later than the first business day thereafter.	COR
A020	Comment Analysis FH, PPV, and UH	5.6.6	Via survey data reporting website in Microsoft® Excel format.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the analysis shall be submitted no later than the first business day thereafter.	COR
A021	Action Plans	5.6.7	Via the survey data reporting website and via email in Microsoft® Word format.	No later than close of business 30 calendar days after the survey data collection period ends for each performance period. If scheduled due date falls on a weekend or a federal holiday, the plans shall be submitted no later than the first business day thereafter.	COR
A022	Exception Reports	5.6.8	Via the survey data reporting website	No later than close of business 30 calendar days after the survey data collection period ends for each	COR

			and via email in Contractor format.	performance period. If scheduled due date falls on a weekend or a federal holiday, the reports shall be submitted no later than the first business day thereafter.	
A023	Ad-Hoc Reports	5.6.9	Via the survey data reporting website and via email in Government format at time of request.	As needed. If the scheduled due date falls on a weekend or a federal holiday, the reports shall be submitted no later than the first business day thereafter.	COR
A024	Training Program	5.6.10 (a)	Briefing via MS Teams with read ahead provided via email in Microsoft® PowerPoint format	Briefing no later than 45 calendar days after the survey data collection period ends for each performance period and read ahead no later than 48 hours prior to the scheduled time for the presentation.	COR
A025	Performing Improvement Training	5.6.10 (b)	Briefing via MS Teams with read ahead provided via email in Microsoft® PowerPoint format.	As needed. Briefing no later than 45 calendar days after the survey data collection period ends for each performance period and read ahead no later than 48 hours prior to the scheduled time for the presentation.	COR
A026	After Action Report	5.6.11	Via the survey data reporting website in Microsoft® Word and Adobe® PDF.	No later than close of business 60 calendar days after the survey data collection period ends for each performance period. If the scheduled due date falls on a weekend or a federal holiday, the report shall be submitted no later than the first business day thereafter.	COR
A027	Meeting Minutes	5.6.12 (a) and (b)	Via email in MS Teams recording format or Contractor format, as applicable.	No later than close of business five (5) calendar days post meeting.	COR
A028	Non-Disclosure Agreement	1.17.2.1	Electronic via email using Adobe PDF format	Within 3 business days of award notification and within 3 days of new FTE	COR

Technical Exhibit B
Performance Requirements Summary

The Contractor service requirements are summarized into performance objectives that relate directly to mission essential items. The performance threshold briefly describes the minimum acceptable levels of service required for each requirement. These thresholds are critical to mission success.

Performance Objective	Performance Standards	Acceptable Quality Levels	Surveillance Method
PO 1 - Timeliness of Deliverables Required by the Contract	Deliverables shall be submitted in accordance with the deliverables schedule summarized within Section 5.0	Deliverables are submitted in the time period specified 95% of the time.	100 Percent Inspection
PO 2 - Accuracy of Deliverables Required by the Contract	Deliverables are complete and correct when submitted.	100% of all deliverables are complete and correct with no more than 3 substantive errors in content per deliverable.	100 Percent Inspection
PO 3 - Overall Management of Tasks	Provide suitable program management support to coordinate task activities and ensure successful management and completion of each task area.	100% of all requirements met. Any problems encountered are minor and resolved in a satisfactory manner 100% of the time.	Random Sampling
PO 4 - Efficiency & Effectiveness of Performance	Perform contract requirements ensuring an unconstrained flow of information to effectively and efficiently complete requirements within the specified schedule.	100% of all requirements met. Any problems encountered are minor and resolved in a satisfactory manner 100% of the time.	Random Sampling
PO 5 - Responsiveness	Provide services that allow for a rapid response in supporting MCICOM.	100% of all requirements met. Any problems encountered are minor and resolved in a satisfactory manner 100% of the time.	Random Sampling

Re-performance of unacceptable services at no additional cost will be the preferred course of action when appropriate. The absence of any contract requirement from this PRS shall not detract from its enforceability nor limit the rights or remedies of the Government under any other provision of the contract. The Government has the right to inspect all tasks within the PWS, not just the Performance Objectives listed above. Inspection of all Performance objectives is continuous throughout each performance period.

Technical Exhibit C
Estimated Workload Data

A. Services (Labor): The following estimated annual workload data is provided for reference only to aid the Contractor in its understanding of the potential scope of effort required for TSS support services per 12-month performance period by correlated Survey Population Group. This data DOES NOT constitute a staffing solution that the Government requires as this contract is performance based, and the Contractor must provide the staffing required to satisfy the requirements of this contract and meet the performance objectives and deliveries herein. All data is based on a full-time equivalent (FTE) of 1,912 hours based on 2,080 hours per man-year, taking into account two (2) weeks of vacation and eleven (11) federal holidays. The Contractor's price shall include all risks associated with performance of the contract, to include any variance to the estimated data provided below.

Scope of Work by Survey Population Group – all applicable tasks	Estimated Level of Effort (i.e., man hours) For a 12-Month Performance Period
Tenant Satisfaction Survey (TSS) Support Services – Public Private Venture (PPV) Housing	1,165
Tenant Satisfaction Survey (TSS) Support Services – Unaccompanied Housing (UH)	920
Tenant Satisfaction Survey (TSS) Support Services – Family Housing (FH)	745
Total	2,830

B. Travel – Not Applicable

C. Other Direct Costs ODCs – The specific printing, packaging, and shipping parameters for the Unaccompanied Housing Survey Door Hangers (CDRL A009) are not fully determinable and are subject to outside forces that may impact final pricing. However, the Government has included its estimated quantities and anticipated shipping destinations for these items within this PWS to aid the Contractor's understanding. Please refer to PWS Section 1.11 Other Direct Costs and its subsections as well as PWS Section 5.3.4 UH TSS Survey Door Hangers (CDRL A009) for additional information.

Technical Exhibit D
Overseas Performance Requirements

Not Applicable to this contract / Task Order.
