

MEMORANDUM FOR THE RECORD (MFR)

(This is only applicable for acquisitions valued at or below the simplified acquisition threshold (SAT) using FAR 12.102. IAW FAR 12.102(a), this form is used to document the decision that only one source is available and the basis for the decision.)

Subj: USE OF OTHER THAN FULL AND OPEN COMPETITION FOR AN ACQUISITION UNDER THE SIMPLIFIED ACQUISITION THRESHOLD

I. DESCRIPTION OF ITEM OR SERVICE:

C.900F requires programmer training on Allen Bradley programmable logic controllers (PLCs), which are a Rockwell Automation product line. Currently, Code 900F relies exclusively on several separate external contractors to fulfill this skill gap, which leads to higher project costs, less project adaptability, and longer project lead times.

The service provided is a set of 4 Allen Bradley PLC training classes that hosts 12 individuals. The training culminates in an assessment that, if passed, awards each student a ControlLogix Programmer certificate. The training courses are: CCP 146 – Studio 5000 Logix Designer Level 1: ControlLogix System Fundamentals, CCP 151 – Studio 5000 Logix Designer Level 2: basic Ladder Logic Programming, CCP 143 – Development and Programming of ControlLogix Projects, CCV204-A – FactoryTalk View ME and PanelView Plus Programming, and T-CLXPT – ControlLogix Programmer Assessment. This Allen Bradley PLC training must be provided by an authorized distributor of Rockwell Automation products. For the Puget Sound area, the only authorized distributor is North Coast Electric.

II. THE DETERMINATION FOR USE OF OTHER THAN FULL AND OPEN COMPETITION IS BASED ON THE FOLLOWING (select all that apply):

A. ☒ ONLY ONE RESPONSIBLE SOURCE AND NO OTHER SUPPLIES OR SERVICES WILL SATISFY AGENCY REQUIREMENTS (FAR 6.103-1):

The item or service is only available from the Original Equipment Manufacturer (OEM), or there is only one authorized distributor or technical representative for the OEM.

*All current and near-term PLC equipment that has been purchased or will be purchased by Code 900F are Allen Bradley branded PLCs. Code 900F needs to learn how to program this equipment outside of contractor control to provide Puget Sound Naval Shipyard with better project outcomes, faster and more adaptable service, and more cost-effective solutions. Rockwell Automation has authorized distributors in every region that are allowed to provide Allen Bradley PLC training. The authorized distributor for Rockwell Automation training in the Puget Sound area is North Coast Electric. See **Figure 1** for an email confirmation from another Rockwell Automation authorized distributor stating that North Coast Electric Company is the sole authorized distributor to service Puget Sound Naval Shipyard due to its geographic location. It is critical that the PLC classes are hosted at PSNS so that the Code 900F resources attending the class are available to service PSNS in case of an emergency need.*

A. ☐ UNUSUAL AND COMPELLING URGENCY (FAR 6.103-2)

B. ☐ INDUSTRIAL MOBILIZATION; ENGINEERING, DEVELOPMENTAL, OR RESEARCH CAPABILITY; OR EXPERT SERVICES (FAR 6.103-3)

C. ☐ INTERNATIONAL AGREEMENT (FAR 6.103-4)

D. ___ AUTHORIZED OR REQUIRED BY STATUTE (FAR 6.103-5)

E. ___ NATIONAL SECURITY (FAR 6.103-6)

F. ___ PUBLIC INTEREST (FAR 6.103-7)

III. CERTIFICATIONS/APPROVALS:

- A. **Technical / Requirements Certification:** I certify that the facts and representation under my cognizance which are included in this justification are complete and accurate to the best of my knowledge and belief.
