1. Description of Services.

The contractor shall provide all management, tools, supplies, equipment, uniforms and labor necessary to provide Vehicle Maintenance (VM) uniform lease and laundering services for the 90th Logistics Readiness Squadron (LRS) at F.E. Warren Air Force Base, Wyoming, in accordance with all applicable federal, state, local laws and regulations and this performance work statement (PWS).

1.1. Basic Services. The contractor shall issue, inspect, repair, clean, and return each week, or as otherwise coordinated (with Contracting Officer's Representative (COR) or Contracting Officer) all leased garments. All items, to include work shirts, cotton shirts, work pants, and coveralls, shall be blue. Each shirt and coverall shall have an embroidered name or embroidered patch on the right breast and the squadron mechanic logo either embroidered or on an embroidered patch, per the attached sample. Each item shall be free of all grease, debris, cleaning residue, mud, and other foreign material after cleaning. Small tears shall be repaired; major tears not on a seam shall require replacement of the garment. Acceptable repairs shall use color-matched thread and be stitched to lie flat with no puckering of the original fabric. The COR reserves the right to reject any garment if a repair does not meet appearance standards. The contractor shall produce an itemized delivery / pickup receipt (with each delivery / pickup) listing the exact number of each type of item.

NOTE: All garments shall be returned ready for immediate issue. Each item shall be clean, completely dry, and individually folded to present a neat, uniform appearance free of excessive wrinkling. The cleaning and drying process shall not result in any damage, such as shrinkage, discoloration, or fabric degradation.

1.1.1. Re-performance of Laundering. Any items found to have been unsatisfactorily laundered, as determined by the Contracting Officer or the COR, shall be re-laundered at no additional charge to the Government. The COR shall identify such items to the Contractor after the unsatisfactory condition is discovered. The item(s) shall be re-laundered and returned on the next scheduled delivery day. If the return falls on a weekend or legal holiday, the items shall be returned on the next normal delivery day.

1.1.2. Issuance of Garments. The contractor shall provide technicians with a quantity not to exceed 77 shirts (including cotton shirts), 77 pants, and 160 coveralls per year. This allocation includes no more than seven (7) shirts and seven (7) pairs of pants per civilian employee and no more than four (4) coveralls per military member. The contractor shall perform an onsite measurement of all personnel within 10 business days of contract award. The contractor shall revisit the site to measure any new employees within 14 days of notification from the COR. New garments shall have the VM Logo and Name patches attached in accordance with Appendix C – Patch Standards. The Government will be responsible for garments that are lost or damaged due to negligence or misuse.

1.1.2.1. Delivery of New Garments. The contractor shall provide four shirts and four pairs of pants or two sets of coveralls per individual within 30 days of measurement. The remaining garments shall be delivered within 60 days of measurement.

1.1.2.2. Replacement of Garments. If a garment cannot be repaired, the contractor shall replace it. This shall be treated as a new garment for measurement (para 1.1.2.) and delivery (para 1.1.2.1.) purposes. This is a one-for-one swap and shall not count against the "not to exceed" number of garments per year defined in section 1.1.2.

1.1.3. Missing / Damaged Items. If an item is retained by the contractor for repair, it shall be repaired and returned to the Government within 30 days. If items are lost or damaged by the Contractor beyond repair, the Contractor shall replace the item with one of identical make and quality at no cost to the Government within 30 days. This replacement shall not be counted against the annual garment allocation limits in para 1.1.2.

1.1.4. Industrial Laundry Carts. The contractor shall provide laundry cart(s) for the storage of soiled items. Clean items shall be left at the designated drop-off locations (Bldg 1245), and the contractor shall reutilize the cart(s) to collect soiled items for the next scheduled pickup.

1.1.5. Inventory Accountability & Reconciliation. The contractor shall be responsible for accounting for all leased garments. Within 10 business days of COR notification that an employee has departed, the contractor shall retrieve all issued garments from the designated collection point. A full inventory reconciliation shall be conducted jointly by the contractor and the COR on an annual basis to account for all issued garments.

1.1.6. Garment Sizing and Availability. The contractor shall be responsible for providing properly fitting garments for all personnel covered under this PWS. The contractor's proposed price shall be inclusive of all standard commercially available sizes required to fit the workforce. For the purpose of this contract, standard sizes are defined as shirt and coverall sizes from Small to 3XL and pant waist sizes from 28 to 44 inches. The replacement of a garment due to personnel turnover (i.e., an outgoing employee is replaced by a new employee of a different size) is considered a one-for-one swap of the service and shall not incur any additional charges, surcharges for larger sizes, or count as a new garment against the annual limits defined in paragraph 1.1.2. The contractor is responsible for managing their inventory pool to accommodate these changes as a normal cost of doing business.

2. Services Summary.

The contractor service delivery requirements are summarized into performance objectives that relate directly to standards of performance required to meet mission essential needs. For the Performance Objective to be met, service delivery must be in substantial compliance with applicable performance standards. The Performance Threshold describes the minimum overall levels of service delivery required for acceptable quality control. Failure to meet these Performance Thresholds means that contractor Quality Control is unacceptable. The following is a list of the key performance objectives that will be verified as contractually compliant by Government personnel; however, inspection of any contract requirement is authorized.

Performance Objective	PWS Para.	Performance Threshold	Method of Surveillance
SS-1: Provide Clean & Repaired Garments.	1.1	No more than 1 discrepancy per month. All garments shall be returned weekly and be 100% free of grease, debris, and residue. Repairs must meet appearance standards (color-matched thread, lie flat). Itemized receipts provided with every delivery.	- 100% Inspection - Customer Feedback
SS-2: Remedy for Unsatisfactory Service.	1.1.1.	No more than 1 discrepancy per month. Unsatisfactory items shall be re-laundered at no cost and returned by the next scheduled delivery day.	- 100% Inspection - Customer Feedback
SS-3: Initial & New Employee Outfitting.	1.1.2.	No more than 1 discrepancy per month. The contractor shall measure all personnel within 10 business days of award and new employees within 14 days of notification.	- 100% Inspection - Customer Feedback
SS-4: Delivery of New Garments.	1.1.2.1.	No more than 1 discrepancy per month. The initial set of garments shall be delivered within 30 days of measurement; remaining garments shall be delivered within 60 days of measurement.	- 100% Inspection - Customer Feedback
SS-5: Replacement of Damaged Items.	1.1.2.2 & 1.1.3.	No more than 1 discrepancy per month. Garments retained for repair shall be returned within 30 days. Garments lost or damaged beyond repair by the contractor shall be replaced with an identical item within 30 days at no cost.	- 100% Inspection - Customer Feedback
SS-6: Provide Collection Equipment	1.1.4.	The contractor shall provide sufficient laundry carts for the collection of all soiled items.	- Periodic Surveillance - Customer Feedback

3. Government Furnished Property and/or Services

3.1. Government Furnished Property.

3.1.1. None

3.2. Government Furnished Services.

3.2.1. None

4. General Information.

4.1. Quality Control.

The contractor is required to control the quality-of-service delivery and offer to the Government for acceptance only services which conform to contract requirements. The overall control of quality must meet the specified performance thresholds for each requirement in the Services Summary.

4.2. Quality Assurance

The Government will evaluate the contractor's performance by appointing a representative(s) to monitor performance to ensure services are received. The Government representative will evaluate the contractor's performance through on-site inspections and receipt of customer complaints. The Government will inspect each task as completed. The Government will investigate complaints received from customers. The Government representative shall make final determination of the validity of customer complaint(s) in cases of disagreement with customer(s). Remedies for non-conforming services will be resolved IAW the applicable Inspection/Acceptance clause attached within the contract.

4.2.1. The Contracting Officer's Representative (COR) is the authorized Government representative(s) who will perform assessments of the contractor's performance. After contract award, the identity of the COR(s), with a letter defining their duties and authority will be promptly furnished to the successful bidder/offeror.

4.2.2. The COR(s) will inform the contract manager when discrepancies occur and will request corrective action. The COR(s) will make a notation of the discrepancy on their surveillance checklist with the date and time the discrepancy was noted and will request the contract manager (or authorized representative) to acknowledge the discrepancy.

4.2.3. Any matter concerning a change to the scope, prices, terms, or conditions of this contract shall be referred to the Contracting Officer and NOT to the COR(s).

4.2.4. The services to be performed by the contractor during the period of this contract shall (at all times and places) be subject to review by the Contracting Officer or authorized representative(s).

4.3. Security Requirements.

The contractor shall be responsible for all passes issued to their employees under this contract. Applications shall be coordinated by the Contracting Officer or designated representative. At the time of application, Security Forces will conduct a background check on employees. Upon termination of employment or contract completion, the contractor shall be responsible for returning identification cards/base passes to Security Forces within 24 hours.

4.3.1. REAL ID-Compliant Identification.

IAW DoDM 5200.08V3_DAFMAN 31-101V3_DAFGM 2024-01, *Installation Perimeter Access Control*. Base access and Common Access Cards (CAC) requests will require REAL ID-Compliant identification for Base access and CAC creation. Failure of the vendor to ensure personnel have REAL ID-compliant identification will result in denial of Base access and CAC requests.

4.3.1.1. Contractor Access to Department of the Air Force Installations. The contractor shall obtain base identification and vehicle passes, if required, for all contractor personnel who make frequent visits to or perform work on the Department of the Air Force installation(s) cited in the contract. Contractor personnel are required to wear or prominently display installation identification badges or contractor-furnished, contractor identification badges while visiting or performing work on the installation.

The contractor shall submit a written request on company letterhead to the contracting officer listing the

following: contract number, location of work site, start and stop dates, and names of employees and subcontractor employees needing access to the base. The letter will also specify the individual(s) authorized to sign for a request for base identification credentials or vehicle passes. The contracting officer will endorse the request and forward it to the issuing base pass and registration office or Security Forces for processing. When reporting to the registration office, the authorized contractor individual(s) should provide a valid driver's license, current vehicle registration, valid vehicle insurance certificate, and [*insert any additional requirements to comply with local security procedures*] to obtain a vehicle pass.

During performance of the contract, the contractor shall be responsible for obtaining required identification for newly assigned personnel and for prompt return of credentials and vehicle passes for any employee who no longer requires access to the work site.

When work under this contract requires unescorted entry to controlled or restricted areas, the contractor shall comply with *[insert any additional requirements to comply with [DAFI 31-101, Integrated Defense](#), and [DODMAN5200.02 DAFMAN 16-1405 , Air Force Personnel Security Program](#)]* citing the appropriate paragraphs as applicable.

Upon completion or termination of the contract or expiration of the identification passes, the prime contractor shall ensure that all base identification passes issued to employees and subcontractor employees are returned to the issuing office.

The contractor shall provide an after-hours contact number or after-hours email in the Emergency Mass Notification System (EMNS) for each of their personnel, whose normal place of duty is on a DoD installation or within a DoD facility. The contractor shall comply with any additional requirements in DAFMAN 10-206 for emergency operational reporting. Foreign Nationals may participate and may remove themselves from the Emergency Mass Notification System at any time. To update information, personnel can access the globe icon on their system desktop screens and choose the "Access Self-Service" option.

Failure to comply with these requirements may result in withholding of final payment.

4.4. Physical Security.

The contractor shall be responsible for safeguarding all Government property provided for contractor use. At the close of each work period, Government facilities, property, and materials shall be secured.

4.5. Operational Security (OPSEC).

The contractor shall adhere to the following minimum requirements in support of this requirement:

4.5.1. All contractors, subcontractors, their employees, associates, and consultants who have access to critical information and indicators must comply with the Air Force-sponsored Operations Security (OPSEC) program.

4.5.2. OPSEC is an information-related capability that preserves friendly essential secrecy by using a process to identify, control, and protect critical information and indicators. If critical information and indicators are disclosed, it could allow adversaries or potential adversaries to identify and exploit friendly vulnerabilities leading to increased risk to mission failure or the loss of life. The desired effect of OPSEC is to influence the adversary's behavior and actions by reducing the adversary's ability to collect and exploit critical information and indicators about friendly activities.

4.5.3. Responsibilities:

4.5.3.1. Contractors must ensure employees receive OPSEC education that includes an overview of the OPSEC process, the definition of OPSEC, its purpose, what is critical information, the individual's role in protecting critical information, and the general adversary threat to the AF's critical information. Additionally, OPSEC

education must include updated threat information, changes to critical information and indicators, new procedures and/or OPSEC measures implemented, altered, or deleted by the organization.

4.5.3.2. DoD Contractors with OPSEC requirements or that have access to critical information and indicators shall complete initial and annually-recurring refresher training. Accomplishment of initial OPSEC training must not exceed 90 days from initial assignment to a contract with OPSEC requirements. Access to mission-critical information will not be allowed until OPSEC education has been completed and documented.

4.5.3.3. OPSEC education is a continuous requirement. The host unit OPSEC coordinator must track OPSEC training statistics to include the personnel working on the contract, when each individual received the required initial OPSEC training, and when refresher training is due and/or completed.

4.5.4. Contractor personnel shall not discuss government operations in public or over unprotected or unencrypted communications. Controlled unclassified information (CUI) may only be transmitted as directed in this PWS.

4.5.5. The Contractor shall not post to company websites, publications, newsletters, or other media any images, data, or information that reveal sensitive government operations, personnel, equipment, and/or classified or controlled unclassified information. When in doubt, company press releases related to this contract should be coordinated through the COR or CO, as applicable.

4.5.6. Prior to seeking approval through the F. E. Warren AFB Public Affairs, any information to be released outside of official U.S. Government channels, via any media (to include electronic communications), must be approved through an OPSEC review. All personnel must promptly report OPSEC-related incidents, issues, and concerns to the host-unit OPSEC coordinator.

4.5.7. Contractor shall restrict access to those individuals with a valid need-to-know who are actually providing services under the contract. Further dissemination to other contractors, subcontractors, or other government agencies and private individuals or organizations is prohibited unless authorized in writing.

4.5.8. Because observation of events, operations, physical changes, etc., may reveal National Security information, specific restrictions are needed to preclude unintentional release of this information to unauthorized parties. Unauthorized disclosure and transfer of National Security Information is punishable under 18 USC § 793. Therefore, contractor personnel shall not disclose to unauthorized third parties, post to unofficial sites (including Social Networking sites) any images, data/information, or observed events that reveal sensitive government operations, personnel, equipment, including, but not limited to:

4.5.8.1. Tactics, techniques, and procedures, production, or work schedules, any visible or concealed modifications, upgrades, additions to vessels, aircraft, or weapons or equipment; increases, change, or decreases in work/deployment frequency or government personnel, vehicle, vessel, or aircraft movements; specialized equipment orders, deliveries, shipments, etc. Unauthorized disclosures and attempts to solicit this type of information by unauthorized third parties or others not affiliated with this contract shall be reported to the COR or CO, as applicable.

4.5.8.2. Government issued badges, identification shall be removed and/or concealed from plain sight when off base and shall not be left in vehicles or unprotected areas. Badges and passes may not be duplicated, copied, or loaned to others. Lost or stolen identification badges, vehicle passes, etc., will be immediately reported to the COR, CO, and/or Installation Security Office.

4.6. Anti-Terrorism

4.6.1. Notification: If the Contractor (contract employees/subcontractors) identify any suspicious activity, they shall contact the Base Defense Operations Center (BDOC) at 307-773-3501 (On-installation)/Missile Security Control (MSC) at 307-773-2701 (Off-installation) and notify the CO and COR (if appointed) that they contacted the BDOC and/or MSC.

4.6.2. Training. Contractor employees that require routine physical access to a Federally-controlled facility or military installation shall complete Level I antiterrorism awareness training within 30 days of requiring access and annually thereafter and send a copy of their employees' training certificate(s) to the CO and COR (if assigned). Training is located at Joint Knowledge Online (JKO) website:
<https://jkodirect.jten.mil/Atlas2/page/login/Login.jsf>

4.7. Location/Hours of Operation.

4.7.1. Location. Place of performance is at FE Warren AFB WY.

4.7.2. Normal Hours of Operation. The contractor shall perform the services required under this contract during the hours listed within Table 1, Location and Hours of Work. The contractor may work (with prior approval of the CO) extended hours to ensure timely completion of work at no additional cost to the Government.

4.7.3. Recognized Holidays. The contractor is not required to provide service on the following days, unless otherwise noted:

- New Year's Day (January 1).
- Birthday of Martin Luther King, Jr. (Third Monday in January).
- Washington's Birthday (Third Monday in February).
- Memorial Day (Last Monday in May).
- Juneteenth National Independence Day (June 19).
- Independence Day (July 4).

- Labor Day (First Monday in September).
- Columbus Day (Second Monday in October).
- Veterans Day (November 11).
- Thanksgiving Day (Fourth Thursday in November).
- Christmas Day (December 25).

If the holiday falls on Saturday, it is observed on Friday. If the holiday falls on a Sunday, it is observed on Monday.

Table 1. Location and Hours of Work

Building No.	Name of Facility	Days	Time
1245	Vehicle Maintenance	Monday - Friday	0700 - 1630 hours

4.8. Conservation of Utilities.

The contractor shall instruct employees in utilities conservation practices. The contractor shall be responsible for operating under conditions which prevent the waste of utilities which include the following:

4.8.1. Lights shall be used only in areas where and when work is being performed.

4.8.2. Mechanical equipment controls for heating, ventilation, and air conditioning systems shall not be adjusted by the contractor or by contractor employees unless authorized.

4.8.3. Water faucets or valves shall be turned off after the required use has been accomplished.

4.8.4. Government telephones shall be used only for official Government business.

4.9. Environmental Controls.

4.9.1. **Compliance with Laws and Regulations.** The contractor shall be knowledgeable of and comply with all applicable Interstate, federal, state, and local laws, regulations, and requirements regarding environmental protection, to include Section 01 57 19.05 32, Environmental Protection. In the event environmental laws/regulations change during the term of this contract, the contractor is required to comply as such laws come into effect. If there is an increase or decrease in cost because of the change, the contractor shall inform the CO pursuant to notice requirements and negotiate a modification to the contract.

4.9.2. **Notification of Environmental Spills.** If the contractor spills or releases any substance contained in 40 CFR 302 into the environment, the contractor or its agent shall immediately report the incident to the F.E. Warren AFB Fire Dept at 911 (landline) or 307-773-2931 (cell phone). The liability for the spill or release of such substance(s) rests solely with the contractor and its agent.

4.9.3. **Hazardous Material (HM).** If hazardous materials will be used in the execution of this contract, the contractor shall comply with all federal, state and local regulations concerning the use, storage, and reporting of HM in accordance with DAFMAN 32-7002, Environmental Compliance and Pollution Prevention. The contractor shall be required to obtain authorization per the Installation Hazardous Materials Management Program before ordering or purchasing any hazardous product and may not bring a HM onto F.E. Warren AFB

property, nor use a HM, until the contractor receives all required authorizations. This authorization process may take up to three weeks. The contractor shall provide the information listed in Attachment 1 of Section 01 57 19.05 32 to request authorization for all hazardous materials proposed for use on FE Warren AFB or the missile field.

4.9.4. Green Procurement Program (GPP). In performance of this contract, contractors shall use Environmental Protection Agency (EPA) designated recycled content products, Information Technology (IT) Energy Star products/appliances, Federal Energy Management Program (FEMP) Designated Energy Efficient Low Stand By Power products/appliances, U.S. Department of Agriculture (USDA) Bio based/Bio preferred products, Environmentally preferable products, Electronic Product Environmental Assessment Tool (EPEAT) registered products, Water Sense or other water efficient products, non- or Low Ozone depleting substances under the Significant New Alternatives Policy (SNAP), non or Low toxic or hazardous constituents (e.g. non-VOC paint) and any other environmentally sustainable product/method, to the greatest extent possible.

4.10. Safety Requirements.

4.10.1. In performing work under this contract, the contractor shall:

4.10.1.1. Conform to the safety requirements contained in the contract and 90 MW Safety Contractor Guide for all activities related to the accomplishment of the work.

4.10.1.2. Record and report promptly (within one hour), to the contracting officer or designated COR, all available facts relating to each instance of damage to Government property, and preserve evidence until released by the accident/mishap investigative authority through the CO.

4.10.1.3. In the event of an accident/mishap, take reasonable and prudent action to establish control of the accident/mishap scene, prevent further damage to persons or property, and preserve evidence until released by the accident/mishap investigative authority through the CO.

4.10.2. Health and Safety on Government Installations. In performing work under this contract on a Government installation, the contractor shall:

4.10.2.1. Take all reasonable steps and precautions to prevent accidents and preserve the health and safety of contractor and Government personnel performing or in any way coming in contact with the performance of this contract; and

4.10.2.1.1. Take such additional immediate precautions as the contracting officer may reasonably require for health and safety purposes.

4.10.2.2. The contracting officer may, by written order, direct Department of the Air Force Occupational Safety and Health (AFOSH) Standards and/or health/safety standards as may be required in the performance of this contract and any adjustments resulting from such direction will be in accordance with the Changes clause of this contract.

4.10.2.3. Any violation of these health and safety rules and requirements, unless promptly corrected as directed by the contracting officer, shall be grounds for termination of this contract in accordance with the Default clause of this contract.

4.11. Contractor Personnel.

4.11.1. **Contract Manager:** the contractor shall provide a contract manager who shall be responsible for the performance of the services. The name of the contract manager shall be provided to the CO in writing prior to the beginning of the first performance period. The contract manager must be able to read, write, speak, and understand English.

4.11.1.1 The contract manager shall have full authority to act for the contractor on all contract matters relating to daily operations of this contract.

4.11.2. **Contractor Employees:** the contractor shall not employ persons for work on this contract if such employee is identified to the contractor by the CO as a potential threat to the health, safety, security, general well-being or operational mission of the installation and its population.

4.11.2.1. Contractor personnel shall present a neat appearance and be easily recognized as contractor employees. This may be accomplished by wearing distinctive clothing bearing the name of the company or by wearing appropriate badges, which contain the company name and employee name in English.

4.12. **Records.** The contractor shall be responsible for creating, maintaining, and disposing of only those government required records that are specifically cited in this PWS. If requested by the Government, the contractor shall provide the original record, or a reproducible copy of any such record within five working days of receipt of the request.
