

**Special Notice DARPA-SN-26-57**  
**Strategic Technology Office (STO) Office-wide Industry Day**  
**Defense Advanced Research Projects Agency (DARPA)**

Posting Date: April 9, 2026

Event Date: June 8-9, 2026

Registration Deadline: May 15, 2026, at 1:00 p.m. Eastern Time (ET)

Registration Website: <https://cvent.me/e9mAMw>

Technical POC: Dr. John Paschkewitz, Office Director

E-mail: [DARPA-SN-26-57@darpa.mil](mailto:DARPA-SN-26-57@darpa.mil)

**DESCRIPTION:**

The Defense Advanced Research Projects Agency (DARPA) Strategic Technology Office (STO) will host a STO Office-wide Industry Day event on June 8-9, 2026. The event will be held at the DARPA Conference Center (DCC) located at 675 N. Randolph St., Arlington, VA 22203.

**Advance registration is required. There will be no on-site registration. This event will be hosted in-person only.** The event will include presentations by the STO Director and Program Managers (PM), panel discussions, and an opportunity for one-on-one engagement with STO PMs via sidebar meetings.

The purpose of the event is to (1) familiarize attendees with STO's vision, problem spaces, PMs, and technology interests; and (2) facilitate technical discussion between STO PMs and attendees that explore innovative and impactful solution ideas for strategic national security challenges.

**This meeting will be held at the SECRET collateral level.**

**STO MISSION AND FOCUS AREAS:**

STO is DARPA's systems warfare office pursuing innovative and disruptive technologies for existing and future battlespaces. With peer competitors able to develop and field new capabilities at speeds unmatched by prior U.S. adversaries, STO focuses on the ability to provide warfighters with systems that enable superior adaptation at speed and scale and that create new opportunities for deterrence and overmatch.

STO's technical focus areas include:

- Multi-Domain Mission Systems – new systems and resilient architectures with the ability to sense and sense-make; includes AI-native planning & execution systems to provide orchestrating effects
- Maritime – maritime capabilities that leverage U.S. asymmetric advantages and create novel operational dilemmas for competitors and adversaries
- Space – space systems that leverage scaling provided by America's rapidly growing commercial space industry
- Industry, Infrastructure, and Information – strengthening U.S. assets and ecosystems, creating complexity to stymie potential adversaries, and accelerating our own ability to field new capabilities

## REGISTRATION INFORMATION:

The STO Office-wide Industry Day will be held on June 8-9, 2026, at the DARPA Conference Center (DCC) located at 675 N. Randolph St., Arlington, VA 22203. Advance registration is required and there will be no on-site registration.

Attendance is open to registrants with at least a SECRET clearance, on a first-come, first-served basis with no more than two representatives per business unit of an organization until venue capacity is reached. The determination of what constitutes a business unit will be made by DARPA. Interested parties are encouraged to coordinate attendance internally within their organizations prior to registration.

**Registration closes at 1:00 pm ET on May 15, 2026.** Visit requests, security clearances, and other applicable documents must be sent to DARPA by this time.

**Participants must register prior to registration close at <https://event.me/e9mAMw>.**

## SIDEBAR MEETINGS:

Registered attendees will have the option to request 15-minute sidebar meetings with STO PMs to further elaborate their specific technical fields. Only a limited number of meeting times are available and there is no guarantee all attendees will be scheduled for sidebar meetings.

**To best align the research interests of participants with those of STO PMs, interested parties must submit the request form provided at the end of this Special Notice prior to registration close.**

Attendees will be notified of their meeting time and on-site instructions. No additional sidebar meetings will be scheduled during the event. No more than 2 representatives may join in a single sidebar meeting.

Please note that no competition-sensitive information will be shared or discussed in the sidebar meetings.

Sidebar meetings may require additional clearances to be sent to DARPA. DARPA will notify the participants of their meeting time and classification of discussion. At that time, participants will have 5 business days to submit any additional clearance visit request. For those requesting an SCI-level sidebar discussion, SCI-level visit request can be sent proactively, prior to being notified of sidebar selection.

## SECURITY INFORMATION:

All attendees must transmit their security clearances to DARPA. **Clearances must be received prior to the registration close.** Failure to complete and submit the required forms prior to the registration deadline may result in the cancellation of existing registration.

- For collateral-level visits to DARPA, please have the Facilities Security Officer (FSO) send a visit request via Defense Information System for Security (DISS) using the SMO Code: DDAAUS4. You may also fax your clearance/visit request to DARPA at (703)

528-3655 or send it via encrypted e-mail to [SID-CPC@darpa.mil](mailto:SID-CPC@darpa.mil). The Technical POC is John Paschkewitz at (571) 218-4322 and the Security POC is Jamie Bugett. The purpose is to attend the STO Office-wide Industry Day 2026 DARPA-SN-26-57.

For additional instructions on sending visit requests and security clearances to DARPA, please visit <http://www.darpa.mil/policy/visitor-information>.

The optional sidebar meetings will be held at DARPA and may be offered up to the TOP SECRET/SCI-level classification. Attendees invited to sidebar meetings will be notified prior to the event, anticipated by 26<sup>th</sup> of May 2026. Based on highest classification requested by participants, classified meetings may require additional security clearance transmittal.

In anticipation of an SCI-level visits: Please fax your clearance/visit request to the SSO at 703-528-3655 (unclassified). You may also send your SCI visit requests as follows:

- Via JWICS, the requesting SSO may send a message with the visit information to SSO DARPA.
- Via DISS, the requesting SSO may send a visit request using the SMO Code DDAAUS2.

#### **TEAMING:**

To assist those wanting to establish collaborative teaming efforts and business relationships, participants may indicate on the registration website that they authorize their contact information to be shared among meeting participants. For organizations new to DARPA, this may be of use in connecting with potential partners. Team formation, communications, and networking are the sole responsibility of the participants.

#### **DISCLAIMERS:**

This Special Notice is issued solely for information and program planning purposes and does not constitute a formal solicitation for proposals or proposal abstracts; any so sent will be disregarded. In accordance with FAR 15.201(e), responses to this Special Notice are not offers and cannot be accepted by the Government to form a binding contract. Attendance is strictly voluntary and is not required to propose to subsequent Announcements (if any) or Solicitations (if any) on this topic. DARPA will not provide reimbursement for costs incurred in responding to this Special Notice. Respondents are advised that DARPA is under no obligation to acknowledge receipt of any information received or provide feedback to respondents with respect to any information submitted under this Special Notice.

**Strategic Technology Office (STO) Office-wide Industry Day  
Request for Program Manager Sidebar Form**

Responses are expected to be UNCLASSIFIED and should be submitted via email attachment to [DARPA-SN-26-57@darpa.mil](mailto:DARPA-SN-26-57@darpa.mil). No classified submissions should be emailed to this inbox.

To submit a classified response, interested participants must pre-coordinate via UNCLASSIFIED email request to [DARPA-SN-26-57@darpa.mil](mailto:DARPA-SN-26-57@darpa.mil). Email subject should read: "Request to submit classified sidebar materials." Email request should also include the intended classification of the content. At least one week prior to deadline for pre-coordination is recommended, for material to be received at DARPA prior to registration close.

Any responses received by DARPA after registration close may be rejected from consideration.

**SUBMISSION FORMAT:**

Responses should provide the information requested below and adhere to the following formatting specifications: 11- or 12-point font, single-spacing, 8.5 by 11-inch paper, 1-inch margins, either Microsoft Word or Adobe PDF format. Responses are limited to a cover page and one paragraph, half page maximum description. Each response may only address a single idea.

**A. Cover Page:**

- a. Respondent name, organization, telephone number, and email address
- b. Relevant STO technical focus area (Multi-Domain Mission Systems; Maritime; Space; Industry, Infrastructure, & Information)
- c. Program manager(s) best aligned to your research interests. You may select up to 3 PMs but must indicate at least one. Information on STO PMs may be found at <https://www.darpa.mil/about/offices/sto#pm>
- d. Desired classification of sidebar meeting: SECRET, TOP SECRET, or SCI-level

**B. Description:** In a brief paragraph (6-8 sentences max), describe your unique capability or insight and the national security capability the idea may help create. Explain what risk reduction is still required.
