

CUI
CAPABILITY ASSESSMENT PLAN (CAP)

The CAP survey collects information related to your company's ability to meet specific Surge and Sustainment requirements. There will be a list of NSNs, NIINs, or PGCs that will be apart of the solicitation. Those are the items the CAP will address.

Company Name:

CAGE:

Solicitation Number:

Phase:

Issue Date:

CAP Completion Date:

Section 1: Surge & Sustainment Coverage Capability (*can be completed as an Attachment excel file*)

FSC	NIIN	MWR	UI	Offered Amount	Offered Interval	Ramp Up Time	Initiation Point	Surcharge	Provision Method	End Days
0000	00-000-0000	100	EA	1000	30 Days	5 Days	ACR	0	External Supplier	0

Section 2: Description of Constraints

This section describes your constraints or difficulties meeting the requested Surge requirements. If the constraint is too much to overcome internally and you need additional assistance from the government, recommend using Section 3. However, you may not need an investment, only time to realign your business process or resolve an issue with a sub-vendors or suppliers.

Section 3: Proposed Solutions & Government Investments Required to Obtain S&S Coverage Capability (**Optional**)

Clearly explain the investment recommendation. This recommendation may be pursued by the DLA Industrial Capability & Warstopper Program as an Industrial Capability Assessment (ICA).

CUI
CAPABILITY ASSESSMENT PLAN (CAP)

Section 3.1: Coverage to be Gained

- *Only Enter if you are recommending an investment*

Section 3.2: Funding Requirements to Obtain S&S Coverage – Investment Cost Details

- *Only Enter if you are recommending an investment*

Cost Name	Time Saved	Applies to	Year 1	Year 2	Year 3	Year 4	Year 5	Total
	100 Days	Product Group	\$1	\$1	\$1	\$1	\$1	\$5
