

**Department of Health and Human Services
Indian Health Service**

**Statement of Work (SOW)
Call Detail Records (CDR)**

1. PURPOSE OF THE PROJECT

The Indian Health Service (IHS), a federal agency within the Department of Health and Human Services, is responsible for providing federal health services to American Indians and Alaska Natives. The mission of IHS is to raise the physical, mental, social, and spiritual health of American Indians and Alaska Natives to the highest level and assure that comprehensive, culturally acceptable personal and public health services are available and accessible to members of the 574 federally recognized Tribes across the United States.

The Oklahoma City Area Indian Health Service is comprised of Joint Commission accredited federal facilities in Oklahoma. To meet our mission, CDR (call detail records) are a modality that has been deemed necessary to monitoring telecommunications services as such are necessary to support and supplement health care operations within the facilities. The mission of the Oklahoma City Area Indian Health Services is to deliver quality care in order to attain positive health outcomes for all our valued patients with emphasis on cultural sensitivity and human dignity.

The Oklahoma City Area includes Oklahoma City Area Office, Lawton Indian Hospital, Anadarko Indian Clinic, Carnegie Indian Clinic, Clinton Indian Health Center, El Reno Health Center, Haskell Indian Health Center, Pawnee Indian Health Center, Watonga health Center, and Wewoka Indian Health Center for the intent of this need. These facilities have a requirement for CDR.

2. DETAILED DESCRIPTION OF THE TECHNICAL REQUIREMENTS

- 2.1. The contractor shall provide a 911 calls report that will provide total call usage for 911/emergency calls from the Cisco Unified Communications Manager with directory number groupings and granular call history details included.
- 2.2. The contractor shall provide an abandoned calls report that will provide a system wide abandonment call usage in your Cisco Unified Communications Manager with device description grouping and granular call history details included.
- 2.3. The contractor shall provide a detailed hunt group based report designed to identify callers that have called in more than one time during the reporting timeframe.
- 2.4. The contractor shall provide multi-direction extension or caller ID searching to include high level summarization as well as the granular call history details based on the inputted values or patterns.
- 2.5. The contractor shall provide a list of dormant extensions within Cisco Unified Communications Manager that have no call usage over a selected time period. These can be based on all dormant extensions, a group of dormant extensions, specific device pools or device types.
