

SOLE SOURCE DOCUMENTATION

FAR PART 13

Purchase Orders Over \$10,000 but not Exceeding \$250,000

Acquisitions that do not allow for competition to the maximum extent practicable must be documented in accordance with Federal Acquisition Regulations (FAR). A Limited Sources Justification is required when soliciting fewer than three sources per FAR [13.104](#), or when using brand name descriptions per FAR [13.106-1\(b\)\(1\)](#). A Limited Sources Justification is not required for brand name or equal procurements. Follow procedures at [FAR PART 11.104](#).

Type of action: ☒ sole source acquisition

☐ brand-name

DAC Number: **D-26-NE-0042**

Estimated total amount:

Recurring Requirement: ☒ YES ☐ NO

☐ Delivery Date:

☒ Period of Performance: **04/11/2026 - 04/10/2027**

Brief description of supplies or services required and the intended use:

DEA operates an extensive network of License Plate Reader (LPR) cameras across the U.S. under the National License Plate Reader (NLPR) program. This includes demands from the field to expand program capabilities by adding LPR resources for use by DEA divisions and enforcement partners in order to support case specific requirements as well as ongoing interdiction efforts. The NLPR program utilizes multiple LPR vendors in order to meet accomplish its mission and to be able to integrate with state and local partners who often utilize specific LPR brands, which require proprietary integration. The following is a description that this agreement/purchase/services with Vigilant Solutions will provide to DEA/NLPR and the DEASIL Application through Vigilant Solution's single source LPR system. 1. Access to authorized Agency shared Law Enforcement (LE) data on Motorola's national vehicle location server, upon execution of ESA Addendum for API data access by LE affiliates 2. Results of detections for queried place (photo, GPS coordinates, time and date) 3. Query Capabilities: Partial Plate Query (3 character minimum), Wildcard Query, Year/Make/Model (YMM) Query (no VIN querying via API) 4. Capture results of LPR detection records to include: [Plate OCR], [Date], [Latitude], [Longitude], [Vehicle Image], and [Plate Image], 5. Standard API Plate Query capabilities (5,000 record maximum response) : Exact Plate From Date / To Date Polygon zoned map (Location) Record Count 6. Advanced API Plate Query capabilities (500 record maximum response) : All Standard API Plate Query capabilities Partial Plate Query (3 character minimum) Wildcard Queries (3 character minimum) Vehicle Year/Make/Model filtering Address Searching with Radius Polygon.

Summary of the facts and circumstances that support the determination that ☒ only one source is reasonably available to supply the required supplies or services, or ☐ only the specified brand-name items can satisfy the Government's need:

Motorola Solutions, Inc. (MSI) / Vigilant Solutions (VS) will develop services according to the requirements listed with an agreement that specified integration requirements from Drug Enforcement Administration (DEA) are met on the independent Motorola Solutions, Inc/Vigilant Solutions platform.

MSI/VS will provide SFTP Data Replication services to support the existing cameras purchased and provisioned by DEA through Motorola Solutions prior to the date of (04/11/2026). A list of cameras provisioned on Vehicle Manager platform is listed in (Appendix A) below and will define which cameras to be replicated via SFTP communications until post-production of the PlateQuery API is implemented. Serial numbers of approved cameras to be provided by DEA. Upon review, if the DEA provisioned camera has been swapped or replaced with RMA stock, the replaced camera with the new serial number can be provided as a replacement of an existing camera. However, the total allotted camera count will remain the same. SFTP Data Replication services will be made available for (1) one year from the date of (04/11/2026).

MS/VS will provide access and support to shared agency data via "Advanced PlateQuery API" services that can be consumed via single Federated plate query. The DEA's DEAIL application will perform ad hoc (human generated) searches for License Plate Recognition (LPR) Data ("detections") at the request of DEASIL users.

Alerting web services will communicate LPR Hot Plate alerts between the VehicleManager platform and the DEASIL endpoint. Requires web service developed and supported by DEA for VehicleManager to publish alert packages. A service developed and supported by MSI/VS to publish the alert packages. A service developed and supported by MSI/VS to publish the alert data in near real-time to required DEASIL webhook service.

MSI/VS will support a a list of vehicles of interest (Hot Plates) that will be used to generate alerts to match LPR detections, in which the DEA will upload Hot Plate records to the VehicleManager platform. The MSI/VS Hot Plate API service will facilitate the storage and

assignment of Hot Plates to generate alerts when a target vehicle (LPR Hit) is detected. Hot Plates can be managed via VehicleManager web interface upon successful upload.

Describe in detail any market research conducted. Include results and state whether any vendors expressed interest:

Based upon the information provided and previous knowledge of LPR systems and vendors, review of the Sources Sought Synopsis (dated 4/24/14) and from current market analysis and experience in the marketplace, the requirements for the items in this request are proprietary, and Vigilant Solutions is the only authorized source that provides the capability to deliver the equipment/services requested.

The Contracting Officer hereby determines that, due to the circumstances of this procurement:

- ☒ Only one source is deemed to be reasonably available.
- ☐ Only the specified brand-name item will satisfy the Government's need. For orders exceeding \$25,000, this Limited Source Justification shall be made available together with the solicitation and posted on the Contract Opportunities page on the Governmentwide Point of Entry (SAM.gov) in accordance with FAR [5.101\(a\)\(1\)](#).
- ☒ The Contracting Officer certifies that an order for the supplies or services will not be placed unless the price is found to be fair and reasonable.
