

REQUEST FOR INFORMATION (RFI)

WLB-225 Transformer Anti Condensate Heater Install

RFI Number: 70Z08526RFI03182026

Posting Date: 18 March 2026

Response Due Date: 20 April 2026, 4:00 PM Eastern Time

NAICS Code: 334512

FSC Code: 4520

1.0 DISCLAIMER

This is a Request for Information (RFI) only, issued in accordance with FAR Part 10 for market research and planning purposes. This is not a solicitation (e.g., an RFQ or RFP) and does not constitute a commitment by the U.S. Government to issue a solicitation or award a contract. The Government will not pay for any information or administrative costs incurred in response to this RFI. All costs associated with responding will be solely at the interested party's expense. Not responding to this RFI does not preclude participation in any future solicitation, if one is issued.

2.0 PURPOSE & BACKGROUND

The U.S. Coast Guard (USCG) is seeking information from industry regarding the availability of a Commercial Off-The-Shelf (COTS) solution to replace the existing Transformer Anti-Condensate Heater Install on its 225-ft WLB class of cutters. The current system is a Mirus Heater (P/N: HTR-f6-0500-T), and the Government is seeking sources capable of providing a replacement system that can meet or exceed its performance. Current Mirus Heater has the following specifications:

- Voltage:120V/230V
- Amps:4A/2A
- Power: 500W
- Frequency:60Hz
- Phase: 1
- Part Number: HTR-f6-0500-T
- Operating Temp. Range: 80C to 120C
- IP Rating: IP44

- Listed as UL

3.0 REQUESTED INFORMATION

Interested parties are requested to submit a Capabilities Statement that addresses the following areas:

1. Company Information: Provide your company name, address, UEI, CAGE code, business size status, and a primary point of contact with their title, phone number, and email address.
2. Technical Capability:
 - a. Describe your proposed COTS product(s) that can meet the Government's need. Include technical specifications, drawings, or product data sheets.
 - b. Describe your company's experience in providing similar systems for maritime or military applications.
 - c. Identify the single greatest risk you anticipate to the reliability and sustainability of this system in a shipboard environment.
3. Logistics & Support:
 - a. Describe the anticipated availability of replacement parts and technical support for the lifecycle of your proposed system.
 - b. Provide an estimated lead time from order placement to product delivery.
4. Rough Order of Magnitude (ROM) Price: Provide a non-binding ROM price for your proposed COTS solution. The ROM is for planning and budgetary purposes only.

4.0 RESPONSE GUIDELINES

- Deadline: Responses must be received no later than the date and time specified at the top of this RFI.
- Format: Submissions shall be in Adobe PDF format and sent via email. The total submission should not exceed 15 pages.
- Submission: Email responses to the POC listed below. The email subject line must read: "Response to RFI 70Z08526RFI03182026 [Your Company Name]".
- Proprietary Information: Do not submit proprietary or classified information. If you must submit information you deem proprietary, it must be clearly marked as such. All information submitted becomes Government property and will not be returned.

5.0 GOVERNMENT POINT OF CONTACT

All communications and responses related to this RFI shall be directed to:

Tony Powell
