Evaluation Procedures

This procurement is being solicited as a Small Business Set Aside with a Non-Manufacturing Rule waiver. The Government will make an award to a responsible offeror(s), offering the lowest price that is determined fair and reasonable, who conforms to all of the terms and conditions set forth in the solicitation. Proposals will be evaluated according to Lowest Price Technically Acceptable (LPTA).

Notice 1: Nonmanufacturer Rule (NMR) Waiver

A Nonmanufacturer Rule (NMR) Waiver has been approved for the solicitation. The effect of this waiver is to allow an otherwise qualified small business to supply the product of an other-than-small manufacturer or processor on this intended small business set-aside contract. However, it must be emphasized that this waiver of the NMR does not waive other legal requirements applicable to Government procurements, such as the Buy American Act and the Trade Agreements Act.

Notice 2: Surge & Sustainment Process Change

The process for submitting the Capability Assessment Plan (CAP) for Surge & Sustainment (S&S) requirements has changed. Vendors are **no** longer able to fill out an electronic Capability Assessment Plan (eCAP) through the Worldwide Web Industrial Capabilities Program (WICAP) website. Vendors will now need to submit their CAP with their offer.
