All applicable Federal, State, and local taxes and duties means all taxes and duties, in effect on the contract date, that the taxing authority is imposing and collecting on the transactions or property covered by this contract.

Contract date means the date set for bid opening or, if this is a negotiated contract or a modification, the effective date of this contract or modification.

The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(3) The Contractor shall submit a report to the contracting office identified in paragraph (h)(2) of this clause if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSEA order(s). 52.209-1 Qualification Requirements.

(Feb 1995)

Qualification Requirements (Feb 1995)

(a) *Definition.* "Qualification requirement," as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(Name) *NO EXPLOSIVES TO BE SENT TO THIS ADDRESS* NAVSUP NALC

(Address) NAVSUP_NALC_HWT_IS@us.navy.mil

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offeror's Name _____

Manufacturer's Name _____

Source's Name _____

Item Name _____

Service Identification _____

Test Number _____ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

ORDERING (AUG 2020)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from _____ through _____[insert dates].

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

- (3) If sent electronically, the Government either-

 - (ii) Distributes the delivery order or task order via email to the Contractor's email address.
- (d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

(End of clause)

52.216-19 Order Limitations.

(Oct 1995)

Order Limitations (Oct 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than 599 EA, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor-

(1) Any order for a single item in excess of 1,400 EA;

(2) Any order for a combination of items in excess of 1,400 EA; or

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 10 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

(Oct 1995)

Indefinite Quantity (Oct 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after completion of the final open delivery order.

Postaward Small Business Program Rerepresentation (Jan 2025)

(a) *Definitions.* As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

- (1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (d) of this clause.
- (2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.
- (b) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, upon occurrence of any of the following:
- (1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.
- (2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.
- (3) For long-term contracts-
- (i) Within 60 to 120 days prior to the end of the fifth year of the contract; and
- (ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.
- (c) If the Contractor represented its status as any of the small business concerns identified at 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, for the NAICS code assigned to an order (except that paragraphs (c)(1) through (3) of this clause do not apply to an order issued under a Federal Supply Schedule contract at subpart 8.4)-
- (1) Set aside exclusively for a small business concern identified at 19.000(a)(3) that is issued under an unrestricted multiple-award contract, unless the order is issued under the reserved portion of an unrestricted multiple-award contract (e.g., an order set aside for a woman-owned small business under a multiple-award contract that is not set-aside, unless the order is issued under the reserved portion of the multiple-award contract);
- (2) Issued under a multiple-award contract set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying multiple-award contract (e.g., an order set aside for a HUBZone small business concern under a multiple-award contract that is set aside for small businesses);
- (3) Issued under the part of the multiple-award contract that is set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying set-aside part of the multiple-award contract (e.g., an order set aside for a WOSB concern under the part of the multiple-award contract that is partially set aside for small businesses); and
- (4) When the Contracting Officer explicitly requires it for an order issued under a multiple-award contract, including for an order issued under a Federal Supply Schedule contract (see 8.405-5(b) and 19.301-2(b)(2)).
- (d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards>.
- (e) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-
- (1) Was set aside for small business and has a value above the simplified acquisition threshold;
- (2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or
- (3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.
- (f) Except as provided in paragraph (h) of this clause, the Contractor shall make the representation(s) required by paragraphs (b) and (c) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, or with its offer for an order (see paragraph (c) of this clause), that the data have been validated or updated, and provide the date of the validation or update.
- (g) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (f) or (h) of this clause.

(h) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

NOTIFICATION OF CHANGES (JAN 2017)

(a) *Definitions.* "Contracting Officer," as used in this clause, does not include any representative of the Contracting Officer.

"Specifically Authorized Representative (SAR)," as used in this clause, means any person the Contracting Officer has so designated by written notice (a copy of which shall be provided to the Contractor) which shall refer to this paragraph and shall be issued to the designated representative before the SAR exercises such authority.

(b) *Notice.* The primary purpose of this clause is to obtain prompt reporting of Government conduct that the Contractor considers to constitute a change to this contract. Except for changes identified as such in writing and signed by the Contracting Officer, the Contractor shall notify the Administrative Contracting Officer in writing promptly, within ____ (to be negotiated) calendar days from the date that the Contractor identifies any Government conduct (including actions, inactions, and written or oral communications) that the Contractor regards as a change to the contract terms and conditions. On the basis of the most accurate information available to the Contractor, the notice shall state-

- (1) The date, nature, and circumstances of the conduct regarded as a change;
- (2) The name, function, and activity of each Government individual and Contractor official or employee involved in or knowledgeable about such conduct;
- (3) The identification of any documents and the substance of any oral communication involved in such conduct;
- (4) In the instance of alleged acceleration of scheduled performance or delivery, the basis upon which it arose;
- (5) The particular elements of contract performance for which the Contractor may seek an equitable adjustment under this clause, including-
 - (i) What line items have been or may be affected by the alleged change;
 - (ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;
 - (iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;
 - (iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and
- (6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.

(c) *Continued performance.* Following submission of the notice required by paragraph (b) of this clause, the Contractor shall diligently continue performance of this contract to the maximum extent possible in accordance with its terms and conditions as construed by the Contractor, unless the notice reports a direction of the Contracting Officer or a communication from a SAR of the Contracting Officer, in either of which events the Contractor shall continue performance; provided, however, that if the Contractor regards the direction or communication as a change as described in paragraph (b) of this clause, notice shall be given in the manner provided. All directions, communications, interpretations, orders and similar actions of the SAR shall be reduced to writing promptly and copies furnished to the Contractor and to the Contracting Officer. The Contracting Officer shall promptly countermand any action which exceeds the authority of the SAR.

(d) *Government response.* The Contracting Officer shall promptly, within ____ (to be negotiated) calendar days after receipt of notice, respond to the notice in writing. In responding, the Contracting Officer shall either-

- (1) Confirm that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance;
- (2) Countermand any communication regarded as a change;
- (3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or
- (4) In the event the Contractor's notice information is inadequate to make a decision under paragraphs (d)(1), (2), or (3) of this clause, advise the Contractor what additional information is required, and establish the date by which it should be furnished and the date thereafter by which the Government will respond.

(e) *Equitable adjustments.*

(1) If the Contracting Officer confirms that Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether changed or not changed by such conduct, an equitable adjustment shall be made-

- (i) In the contract price or delivery schedule or both; and
- (ii) In such other provisions of the contract as may be affected.

(2) The contract shall be modified in writing accordingly. In the case of drawings, designs or specifications which are defective and for which the Government is responsible, the equitable adjustment shall include the cost and time extension for delay reasonably incurred by the Contractor in

attempting to comply with the defective drawings, designs or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for delay resulting from the Contractor's failure to provide notice or to continue performance as provided, respectively, in paragraphs (b) and (c) of this clause.

Note: The phrases "contract price" and "cost" wherever they appear in the clause, may be appropriately modified to apply to cost-reimbursement or incentive contracts, or to combinations thereof.

52.247-1 Commercial Bill of Lading Notations.

(Feb 2006)

Commercial Bill of Lading Notations (Feb 2006)

When the Contracting Officer authorizes supplies to be shipped on a commercial bill of lading and the Contractor will be reimbursed these transportation costs as direct allowable costs, the Contractor shall ensure before shipment is made that the commercial shipping documents are annotated with either of the following notations, as appropriate:

(a) If the Government is shown as the consignor or the consignee, the annotation shall be:

Transportation is for the Agency shown in Section H and the actual total transportation charges paid to the carrier(s) by the consignor or consignee are assignable to, and shall be reimbursed by, the Government.

(b) If the Government is not shown as the consignor or the consignee, the annotation shall be:

Transportation is for the _____[name the specific agency] and the actual total transportation charges paid to the carrier(s) by the consignor or consignee shall be reimbursed by the Government, pursuant to cost-reimbursement contract No. _____. This may be confirmed by contacting _____[Name and address of the contract administration office listed in the contract].

(End of clause)

52.248-1 Value Engineering.

(Jun 2020)

VALUE ENGINEERING (JUN 2020)

(a) *General.* The Contractor is encouraged to develop, prepare, and submit value engineering change proposals (VECP's) voluntarily. The Contractor shall share in any net acquisition savings realized from accepted VECP's, in accordance with the incentive sharing rates in paragraph (f) of this clause.

(b) *Definitions.*

Acquisition savings, as used in this clause, means savings resulting from the application of a VECP to contracts awarded by the same contracting office or its successor for essentially the same unit. Acquisition savings include-

(1) Instant contract savings, which are the net cost reductions on this, the instant contract, and which are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the Contractor's allowable development and implementation costs;

(2) Concurrent contract savings, which are net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and

(3) Future contract savings, which are the product of the future unit cost reduction multiplied by the number of future contract units in the sharing base. On an instant contract, future contract savings include savings on increases in quantities after VECP acceptance that are due to contract modifications, exercise of options, additional orders, and funding of subsequent year requirements on a multiyear contract.

Collateral savings, as used in this clause, means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

Contracting office includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

Contractor's development and implementation costs, as used in this clause, means those costs the Contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the Contractor incurs to make the contractual changes required by Government acceptance of a VECP.

Future unit cost reduction, as used in this clause, means the instant unit cost reduction adjusted as the Contracting Officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either-

(1) Throughout the sharing period, unless the Contracting Officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated; or

(2) To the calculation of a lump-sum payment, which cannot later be revised.

Government costs, as used in this clause, means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in this contract's cost or price resulting from negative instant contract savings.

Instant contract, as used in this clause, means this contract, under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If this is a multiyear contract, the term does not include quantities funded after VECP acceptance. If this contract is a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

Instant unit cost reduction means the amount of the decrease in unit cost of performance (without deducting any Contractor's development or implementation costs) resulting from using the VECP on this, the instant contract. If this is a service contract, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on this contract, multiplied by the appropriate contract labor rate.

Negative instant contract savings means the increase in the cost or price of this contract when the acceptance of a VECP results in an excess of the Contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

Net acquisition savings means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

Sharing base, as used in this clause, means the number of affected end items on contracts of the contracting office accepting the VECP.

Sharing period, as used in this clause, means the period beginning with acceptance of the first unit incorporating the VECP and ending at a calendar date or event determined by the contracting officer for each VECP.

Unit, as used in this clause, means the item or task to which the Contracting Officer and the Contractor agree the VECP applies.

Value engineering change proposal (VECP) means a proposal that-

(1) Requires a change to this, the instant contract, to implement; and

(2) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; *provided*, that it does not involve a change-

(i) In deliverable end item quantities only;

(ii) In research and development (R&D) end items or R&D test quantities that is due solely to results of previous testing under this contract; or

(iii) To the contract type only.

(c) *VECP preparation*. As a minimum, the Contractor shall include in each VECP the information described in paragraphs (c)(1) through (8) of this clause. If the proposed change is affected by contractually required configuration management or similar procedures, the instructions in those procedures relating to format, identification, and priority assignment shall govern VECP preparation. The VECP shall include the following:

(1) A description of the difference between the existing contract requirement and the proposed requirement, the comparative advantages and disadvantages of each, a justification when an item's function or characteristics are being altered, the effect of the change on the end item's performance, and any pertinent objective test data.

(2) A list and analysis of the contract requirements that must be changed if the VECP is accepted, including any suggested specification revisions.

(3) Identification of the unit to which the VECP applies.

(4) A separate, detailed cost estimate for (i) the affected portions of the existing contract requirement and (ii) the VECP. The cost reduction associated with the VECP shall take into account the Contractor's allowable development and implementation costs, including any amount attributable to subcontracts under the Subcontracts paragraph of this clause.

(5) A description and estimate of costs the Government may incur in implementing the VECP, such as test and evaluation and operating and support costs.

(6) A prediction of any effects the proposed change would have on collateral costs to the agency.

(7) A statement of the time by which a contract modification accepting the VECP must be issued in order to achieve the maximum cost reduction, noting any effect on the contract completion time or delivery schedule.

(8) Identification of any previous submissions of the VECP, including the dates submitted, the agencies and contract numbers involved, and previous Government actions, if known.

(d) *Submission.* The Contractor shall submit VECP's to the Contracting Officer, unless this contract states otherwise. If this contract is administered by other than the contracting office, the Contractor shall submit a copy of the VECP simultaneously to the Contracting Officer and to the Administrative Contracting Officer.

(e) Government action.

(1) The Contracting Officer will notify the Contractor of the status of the VECP within 45 calendar days after the contracting office receives it. If additional time is required, the Contracting Officer will notify the Contractor within the 45-day period and provide the reason for the delay and the expected date of the decision. The Government will process VECP's expeditiously; however, it will not be liable for any delay in acting upon a VECP.

(2) If the VECP is not accepted, the Contracting Officer will notify the Contractor in writing, explaining the reasons for rejection. The Contractor may withdraw any VECP, in whole or in part, at any time before it is accepted by the Government. The Contracting Officer may require that the Contractor provide written notification before undertaking significant expenditures for VECP effort.

(3) Any VECP may be accepted, in whole or in part, by the Contracting Officer's award of a modification to this contract citing this clause and made either before or within a reasonable time after contract performance is completed. Until such a contract modification applies a VECP to this contract, the Contractor shall perform in accordance with the existing contract. The decision to accept or reject all or part of any VECP is a unilateral decision made solely at the discretion of the Contracting Officer.

(f) *Sharing rates.* If a VECP is accepted, the Contractor shall share in net acquisition savings according to the percentages shown in the table below. The percentage paid the Contractor depends upon-

(1) This contract's type (fixed-price, incentive, or cost-reimbursement);

(2) The sharing arrangement specified in paragraph (a) of this clause (incentive, program requirement, or a combination as delineated in the Schedule); and

(3) The source of the savings (the instant contract, or concurrent and future contracts), as follows:

Contractor's Share of Net Acquisition Savings (Figure in Percent)				
Contract Type	Incentive (Voluntary)		Program Requirement (Mandatory)	
	Instant Contract Rate	Concurrent and Future Contract Rate	Instant Contract Rate	Concurrent and Future Contract Rate
Fixed-price (includes fixed-price-award-fee; excludes other fixed-price incentive contracts)	*50	*50	25	25
Incentive (fixed-price or cost) (other than award fee)	(**)	*50	(**)	25
Cost-reimbursement (includes cost-plus-award-fee; excludes other cost-type incentive contracts)	***25	***25	15	15

* The Contracting Office may increase the Contractor's sharing rate to as high as 75 percent for each VECP.

** Same sharing arrangement as the contract's profit or fee adjustment formula.

*** The Contracting Office may increase the Contractor's sharing rate to as high as 50 percent for each VECP.

(g) Calculating net acquisition savings.

(1) Acquisition savings are realized when (i) the cost or price is reduced on the instant contract, (ii) reductions are negotiated in concurrent contracts, (iii) future contracts are awarded, or (iv) agreement is reached on a lump-sum payment for future contract savings (see paragraph (i)(4) of this clause). Net acquisition savings are first realized, and the Contractor shall be paid a share, when Government costs and any negative instant contract savings have been fully offset against acquisition savings.

(2) Except in incentive contracts, Government costs and any price or cost increases resulting from negative instant contract savings shall be offset against acquisition savings each time such savings are realized until they are fully offset. Then, the Contractor's share is calculated by multiplying net acquisition savings by the appropriate Contractor's percentage sharing rate (see paragraph (f) of this clause). Additional Contractor shares of net acquisition savings shall be paid to the Contractor at the time realized.

(3) If this is an incentive contract, recovery of Government costs on the instant contract shall be deferred and offset against concurrent and future contract savings. The Contractor shall share through the contract incentive structure in savings on the instant contract items affected. Any negative instant contract savings shall be added to the target cost or to the target price and ceiling price, and the amount shall be offset against concurrent and future contract savings.

(4) If the Government does not receive and accept all items on which it paid the Contractor's share, the Contractor shall reimburse the Government for the proportionate share of these payments.

(h) *Contract adjustment.* The modification accepting the VECP (or a subsequent modification issued as soon as possible after any negotiations are completed) shall-

(1) Reduce the contract price or estimated cost by the amount of instant contract savings, unless this is an incentive contract;

(2) When the amount of instant contract savings is negative, increase the contract price, target price and ceiling price, target cost, or estimated cost by that amount;

(3) Specify the Contractor's dollar share per unit on future contracts, or provide the lump-sum payment;

(4) Specify the amount of any Government costs or negative instant contract savings to be offset in determining net acquisition savings realized from concurrent or future contract savings; and

(5) Provide the Contractor's share of any net acquisition savings under the instant contract in accordance with the following:

(i) Fixed-price contracts-add to contract price.

(ii) Cost-reimbursement contracts-add to contract fee.

(i) Concurrent and future contract savings.

(1) Payments of the Contractor's share of concurrent and future contract savings shall be made by a modification to the instant contract in accordance with paragraph (h)(5) of this clause. For incentive contracts, shares shall be added as a separate firm-fixed-price line item on the instant contract. The Contractor shall maintain records adequate to identify the first delivered unit for 3 years after final payment under this contract.

(2) The Contracting Officer shall calculate the Contractor's share of concurrent contract savings by-

(i) Subtracting from the reduction in price negotiated on the concurrent contract any Government costs or negative instant contract savings not yet offset; and

(ii) Multiplying the result by the Contractor's sharing rate.

(3) The Contracting Officer shall calculate the Contractor's share of future contract savings by-

- (i) Multiplying the future unit cost reduction by the number of future contract units scheduled for delivery during the sharing period;
- (ii) Subtracting any Government costs or negative instant contract savings not yet offset; and
- (iii) Multiplying the result by the Contractor's sharing rate.

(4) When the Government wishes and the Contractor agrees, the Contractor's share of future contract savings may be paid in a single lump sum rather than in a series of payments over time as future contracts are awarded. Under this alternate procedure, the future contract savings may be calculated when the VECP is accepted, on the basis of the Contracting Officer's forecast of the number of units that will be delivered during the sharing period. The Contractor's share shall be included in a modification to this contract (see paragraph (h)(3) of this clause) and shall not be subject to subsequent adjustment.

(5) *Alternate no-cost settlement method.* When, in accordance with section 48.104-4 of the Federal Acquisition Regulation (FAR), the Government and the Contractor mutually agree to use the no-cost settlement method, the following applies:

- (i) The Contractor will keep all the savings on the instant contract and on its concurrent contracts only.
- (ii) The Government will keep all the savings resulting from concurrent contracts placed on other sources, savings from all future contracts, and all collateral savings.

(j) *Collateral savings.* If a VECP is accepted, the Contracting Officer will increase the instant contract amount, as specified in paragraph (h)(5) of this clause, by a rate from 20 to 100 percent, as determined by the Contracting Officer, of any projected collateral savings determined to be realized in a typical year of use after subtracting any Government costs not previously offset. However, the Contractor's share of collateral savings will not exceed the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or \$100,000, whichever is greater. The Contracting Officer will be the sole determiner of the amount of collateral savings.

(k) *Relationship to other incentives.* Only those benefits of an accepted VECP not rewardable under performance, design-to-cost (production unit cost, operating and support costs, reliability and maintainability), or similar incentives shall be rewarded under this clause. However, the targets of such incentives affected by the VECP shall not be adjusted because of VECP acceptance. If this contract specifies targets but provides no incentive to surpass them, the value engineering sharing shall apply only to the amount of achievement better than target.

(l) *Subcontracts.* The Contractor shall include an appropriate value engineering clause in any subcontract-valued at or above the simplified acquisition threshold, as defined in FAR 2.101 on the date of subcontract award, and may include one in subcontracts of lesser value. In calculating any adjustment in this contract's price for instant contract savings (or negative instant contract savings), the Contractor's allowable development and implementation costs shall include any subcontractor's allowable development and implementation costs, and any value engineering incentive payments to a subcontractor, clearly resulting from a VECP accepted by the Government under this contract. The Contractor may choose any arrangement for subcontractor value engineering incentive payments, *provided*, that the payments shall not reduce the Government's share of concurrent or future contract savings or collateral savings.

(m) *Data.* The Contractor may restrict the Government's right to use any part of a VECP or the supporting data by marking the following legend on the affected parts:

These data, furnished under the Value Engineering clause of contract _____, shall not be disclosed outside the Government or duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate a value engineering change proposal submitted under the clause. This restriction does not limit the Government's right to use information contained in these data if it has been obtained or is otherwise available from the Contractor or from another source without limitations.

If a VECP is accepted, the Contractor hereby grants the Government unlimited rights in the VECP and supporting data, except that, with respect to data qualifying and submitted as limited rights technical data, the Government shall have the rights specified in the contract modification implementing the VECP and shall appropriately mark the data. (The terms "unlimited rights" and "limited rights" are defined in part 27 of the Federal Acquisition Regulation.)

252.204-7021 Contractor Compliance with the Cybersecurity Maturity Model Certification Level Requirements.

(Nov 2025)

CONTRACTOR COMPLIANCE WITH THE CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions.* As used in this clause-

"Controlled unclassified information" means information the Government creates or possesses, or information an entity creates or possesses for or on behalf of the Government, that a law, regulation, or Governmentwide policy requires or permits an agency to handle using safeguarding or dissemination controls (32 CFR 2002.4(h)).

"Current" means-

(1) With regard to Conditional Cybersecurity Maturity Model Certification (CMMC) Status-

(i) Not older than 180 days for Conditional Level 2 (Self) assessments and Conditional Level 2 (certified third-party assessment organization (C3PAO)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance by an affirming official (see 32 CFR 170.4); and

(ii) Not older than 180 days for Conditional Level 3 (Defense Industrial Base Cybersecurity Assessment Center (DIBCAC)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance by an affirming official;

(2) With regard to Final CMMC Status-

(i) Not older than 1 year for Final Level 1 (Self), with-

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official;

(ii) Not older than 3 years for Final Level 2 (Self) assessments and Final Level 2 (C3PAO) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(iii) Not older than 3 years for Final Level 3 (DIBCAC) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(3) With regard to affirmation of continuous compliance (32 CFR 170.22), not older than 1 year with no changes in compliance with the requirements at 32 CFR part 170.

"Cybersecurity Maturity Model Certification (CMMC) status" means the result of meeting or exceeding the minimum required score for the corresponding assessment. The potential statuses are as follows:

(1) Final Level 1 (Self).

(2) Conditional Level 2 (Self).

(3) Final Level 2 (Self).

(4) Conditional Level 2 (C3PAO).

(5) Final Level 2 (C3PAO).

(7) Final Level 3 (DIBCAC).

"Cybersecurity Maturity Model Certification unique identifier (CMMC UID)" means 10 alpha-numeric characters assigned to each CMMC assessment and reflected in the Supplier Performance Risk System (SPRS) for each contractor information system.

"Federal contract information (FCI)" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government. It does not include information provided by the Government to the public, such as on public websites, or simple transactional information, such as information necessary to process payments.

"Plan of action and milestones" means a document that identifies tasks to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones, as defined in National Institute of Standards and Technology Special Publication 800-115 (32 CFR 170.21).

(b) *Framework.* The Cybersecurity Maturity Model Certification (CMMC) is a framework for assessing a contractor's compliance with applicable information security protections (see 32 CFR part 170).

(c) *Duplication.* The CMMC assessments will not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a reassessment may be necessary, for example, when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

(d) *Requirements.* The Contractor shall-

(1)(i) Have and maintain for the duration of the contract a current CMMC status at the following CMMC level, or higher: CMMC Level 2 (C3PAO) for all information systems used in performance of the contract, task order, or delivery order that process, store, or transmit FCI or CUI; and

52.209-7 Information Regarding Responsibility Matters. (Oct 2018)

INFORMATION REGARDING RESPONSIBILITY MATTERS (OCT 2018)

(a) *Definitions.* As used in this provision-

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than \$10,000,000 means-

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror ☐ has ☐ does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in-

(A) The payment of a monetary fine or penalty of \$5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via <https://www.sam.gov> (see 52.204-7).

(End of provision)

52.209-13 Violation of Arms Control Treaties or Agreements-Certification.

(Nov 2021)

VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS-CERTIFICATION (NOV 2021)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) *Certification. [Offeror shall check either (1) or (2).]*

☐ (1) The Offeror certifies that-

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; or

☐ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

(i) An inability to certify compliance.

(ii) An inability to conclude compliance.

(iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless-

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has

- (i) Waived application under 22 U.S.C. 2593e(d) or (e); or
 - (ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).
- (e) *Remedies.* The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(End of provision)

52.215-6 Place of Performance.

(b) If the offeror or respondent checks "intends" in paragraph (a) of this provision, it shall insert in the following spaces the required information:

Place of Performance (Street Address, City, State, County, ZIP Code)	Name and Address of Owner and Operator of the Plant or Facility if Other than Offeror or Respondent

(End of provision)

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation.

(Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions.* As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

- (1) A citizen or resident of the United States;
- (2) A domestic partnership;
- (3) A domestic corporation;
- (4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and
- (5) Any trust if-
 - (i) A court within the United States is able to exercise primary supervision over the administration of the trust; and
 - (ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

52.230-1 Cost Accounting Standards Notices and Certification.

(Feb 2026)

COST ACCOUNTING STANDARDS NOTICES AND CERTIFICATION (FEB 2026)

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

I. DISCLOSURE STATEMENT-COST ACCOUNTING PRACTICES AND CERTIFICATION

(a) Any contract in excess of the lower CAS threshold specified in Federal Acquisition Regulation (FAR) 30.205(b) resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

(1) ☐ *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official.)

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

(2) ☐ *Certificate of Previously Submitted Disclosure Statement.* The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

(3) ☐ *Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

(4) ☐ *Certificate of Interim Exemption.* The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under paragraph (c)(1) or (c)(2) of part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

II. Cost Accounting Standards-Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

☐ The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

III. Additional Cost Accounting Standards Applicable to Existing Contracts

The offeror shall indicate below whether award of the contemplated contract would, in accordance with paragraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

☐ Yes	☐ No
------------------------------	-----------------------------

(End of provision)

The offeror shall check "yes" below if the contract award will result in a required or unilateral change in cost accounting practice, including unilateral changes requested to be desirable changes.

☐ Yes ☐ No

If the offeror checked "Yes" above, the offeror shall-

(1) Prepare the price proposal in response to the solicitation using the changed practice for the period of performance for which the practice will be used; and

(2) Submit a description of the changed cost accounting practice to the Contracting Officer and the Cognizant Federal Agency Official as pricing support for the proposal.

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

SECTION L - INSTRUCTIONS, CONDITIONS, AND NOTICES TO BIDDERS

SECTION L.1 Proposal Submission: Instructions, Conditions, and Notices to Offerors

Introduction: This section contains general proposal submission instructions as well as specific proposal requirements for procurement of the item(s) listed in section B of the schedule.

- a) The Government intends to award one firm fixed-price contract to the offeror representing the best value to the Government, considering both non-price and price factors.
- b) Offerors are responsible for confirming the Contracting Officer and/or Contract Specialist received their proposal.

The complete proposal, as described in section L.2, and all subsequent amendments shall be submitted electronically no later than the due date and time specified in the solicitation. The Government will not consider proposals submitted by mail or delivered by hand. Offerors shall submit an electronic proposal to the email address listed in section A of the solicitation in one of the following manners:

- a) Electronic mail: Each proposal submitted via e-mail should not exceed 10MB. Offerors may send attachments in separate emails to remain within the size limit. Offerors may request acknowledgement to verify receipt of their proposals.

The Government may award without discussion. As a result, the offeror should submit a proposal that presents its best offer, subject to all terms and conditions.

Offerors should submit all questions no later than one (1) week prior to the initial solicitation closing date. The Government is not required to answer questions received after this date. Unless otherwise stated in an amendment, extensions to the solicitation due date will not extend the date for questions from potential offerors.

SECTION L.2 Proposal Instructions

Offerors shall submit their proposals in accordance with instructions outlined here. Offerors should thoroughly review sections L & M of the solicitation prior to submitting a proposal. Proposals shall be specific, complete, unambiguous, and address each designated factor using only the English language.

The proposal shall communicate the offeror's ability to perform the requirement in a clear and convincing manner. The contractor should not simply restate or repeat the solicitation requirements in the proposal as doing so would add no value for evaluation of the stated criteria. Proposals that do not contain information that sections L and M require risk rejection. The Government intends to award a single contract under this RFP. The Government also intends to award without discussion, but reserves the right to contact offerors for clarification, or conduct discussions if the Contracting Officer determines discussions necessary in accordance with FAR Part 15.306(a).

The proposal shall consist of an introductory volume and the following proposal volumes:

L.2.1 Proposal Volumes: One (1) electronic copy of each volume submitted separately as set forth below:

- Volume 1: Introductory Volume
- Volume 2: Technical Approach Volume
- Volume 3: Past Performance Volume
- Volume 4: Small Business Participation Volume
- Volume 5: Price Volume

Address each evaluation factor in a separate volume as specified above. Offerors shall provide electronic copies in Microsoft Word, Microsoft Excel or Portable Document Format (PDF) format. The Government considers quality of information more important than quantity with attention to clarity, brevity, and logical organization. Passwords must be provided for each password-protected document as the evaluation will not be delayed to obtain passwords.

Separate from the proposal volumes, offerors who are a large business must also submit a small business subcontracting plan, unless an exception applies, or a waiver is granted. Subcontracting plans are assessed for acceptability and may be negotiated if necessary to achieve acceptability.

Alternate proposals are authorized for the areas listed below. Any exception to this solicitation, where an alternate proposal is not authorized may render an offer non-compliant.

- 1) Minor Variances - See Section C for further information.

- 2) Minor Engineering Change Proposals (ECPs) - See Section C for further information.
- 3) Solicitation amendments may also allow other reasons for alternate proposals.

SECTION L.3 Proposal Organization Instructions

Offeror(s) shall organize all information intended for the Government to consider, specific to each volume, within its designated volume. Failure to include requested information in the applicable volume could result in non-consideration. Offerors are responsible for including sufficient details, in a concise manner, to permit a complete and accurate evaluation of each proposal volume. Proposals that do not contain the information requested risk the Government's rating of non-compliant.

Volume 1: Introductory Volume: offerors' proposals shall remain valid for a minimum of 120 days after the close of the RFP and contain the following:

- a) One signed copy of the solicitation (Standard Form 33) to include a completed section K, Representation and Certifications, and acknowledgement of all amendments.

Volume 2: Technical Approach Factor: The Technical Approach Factor consists of two (2) Sub-Factors:

Sub-Factor 1: Manufacturing Plan: The Offeror shall provide a detailed description of its technical capability and approach to provide the WW98 Initiating Propellant in compliance with the Government technical data package and solicitation requirements. At a minimum, the Offeror shall:

- a) Provide a complete and detailed flow diagram of the proposed manufacturing facility, including loading and assembly, inspection, test, and packaging.
- b) Provide a description of the Offeror's capabilities and experience; to include but not limited to facilities, personnel, equipment, tooling, hardware procurement, testing, any capacity constraints on major manufacturing steps, and any efforts to improve efficiency or capacity.
- c) Identify proposed prime and subcontractors for the energetic ingredients and fabricated parts, including a description of the subcontractor's equipment, personnel, or other experience or capability to meet the solicitation's requirements.
- d) Provide planned certification tests and methods for all raw ingredients and energetic compounds used in the manufacturing of the end item.
- e) Provide a detailed description of the Offeror's plans for meeting the requirements of WS12984 Rev AA, to include production, inspection, and test requirements.
- f) Provide a detailed program schedule for a specified quantity in the solicitation to include First Article Testing.

Sub-Factor 2: Quality Assurance Plan: The Offeror shall provide a detailed description of its Quality Management System (QMS) as validation that it has an established quality system in place that is capable of meeting quality assurance requirements as defined in the solicitation. The Offeror shall describe their experience with executing higher level quality requirements, as required for this critical component. At a minimum, the Offeror shall:

- a) Provide proof of a current ISO 9001 compliant certification or equivalent QMS that was approved within the past 36 months from issuance of this solicitation.
- b) Provide a description of the Offeror's and any subcontractor's procedures for identification, control, corrections, and resolution of deficiencies identified in components, assemblies, and the end items. Detection, segregation, and handling of nonconforming material must be addressed. Include any quality initiatives to minimize defects.
- c) Provide a list of in-process inspections performed by the contractor, including inspections not required by the contract or procurement specification.

Volume 3: Past Performance Factor: The Government considers past performance a predictor of future contract performance. The Government bases its degree of confidence the offeror will complete the requirements in accordance with the contract terms on the offeror's demonstrated record of recent, relevant performance. Each offeror shall submit its past performance information in accordance with the following format:

Contract Past Performance Examples: Offerors may submit up to four (4) contract examples with its initial proposal representing recent, relevant performance under Government and/or commercial contracts. Offerors should limit examples to those involving its performance as a prime or first tier subcontractor only. The Government is not required to interview any points of contact identified by offerors. The Government reserves the right to use data provided in the Offeror's proposal and data obtained from any other sources of information to evaluate past performance including, but not limited to, the Contractor Performance Assessment Reporting System (CPARS) or the System for Award Management (SAM). The Government does not assume the duty to search for data to cure any problems it finds in the information provided by the offeror. The burden of providing thorough and complete past performance information remains with the offeror.

Recent contracts are those that produced deliverables under prime contracts, task orders, delivery orders, subcontracts, within three (3) years prior to issuance of this solicitation, as well as contracts that continue today. The Government reserves the right to consider any significant past performance after the solicitation closing date and prior to award.

Relevant means performance that demonstrates the offeror's successful performance on current and/or prior efforts involving the same or similar manufacturing and quality assurance processes. Other factors of potential consideration to determine relevance include the degree to which the contracts are comparable with regard to the complexity of the manufacturing processes, size of the production quantities or total dollar value to the solicited effort. In-house performance holds greater relevance and therefore, a greater predictor of success than outsourcing.

The Government determines which information is relevant for evaluation purposes. Offerors are encouraged to highlight those efforts it feels are most similar in scope and magnitude of effort and complexities to the requirements of this solicitation. The past performance information submitted in this volume should include contract descriptions with at least the following information:

1. Contract number, award date, total contract dollar value.
2. Item description, nomenclature, national stock number (NSN), part number, quantity, and period of performance.
3. Name and reference point of contact at the Government or commercial entity for where the contract performed.

The Past Performance Factor consists of three Sub-factors:

Sub-factor 1 - Quality: Offeror shall provide evidence of a Quality Management System (QMS) that has minimized defects and implemented procedures for identification, control, corrections, and/or resolution of deficiencies identified in components, assemblies, and the end items.

Sub-factor 2 - Timeliness of Delivery: Offeror shall provide evidence of how it met interim milestones, controlled supplier performance, provided reliable delivery, was responsive to technical direction, and completed work on time.

Sub-factor 3 - Small Business Utilization: Offeror shall provide evidence of its previous efforts to comply with FAR Part 52.219-8 Utilization of Small Business Concerns and FAR Part 52.219-9 Small Business Subcontracting Plan.

Volume 4: Small Business Participation Commitment Factor: All offerors shall submit a small business participation commitment document and substantiating documentation to demonstrate how the offeror will meet these requirements. As required by DFARS Part 215.304, small business participation is an evaluation factor in this acquisition. Small business participation is evaluated in order to support the Government policy that small businesses be provided maximum practicable opportunities in Government acquisitions.

This section applies to all offerors (small businesses and other than small businesses) (including comprehensive subcontracting plan program participants and commercial subcontracting plan holders). This is NOT an assessment of a small business subcontracting plan in accordance with FAR Part 19.7. At a minimum, the following information shall be included in the small business participation commitment document:

- Goals for each socioeconomic category shown in the chart below, expressed as dollars and percentages of total contract value for small business concerns and each subcategory of small business.
- The small business concerns as defined in FAR Part 19 that are to be used in the proposed approach to satisfying the requirements of this solicitation and the nature of the commitment with the small business concern (i.e., letter of commitment, joint ventures, mentor protegee agreements, others).

Offerors may use the table/format below in proposing this volume or use their own format so long as the proposed volume meets the minimum requirements stated above.

Subcontracting plans shall reflect and be consistent with the commitments offered in the small business participation strategy.

Volume 5: Price Factor: Proposed unit prices are limited to two decimal places. Offeror(s) shall provide two completed copies of the Price Matrix attachment; one Price Matrix with FAT required pricing and a separate Price Matrix showing FAT waived pricing. Failure to do so may cause the Government to reject the offer.

The awarded contract may require FAT:

- The contractor is responsible for FAT under this contract The Contracting Officer may waive this requirement if the offeror shipped and the Government accepted identical or similar supplies in performance of a prior contract.
- Offerors may identify these identical or similar supplies by the contract number, agency, nsn, contract award date, and contract delivery date to support a FAT waiver.

(Mar 2023)

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM (MAR 2023)

(a) *Definitions.* As used in this provision-

"Item risk" means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

"Price risk" means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

(1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.

(2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.

(3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. 252.215-7010 Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data. (Tailored) (May 2024)

REQUIREMENTS FOR CERTIFIED COST OR PRICING DATA AND DATA OTHER THAN CERTIFIED COST OR PRICING DATA-BASIC (MAY 2024)

(a) *Definitions.* As used in this provision-

"Market prices" means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.

"Non-Government sales" means sales of the supplies or services to non-Governmental entities for purposes other than governmental purposes.

"Relevant sales data" means information provided by an offeror on sales of the same or similar items that can be used to establish price reasonableness taking into consideration the age, volume, and nature of the transactions (including any related discounts, refunds, rebates, offsets, or other adjustments).

"Sufficient non-Government sales" means relevant sales data that reflects market pricing and contains enough information to make adjustments covered by Federal Acquisition Regulation (FAR) 15.404-1(b)(2)(ii)(B).

"Uncertified cost data" means the subset of "data other than certified cost or pricing data" (see FAR 2.101) that relates to cost.

(b) *Exceptions from certified cost or pricing data.*

(1) In lieu of submitting certified cost or pricing data, the Offeror may submit a written request for exception by submitting the information described in paragraphs (b)(1)(i) and (ii) of this provision. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted and whether the price is fair and reasonable.

(i) *Exception for prices set by law or regulation - Identification of the law or regulation establishing the prices offered.* If the prices are controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial product or commercial service exception.* For a commercial product or commercial service exception, the Offeror shall submit, at a minimum, information that is adequate for determining commerciality and evaluating the reasonableness of the price for this acquisition, including prices at which the same product or service or similar products or services have been sold in the commercial market. Such information shall include-

(A) For products or services previously determined to be commercial, the contract number and military department, defense agency, or other DoD component that rendered such determination, and if available, a Government point of contact;

(B) For subsystems of a major weapon system and components and spare parts of a major weapon system or subsystem of a major weapon system that have not previously been determined to be commercial-

(1) The comparable commercial product the Offeror sells to the general public or nongovernmental entities;

(2) A comparison between the physical characteristics and functionality of the comparable commercial product and the subsystem, component, or spare part, including-

(i) For products under paragraph (3)(i) of the "commercial product" definition at FAR 2.101, a description of the modification and documentation to support that the modification is customarily available in the marketplace; or

(ii) For products under paragraph (3)(ii) of the "commercial product" definition at FAR 2.101, a detailed description of the modification and detailed technical data to demonstrate that the modification is minor (e.g., information on production processes and material differences); and

(3) The national stock number (NSN) for the comparable commercial product, if one is assigned, and the NSN for the subsystem, component, or spare part, if one is assigned; or

(4) If the Offeror does not sell a comparable commercial product to the general public or nongovernmental entities for purposes other than government purposes, the Offeror shall-

(i) Notify the Contracting Officer in writing that it does not sell such a comparable product; and

(ii) Provide the Contracting Officer with a comparison of the physical characteristics and functionality of the most comparable commercial product in the commercial market.

(C) For items priced based on a catalog-

(1) A copy of or identification of the Offeror's current catalog showing the price for that item; and

(2) If the catalog pricing provided with this proposal is not consistent with all relevant sales data, a detailed description of differences or inconsistencies between or among the relevant sales data, the proposed price, and the catalog price (including any related discounts, refunds, rebates, offsets, or other adjustments);

(D) For items priced based on market pricing, a description of the nature of the commercial market, the methodology used to establish a market price, and all relevant sales data. The description shall be adequate to permit DoD to verify the accuracy of the description;

(E) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item; or

(F) For items provided by nontraditional defense contractors, a statement that the entity is not currently performing and has not performed, for at least the 1-year period preceding the solicitation of sources by DoD for the procurement or transaction, any contract or subcontract for DoD that is subject to full coverage under the cost accounting standards prescribed pursuant to 41 U.S.C. 1502 and the regulations implementing such section.

(2) The Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and to determine the reasonableness of price.

(c) *Requirements for certified cost or pricing data.* If the Offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(1) The Offeror shall prepare and submit certified cost or pricing data and supporting attachments in accordance with the instructions contained in Table 15-2 of FAR 15.408, which is incorporated by reference with the same force and effect as though it were inserted here in full text. The instructions in Table 15-2 are incorporated as a mandatory format to be used in any resultant contract, unless the Contracting Officer and the Offeror agree to a different format and change this provision to use Alternate I.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the Offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(3) The Offeror is responsible for determining whether a subcontractor qualifies for an exception from the requirement for submission of certified cost or pricing data on the basis of adequate price competition, i.e., two or more responsible offerors, competing independently, submit priced offers that satisfy the Government's expressed requirement in accordance with FAR 15.403-1(c)(1)(ii).

(d) *Requirements for data other than certified cost or pricing data.*

(1) Data other than certified cost or pricing data submitted in accordance with this provision shall include the minimum information necessary to permit a determination that the proposed price is fair and reasonable, to include the requirements in Defense Federal Acquisition Regulation Supplement (DFARS) 215.402(a)(i), 215.404-1(b), and 234.7002(e).

(2) In cases in which uncertified cost data is required, the information shall be provided in the form in which it is regularly maintained by the Offeror or prospective subcontractor in its business operations.

(3) If the Offeror redacts data that identifies the customer (see DFARS 234.7002(e)(2)), then the Offeror shall include, for each sale, the following signed statement with the data submitted:

"By submission of this data, the Offeror [Offeror insert company name] certifies that the customer was [Offeror insert one or more of the following as applicable: a government customer; a commercial customer purchasing the same or similar product for governmental purposes (e. g., Federal, state, local, or foreign government); or a commercial customer purchasing the same or similar product for a commercial, mixed, or unknown purpose]."

(4) Within 10 days of a written request from the Contracting Officer for additional information to permit an adequate evaluation of the proposed price in accordance with FAR 15.403-3 or DFARS 234.7002(e), the Offeror shall provide either the requested information, or a written explanation for the inability to fully comply.

(5) *Subcontract price evaluation.*

(i) Offerors shall obtain from subcontractors the minimum information necessary to support a determination of price reasonableness, as described in FAR part 15 and DFARS part 215.

(ii) No cost data may be required from a prospective subcontractor in any case in which there are sufficient non-Government sales of the same item to establish reasonableness of price.

(iii) If the Offeror relies on relevant sales data for similar items to determine the price is reasonable, the Offeror shall obtain only that technical information necessary-

(A) To support the conclusion that items are technically similar; and

(B) To explain any technical differences that account for variances between the proposed prices and the sales data presented.

(e) *Subcontracts.* The Offeror shall insert the substance of this provision, including this paragraph (e), in subcontracts exceeding the simplified acquisition threshold defined in FAR part 2. The Offeror shall require prospective subcontractors to adhere to the requirements of-

(1) Paragraphs (c) and (d) of this provision for subcontracts above the threshold for submission of certified cost or pricing data in FAR 15.403-4; and

(2) Paragraph (d) of this provision for subcontracts exceeding the simplified acquisition threshold defined in FAR part 2.

Section M - Evaluation Factors for Award

SECTION M - EVALUATION FACTORS FOR AWARD

SECTION M.1 - Basis for Award: Evaluation Factors for Award (Section M)

The Government will perform an initial assessment of the offerors' proposals against the submittal requirements of section L. Failure to submit the required documentation in the format specified in Section L of this solicitation may render the offeror's proposal unevaluable and the proposal will be eliminated from the competition without further consideration. The Government will evaluate proposals submitted in accordance with this section and will make a determination considering the following factors: technical approach, past performance, small business, and price. Based upon the competition among offerors, the Government will award the contract to the offeror that demonstrates the best value to the Government.

The Government intends to award a single contract to the offeror that communicates the best value in its proposal. The tradeoff determination seeks to identify each proposal's relative strengths, weaknesses, and risks. This means the Government may award the contract to an offeror that does not offer the lowest price. The selection decision will consider an evaluation of the factors indicated above using an adjectival rating system that grades an offeror's non-price factors. Price will be evaluated for reasonableness but not adjectivally rated.

The Government will evaluate each proposal strictly in accordance with section M. Selection of the successful offeror follows an assessment of each proposal against the solicitation requirements and the cited evaluation criteria. Section L of the solicitation contains criteria to review and assess information provided by the offerors in response to information sought. The Government intends to award without discussions but reserves the right to hold exchanges with industry, which may include clarifications, communications, and discussions as defined in FAR Part 15.306.

Responsibility: Pursuant to FAR Part 9.103, the Contracting Officer will award only to a contractor deemed a responsible contractor. Separate from the best value source selection criteria, each Offeror must be able to demonstrate it meets the standards of responsibility set forth in FAR Part 9.104-1.

- a) The Government reserves the right to conduct a pre-award survey on any offerors considered for award, to assist in the Contracting Officers determination of contractor responsibility. The Contracting Officer may also either make a responsibility determination without requesting any information from an offeror or require the offeror provide information to substantiate that it satisfies the general responsibility standards of FAR Part 9.104-1. The Contracting Officer considers an offeror's ability to respond to request(s) for information promptly as an indication of the offeror's level of responsibility.
- b) Nothing in this provision limits the Contracting Officer's discretion to rely on information available from other sources (e.g., past performance databases, discussions with other entities familiar with the offeror) or to use any other technique described in FAR Part 9.1 when determining whether the offeror satisfies the FAR Part 9.104-1 general responsibility standards.

Tradeoff Evaluation Standard Definitions

Term	Definition
Risk	The potential for unsuccessful contract performance. The consideration of risk assesses the degree to which an offeror's proposed approach may involve risk of disruption of schedule, increased cost or degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful contract performance.
Strength	An aspect of a proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantages to the Government during contract performance.
Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
Deficiency	A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

SECTION M.2 - Order of Importance

All evaluation factors other than price, when combined, are significantly more important than price. The Technical Approach Factor and Past Performance Factor are equal. The Technical Approach Factor and Past Performance Factor are more important than Small Business Utilization. Within Technical Approach, both subfactors are equal. Within Past Performance, all three subfactors are equal.

The Government reserves the right to make the award to an offeror other than the offeror that submits the lowest overall evaluated price, using a best value trade-off analysis method of procurement. Offerors must receive a rating of at least limited confidence in past performance to be eligible for award.

Evaluation Factors and Sub-factors:

The Government intends to award the responsible Offeror that proposes the best value to the Government, based on the evaluation of these factors and sub-factors:

Technical Approach

Sub-Factor 1: Manufacturing Plan

Sub-Factor 2: Quality Assurance Plan

Past Performance Factor

Sub-Factor 1: Quality

Sub-Factor 2: Timeliness of Delivery

Sub-Factor 3: Small Business Utilization

Small Business Participation Factor

Price Factor

The Government will find offerors that do not propose on all the above factors non-compliant and may remove them from the competitive range and/or not rate the proposal. Offerors will submit in accordance with Section L.

SECTION M.3 - Evaluation Factors

The purpose of the proposal evaluation is to ensure competitive proposals are examined impartially and comprehensively. The evaluators may verify any statements and representations made in the offeror's proposal. Each proposal will be evaluated in accordance with the criteria set forth below.

Volume 1: Introductory Volume: Offerors' proposals shall remain valid for a minimum of 120 days after the close of the RFP and be in compliance with the submission instructions provided in section L.

Volume 2: Technical Approach Factor:

Definitions: The following definitions apply to the evaluation of the Offerors Technical Approach factor (and sub-factors) as follows:

- a. Risk is the potential for unsuccessful contract performance. The consideration of risk assesses the degree to which an Offerors proposed approach to achieving the technical factor or sub-factor may involve risk of disruption of schedule, degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful contract performance.
- b. Uncertainty is any aspect of a non-cost/price factor proposal for which the intent of the offer is unclear (e.g. more than one way to interpret the offer or inconsistencies in the proposal indicating that there may have been an error, omission, or mistake).
- c. Deficiency is a material failure of a proposal to meet a government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.
- d. Weakness means a flaw in the proposal that increases the risk of unsuccessful contract performance.
- e. Significant Weakness in the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance.
- f. Strength is an aspect of an Offerors proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantageous to the Government during contract performance.
- g. Significant Strength is an aspect of an Offeror's proposal that has appreciable merit or appreciably exceeds specified performance or capability requirements in a way that will be appreciably advantageous to the Government during contract performance.

Technical Approach Factor Evaluation:

The evaluation process will consider the adequacy of responses for each proposal to determine whether the Offeror has adequately and completely satisfied the requirements specified in the solicitation. The Offeror's Technical Approach Factor proposal must be realistic, achievable and producible.

A combined Technical/Risk rating, based upon consideration of risk in conjunction with the assessed findings, will be used in determining technical ratings. The combined Technical/Risk Ratings table is set forth below, at the end of the Technical Approach Factor evaluation section.

Evaluation will be conducted at the sub-factor level with an overall Technical Approach factor rating assigned based on the individual sub-factor ratings and findings. If any Technical Approach sub-factor is assigned a Red/Unacceptable rating, the overall Technical Approach factor rating will be Red/Unacceptable.

Technical Approach Sub-Factor Evaluation: The evaluation approach for each Sub-Factor is defined as follows:

Sub-Factor 1 - Manufacturing Plan: The Offeror will be evaluated on their detailed description of its technical capability and approach to provide the WW98 Initiating Propellant in compliance with the Government technical data package and solicitation requirements. The Offeror will be evaluated based on the specific areas as follows:

- a) The Offeror provided a complete and detailed flow diagram of the proposed manufacturing facility, including loading and assembly, inspection, test, and packaging.
- b) The Offeror provided a description of the Offeror's capabilities and experience; to include but not limited to facilities, personnel, equipment, tooling, hardware procurement, testing, any capacity constraints on major manufacturing steps, and any efforts to improve efficiency or capacity. If an Offeror or proposed subcontractor does not currently possess the required capabilities or adequate resources, then the Offeror's proposal will be evaluated based on their ability to obtain the required capabilities and resources to meet the requirements of this solicitation.
- c) The Offeror identified its proposed prime and subcontractors for the energetic ingredients and fabricated parts, including a description of the subcontractor's equipment, personnel, or other experience or capability to meet the solicitation's requirements.
- d) The Offeror provided planned certification tests and methods for all raw ingredients and energetic compounds used in the manufacturing of the end item.
- e) The Offeror provided a detailed description of the Offeror's plans for meeting the requirements of WS12984 Rev AA. The plans address production, inspection, and test requirements.
- f) The Offeror provided a detailed program schedule for a specified quantity in the solicitation to include First Article Testing.

Sub-Factor 2 - Quality Assurance Plan: The Offeror will be evaluated on its ability to provide sufficient evidence of having a successful Quality Management System (QMS) in place. The U.S. Government will evaluate the Offerors knowledge of and experience with higher-level quality requirements, and quality initiatives. The Offeror shall be evaluated on the specific areas as follows:

- a) The Offeror demonstrated adequate proof of a successful QMS that is certified to a current ISO 9001 compliant certification or equivalent QMS that was approved within the past 36 months from issuance of this solicitation.
- b) The Offeror described its and any subcontractor's procedures for identification, control, corrections, and resolution of deficiencies identified in components, assemblies, and the end items. The Offeror addressed detection, segregation, and handling of nonconforming material as well as quality initiatives to minimize defects.
- c) The Offeror provided a list of in-process inspections performed by the contractor, including inspections not required by the contract or procurement specification.

M.3.1.2.2 Combined Technical / Risk Ratings Table: The combined technical/risk rating includes consideration of risk in conjunction with the significant strengths, weaknesses, significant weaknesses, uncertainties, and deficiencies in determining technical ratings. Unless a waiver is granted, combined technical/risk evaluations shall utilize the combined technical/risk ratings listed below.

Combined Technical/Risk Rating Method

Color Rating	Adjectival Rating	Description
Blue	Outstanding	Proposal demonstrates an exceptional approach and understanding of the requirements and contains multiple strengths and /or at least one significant strength, and risk of unsuccessful performance is low.
Purple	Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength or significant strength, and risk of unsuccessful performance is low to moderate.
Green	Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.

Yellow	Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Red	Unacceptable	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is unawardable, and/or risk of performance is unacceptably high.

Volume 3: Past Performance Factor Evaluation: The Government considers past performance information a predictor of future contract performance. The Government bases its degree of confidence it has the Offeror will successfully complete the requirements in accordance with the contract terms on the Offeror's demonstrated record of recent and relevant performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination. Assessment of the offeror's past performance translates a means of evaluating the relative capability of the offeror(s) to achieve the RFP requirements.

The Government may consider the currency, degree of relevance, source and context of the past performance information it evaluates as well as general trends in performance, and demonstrated corrective actions. A significant achievement, problem, problem resolution, or lack of relevant data in any element can become an important consideration in the assessment process. A negative finding in any element may result in a lower past performance confidence assessment rating.

Absent any recent and relevant past performance history, the Government assigns an unknown confidence (neutral) past performance rating to the offeror. Without past performance information, the Government does not consider the offeror's past performance favorably or unfavorably.

The Government may use information obtained from other sources to conduct past performance evaluation, or it may use information with regard to other contracts performed by the offeror of which it has knowledge, whether or not those contracts are disclosed to the Government by the offeror.

The Government will rate each offeror on its recent and relevant contractual information. The definitions for recent and relevant are provided in section L of the solicitation. The Government will assign recent and relevant ratings in accordance with the below tables.

Recent Ratings:

Determination of recent contract examples in regards to the past performance factor information will be determined as follows:

Adjectival Rating	Description
Recent	Recent contracts are those that produced deliverables under prime contracts, task orders, delivery orders, subcontracts, within three (3) years prior to issuance of this solicitation, as well as contracts that continue today. The Government reserves the right to consider any significant past performance after the solicitation closing date and prior to award.
Not Recent	Not Recent contracts are those that have not produced deliverables under prime contracts, task orders, delivery orders, subcontracts, within three (3) years prior to issuance of this solicitation.

Only information determined to be recent by meeting the standard for recent as defined in section L and in the chart above, will be further considered in the past performance evaluation.

Relevancy Ratings:

Relevancy of the past performance information will be determined as follows:

Adjectival Rating	Description
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.

Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

Only information determined to be very relevant, relevant, or somewhat relevant and meeting the standard for recent as defined in section L will be further considered in the past performance evaluation.

Performance Confidence Assessment:

The Government will assess how well the offeror performed on recent, relevant contracting efforts. The Government may use information presented in the offeror's past performance proposal volume in addition to information independently obtained from outside sources, to include assessment reports, databases, interviews, and other sources. Sub-factor evaluation uses an overall past performance factor rating assigned from the table below based on the individual sub-factor ratings and findings. If any past performance sub-factor receives a no confidence rating, the overall factor rating will be no confidence.

Adjectival Rating	Description
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

The Government may use additional, external sources to evaluate past performance. These sources include, but are not limited to, CPARS, SAM.gov, or other databases; interviews with Program Managers, Contracting Officers, and the Defense Contract Management Agency. The Government also has the right to consider information regarding an offeror's past performance up to date of award. It is the responsibility of the offeror to provide complete past performance information and thorough explanations as required by section L. The Government is not obligated to make another request for the required information.

Merely having problems does not automatically equate to a no confidence rating, since problems encountered may have been on a more complex program, or an Offeror may have subsequently demonstrated the ability to overcome the problems. The Offeror is required to demonstrate management actions employed in overcoming any problems and the effects of those actions, in terms of improvements achieved or problems rectified, clearly.

The past performance evaluation consists of three sub-factors:

Sub-factor 1 - Quality: The offeror demonstrates evidence of a QMS that has effectively minimized defects and implemented procedures for identification, control, corrections, and/or resolution of deficiencies identified in components, assemblies, and the end items for recent and relevant efforts.

Sub-factor 2 - Timeliness of Delivery: The offeror provides clear evidence of how it met interim milestones, controlled supplier performance, provided reliable delivery, was responsive to technical direction, and completed work on time for recent and relevant efforts.

Sub-Factor 3 - Small Business Utilization: The offeror provides evidence of how its efforts to comply with FAR Part 52.219-8 Utilization of Small Business Concerns and FAR Part 52.219-9 Small Business Subcontracting Plan have enhanced opportunities for small business and enabled the offeror to meet or exceed their small business subcontracting goals. Evaluation may include the following: reporting of small

business performance in the CPARS, achievement of subcontracting goals and timely Electronic Subcontracting Reporting System (eSRS) reporting.

Volume 4: Small Business Participation Commitment Factor Evaluation: As required by DFARS Part 215.304, small business participation is an evaluation factor in this acquisition. The small business participation factor contains no subfactors.

The Government will evaluate the degree to which the offeror's small business participation plan demonstrates the offeror's commitment to maximizing opportunities for small businesses. Small businesses can claim their own self-performance as part of the small business percentage. Each offeror's proposal shall include the information requested in section L. The Government will assess the offeror's planned approach for subcontracting with small business concerns. The Government is seeking to determine whether the offeror has demonstrated a good faith effort to use the various small business concerns in the various socioeconomic sectors for the work that it does not intend to perform as the prime contractor. The Government will evaluate the following to determine the offerors approach and commitment to maximizing opportunities for small business:

- i. Extent of participation of small business firms in terms of total contract value.
- ii. Extent to which small business firms as defined in FAR Part 19, are specifically identified in proposals.
- iii. Extent to which offerors demonstrate commitment to use such firms
- iv. Identification of the complexity and variety of work to be performed by small business firms

The Government will develop one overall small business participation rating for the offeror based on the evaluation criteria described above and using the small business participation table provided below:

Small Business Participation Rating Table

Color Rating	Adjectival Rating	Description
Blue	Outstanding	Proposal indicates an exceptional approach and commitment to maximizing small business participation.
Purple	Good	Proposal indicates a thorough approach and commitment to maximizing small business participation.
Green	Acceptable	Proposal indicates an adequate approach and commitment to maximizing small business participation.
Yellow	Marginal	Proposal has not demonstrated an adequate and commitment to maximizing small business participation.
Red	Unacceptable	Proposal does not demonstrate a commitment to maximizing small business participation

Volume 5: Price Factor Evaluation

The Government will evaluate the price of all proposals but will not use an adjectival rating to rate offerors. The FAR requires the Government award contracts at fair and reasonable prices.

- Evaluation of price will be performed using one or more of the price analysis techniques in FAR Part 15.404-1(b). Through these techniques the Government will determine whether prices are reasonable, complete and balanced.
- All offers with separately priced line items or subline items shall be analyzed to determine if the prices are unbalanced (FAR Part 15.404-1[g]). Unbalanced pricing exists where the prices of one or more line items are significantly overstated or understated, despite an acceptable total evaluated price. Offers may be rejected if the PCO determines the lack of balance poses an unacceptable risk to the Government.
- In accordance with DFARS Clause 252.215-7008, the Government reserves the right to require Certified Cost, Certified Pricing Data, or data other than certified cost and pricing data in the event this solicitation garners only one offer.
- The Government will evaluate offers based on maximum unit prices proposed for CLIN 0001 in all quantity ranges, all ordering periods, and any other price related factors required by the solicitation. If an offeror is required to perform FAT, the unit prices with FAT deliverable units will be used for evaluation in year one (1) only. If the Government waives FAT for an eligible offeror, the unit prices without FAT

deliverable units will be used for evaluation for all years; however, this does not affect the Government's ability to require FAT on future orders at the prices offered with FAT.

- The Government will calculate a Total Evaluated Price by multiplying the proposed unit price for each quantity range by the maximum quantity in that range for each ordering period. The total for each ordering period will be added to calculate the Total Evaluated Price.
- If an offeror fails to submit unit prices for all quantity ranges and ordering periods, its proposal may be considered unacceptable, and the government may reject the proposal.

SECTION M.4 - Evaluation Process

This source selection will be conducted in accordance with the FAR, DFARS, NMCARS, internal NAVSUP guidance and procedures as well as any other applicable regulation or policy. These regulations and procedures provide for checks, balances and independent evaluation of proposals to ensure integrity is maintained throughout the process. Offerors are encouraged to consult the regulations and guidance online. The following is a broad overview of the evaluation process:

Initial Proposals: The Government will open and distribute the proposal volumes. The Government will determine whether offerors have proposed in accordance with the requirements in Section L. The Government will evaluate each proposal independently against the evaluation factors. The Government may elect to make award based on initial proposals; however, the Government reserves the right to enter into discussions.

Discussions: If discussions are applicable, the Government will advise all offerors selected to participate in discussions to address their deficiencies, significant weaknesses, and other areas of risk in their offer. Offerors selected to participate in discussions shall be offered a reasonable opportunity to correct or resolve these areas. The Government may also authorize all offerors selected to participate in discussions to submit price, or other revisions to their offer that may result from the discussions.

Final Proposal Revision (FPR): At the conclusion of discussions, the Government may request that offerors submit their final proposals. The Government will then consider any revisions and/or additional data provided as a result of discussions to determine the best value proposal to the Government. The evaluation criteria in section M shall continue to be the basis for evaluation of the FPRs.

Notifications: The Government will provide any notification required during the evaluation process in accordance with FAR Part 15.5.
