SECTION A – SUPPLEMENTAL INFORMATION

NOTICE

This is a Draft Request for Proposal (RFP). The purpose of this document is to provide industry with a general understanding of the requirements of this acquisition and to obtain industry feedback on its content prior to release of the formal RFP. The United States Government (USG) is not utilizing this document to negotiate or solicit proposals, and the issuance of this Draft RFP does not bind the USG in any way. Portions of this Draft RFP are subject to change. Please note the terms RFP and Solicitation will be used interchangeably throughout this document. Unless specified, the number of days for all submissions required by the resulting contract shall be calendar days.

GENERAL INFORMATION

The Army Contracting Command – Rock Island (ACC-RI) and the U.S. Army, Product Lead Special Ammunition and Weapon Systems (PdL SAWS) herein issues Draft Solicitation W519TC-26-R-0001. This is for the procurement of Special Ammunition and Weapon Systems (SAWS) and non-NATO standard ammunition. This is in support of the Department of War (DoW), other USG Agencies, foreign governments, and international organizations.

By definition, SAWS is chartered to procure non-standard ammunition (NSA) and non-standard mortar weapons systems (NSMWS) not safety tested or type classified for U.S. Army use. These are mainly for non-U.S. weapon systems and are often produced by Former Soviet Union (FSU) or Eastern Bloc countries.

The applicable North Atlantic Industry Classification System (NAICS) code for this acquisition is 332993.

NAICS Code: 332993 – Ammunition (except Small Arms) Manufacturing

PROCUREMENT CATEGORIES

The ammunition and weapon systems to be procured fall within the following Federal Supply Groups (FSGs). All items must be compatible with the applicable weapons within their associated General Specification(s) for PdL SAWS (Attachments 0003 – 0007).

- a. Weapons
- b. Fire Control Equipment
- c. Ammunition and Explosives
- d. Guided Missiles
- e. Aircraft and Airframe Structural Components
- f. Ground Effect Vehicles, Motor Vehicles, Trailers, and Cycles
- g. Maintenance and Repair Shop Equipment
- h. Hand Tools
- i. Measuring Tools
- j. Training Aids and Devices

FSGs and subordinate Federal Supply Classification (FSC) codes used as a basis for categories (Attachment 0001).

CONTRACT AND AWARD DETAILS

Contract Type.

The USG anticipates making multiple-award, Firm-Fixed Price (FFP) Indefinite Delivery Indefinite Quantity (IDIQ) contracts.

Source Selection.

A Highest Technically Rated Offeror (HTRO) source selection approach will be utilized. This is referenced in the DoD Source Selection Guide (para 1.3.1.5) and will be conducted in accordance with Federal Acquisition Regulation (FAR) Part 15.101-1, DoD Source Selection Procedures, and the Army Source Selection Supplement.

Technical Experience Evaluation.

Offeror(s) are required to provide evidence of their own technical experience using the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT). Offeror(s) must also submit documentation detailing relevant past technical experience as either a Prime Contractor or a Subcontractor, along with examples of this experience.

Guaranteed Minimum and Contract Maximum Quantity.

A minimum of \$1,000.00 will be issued with the award of the base IDIQ contract(s). No other quantity is guaranteed.

During the life of the resulting contract, the USG is entitled to order a maximum quantity of 3,552,685,000 items.

Ordering Periods.

The Solicitation outlines five (5), one-year ordering periods:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA

Delivery Details.

FOB Point: Will be specified on an order-by-order basis.

OCONUS Sourced Shipments: Inspection at Origin & Acceptance at Destination (FOB Destination).

CONUS Sourced Shipments: Inspection at Origin & Acceptance will be specified on an order-by-order basis (FOB Origin or FOB Destination).

Arms, Ammunition, and Explosives (AA&E).

In addition to the information submitted under FAR 52.215-6, the Offeror(s) shall be prepared to provide the following information for all facilities and subcontractors (at any tier) facilities that will be performing AA&E work under this solicitation:

Contractor Name:

Contractor Address:

CAGE Code:

Component:

Work being done:

Upon receipt of this information, filled out in Attachment 0018 a Pre-Award Safety and Security Survey will be requested.

Sourcing and Prohibitions.

Executive Order 13662 dated 20 March 2014: Any restricted parties under this order are prohibited from being involved with the production of items procured under this Solicitation, any resulting contracts and delivery orders, or in the End User Certificate (EUC) process. The USG will not accept items manufactured or furnished by any restricted parties under Executive Order 13662 dated 20 March 2014.

Countering America's Adversaries Through Sanctions Act (CAATSA) Section 231: The USG shall avoid contracting with sources from the defense or intelligence sectors of the Russian Federation.

Prohibited Sources: If there is any suspicion of a connection to a prohibited source, Offeror(s) must provide supporting documentation which provides adequate assurance of compliance with the forementioned prohibitions.

International Traffic in Arms (ITAR): Offeror(s) must comply with ITAR (22 CFR 120-130).

PROPOSAL SUBMISSION AND EVALUATION

Instructions.

Proposals shall be submitted in accordance with Section L – "Instructions, Conditions, and Notices to Offerors", through the Solicitation Module of the Procurement Integrated Enterprise Environment (PIEE) suite at (<https://piee.eb.mil/pee-landing/>). In order to do so, vendors must be registered as a Proposal Manager in PIEE.

Vendor registration instructions can be found at:

[https://www.acq.osd.mil/asda/dpc/ce/cap/docs/piee/PIEE Solicitation Module Vendor Access Instructions.pdf](https://www.acq.osd.mil/asda/dpc/ce/cap/docs/piee/PIEE_Solicitation_Module_Vendor_Access_Instructions.pdf)

Evaluation.

Section M outlines the evaluation criteria.

Discussions.

The USG intends to award without discussions; therefore, each proposal should contain the Offeror's best terms for award of a contract as a result of this RFP. The Contracting Officer may contact the Offeror(s) for clarifications, as described in FAR 15.306(a) and FAR 52.215-1, Instructions to Offerors-Competitive Acquisition, without opening discussions. However, the USG does reserve the right to open and conduct discussions, and to permit Offerors to revise their proposals if determined necessary by the Contracting Officer.

Submissions.

Offerors must ensure proposals are fully complete, including all fill-ins within the RFP. Proposals shall be submitted no later than the due date specified in Block 9 of the Standard Form (SF) 33 and shall remain valid for 180 calendar days from the closing date of this RFP. Please ensure Page 1, Block 12 is completed within 60 calendar days. Receipt of an Offeror's proposal in response to this RFP is an affirmation that the Offeror has had access to and received adequate information to prepare a proposal.

Compliance.

Offerors must also have an active registration in System for Award Management (SAM) to be considered for award. Offerors are required to be registered in SAM at the time of proposal submission. In addition, pursuant to FAR 9.103, a contract will only be awarded to a contractor that the Contracting Officer determines to be responsible. Offerors must be able to demonstrate that they meet the standards of responsibility set forth by FAR 9.104.

All contractual provisions specified are obligatory to the Prime Contractor. The Prime Contractor is responsible for enforcing contractual provisions upon any subcontractors/suppliers/vendors.

Contact Information.

All Industry questions/feedback regarding the Draft RFP #2 is requested back to the USG no later May 4, 2026 at 5:00PM EST using the following link:

<https://forms.osi.apps.mil/r/FnBrJQnKfy>

This RFP should not be discussed with any USG representative with the exception of the following Contracting point of contacts (POCs):

Logan E. Frye, Contract Specialist, ACC-RI: logan.e.frye.civ@army.mil

Bethany N. Carbajal, Contracting Officer, ACC-RI: bethany.n.carbajal.civ@army.mil

Lana R. Graw, Contracting Officer, ACC-RI: lane.r.graw.civ@army.mil

SECTION D – PACKAGING AND MARKING

PACKAGING AND MARKING – AA&E Transportation Security Category I

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – AA&E Category I

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); and General Specification for Rocket Propelled and Spin Stabilized Grenade Ammunition, dated 2026 (Attachment 0006) as appropriate, and the information below.

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM)

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5 All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

2.2 Metric units are acceptable in lieu of English units when expressed in this document

section.

3.0 Special Markings

3.1 The items must be shipped with a placard, one on each of two adjacent sides of the unitized load, with the following information in clear, bold, English letters:

3.1.1 Ammunition Items:

- a. Item Nomenclature
- b. United Nations (UN) Dangerous Goods Proper Shipping Name and UN Number preceded by the letters "UN"
- c. UN Packaging Symbol with applicable codes (POP markings)
- d. Hazard Classification
- e. Rounds per Box
- f. Boxes per Pallet
- g. Total Rounds per Pallet
- h. Gross Weight of Pallet
- i. Contractor
- j. Contract Number
- k. Contract Line-Item Number (CLIN)
- l. Lot Number
- m. Transportation Control Number (TCN)
- n. Mark for Code
- o. Ship to Address

3.1.2 Accessories:

- a. Item Nomenclature
- b. Items per Box
- c. Boxes per Pallet
- d. Total Items per Pallet
- e. Gross Weight of Pallet
- f. Contractor
- g. Contract Number
- h. Contract Line-Item Number (CLIN)
- i. Lot Number
- j. Transportation Control Number (TCN)
- k. Mark for Code
- l. Ship to Address

3.2 Additional Packaging and Marking Requirements

a. Detailed Preservation and Packaging Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); and General Specification for Rocket Propelled and Spin Stabilized Grenade Ammunition, dated 2026 (Attachment 0006).

b. Detailed Packing Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); and General Specification for Rocket Propelled and Spin Stabilized Grenade Ammunition, dated 2026 (Attachment 0006).

c. Detailed Marking Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); and General Specification for Rocket Propelled and Spin Stabilized Grenade Ammunition, dated 2026 (Attachment 0006).

d. Detailed Unitization Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); and General Specification for Rocket Propelled and Spin Stabilized Grenade Ammunition, dated 2026 (Attachment 0006).

TRANSPORTATION REQUIREMENT CHECKLIST – AA&E CATEGORY I

1. Number of items being procured and the delivery schedule.

- Number of items: TBD on order-by-order basis
- Delivery Schedule:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA

2. Destination of delivered items. (If more than one (1) destination, list all):

- TBD on order-by-order basis

3. Estimated weight of the item in its shipping container:

- Less than 200 pounds

4. Identify security classification of the material to be shipped.

- Unclassified

5. Identify the DOT container marking (Proper Shipping Name and UN Number) and the hazard classification (for explosives only) or check the appropriate block. When available, attach the Hazardous Component Safety Data Sheet or Material Safety Data Sheet showing the proper shipping name and UN Number.

- DOT Marking/Hazard Classification will be determined under contract

6. Enter the appropriate Transportation Security Category for Arms, Ammunition, or Explosives (AA&E) as categorized in DoD 5100.76-M:

- Category I

7. Government Furnished Property (GFP):

- No GFP

PACKAGING AND MARKING – AA&E Transportation Security Category II

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – AA&E Category II

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM)

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5 All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

2.2 Metric units are acceptable in lieu of English units when expressed in this document section.

3.0 Special Markings

3.1 The items must be shipped with a placard, one on each of two adjacent sides of the unitized load, with the following information in clear, bold, English letters:

3.1.1 Ammunition Items:

- a. Item Nomenclature
- b. United Nations (UN) Dangerous Goods Proper Shipping Name and UN Number preceded by the letters "UN"
- c. UN Packaging Symbol with applicable codes (POP markings)
- d. Hazard Classification
- e. Rounds per Box
- f. Boxes per Pallet
- g. Total Rounds per Pallet
- h. Gross Weight of Pallet
- i. Contractor
- j. Contract Number
- k. Contract Line-Item Number (CLIN)
- l. Lot Number
- m. Transportation Control Number (TCN)
- n. Mark for Code
- o. Ship to Address

3.1.2 Accessories:

- a. Item Nomenclature
- b. Items per Box
- c. Boxes per Pallet
- d. Total Items per Pallet
- e. Gross Weight of Pallet
- f. Contractor
- g. Contract Number
- h. Contract Line-Item Number (CLIN)
- i. Lot Number
- j. Transportation Control Number (TCN)
- k. Mark for Code
- l. Ship to Address

3.2 Additional Packaging and Marking Requirements

a. Detailed Preservation and Packaging Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

b. Detailed Packing Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

c. Detailed Marking Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026
(Attachment 0003).

d. Detailed Unitization Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026
(Attachment 0003).

TRANSPORTATION REQUIREMENT CHECKLIST – AA&E CATEGORY II

1. Number of items being procured and the delivery schedule.

- Number of items: TBD on order-by-order basis
- Delivery Schedule:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA

2. Destination of delivered items. (If more than one (1) destination, list all):

- TBD on order-by-order basis

3. Estimated weight of the item in its shipping container:

- Less than 200 pounds

4. Identify security classification of the material to be shipped.

- Unclassified

5. Identify the DOT container marking (Proper Shipping Name and UN Number) and the hazard classification (for explosives only) or check the appropriate block. When available, attach the Hazardous Component Safety Data Sheet or Material Safety Data Sheet showing the proper shipping name and UN Number.

- DOT Marking/Hazard Classification will be determined under contract

6. Enter the appropriate Transportation Security Category for Arms, Ammunition, or Explosives (AA&E) as categorized in DoD 5100.76-M:

- Category II

7. Government Furnished Property (GFP):

- No GFP

PACKAGING AND MARKING - AA&E Transportation Security Category III

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – AA&E Category III

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0006); General Specification for Mortar Weapon Systems, dated 2026 (Attachment 0005).

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM)

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

2.2 Metric units are acceptable in lieu of English units when expressed in this document section.

3.0 Special Markings

3.1 The items must be shipped with a placard, one on each of two adjacent sides of the unitized load, with the following information in clear, bold, English letters:

3.1.1 Ammunition Items:

- a. Item Nomenclature
- b. United Nations (UN) Dangerous Goods Proper Shipping Name and UN Number preceded by the letters "UN"
- c. UN Packaging Symbol with applicable codes (POP markings)
- d. Hazard Classification
- e. Rounds per Box
- f. Boxes per Pallet
- g. Total Rounds per Pallet
- h. Gross Weight of Pallet
- i. Contractor
- j. Contract Number
- k. Contract Line-Item Number (CLIN)
- l. Lot Number
- m. Transportation Control Number (TCN)
- n. Mark for Code
- o. Ship to Address

3.1.2 Accessories:

- a. Item nomenclature
- b. Items per Box
- c. Boxes per Pallet
- d. Total Items per Pallet
- e. Gross Weight of Pallet
- f. Contractor
- g. Contract Number
- h. Contract Line-Item Number (CLIN)
- i. Lot Number
- j. Transportation Control Number (TCN)
- k. Mark for Code
- l. Ship to Address

3.2 Additional Packaging and Marking Requirements

a. Detailed Preservation and Packaging Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026; General Specification for Mortar Weapon Systems, dated 2026 (Attachment 0005).

b. Detailed Packing Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026

(Attachment 0003); General Specification for Mortar Ammunition, dated 2026; General Specification for Mortar Weapon Systems, dated 2026 (Attachment 0005).

c. Detailed Marking Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026; General Specification for Mortar Weapon Systems, dated 2026 (Attachment 0005).

d. Detailed Unitization Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026; General Specification for Mortar Weapon Systems, dated 2026 (Attachment 0005).

TRANSPORTATION REQUIREMENT CHECKLIST – AA&E CATEGORY III

1. Number of items being procured and the delivery schedule.

- Number of items: TBD on order-by-order basis
- Delivery Schedule:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA

2. Destination of delivered items. (If more than one (1) destination, list all):

- TBD on order-by-order basis

3. Estimated weight of the item in its shipping container:

- Less than 200 pounds

4. Identify security classification of the material to be shipped.

- Unclassified

5. Identify the DOT container marking (Proper Shipping Name and UN Number) and the hazard classification (for explosives only) or check the appropriate block. When available, attach the Hazardous Component Safety Data Sheet or Material Safety Data Sheet showing the proper shipping name and UN Number.

- DOT Marking/Hazard Classification will be determined under contract

6. Enter the appropriate Transportation Security Category for Arms, Ammunition, or Explosives (AA&E) as categorized in DoD 5100.76-M:

- Category III

7. Government Furnished Property (GFP):

- No GFP

PACKAGING AND MARKING – AA&E Transportation Security Category IV

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – AA&E Category IV

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0005); and General Specification for Small Caliber Ammunition, dated 2026 (Attachment 0004) as appropriate, and the information below.

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM):

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5 All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

2.2 Metric units are acceptable in lieu of English units when expressed in this document section.

3.0 Special Markings

3.1 The items must be shipped with a placard, one on each of two adjacent sides of the unitized load, with the following information in clear, bold, English letters:

3.1.1 Ammunition Items:

- a. Item Nomenclature
- b. United Nations (UN) Dangerous Goods Proper Shipping Name and UN Number preceded by the letters "UN"
- c. UN Packaging Symbol with applicable codes (POP markings)
- d. Hazard Classification
- e. Rounds per Box
- f. Boxes per Pallet
- g. Total Rounds per Pallet
- h. Gross Weight of Pallet
- i. Contractor
- j. Contract Number
- k. Contract Line-Item Number (CLIN)
- l. Lot Number
- m. Transportation Control Number (TCN)
- n. Mark for Code
- o. Ship to Address

3.1.2 Accessories:

- a. Item Nomenclature
- b. Items per Box
- c. Boxes per Pallet
- d. Total Items per Pallet
- e. Gross Weight of Pallet
- f. Contractor
- g. Contract Number
- h. Contract Line-Item Number (CLIN)
- i. Lot Number
- j. Transportation Control Number (TCN)
- k. Mark for Code
- l. Ship to Address

3.2 Additional Packaging and Marking Requirements

a. Detailed Preservation and Packaging Requirements:

General Specification for Special Ammunition and Weapon Systems, dated

2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0005); and General Specification for Small Caliber Ammunition, dated 2026 (Attachment 0004).

b. Detailed Packing Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0005); and General Specification for Small Caliber Ammunition, dated 2026 (Attachment 0004).

c. Detailed Marking Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0005); and General Specification for Small Caliber Ammunition, dated 2026 (Attachment 0004).

d. Detailed Unitization Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003); General Specification for Mortar Ammunition, dated 2026 (Attachment 0005); and General Specification for Small Caliber Ammunition, dated 2026 (Attachment 0004).

TRANSPORTATION REQUIREMENT CHECKLIST – AA&E CATEGORY IV

1. Number of items being procured and the delivery schedule.
 - Number of items: TBD on order-by-order basis
 - Delivery Schedule:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA
2. Destination of delivered items. (If more than one (1) destination, list all):
 - TBD on order-by-order basis
3. Estimated weight of the item in its shipping container:
 - Less than 200 pounds
4. Identify security classification of the material to be shipped.
 - Unclassified
5. Identify the DOT container marking (Proper Shipping Name and UN Number) and the hazard classification (for explosives only) or check the appropriate block. When available, attach the Hazardous Component Safety Data Sheet or Material Safety Data Sheet showing the proper shipping name and UN Number.
 - DOT Marking/Hazard Classification will be determined under contract
6. Enter the appropriate Transportation Security Category for Arms, Ammunition, or Explosives (AA&E) as categorized in DoD 5100.76-M:
 - Category IV
7. Government Furnished Property (GFP):
 - No GFP

PACKAGING AND MARKING – AA&E Transportation Security Category Not AA&E

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – Not AA&E

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM)

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5 All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

2.2 Metric units are acceptable in lieu of English units when expressed in this document section.

3.0 Special Markings

3.1 The items must be shipped with a placard, one on each of two adjacent sides of the unitized load, with the following information in clear, bold, English letters:

3.1.1 Ammunition Items:

- a. Item Nomenclature
- b. United Nations (UN) Dangerous Goods Proper Shipping Name and UN Number preceded by the letters "UN"
- c. UN Packaging Symbol with applicable codes (POP markings)
- d. Hazard Classification
- e. Rounds per Box
- f. Boxes per Pallet
- g. Total Rounds per Pallet
- h. Gross Weight of Pallet
- i. Contractor
- j. Contract Number
- k. Contract Line-Item Number (CLIN)
- l. Lot Number
- m. Transportation Control Number (TCN)
- n. Mark for Code
- o. Ship to Address

3.1.2 Accessories:

- a. Item Nomenclature
- b. Items per Box
- c. Boxes per Pallet
- d. Total Items per Pallet
- e. Gross Weight of Pallet
- f. Contractor
- g. Contract Number
- h. Contract Line-Item Number (CLIN)
- i. Lot Number
- j. Transportation Control Number (TCN)
- k. Mark for Code
- l. Ship to Address

3.2 Additional Packaging and Marking Requirements

a. Detailed Preservation and Packaging Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

b. Detailed Packing Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

c. Detailed Marking Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

d. Detailed Unitization Requirements:

General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

TRANSPORTATION REQUIREMENT CHECKLIST – AA&E CATEGORY Not AA&E

1. Number of items being procured and the delivery schedule.

- Number of items: TBD on order-by-order basis
- Delivery Schedule:

Ordering Period One	Award – 365 Days After Award (DAA)
Ordering Period Two	366 DAA – 731 DAA
Ordering Period Three	732 DAA – 1097 DAA
Ordering Period Four	1098 DAA – 1463 DAA
Ordering Period Five	1464 DAA – 1829 DAA

2. Destination of delivered items. (If more than one (1) destination, list all):

- TBD on order-by-order basis

3. Estimated weight of the item in its shipping container:

- Less than 200 pounds

4. Identify security classification of the material to be shipped.

- Unclassified

5. Identify the DOT container marking (Proper Shipping Name and UN Number) and the hazard classification (for explosives only) or check the appropriate block. When available, attach the Hazardous Component Safety Data Sheet or Material Safety Data Sheet showing the proper shipping name and UN Number.

- DOT Marking/Hazard Classification will be determined under contract

6. Enter the appropriate Transportation Security Category for Arms, Ammunition, or Explosives (AA&E) as categorized in DoD 5100.76-M:

- Category Not AA&E

7. Government Furnished Property (GFP):

- No GFP

PACKAGING AND MARKING – AA&E Transportation Security Uncategorized

1. Commercial packaging requirements shall NOT apply to this procurement.
2. The following detailed requirements shall apply to this procurement.

Non-Standard Ammunition – Uncategorized AA&E

1.0 Packaging and Marking shall be in accordance with the General Specification for Special Ammunition and Weapon Systems, dated 2026 (Attachment 0003).

2.0 Supplemental Information

2.1 Wood Packaging Material (WPM)

2.1.1. All WPM shall be in accordance with the requirements of International Standards for Phytosanitary Measures (ISPM) 15. Offerors are required to review the requirements of ISPM 15 for applicability to the United States.

2.1.2. WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.

2.1.3. Packaging materials exempt from the requirements are materials that have undergone a manufacturing process such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board.

2.1.4. All WPM shall be constructed from heat treated (HT to 56 degrees centigrade for 30 minutes) lumber and certified by an accredited recognized agency in accordance with applicable WPM policy and WPM enforcement regulations. All materials must include certification markings in accordance with applicable standards and placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides and ends of the pallets and be contrasting and clearly visible.

2.1.5. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an applicable approved dunnage stamp.

2.1.6. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry.

SECTION L – INSTRUCTIONS TO OFFERORS

GENERAL INSTRUCTIONS

These instructions are a guide for preparing proposals in response to Solicitation W519TC-26-R-0001 and represent a tailored version of FAR 52.215-1. In the event of a conflict, the language herein takes precedence. The basis for award will be determined by utilizing the Highest Technically Rated Offeror (HTRO) Minimum Technical Threshold Rating (MTTR) approach. HTRO is a source selection process that is neither a tradeoff nor Lowest Price Technically Acceptable (LPTA). This method will allow the USG to establish a pool of qualified Contractors for future competition. Technical acceptability will be determined using the HTRO methodology described herein. The USG intends to award up to five (5) IDIQ contracts to the highest-rated Offerors who are determined responsible in accordance with (IAW) FAR Part 9.

The USG has established a points-based matrix of objective criteria in this Solicitation. Offerors will self-score against the objective criteria and deliver supporting documentation to prove their self-score. After receipt of proposals, all Offerors are ranked from highest score to lowest score using the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT). The USG will review the supporting documentation to validate the Offeror's self-score starting from the highest-ranked Offeror and proceeding down the list. This validation process will continue until a maximum of five technically acceptable proposals have been confirmed. Offerors with scores below the top 5 will not be reviewed. Scores may be adjusted downward if submissions are not adequately substantiated. In the event a score is adjusted downward and puts it below an Offeror outside the top 5, it will no longer be evaluated and the Offeror now in the top 5 will be included for review. The USG will not make upward adjustments. The USG intends to award up to five (5) contracts, but reserves the right to a single award, to the Offeror with the highest rated technical capability and prices that are deemed fair and reasonable. The USG intends to validate Offerors' self-scores and award without discussions; however, the USG reserves the right to conduct discussions if it is determined to be in the USG's best interest. Offerors are cautioned to examine this Solicitation in its entirety and ensure their proposal contains all necessary information, all required documentation is provided, and is complete in all aspects. The USG is not obligated to make another request for required information, nor does the USG assume the duty to search for data to cure problems it may find in proposals. The Offeror(s) must ensure their documentation is clearly outlined in the Cross-Reference Matrix (Attachment 0009) (DRAFT) so that technical evaluators can identify submitted documents for each factor accurately.

During the evaluation process, the USG may request clarifications if needed. Clarifications do not constitute discussions, and an Offeror is not allowed to change

their proposal in response to a request for clarification. However, the USG reserves the right to engage in discussions, if needed, and to engage in discussions with some, but not necessarily all, Offerors. If discussions are held, they may consist of oral and/or written questions, may address technical and cost/price issues, and may allow an Offeror to provide additional information and/or change their proposal.

GENERAL PROPOSAL SUBMISSION REQUIREMENTS

Proposals must be signed by an individual authorized to enter into a contract on behalf of the Offeror. Proposals and work samples must be written in English. If a work sample is written in a language other than English, it must be translated by a certified third-party translator, with certification provided. Both the original non-English version and the certified translated copy must be provided.

Proposals must remain valid for 180 calendar days from the due date specified in Block 12 of the SF 33.

Proposals must be submitted electronically via the PIEE Solicitation Module by the specified deadline. The PIEE Solicitation Module automatically tracks the date and time of all submissions. Proposals not received by the designated submission deadline will be handled IAW FAR 15.208.

Vendor Access Instructions and Account Support Contact Information:

<https://piee.eb.mil/xhtml/unauth/web/homepage/vendorGettingStartedHelp.xhtml>

PIEE Solicitation Module Web Based Training:

<https://pieetraining.eb.mil/wbt/xhtml/wbt/sol/index.xhtml>

Offerors shall establish a PIEE Proposal Manager account to access documents and submit proposals.

The USG reserves the right to cancel this Solicitation at any point before contract award without obligation to reimburse Offerors for costs incurred.

The USG will not reimburse Offerors for proposal preparation costs.

Notices and debriefings will be conducted IAW FAR 15.505 and FAR 15.506.

Offerors must acknowledge any amendments issued against this Solicitation by including a signed SF 30 (Amendment of Solicitation/Modification of Contract) with their submission.

Offerors may only submit up to the quantity limit of required documents for each evaluation factor outlined in the HTRO Technical Matrix, Column D. Each document shall be referenced in the Cross-Reference Matrix (Attachment 0009) (DRAFT). If the Offeror submits more than the required quantity, the USG will only review the

documents provided up to the quantity limit. For example, if the USG requires up to ten (10) documents for an evaluation factor and the Offeror submits 11, the USG will only review and accept the first ten (10) listed in the Cross-Reference Matrix (Attachment 0009) (DRAFT).

Limitation on Submission by Affiliated Entities.

Each Offeror is permitted to submit only one (1) proposal in response to this Solicitation. For the purpose of this limitation, an "Offeror" includes all of its affiliated entities.

1. Companies are considered "affiliated" if one controls or has the power to control the other, or if a third party (such as a parent company) controls or has the power to control both.
2. A parent company and its wholly or partially owned subsidiaries are considered a single entity under this rule. Proposals submitted by more than one subsidiary of a common parent company for this Solicitation will be considered multiple submissions from a single Offeror.
3. If it is determined that affiliated entities have submitted more than one (1) proposal, all proposals from the affiliated group will be deemed non-responsive and will be rejected from consideration for award.

Accepted and Prohibited Arrangements.

1. Affiliated entities may form a formal, legally constituted Joint Venture (JV) to submit a proposal. The JV will be considered a single Offeror. No entity part of a JV may submit independently. The proposal must include legal documentation verifying the formation and status of the JV.

The only teaming arrangement permitted under this solicitation is a formal, legal joint venture. All other collaborative agreements are prohibited. Each Offeror, including a JV, may only be associated with a single proposal. Any attempt to bypass this limitation will result in the disqualification of all related proposals.

PROPOSAL FORMAT AND CONTENT

Submissions must be in Adobe PDF or Microsoft (MS) Word, except for the Price Matrix (Attachment 0016) (DRAFT), the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT), and the Cross-Reference Matrix (Attachment 0009) (DRAFT) which must be in MS Excel format. All scanned documents must be legible and not password protected.

Pages should be 8.5 x 11 inches, with graphs, charts, and tables allowed on 8.5 x 14 or 11 x 17 inches. Font type, font size, and margin requirements do not apply to work sample submissions. All proposal text shall be written in English. While Volumes 2a.1 – 2a.2 have no page limit, Offerors shall provide specific evidence to substantiate the self-score. Work samples shall be submitted as searchable Adobe PDFs and clearly marked to identify the location in the work sample the Offeror used to substantiate their score. If a work sample substantiates multiple elements, each element must be identified within the work sample. Offerors must follow the instructions in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) and submit all required documents via the PIEE Solicitation Module. Hyperlinks are not permitted within work samples; each work sample must be a standalone document.

The USG is not obligated to correct errors or omissions in proposals. **Proposals with unresolvable errors may be removed from consideration.**

Table A. Proposal Organization

Volume	Subject/ Factor	Page Limit	File Naming	Format
1	Contractual Documents			
1a	Cover Letter	3	Offeror Name_Cover Letter	Adobe PDF or MS Word (docx)
1b	Contractual Documentation			Adobe PDF or MS Word (docx)
2	Technical Proposal			
2a	HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT)	Matrix	Volume 2a_Offeror Name_Self Scoring Matrix	MS Excel (.xlsx)
2a.1	Factor 1 HTRO GO/NO-GO Gate Supporting Documentation	No limit	Volume 2a.1_Offeror Name_SD	Adobe PDF
2a.2	Factor 2 HTRO Technical Matrix Supporting Documentation	No limit	Volume 2a.2_Offeror Name_SD	Adobe PDF
2b	Cross-Reference Matrix (Attachment 0009) (DRAFT)	Matrix	Volume 2b_Offeror Name_CRM	MS Excel (.xlsx)
3	Factor 3 Price			
3a	Price Matrix	Matrix	Volume 3a_Offeror Name_Price Matrix	MS Excel (.xlsx)

General Submission Requirements for Past Experience.

Offerors must provide evidence of relevant past experience to demonstrate their capability to perform the work required by this Solicitation. The Offeror is afforded the opportunity to provide past experience contract references for itself, its parent company,

its subsidiaries, its formal Joint Venture Partner(s), and/or its predecessor companies consistent with the Limitation on Submission by Affiliated Entities section above.

1. Source of Contracts: All contract references provided must have been performed under Federal elements of the USG or NATO governments, if applicable, and/or subcontracts.
2. Classified Contracts: Please note that references for work performed on classified contracts cannot be independently verified by the USG and, therefore, will not be evaluated.

Use of Experience from Affiliated and Predecessor Entities.

Offerors may submit the corporate experience of affiliated entities (parent, subsidiary) or predecessor companies. To be considered relevant and acceptable, the proposal shall meet the following criteria:

1. The proposal must substantively justify why the Offeror can claim the experience. This justification must explain how the Offeror will draw upon the experience of the affiliated or predecessor company and must demonstrate that the resources (e.g., workforce, management, facilities, or other key resources) of that entity will be transferred to, provided to, or otherwise relied upon by the Offeror for contract performance. The entity whose experience is being cited must have meaningful involvement in the performance of this contract.
2. For any cited experience from a parent or subsidiary company, the proposal must include a formal Commitment Letter from the affiliated entity, signed by an authorized representative, detailing the specific resources it will provide and committing to making them available.
3. The USG reserves the right to determine whether the experience of an affiliated or predecessor company is relevant to the Offeror based on the justification provided.

Joint Venture or Predecessor Experience.

When providing references for a Joint Venture (in which the Offeror was a partner) or a predecessor company, the Offeror must provide the following details to justify the claimed experience:

1. Provide the name of the contractor (the Offeror or JV partner) who is claiming the experience.

2. Provide legal documentation and a clear description of the relationship between the Offeror and the Joint Venture or predecessor company whose experience is being cited.
3. Provide a detailed justification as to why the Offeror can claim the experience, explaining how the resources (e.g., workforce, management, facilities) of the Joint Venture or predecessor company have been or will be transferred to the Offeror, ensuring meaningful involvement and capability for contract performance.

EVALUATION PROCESS

Use of Artificial Intelligence (AI) Tools.

The USG may employ AI as a tool to assist in the analysis and review of Offeror proposals. AI tools may be used to support tasks such as summarizing proposal content, identifying compliance with request for delivery order proposal/Solicitation requirements, and highlighting areas of potential strength, weakness, or risk.

Maintaining Inherently Governmental Functions.

Notwithstanding the use of AI tools to support the evaluation process, all final evaluation judgements, including the assignment or assessment of adjectival ratings, best value determinations, and source selection decisions, will be made exclusively by duly appointed USG personnel. The USG retains sole responsibility for all inherently governmental functions and will not delegate decision making authority to any AI tool.

Offeror Confidentiality and Data Protection.

The AI tools utilized by the USG will be employed in a manner consistent with applicable regulations that govern the protection of proprietary and source selection sensitive information. The AI tool will be an output-only system. Any generated report data is not saved. No proposal data will be transmitted to or processed by external, non-Government systems without appropriate safeguards and authorizations in place.

PROPOSAL INSTRUCTIONS

All volumes shall be organized according to Table A. Proposal Organization above.

Volume 1 Contractual Documents.

Volume 1 consists of the Contractual Documents comprised of Volume 1a Cover Letter and Volume 1b Contractual Documentation.

The Offeror shall provide a Cover Letter with the following company information: Name, Address, Commercial and Government Entity (CAGE) Code, Unique Entity Identifier

(UEI) Number, System for Award Management (SAM.gov) registration date, proposal validity statement, and point of contact authorized to obligate the company (full name, title, e-mail address, and phone number). The proposal validity statement shall be valid through 180 calendar days from the proposal due date.

Contractual Documentation.

Provide the following:

1. SF 33 Section A, Blocks 12 through 18. Block 12 shall be filled in with the proposal validity date.
 - Information provided must match the Offeror's SAM.gov registration and the proposal Cover Letter.
 - Signature by the Offeror on SF 33 constitutes an offer that the USG may accept.
2. SF 30. In the event this Solicitation is amended, Offerors shall acknowledge all amendments by submission of a signed SF 30.
3. Section K: Representations and Certifications
 - The Offeror shall complete all required Representations and Certifications in SAM.gov.
 - If any are not applicable, Offeror shall annotate "N/A" so that none of the fields are left blank.
 - Offeror shall confirm that all SAM.gov Representations and Certifications remain current for the entire evaluation period.

Volume 2 Technical Proposal.

Volume 2 consists of the Technical Proposal comprised of Volume 2a – 2b:

Volume 2a: HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT)

Volume 2a.1: Factor 1 HTRO GO/NO-GO Gate Supporting Documentation

Volume 2a.2: Factor 2 HTRO Technical Matrix Supporting Documentation

Volume 2b: Cross-Reference Matrix (Attachment 0009) (DRAFT)

Volume 2a HTRO Self-Scoring Matrix.

Offerors shall complete the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT), which is comprised of two (2) factors:

Factor 1 HTRO GO/NO-GO Gate

Factor 2 HTRO Technical Matrix

Factor 1 HTRO GO/NO-GO Gate.

Failure to meet all criteria of this mandatory factor will result in proposal rejection without further evaluation and therefore ineligible for award.

Offerors shall navigate to the "GO_NO-GO Gate" tab in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) MS Excel file.

Enter the Offeror Name in cell B4.

For each question in Rows 6 through 10, select either "Yes" or "No" from the corresponding dropdown menu in Column C.

An answer of "No" to any question within this factor shall render the Offeror ineligible for award. The USG will not review the Offeror's proposal any further.

Factor 2 HTRO Technical Matrix.

Factor 2 proposals will only be evaluated for those Offerors who successfully PASS all criteria in the Factor 1 HTRO GO/NO-GO Gate. For Factor 2, Offerors will complete the HTRO Technical Matrix provided.

Navigate to the "Technical Matrix" tab in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) MS Excel file.

Enter the Offeror Name in cell C3.

For each Category in the HTRO Technical Matrix listed in Column C, the Offeror shall enter a numeric value in the "Offeror's Response" (Column E) based on the supporting documents provided. The "Offeror's Raw Score" (Column H) and the "Offeror's Self-Score Total" (cell H49) will be calculated automatically.

Evaluation Categories where the Offeror cannot demonstrate experience shall be left blank, and the Offeror will receive zero (0) points for that item.

To be considered technically acceptable, an Offeror's score must meet or exceed the MTTR. The "Offeror's Self-Score Total" (cell H49) will automatically turn green for Acceptable and red for an Unacceptable score.

WARNING: Unless stated otherwise, Offerors shall not change, adjust, unprotect, or manipulate any formulas or cells within the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) MS Excel file. Any unauthorized modification may result in the proposal being rendered non-compliant and rejected.

Instructions and Examples on How to Score.

Category 1

Category 1.a.1 (cell C7) "Provide historical Letters of Commitment (LoC) or formal quotations, and delivery verification for energetics-based end items or components. This applies to both domestic and foreign manufacturers supporting USG direct contracts or U.S. Prime Contractor programs. Identify the Federal Supply Class (FSC) code each delivery represents."

Quantity Limit (Column D): The numbers the Offeror can submit for this category. In this instance up to 10 indicate numbers 0-10 are acceptable

Offeror's Response (Column E): Offeror will enter number from 0 to 10. The number entered will be the total number the Offeror can demonstrate experience for within that Evaluation Category line.

Point Value Each (Column F): The point value for each number submitted in column E. In this instance it is 300.

Maximum Possible Points (Column G): The maximum score in this category. In this instance it is 3000.

Offeror's Raw Score (Column H): Once the Offeror enters a number in Offeror's Response (Column E), automatic multiplication of Column E by Column F occurs and updates in Column H accordingly.

For instance, if the Offeror enters the total number of "8" for supporting evidence in Offeror's Response (Column E) based on valid Letters of Commitment or formal quotations, the calculation is: 8 documents * 300 points/document = 2400 for this Evaluation Category Offeror's Raw Score (Column H). Also, the HTRO Technical Matrix will automatically update the Offeror's Self-Score Total (cell H49).

Volume 2a.1: Factor 1 HTRO GO/NO-GO Gate Supporting Documentation.

The Offeror shall provide supporting documentation as evidence for each of the five (5) GO/NO-GO Gate questions below. Documentation must be dated and remain valid from January 01, 2019, onward. Any documentation preceding this timeframe will not be considered.

Are you currently registered with the U.S. Department of State Directorate of Defense Trade Controls (DDTC)?

If the Offeror answered "yes" to this question, the Offeror must provide a copy of their current U.S. Department of State DDTC Brokers and Brokering Registration, and DDTC Manufacturer and Exporter Registration. Registration documentation must be valid at the time of proposal submission.

Do you have a current Federal Firearms License (FFL) Type 11 – Importer of Destructive Devices, Ammunition for Destructive Devices or Armor Piercing Ammunition?

If the Offeror answered “yes” to this question, the Offeror must provide a copy of their current FFL Type 11 – Importer of Destructive Devices, Ammunition for Destructive Devices or Armor Piercing Ammunition. License documentation must be valid at the time of proposal submission.

Do you have an active System for Award Management (SAM) registration (with corresponding CAGE Code and Unique Entity Identifier (UEI) Number)?

If the Offeror answered “yes” to this question, the Offeror must provide their CAGE code and UEI number. Registration documentation must be valid at the time of proposal submission.

Have you performed as a Prime Contractor or a Subcontractor on an Arms, Ammunition & Explosive (AA&E) contract from January 01, 2019 to present?

If the Offeror answered “yes” to this question, the Offeror must provide evidence of an awarded contract that satisfies this question.

Can you provide the required acknowledgement for Certification of Compliance for Prohibited Sources, and do you agree that you will not use any of the prohibited sources?

If the Offeror answered “yes” to this question, the Offeror must include a signed Certification of Compliance with Prohibited Sources (Attachment 0023) within their proposal submission.

Volume 2a.2: Factor 2 HTRO Technical Matrix Supporting Documentation.

For each Evaluation Category, Offerors will self-score and shall provide corresponding supporting documentation as evidence. Self-rated scores shall be verifiable using the documentation provided. The burden of proof to substantiate the Offeror’s self-rated score rests with the Offeror. The documents provided shall include all the evidence required for the USG to validate the Offeror’s proposed self-score. Documentation from January 01, 2019, until RFP submission is acceptable. Any documentation outside this timeframe will not be considered to validate an Offeror’s self-score. In order for scoring to be validated, the FSC for each ammunition item and/or component with energetics must be included and the FSC must be on the provided SAWS FSC list (Attachment 0001).

Category 1. Demonstrate your ability to source and deliver munitions and/or components with energetics.

The Offeror must provide documentation that demonstrates their ability to deliver munitions and/or components with energetics (from the reference FSC list) directly to the USG or directly to Prime Contractors delivering on a USG contract. The Offeror shall identify the corresponding 4-digit FSC code (e.g. 1305, 1310) that each ammunition or component with energetics represents. Offeror may provide up to ten (10) samples for Category 1.a.1 and up to ten (10) samples for Category 1.b.1.

Categories 1.a.1 – 1.a.3:

The Offeror must provide documentation demonstrating their ability to source and deliver from foreign or U.S. ammunition and/or components with energetics directly to the USG or directly to Prime Contractors on a USG contract from foreign or U.S. manufacturers for past or current contracts. Each work sample must include the sourcing document(s) and associated delivery document(s). Work samples must include the following documentation:

- Sourcing documents:
 - Historical Letters of Commitment or formal quotes (signatures required)
 - Proof of contract or purchase orders from supplier/manufacturer

AND

- Associated delivery documents:
 - Material Inspection and Receiving Report (DD Form 250, Item Information Certification Statement (IICS), or Wide Area WorkFlow – Receiving Report (WAWF-RR)
 - International Import Certificate (IIC)
 - Signed Bill of Lading (B/L) or Air Waybill (AWB) confirming final receipt

Categories 1.b.1 – 1.b.3:

The Offeror must provide documentation demonstrating their ability to obtain and deliver ammunition and/or components with energetics for prospective contracts.

Documentation includes the following:

- Signed Letters of Commitment or signed formal quotes from prospective foreign or U.S manufacturers that the Offeror intends to use for prospective contracts.

- In the event, the Offeror is the manufacturer, the Offeror can provide a contract or purchase order from the USG or Prime Contractor on a USG contract.

Category 2. Demonstrate your ability to obtain End User Certificates (EUCs).

The Offeror must provide documentation that demonstrates their ability to secure EUCs from different foreign countries. The Offeror shall identify the corresponding 4-digit FSC code (e.g. 1305, 1310) that each ammunition or component with energetics represents.

Categories 2.a.1 – 2.a.3:

The Offeror may provide up to five (5) signed EUCs for Category 2.a.1.

- Each historical, approved, and signed EUC must clearly identify the issuing and exporting countries and the corresponding end item or component with energetics from a past or current contract. The Offeror shall identify which FSC each item represents.
- For Category 2.a.2, if an EUC identifies different issuing and exporting countries, the work sample counts as two (2) distinct countries towards the five (5) country quantity limit maximum. An individual country will only be counted once regardless of how many EUCs the individual country is identified on. While an Offeror may submit EUCs representing more than five (5) foreign countries, a maximum of five (5) will only be counted toward the Offeror's Raw Score.

Categories 2.b.1 – 2.b.3:

The Offeror must provide documentation demonstrating their ability to provide prospective or draft EUCs for different foreign countries. The Offeror may provide up to five (5) prospective or draft EUCs for Category 2.b.1. The EUC must contain all language required by the issuing country.

Categories 3. Demonstrate your ability to obtain Export Licenses.

The Offeror must provide documentation that demonstrates their ability to obtain Export Licenses from foreign countries. Each document shall include the corresponding 4-digit FSC code (e.g. 1305, 1310) that the ammunition or component with energetics represents. Offeror may provide up to ten (10) samples for Category 3.a.1.

Categories 3.a.1 – 3.a.3:

The Offeror must provide documentation demonstrating their ability to obtain historical, approved, and signed Export Licenses from past or current contracts, each originating from a different foreign country.

- A copy of a historical, approved, and signed Export License from a past or current contract, each from a separate foreign country.

Category 4. Demonstrate your ability to complete transport of Arms, Ammunition & Explosives (AA&E).

The Offeror must provide documentation that demonstrates their ability to successfully transport AA&E. Each document shall include the corresponding 4-digit FSC code (e.g. 1305, 1310) the ammunition represents.

Categories 4.a.1 – 4.a.4:

The Offeror must provide verifiable documentation demonstrating their ability to successfully execute Transportation Plans to, from, or between foreign countries which support the transport of AA&E. Offeror may submit up to six (6) samples for Category 4.a.1. Documentation may include but is not limited to:

- An executed Transportation Plan to, from, or between foreign countries supporting the transport of AA&E.
 - Each Transportation Plan submitted will count as one (1) work sample for 4.a.1. If the origin and destination countries are different foreign countries, then that work sample will count as two (2) of the maximum seven (7) for 4.a.2. The Offeror may have more than seven (7) foreign countries represented, however, only seven (7) will be counted towards the Offeror's Raw Score.
 - Evidence of completion for each executed Transportation Plan (signed Bills of Lading or paid invoices).
- The submitted samples shall represent a variety of transportation modes (road, rail, air, and ocean). Work samples provided from 4.a.1 will be used to validate. Up to four (4) modes will be counted for the Offeror's Raw Score.
- For Transportation Plans involving ocean transport, the documentation must demonstrate the use of a U.S.-Flag Vessel or an approved U.S.-Flag Vessel Waiver for scoring toward 7.a.4. Work samples provided from 4.a.1 will be used to validate. Only one (1) sample will be counted for the Offeror's Raw Score.

Categories 4.b.1 – 4.b.3:

The Offeror must provide verifiable documentation demonstrating their ability to provide prospective Transportation Plans to, from, or between foreign countries which support the transport of AA&E. Offeror may submit up to six (6) samples for Category 7.b.1.

- A prospective Transportation Plan to, from, or between foreign countries supporting the transport of AA&E.
- Each prospective Transportation Plan submitted will count as one (1) work sample for 7.b.1. If the origin and destination countries are different foreign countries, then that work sample will count as two (2) of the maximum seven (7) for 7.b.2. The Offeror may have more than seven (7) foreign countries represented, however, only seven (7) will be counted towards the Offeror's Raw Score.
- The submitted samples shall represent a variety of transportation modes (road, rail, air, and ocean). Offeror may submit up to four (4).

Category 5. Demonstrate your ability to complete Technical Data Packages (TDPs).

The Offeror must provide documentation that demonstrates their ability to develop TDPs that are compliant with the corresponding General Specification (Attachments 0003 – 0007) for PdL SAWS. Each document shall include the corresponding 4-digit FSC code (e.g. 1305, 1310) that the ammunition or component with energetics represent. Offerors may provide a combined total of up to four (4) samples for Category 5.a.1 **OR** Category 5.b.1.

Categories 5.a.1 – 5.a.2:

The Offeror must provide documentation demonstrating their ability to develop USG-approved TDPs from ammunition and/or components with energetics manufacturers.

- A copy of a USG-approved TDP from manufacturers producing ammunition and/or component with energetics.
- Evidence of USG approval/acceptance of each TDP (documentation of approved TDP or paid invoice)
- Evidence of your relationship with manufacturer (contract or purchase order)

Categories 5.b.1 – 5.b.2:

The Offeror must provide documentation demonstrating their ability to develop other North Atlantic Treaty Organization (NATO) approved TDPs from ammunition and/or components with energetics manufacturers.

- A copy of a NATO approved (other than US) TDPs from manufacturers producing ammunition and/or component with energetics.
- Evidence of NATO approval/acceptance of each TDP (documentation of approved TDP or paid invoice)
- Evidence of your relationship with manufacturer (contract or purchase order)

Category 6. Demonstrate your ability to complete Lot Acceptance Tests (LATs).

The Offeror must provide documentation that demonstrates their ability to successfully complete LATs. Each document shall include the corresponding 4-digit FSC code (e.g. 1305, 1310) that the ammunition and/or component with energetics represent. Offerors may provide up to five (5) samples for Category 6.a.1.

Categories 6.a.1 – 6.a.3:

The Offeror must provide documentation demonstrating their ability of ammunition and/or components with energetics production acceptance on a USG contract or a contract with a U.S. Prime Contractor from an approved Lot Acceptance Test Report (LATR).

Documentation may include:

- A copy of an approved LATR that supported acceptance of a production lot of ammunition or a component with energetics on a USG contract or a contract with a U.S. Prime Contractor.
- For each LATR submitted, the Offeror must clearly identify the city and country of the test site where the test was conducted.
- Evidence of completion for each approved LATR (DD 250, signed Bills of Lading, or paid invoices).

Category 7. Document your award of a USG contract or contract with U.S. Prime Contractor for Arms, Ammunition, or Explosives.

The Offeror must provide documentation that demonstrates their ability to obtain an award for a USG contract or a contract with a U.S. Prime Contractor for Arms, Ammunition, or Explosives. Offeror may submit up to one (1) sample for each Category.

Categories 7.a – 7.d:

Offeror must provide evidence of an awarded USG contract(s) or an awarded contract with a U.S. Prime Contractor for Arms, Ammunition, or Explosives. The submitted evidence must clearly state the Offeror's role as either the Prime Contractor or

Subcontractor and include the total dollar value of the contract. The contract dollar values are as follows:

- Prime Contractor on contract over \$250M
- Prime Contractor on contract valued between \$50M and \$249M
- Subcontractor on contract over \$250M
- Subcontractor on contract valued between \$50M and \$249M

Since Prime Contractors have a direct relationship with the USG, their evidence should consist of official USG-generated documents or system reports.

The Offeror should provide at least one of the following primary documents, plus scope verification for Prime Contractor role submissions:

Document Type	What It Proves	Description to include in Solicitation
Official Award Document	Role, Value, Date	A fully executed copy of the U.S. Government contract award faceplate (e.g., Standard Form (SF) 33, SF 1449, SF 26, or DD Form 1155) showing the Offeror as the Prime Contractor, the Government Contracting Officer's signature, and the total awarded value.
FPDS-NG Report	Role, Value, Scope	A copy of the Federal Procurement Data System - Next Generation (FPDS-NG) Contract Action Report (CAR) matching the submitted contract number.
CPARS Report	Role, Value, Status	A finalized Contractor Performance Assessment Reporting System (CPARS) report showing the total contract value and the Offeror listed as the Prime Contractor

Verification of Subcontractor Participation Levels (Categories 7.c and 7.d): Where an Offeror submits a contract sample demonstrating performance as a Subcontractor, the Government must be able to verify the specific dollar value of the work awarded to and performed by the Offeror. The overarching Prime Contract value will not be used to determine the Subcontractor's threshold (over \$250M/between \$50M and \$249M). To verify the Subcontractor's participation level, the Offeror must submit at least two (2) of the following forms of evidence:

- A copy of the fully executed Subcontract Agreement, Purchase Order, or Sub-Task Order(s) clearly displaying the total awarded sub-contract value. Proprietary pricing may be redacted, but total value and AAE scope must remain visible.
- An official Subaward Report pulled from the Federal Subaward Reporting System (FSRS.gov) matching the submitted Prime Contract number and the Offeror's UEI/CAGE code.

A formal Project Verification Letter on the U.S. Prime Contractor's letterhead, signed by an authorized Contracts Manager or Corporate Officer, explicitly stating the Offeror's Subcontract Number, the specific AAE scope of work performed, and the total awarded Subcontract value

Volume 2b: Cross-Reference Matrix.

The Offeror shall enter information in the Cross-Reference Matrix (Attachment 0009) (DRAFT) that links their self-scores to the substantiating information included in their proposal to authenticate the Offeror's self-score. The Cross-Reference Matrix includes a sample response in row 6 demonstrating which information should be included in which column. Offerors should add rows as necessary for each work sample. The Offeror shall include a work sample identifier (e.g. WS1-WS6) within Column D. The Offeror shall identify the type of document provided as a work sample and shall include document title, page(s), paragraph(s), table number(s) (if applicable), and block(s) (if applicable) within Column E as concisely as possible. The Offeror shall identify the contact information for the relevant USG point of contact in Column F, if applicable. Multiple references may be included in a single row if:

- Multiple references related to the same work sample are necessary to substantiate the Offeror's claimed points.

Offerors are encouraged to verify the accuracy of each reference.

The Offeror shall assume that the USG has no prior knowledge of their capabilities and experience. Therefore, the Offeror shall include in Column F any clarifying facts necessary to improve the USG's understanding and further substantiate the Offeror's claimed points.

The Offeror shall identify in Column G the individual FSC code(s) identified for each work sample.

The Offeror shall identify in Column H the individual country(ies) identified for each work sample.

Factor 3: Price.

Offerors shall submit their price proposals using the Price Evaluation Spreadsheet, Attachment 0016. Each offeror shall insert their company name and cage code in the designated blue cells in Attachment 0016. Offerors shall propose a unit price for each line item in Attachment 0016. Failure to propose prices for all the highlighted blue cells may result in the Offeror's proposal being considered unacceptable and ineligible for award. All prices for this acquisition shall be stated in U.S. dollars, rounded and displayed to two decimal points.

The Total Evaluated Price will be the total sum of each line item's total price. Each line item's total price is calculated by taking the unit price multiplied by the specified quantity for each line item. The quantities in Attachment 0016 are for Evaluation Purposes only and do not bind the Government in purchasing those quantities from the Offeror.

The Price Evaluation Spreadsheet has been locked to prevent inadvertent changes. Offerors shall not alter the Price Evaluation Spreadsheet in any way. If an Offeror changes the Price Evaluation Spreadsheet, its proposal may be considered unacceptable and ineligible for award.

Certified Cost or Pricing Data/Data Other than Certified Cost or Pricing Data – The USG anticipates receiving competitive Proposals and using competition to determine price reasonableness. However, the USG reserves the right to request certified cost or pricing data or data other than certified cost or pricing data necessary to determine price reasonableness if competition is not adequate for that purpose.

SECTION M – EVALUATION FACTORS FOR AWARD

BASIS FOR AWARD

The USG intends to award an IDIQ base contract to up to five (5) of the highest-rated Offerors who are determined responsible in accordance with (IAW) FAR Part 9. This source selection approach is considered the Highest Technically Rated Offeror (HTRO). HTRO is a source selection process that is neither a tradeoff nor Lowest Price Technically Acceptable (LPTA). HTRO focuses on prior experience in performing the same or similar work. This method will allow the USG to establish a pool of qualified contractors for future competition. Technical acceptability will be determined using the HTRO methodology described herein.

A qualifying Offeror is one whose proposal meets all mandatory requirements, achieves a USG-validated final score equal to or greater than the Minimum Technical Threshold Rating (MTTR), and whose cost proposal is deemed fair and reasonable. The USG has determined that an Offeror's USG-validated rating represents its level of demonstrated capability to perform similar work, and those with a high level of demonstrated capability of the categories contained in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) present a lower risk of unsuccessful performance to the USG. The USG has set the MTTR at 17,500 points, which is 80% of the total possible score of 21,875. The USG will only evaluate self-scored matrices at or above the MTTR. The Offeror's self-score is the total of all points claimed for each Category. The USG-validated rating is the total of all the points that the USG evaluation team validates during their evaluation. The USG-validated rating may be lower than the Offeror's self-score if the USG evaluation team is unable to find evidence for claimed points within the Offeror's proposal.

Minimum Guarantee Delivery Order.

An initial delivery order will be awarded to each IDIQ contractor for a Contract Data Requirement List (CDRL) deliverable. The dollar value is set at \$1,000.00 and will satisfy the minimum quantity requirement. There is no guarantee of any delivery order beyond the minimum delivery order.

IDIQ ceiling.

The total contract ceiling is based on a maximum quantity of 3,522,685,000 items.

Proposal Compliance and Offeror Responsibility.

The burden of proof for all self-assessed scores rests with the Offeror. Unsubstantiated or misleading claims may result in the USG unilaterally adjusting the Offeror's score downward for the specific element. The USG will validate the Offeror's self-rated scores against the supporting documentation provided.

Offerors shall meet all Solicitation requirements, including terms and conditions, representations and certifications, and other instructions within the Solicitation. Offerors shall comply with content required within each of the proposal sections. Failure to comply with any requirement of the Solicitation may result in the USG determining the Offeror non-compliant and ineligible for award.

In accordance with FAR 9.103, no contract shall be awarded to an Offeror unless the Contracting Officer determines the Offeror to be responsible. To be determined responsible, an Offeror must meet the general standards described in FAR 9.104-1. The USG will use information provided in the proposal and may also use information from other sources to make this decision.

EVALUATION FACTORS

Volume 1 Contractual Documents.

The following will be reviewed for compliance IAW Section L. The Offeror must provide a Cover Letter with the following company information: Name, Address, Commercial and Government Entity (CAGE) Code, Unique Entity Identifier (UEI) Number, System for Award Management (SAM.gov) registration date, proposal validity statement, and point of contact authorized to obligate the company (full name, title, e-mail address, and phone number).

Volume 2 Technical Proposal.

Factor 1 HTRO GO/NO-GO Gate.

Factor 1 is “GO” or “NO-GO” and will receive the ratings described below on the criteria listed below. To be determined compliant with Factor 1, the Offeror must provide the following supporting documentation as evidence for each of the five (5) HTRO GO/NO-GO Gate questions in Rows 6, 7, 8, 9, and 10 of the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT). Documentation must be dated and remain valid from January 01, 2019, onward. Any documentation preceding this timeframe will not be considered to validate an Offeror’s compliance. Failure to provide supporting evidence to meet all criteria will render the Offeror ineligible for award.

Are you currently registered with the U.S. Department of State Directorate of Defense Trade Controls (DDTC)?

- To validate the Offeror’s response, the USG will review the provided substantiating documentation of their U.S. Department of State DDTC Brokers and Brokering Registration, and DDTC Manufacturer and Exporter Registration to verify current registration.

Do you have a current Federal Firearms License (FFL) Type 11 – Importer of Destructive Devices, Ammunition for Destructive Devices or Armor Piercing Ammunition?

- To validate the Offeror's response, the USG will review the provided substantiating documentation of their FFL Type 11 – Importer of Destructive Devices, Ammunition for Destructive Devices or Armor Piercing Ammunition to verify license compliance.

Do you have an active System for Award Management (SAM) registration (with corresponding CAGE code and UEI number)?

- To validate the Offeror's response, the USG will review the provided substantiating documentation for their CAGE code and UEI number to verify registration compliance.

Have you performed as a Prime Contractor or Subcontractor on an Arms, Ammunition & Explosive (AA&E) contract from January 01, 2019 to present?

- To validate the Offeror's response, the USG will review the contract documentation provided to confirm the Offeror's role as a Prime Contractor or Subcontractor on a previous AA&E award.

Can you provide the required acknowledgement for Certification of Compliance for Prohibited Sources, and do you agree that you will not use any of the prohibited sources?

- To validate the Offeror's response, the USG will review the provided Certification of Compliance with Prohibited Sources (Attachment 0023) to confirm signature and acknowledgement.

FACTOR RATINGS

The Factor ratings are defined as follows:

Factor 1 HTRO GO/NO-GO Gate.

GO: PASS. The Offeror answered "Yes" to all of the questions in the GO/NO-GO Gate tab included in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) **AND** all answers were validated by the USG using the evidence provided by the Offeror.

NO-GO: Did not PASS. The Offeror answered "No" to any of the questions in the GO/NO-GO Gate tab included in the HTRO Self-Scoring Matrix (Attachment 0008) (DRAFT) **OR** a "Yes" answer could not be validated with the evidence provided by the Offeror.

Factor 2 HTRO Technical Matrix.

The USG will validate the Offeror's self-scores in their HTRO Technical Matrix by evaluating the substantiating documentation submitted. Documentation must be dated and remain valid from January 01, 2019, onward. Any documentation preceding this timeframe will not be considered to validate an Offeror's self-score. To validate scores, the USG will only evaluate the information in the documentation location identified by the Offeror within the submitted Cross-Reference Matrix (Attachment 0009) (DRAFT) for the corresponding requirement. If the substantiating information cannot be found within the referenced page, paragraph, table, etc., the USG will not search for the substantiating information. Technical score adjustments will be made only if the substantiating documentation does not validate the scores; however, any adjustments will only be made in a downward direction. The USG will only adjust the Offeror's self-score downward, not upward. Adjustments are within the sole discretion of the USG.

Category 1. Demonstrate your ability to source and deliver munitions and components with energetics.

In this Category, the USG will assess the Offeror's technical ability to source and deliver munitions and/or components with energetics (from the reference FSC list) directly to the USG or directly to Prime Contractors delivering on a USG contract. The Offeror's points will be validated based on the historical Letters of Commitment or formal quotes (signatures required) with evidence of delivery completion, and prospective Letters of Commitment or formal quotes (signature required) provided by the Offeror.

Category 2. Demonstrate your ability to obtain End User Certificates (EUCs).

In this Category, the USG will assess the Offeror's technical ability to obtain EUCs from different foreign countries. The Offeror's points will be validated based on historical, approved, and signed, and prospective or draft EUCs provided by the Offeror.

Categories 3. Demonstrate your ability to obtain Export Licenses.

In this Category, the USG will assess the Offeror's technical ability to obtain Export Licenses from foreign countries. The Offeror's points will be validated based on historical, approved, and signed Export Licenses from past or current contracts provided by the Offeror.

Category 4. Demonstrate your ability to complete transport of Arms, Ammunition & Explosives (AA&E).

In this Category, the USG will assess the Offeror's technical ability to execute Transportation Plans to, from, or between foreign countries which support the transport of AA&E. The Offeror's points will be validated based on the executed plans with

evidence of delivery completion, or prospective Transportation Plans provided by the Offeror.

Category 5. Demonstrate your ability to complete Technical Data Packages (TDPs).

In this Category, the USG will assess the Offeror's technical ability to develop and complete TDPs that are compliant with the corresponding General Specification (Attachments 0003 – 0007) for PdL SAWS. The Offeror's points will be validated based on the TDPs provided by the Offeror.

Category 6. Demonstrate your ability to complete Lot Acceptance Tests (LATs).

In this Category, the USG will assess the Offeror's technical ability to complete ammunition and/or components with energetics acceptance of a production lot on a USG contract or a contract with a U.S. Prime Contractor from an approved Lot Acceptance Test Report (LATR). The Offeror's points will be validated based on the approved LATRs with proof of delivery completion provided by the Offeror.

Category 7. Document your award of a USG contract or contract with a U.S. Prime Contractor for Arms, Ammunition, or Explosives.

In this Category, the USG will assess the Offeror's ability to secure USG contract(s) or contract(s) with a U.S. Prime Contractor for Arms, Ammunition, or Explosives. The Offeror's points will be validated based on evidence of their role as either the Prime Contractor, over \$250M or valued between \$50M and \$249M, or Subcontractor, over \$250M or valued between \$50M and \$249M, on awarded USG contract(s) or contract(s) with a U.S. Prime Contractor for Arms, Ammunition, or Explosives based on the total dollar value.

Factor 3 Price.

The price factor will be evaluated but not adjectively rated. The FAR requires that contracts be awarded at prices that are fair and reasonable. The Contracting Officer is responsible for the determination of price reasonableness. The price Proposals will be evaluated using price analysis in accordance with FAR 15.404-1, Proposal Analysis Techniques.

The USG intends to evaluate price reasonableness in accordance with FAR Part 15.404-1(b), relying primarily upon competition. The USG expects adequate competition, and a comparison will be made of Total Evaluated Prices received in response to the RFP. However, the USG reserves the right to require submission of certified cost or pricing data and/or data other than certified cost or pricing data and/or

data other than certified cost or pricing data from the Offeror adequate to determine the reasonableness of an offer if competition was inadequate for that purpose.

The total for each line item is calculated by taking the evaluation quantity for each line item and multiplying the proposed unit price by the evaluation quantity. The Total Evaluated Price is the sum of all total line-item prices.

Unbalanced Pricing – As part of the evaluation, Proposals may be reviewed to identify any Unbalanced Pricing. In accordance with FAR 15.404-1(g), Unbalanced Pricing, a proposal may be rejected if the Contracting Officer determines the lack of balance poses an unacceptable risk.

AWARD METHODOLOGY

The evaluation begins with a mandatory three-factor screening process to determine eligibility.

1. HTRO GO/NO-GO Gate Assessment: First, all proposals will be assessed against the "GO/NO-GO" criteria. To be considered for further review, a proposal must receive a "GO" rating in all categories. If an Offeror receives even one "NO-GO" rating, their proposal will be eliminated from the competition and will not be considered further.
2. Minimum Technical Threshold Rating (MTTR): Proposals that successfully pass the Factor 1 HTRO GO/NO-GO Gate assessment will then be evaluated against the MTTR detailed in the Factor 2 HTRO Technical Matrix. Meeting this threshold is essential for eligibility. Any proposal failing to achieve the MTTR will be deemed "Unacceptable" and removed from consideration.
3. Price (Fair and Reasonable): Proposals that are validated for price reasonableness in accordance with FAR Part 15.404-1(b), relying primarily upon competition will be considered acceptable.

Following the screening, all technically acceptable proposals will be ranked from highest to lowest based on their self-scored technical rating. The USG will then formally evaluate these proposals, starting from the highest-ranked Offeror and proceeding down the list.

This validation process will continue until a maximum of five (5) technically acceptable proposals have been confirmed.

This resulting group, comprising up to five (5) of the highest-rated proposals, will constitute the final pool of Offerors to be considered for an award. If fewer than five (5) technically acceptable proposals are received, then all will be included in the final pool for consideration.

Tie-Breaker Procedures.

A tie in self-scores becomes significant only when it affects the selection of the final proposal(s) to be included in the evaluation pool. In such an event, the tie will be broken by selecting the Offeror with the lowest proposed price. This method ensures the best value to the USG, as the initial ranking has already established that the tied Offerors are among the highest technically rated.

For example, if the USG has validated four (4) proposals and multiple Offerors are tied for the fifth and final position, their proposed prices will be compared. The Offeror from that group with the lowest price will be selected to move forward in the evaluation.

The USG does, however, reserve the right to award contracts only to the previously validated Offerors and exclude all parties involved in the tie, should this alternative be determined to be in the USG's best interest.

SECTION I – LIST OF PROVISIONS AND CLAUSES

Regulatory Reference	Provision / Clause Title	Date
52.202-1	DEFINITIONS	JUN-20
52.203-3	GRATUITIES	APR-84
52.203-5	COVENANT AGAINST CONTINGENT FEES	MAY-14
52.203-6	RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT	JUN-20
52.203-7	ANTI-KICKBACK PROCEDURES	JUN-20
52.203-8	CANCELLATION, RESCISSION, AND RECOVERY OF FUNDS FOR ILLEGAL OR IMPROPER ACTIVITY	MAY-14
52.203-10	PRICE OR FEE ADJUSTMENT FOR ILLEGAL OR IMPROPER ACTIVITY	MAY-14
52.203-12	LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS	JUN-20
52.203-13	CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT	1-NOV-21
52.203-13	CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT	NOV-21
52.203-19	PROHIBITION ON REQUIRING CERTAIN INTERNAL CONFIDENTIALITY AGREEMENTS OR STATEMENTS	JAN-17
52.204-10	REPORTING EXECUTIVE COMPENSATION AND FIRST-TIER SUBCONTRACT AWARDS	JUN-20
52.204-13	SYSTEM FOR AWARD MANAGEMENT MAINTENANCE	OCT-18
52.204-18	COMMERCIAL AND GOVERNMENT ENTITY CODE MAINTENANCE	AUG-20
52.204-19	INCORPORATION BY REFERENCE OF REPRESENTATIONS AND CERTIFICATIONS	DEC-14
52.204-23	PROHIBITION ON CONTRACTING FOR HARDWARE, SOFTWARE, AND SERVICES DEVELOPED OR PROVIDED BY KASPERSKY LAB AND OTHER COVERED ENTITIES	1-NOV-21
52.204-23	PROHIBITION ON CONTRACTING FOR HARDWARE, SOFTWARE, AND SERVICES DEVELOPED OR PROVIDED BY KASPERSKY LAB AND OTHER COVERED ENTITIES	NOV-21
52.204-25	PROHIBITION ON CONTRACTING FOR CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT	1-NOV-21
52.204-25	PROHIBITION ON CONTRACTING FOR CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT	NOV-21
52.209-6	PROTECTING THE GOVERNMENT'S INTEREST WHEN SUBCONTRACTING WITH CONTRACTORS DEBARRED, SUSPENDED, OR PROPOSED FOR DEBARMENT	1-NOV-21

52.209-6	PROTECTING THE GOVERNMENT'S INTEREST WHEN SUBCONTRACTING WITH CONTRACTORS DEBARRED, SUSPENDED, OR PROPOSED FOR DEBARMENT	NOV-21
52.209-9	UPDATES OF PUBLICLY AVAILABLE INFORMATION REGARDING RESPONSIBILITY MATTERS	OCT-18
52.209-10	PROHIBITION ON CONTRACTING WITH INVERTED DOMESTIC CORPORATIONS	NOV-15
52.210-1	MARKET RESEARCH	NOV-21
52.211-5	MATERIAL REQUIREMENTS	AUG-00
52.211-15	DEFENSE PRIORITY AND ALLOCATION REQUIREMENTS	APR-08
52.211-16	VARIATION IN QUANTITY	APR-84
52.211-17	DELIVERY OF EXCESS QUANTITIES	SEP-89
52.215-2	AUDIT AND RECORDS--NEGOTIATION	JUN-20
52.215-8	ORDER OF PRECEDENCE--UNIFORM CONTRACT FORMAT	OCT-97
52.215-14	INTEGRITY OF UNIT PRICES	1-NOV-21
52.215-14	INTEGRITY OF UNIT PRICES	NOV-21
52.216-18	ORDERING	AUG-20
52.216-19	ORDER LIMITATIONS	OCT-95
52.216-22	INDEFINITE QUANTITY	OCT-95
52.219-8	UTILIZATION OF SMALL BUSINESS CONCERNS	OCT-18
52.219-9	SMALL BUSINESS SUBCONTRACTING PLAN	1-NOV-21
52.219-28	POST-AWARD SMALL BUSINESS PROGRAM REPRESENTATION	1-SEP-21
52.219-28	POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION	SEP-21
52.222-3	CONVICT LABOR	JUN-03
52.222-19	CHILD LABOR-COOPERATION WITH AUTHORITIES AND REMEDIES (DEVIATION 2020-00019)	1-JUL-20
52.222-19	CHILD LABOR--COOPERATION WITH AUTHORITIES AND REMEDIES (DEVIATION)	1-JAN-22
52.222-19	CHILD LABOR--COOPERATION WITH AUTHORITIES AND REMEDIES	JAN-22
52.222-21	PROHIBITION OF SEGREGATED FACILITIES	APR-15
52.222-37	EMPLOYMENT REPORTS ON VETERANS	JUN-20
52.222-40	NOTIFICATION OF EMPLOYEE RIGHTS UNDER THE NATIONAL LABOR RELATIONS ACT	DEC-10
52.222-50	COMBATING TRAFFICKING IN PERSONS	1-NOV-21
52.222-50	COMBATING TRAFFICKING IN PERSONS	NOV-21
52.222-54	EMPLOYMENT ELIGIBILITY VERIFICATION	1-NOV-21
52.222-54	EMPLOYMENT ELIGIBILITY VERIFICATION	NOV-21
52.223-3	HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA	FEB-21

52.223-5	POLLUTION PREVENTION AND RIGHT-TO-KNOW INFORMATION	MAY-11
52.224-3	PRIVACY TRAINING	JAN-17
