FOREWORD

The Expeditionary Combat Skills (ECS) course is designed to provide Navy Expeditionary Combat Command (NECC) Forces standardized common core skills prior to reporting to their first command under NECC and NSW, CS/CSS personnel. This course was developed from a combination of multi-services taught courses including but not limited to the United State Marine Corp School of Infantry and SEABEE Basic Combat Skills.

This course of instruction has been designated as high-risk in accordance with OPNAVINST 1500.75D, NETCINST 1500.13D, and CENSECFORINST 5100.1. Although portions of this course are not considered high-risk, the potential for serious injury exists if proper safety precautions and procedures are not observed and strictly adhered to during all practical application exercises. Instructors assigned to deliver this course of instruction must be thoroughly familiar with all aspects of personnel safety and shall take every precaution to ensure trainee safety.

Changes and/or deviation from course curricula are not authorized without approval from the Center for Security Forces (CENSECFOR), which is the Curriculum Control Authority (CCA) for this course of instruction. Site-specific changes (Site Augments) to this course of instruction as described in the Course Master Schedule or Curriculum Outline of Instruction shall be forwarded to the CENSECFOR designated Course Curriculum Model Manager (CCMM). Contractor facilities will forward correspondence to the CENSECFOR Contracting Officer Representative (COR).

NOTE: At no time during this course of instruction are personnel, instructors, trainees, or any outside entity authorized to film, video tape, record, live-stream, or take pictures of any training evolution without the expressed consent of the CCA.

RESOURCE REQUIREMENT LIST

Training Site

CENSECFOR Learning Site Gulfport

Site Consideration:

Training support requirements: A classroom with audio-visual equipment and suitable seating for trainees. In addition a training area large enough to support practical application training exercises will be required for Combat Lifesaver, CBRNE, Counter IED Recognition, and Judgment-based Engagement Training and Tactics (JETT) without negatively impacting trainee safety. Weapons training will require certified outdoor range facility to support pistol and rifle live fire practical application exercises. Pre-Engineered Building will be required to house the simulators at Woolmarket Rifle and Pistol Range. Additionally, Learning Site Gulfport must have barracks facilities to accommodate both genders, galley facilities for 67 trainees, access to terrain for performing land navigation exercises, and an indoor area for conducting JETT scenarios with a suitable weapons related training simulator (i.e., SAWS) for application of JETT.
