				16C. DATE SIGNED		

This amendment makes the following change:

Statement of Work paragraph 3.1.1 is changed to read: The Contractor shall furnish all labor, materials, equipment, tools, supervision, transportation, and incidentals necessary to perform the construction work outlined in this SOW in accordance with FAR Part 36 and VAAR Part 836. The new design shall include removing and replacing the existing headend amplifier system located in room BB-263 with a new digital Networked Public Address System. The Contractor will be required to remove and replace all components of the existing Public Address System including but not limited to the headend amplifier system & cabinetry in room BB-263, all speakers, components, conductors, conduit, etc. located throughout the facilities. This system shall be turn-key complete. All components needed to meet or exceed the objective is included in this project. Buildings 1, 3, 15, 16, 18, 19 and 21 are to be included in the new Networked Public Address System. The intent here is that we have a campus wide PA system that will encompass all buildings on campus. The main Control station must be set up to operate the PA system in any building configuration meaning Controls must operate in a fashion that can isolate buildings or groups. The architectural scope of work will be limited to ICRA and Life Safety maintenance to install the new Public Address System.

The remaining RFIs are provided below:

Question: Per the Scope of work Narrative (3.1.1), it states "Public Address System including but not limited to the headend amplifier system & cabinetry in Room BB-263. Please provide specifications and details for room BB-263.

Answer: The new design shall include removing and replacing the existing headend amplifier system located in room BB-263 with a new digital Networked Public Address System. Contractor will be required to remove and replace all components of the existing Public Address System including but not limited to the headend amplifier system & cabinetry in room BB-263, all speakers, components, conductors, conduit, etc. located throughout the facilities.

Question: The Registered Communications Distribution Designer Bicsi's seal shown on the Bid Drawings expired on 12-31-24. Please review and advise.

Answer: The RCDD (BICSI) seal shown on the Bid Drawings reflects a certification that expired on 12-31-24. This has been reviewed, and the design remains valid. The sealing professional will provide an updated, current RCDD seal to replace the expired one. No impact to the project is anticipated.

Question: Please provide Reflected Ceiling As Builts at all areas in the scope of work.

Answer: The new equipment will be installed in the same location as the existing unit. No relocation or modification to the current footprint is required.

Question: The SOW indicates that Buildings 1, 3, 13, 14, 15, 16, 18, 19, and 21 are to be included in the new Networked Public Address system. In addition, the SOW states that the new Blind Rehab and SPS area shall also be included. Reference is also made to an RFP for an external loudspeaker option that covers all exterior areas on campus. However, no plans are found in the bid documents for buildings 13 & 14, nor any of the other buildings or areas referenced. Please confirm if these buildings/areas are to be included in the scope of work as

stated and if so, provide plans defining the scope of work required to support these buildings/areas.

Answer: Building 13, Building 14, Blind Rehab, SPS and the external loud speaker option are not included in this project.
